TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

Subchapter A—General Rules and Regulations

[S. O. 216]

PART 95—CAR SERVICE

SHIPMENT OF SAND, GRAVEL OR AGGREGATES TO DALHART, TEX.

At a session of the Interstate Commerce Commission, Division 3, held at its

office in Washington, D. C., on the 3d day of July, A. D. 1944.

It appearing, that shipments of sand, gravel, or aggregates in carloads originating at various points and destined to Dalhart, Texas, for use on government construction at Dalhart are being weighed on railroad track scales, thus impeding the use, control, supply, movement, and distribution of cars; in the opinion of the Commission an emergency exists requiring immediate action to avoid a shortage of equipment and congestion of traffic: *It is ordered*, That:

Carloads of sand, gravel, or aggregates destined to Dalhart, Texas, for use on government construction at Dalhart not to be weighed. (a) No common carrier by railroad subject to the Interstate Commerce Act shall weigh, or permit to be weighed, any shipment of sand, gravel, or aggregates in carloads, on any railroad track scales when such traffic originates on or after the effective date of this order at any point and is destined to Dalhart, Texas, for use on government construction at Dalhart, except that a limited number of cars may be weighed as is necessary to obtain average weights. The operation of all tariff rules or regulations insofar as they conflict with the provisions of this order is hereby suspended.

(b) *Announcement of suspension.* Each of such railroads shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 announcing the suspension of provisions in such tariffs conflicting with this order. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)–(17))

It is further ordered, That this order shall become effective at 12:01 a. m., July 5, 1944, and that a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

PART 71 TO 85—TRANSPORTATION OF EXPLOSIVES

PART 197—TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

Subchapter A—General Rules and Regulations

Subchapter B—Carriers by Motor Vehicle

[Ex Parte Nos. MC-13, MC-3; No. 3666]

MOTOR CARRIER SAFETY REGULATIONS, REVISED

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of June, A. D. 1944.

In the matter of Regulations Governing the Transportation of Explosives and Other Dangerous Articles by Motor Vehicle; Ex Parte No. MC-13.

In the matter of Regulations for Transportation of Explosives and Other Dangerous Articles; No. 3666.

In the matter of Need for Establishing Reasonable Requirements to Promote Safety of Operation of Motor Vehicles Used in Transporting Property by Private Carriers; Ex Parte No. MC-3.

It appearing, that by an order herein of April 20, 1943 (8 F.R. 6479) the Regulations for Transportation of Explosives and Other Dangerous Articles by Land and Water in Rail Freight, Express and Baggage Services, and by Motor Vehicle (Highway) and Water, Including Specifications for Shipping Containers, which embody Part 7, Regulations Applying to Shipments Made by Way of Common and Contract Carriers by Public Highway, were extended to private carriers engaged in interstate or foreign commerce, subject to Part II of the Interstate Commerce Act, and also to common, contract, and private carriers of property engaged in intrastate commerce; and

It further appearing, that by another order herein of April 20, 1943 (8 F.R. 6481) the regulations prescribed by the Commission as Part 7 of the Motor Carrier Safety Regulations, Revised, governing the transportation of explosives and other dangerous articles by common and contract carriers by motor vehicle in interstate or foreign commerce, also were made applicable to private carriers of property by motor vehicle in interstate or foreign commerce and to common, contract, and private carriers with respect to such transportation in intrastate commerce; and

It further appearing, that by an order herein of August 27, 1943 (8 F.R. 12143) the transportation in intrastate commerce of inflammable liquids by common, contract, and private carriers was excepted from the requirements of the said orders; and

It further appearing, that the American Petroleum Institute has shown that certain intrastate motor carriers otherwise exempt from the requirements of the two said orders of April 20, 1943 (8 F.R. 6479, 6481), including private carriers transporting inflammable liquids, also engage in short-haul retail distribution of liquefied petroleum gases in containers other than cargo tanks, thereby subjecting themselves to applicable requirements of the two said orders; and

It further appearing, that the retail distribution of liquefied petroleum gases referred to usually is incidental to the principal transportation business of the motor carriers involved; that the greater part of such distribution is, and heretofore has been, performed by carrier members of self-regulated associations in a manner generally conducive to safety of operation; and, therefore, may be relieved from compliance with the present regulations without materially affecting standards of safety: *It is ordered*, That:

Motor-vehicle transportation of liquefied petroleum gases in intrastate commerce. After the date of this order, the transportation by motor vehicle in intrastate commerce of liquefied petroleum gases named and described in Parts 2 and 3, respectively (49 CFR 73 and 75) of Regulations for the Transportation of Explosives and Other Dangerous Articles by Land and Water in Rail Freight, Express and Baggage Services, and by Motor Vehicle (Highway) and Water, effective January 7, 1941, as amended, in containers other than cargo tanks, by common, contract, and private carriers, shall not be subject to the provisions of the two said orders of April 20, 1943 (8 F.R. 6479, 6481), as amended; *Provided, however*, That the containers other than cargo tanks so used shall conform in all respects with those authorized for use under regulations prescribed in section 302 (n) (1) to (n) (9), in said Parts 2 and 3 (49 CFR 73 and 75).

It is further ordered, That this order shall be effective forthwith and shall continue in effect until the further order of the Commission; and

It is further ordered, That a copy of this order be served upon all the parties of record herein, and that notice of this order be given to the general public by depositing a copy of it in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(Sec. 233, 41 Stat. 1445; sec. 204, 49 Stat. 546, 54 Stat. 921; 55 Stat. 863; 56 Stat. 1022; 18 U.S.C. 383, 49 U.S.C. 304, 50 U.S.C. 121)

By the Commission, Division 3.

Chapter II—Office of Defense Transportation

[General Order ODT 18A, Amdt. 2]

PART 500—CONSERVATION OF RAIL EQUIPMENT

CARLOAD FREIGHT TRAFFIC

Pursuant to Executive Order 8989, as amended, § 500.74 of General Order ODT 18A, as amended (8 F.R. 14477; 9 F.R. 116), is hereby amended to read as follows:

§ 500.74 *Issuance of special permits by rail carriers.* The chief operating officer or division superintendent of the initial line-haul rail carrier, or the chief operating officer or division superintendent of the initial switching rail carrier, where no line-haul service is to be performed, may issue a special permit authorizing the acceptance and forwarding of carload freight which is not loaded in accordance with the loading requirements of this order, in a specific case where, in his judgment, because of the unusual character of the lading, undue car detention or other unusual circumstances, he believes compliance with the loading requirements of this order would result in the inefficient use, or unduly retard the efficient use, of cars or locomotives, or, in a specific case, where, in his judgment, such permit is required for reasons of military necessity. Reports of all special permits issued by the chief operating officer or division superintendent of each rail carrier shall be made by the chief operating officer of each such rail carrier to the Office of Defense Transportation, Washington 25, D. C., on Form ODT 18A-1 which has been prescribed by the Office of Defense Transportation. Such reports may be made either weekly or monthly at the option of each such chief operating officer.

This Amendment 2 to General Order ODT 18A shall become effective on July 10, 1944.

(E.O. 8989, as amended, 6 F.R. 6725; 8 F.R. 14183)

Issued at Washington, D. C., this 5th day of July 1944.

DEPARTMENT OF INTERIOR.

General Land Office.

[Small Tract Classification No. 51]

NEVADA

LEASING OF PUBLIC LANDS FOR HOME SITES, ETC.

JUNE 27, 1944.

On May 16, 1944, the Secretary of the Interior classified and opened, under the act of June 1, 1938 (52 Stat. 609; 43 U. S. C. sec. 682a), for leasing as home, health, convalescent, and business sites, subject to the right-of-way for U. S. Highway Nos. 91 and 466, the following-described public land in the Carson City, Nevada, land district:

NEVADA No. 6

MOUNT DIABLO MERIDIAN

T. 21 S., R. 61 E., sec 26, SW¼SW¼, 40 acres.

This land is located about 6 miles south of Las Vegas, Clark County. The highway mentioned above invades the subdivision along the west side.

The portions of the land not covered by one pending application under the act are subject to application for lease under the act, based on the above-mentioned classification, by any qualified persons, in accordance with 43 CFR 257.1–257.25 (Circ. 1470a, August 10, 1942). Any application filed should describe the land applied for according to the rectangular system of surveys.

Lessees will be required to construct, within a reasonable time after execution of the lease, substantial improvements having a value of not less than $500. Leases will be for a period of 5 years, at an annual rental of $5 for home, health, and convalescent sites, payable in advance yearly. The rental for business sites will be in accordance with a schedule of graduated charges based on gross income. Leases will provide for ingress and egress. Any water which has been developed on the W½SW¼SW¼SW¼ of the subdivision will be accessible to lessees under the act to such extent as the water may be available for domestic purposes. Any lease offered for that tract will carry a stipulation to that effect.

The Register of the district land office will make appropriate notations upon the records of his office and acknowledge receipt hereof.

FRED W. JOHNSON,
Commissioner.

[Small Tract Classification No. 56]

WYOMING

LEASING OF PUBLIC LANDS FOR HOME AND BUSINESS SITES

JUNE 29, 1944.

On June 15, 1944, the Secretary of the Interior classified, under the act of June 1, 1938 (52 Stat. 609; 43 U.S.C. sec. 682a), the following-described public land in the Cheyenne, Wyoming, land district:

WYOMING No. 5

SIXTH PRINCIPAL MERIDIAN

T. 35 N., R. 65 W., sec. 3, NW¼SE¼, S½ SE¼, 120 acres. (Subject to rights-of-way for Ohio Oil Company pipe line, Cheyenne 043163 and Wyoming State Highway, Cheyenne 063848).

The land is located in the central portion of Niobrara County, approximately 48 miles northwest by road from the town of Lusk. The settlement known as Lance Creek, sometimes called Gateway, is in the SW¼SE¼ of the section.

These lands have been classified only for leasing, as home and business sites, except certain tracts which may be found to be necessary for community use.

The lands to be leased will not be opened for leasing until after a plat, to be prepared for that purpose only, has been approved, accepted, and officially filed in the Cheyenne district land office. Various of the designated tracts shown upon the plat will embrace the existing individual improvements as far as possible.

Ten applications for tracts in the area have been received. Where necessary, appropriate action will be taken for the adjustment of these applications to the tracts shown by the plat in question.

Such tracts as may be determined as necessary for community use will be set aside for that use, no structures to be erected or maintained thereon without permission of this office. These tracts can not be leased for such purpose under the act of June 1, 1938, *supra*, since that act does not provide therefor.

Leases will provide for ingress and egress. No buildings or advertising signs shall be erected or maintained on the right-of-way of any constructed road or on areas described in leases providing for ingress and egress.

Lessees will be required to erect, within a reasonable time after execution of the lease, substantial improvements having a value of not less than $500. Leases will be at an annual rental of $5 for home sites, payable in advance yearly. The rental for business sites will be in accordance with a schedule of graduated charges based on gross income. Ordinarily, leases are for a period of 5 years.

The Register of the district land office will make appropriate notations upon the records of his office, and acknowledge receipt hereof.

Commissioner.

[Order 1961]

COMMISSIONER OR ASSISTANT COMMISSIONER OF GENERAL LAND OFFICE

AUTHORIZATION TO ACT IN CERTAIN MATTERS

Pursuant to sections 161, 453 and 2478 Rev. Stat. (5 U.S.C. sec. 22 and 43 U.S.C. secs. 2 and 1201 respectively), it is hereby ordered as follows:

I. In addition to the classes of matters described in my Order No. 1779 of March 19, 1943, 8 F.R. 3743, the Commissioner or Assistant Commissioner of the General Land Office may hereafter act in relation to the following classes of matters without obtaining Secretarial approval, unless the Secretary in any particular matter determines otherwise, subject in any event to an appeal to the Secretary according to the rules of practice and subject to the provisions of Part II of this order:

(a) Applications for oil and gas noncompetitive leases under section 17 of the act of February 25, 1920 (41 Stat. 437, 443), as amended August 21, 1935 (49 Stat. 674, 676, 30 U.S.C. sec. 226), the issuance of such leases, and assignments, consolidations, modifications, revocations, operating contracts, cancellations and surety bonds relating thereto.

(b) Applications for coal permits and licenses under sections 2 and 8 of the act of February 25, 1920 (41 Stat. 438, 440, 30 U.S.C. secs. 201, 208), the issuance of such permits and licenses, and assignments, extensions of time, cancellations and surety bonds relating thereto.

(c) Applications for sodium permits under section 23 of the act of February 25, 1920, as amended (41 Stat. 447, 30 U.S.C. sec. 261), the issuance of such permits, and assignments and cancellations relating thereto.

(d) Applications for sulphur permits under the act of April 17, 1926, as amended (44 Stat. 301, 30 U.S.C. sec. 271), the issuance of such permits, and assignments and cancellations relating thereto.

(e) Applications for mineral spring leases under the act of March 3, 1925 (43 Stat. 1133, 43 U.S.C. sec. 971), the is-

suance of such leases, and assignments, modifications and cancellations relating thereto.

II. This order does not relate to or authorize the classification of public lands pursuant to section 7 of the Taylor Grazing Act of June 28, 1934 (43 Stat. 1269, 1272), as amended June 26, 1936 (49 Stat. 1976, 43 U.S.C. sec. 315f), or pursuant to any other act requiring classification of public lands prior to the exercise of the functions herein prescribed, nor does it affect the responsibility of the Solicitor for the review of legal questions. All general rules, regulations, circulars and instructions must be approved by the Secretary.

III. To the extent of any inconsistency with the foregoing provisions hereof, Order 242 of August 29, 1927, Secretary Work's memorandum of August 29, 1927, to the Commissioner of the General Land Office, and all existing regulations relating to the performance of the matters herein listed, are hereby modified. Such regulations should be formally revised to incorporate the changes effected by this order.

IV. The General Land Office shall make a comprehensive quarterly report on its activities under this order.

V. This order is effective immediately, but matters now pending before the Department will be cleared as heretofore.

HAROLD L. ICKES,
Secretary of the Interior.

FEDERAL POWER COMMISSION.

[Docket No. IT-5903]

IDAHO POWER CO.

NOTICE OF APPLICATION

JULY 3, 1944.

Notice is hereby given that on July 1, 1944, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Idaho Power Company, a corporation organized under the laws of the State of Maine and doing business in the States of Idaho, Nevada and Oregon, with its principal business office at Boise, Idaho, seeking an order authorizing the purchase and acquisition of the electric facilities of West Coast Power Company located in the State of Idaho. The properties to be acquired include approximately 413 miles of electric transmission and distribution lines, and six small power plants having total installed name-plate ratings of 2,378 kilovolt-amperes. The operation of some of these plants may be discontinued by the Applicant, except as they may be retained for standby purposes. The consideration to be paid for the facilities to be acquired, the application states, is $685,000 in cash, subject to certain adjustments; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 20th day of July, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's rules of practice and regulations.

[RMPR 506, Order 6]

MONTE GLOVE CO., ET AL.

APPROVAL OF MAXIMUM PRICES

Order No. 6 under section 4 (b) of Revised Maximum Price Regulation 506. Maximum price for staple work gloves. Granting maximum prices to the Monte Glove Company and other sellers. Docket No. N6657—506-42-7.

For the reasons set forth in an opinion issued simultaneously herewith; *It is ordered:*

(a) On and after July 4, 1944, the Monte Glove Company, Shelbyville, Indiana, may sell and deliver to any purchaser, and such purchaser may buy from it, the staple work glove number enumerated in the following table at or below the prices set forth in Column A of this table. Wholesalers who purchase this number from the Monte Glove Company may make "regular sales" at wholesale of such glove, at or below the price set forth in Column B of the table. Ceiling prices for "special sales" at wholesale shall be determined in accordance with section 3 (b) of Revised Maximum Price Regulation 506.

Style No.	Glove description	Column A: Manufacturer's prices: Group I ceiling	Column A: Manufacturer's prices: Group II ceiling	Column B: Wholesalers' prices
G65	Men's gunn cut, 8 ounce single thickness canton flannel back and palm, 4" single thickness canton flannel flexible cuff	$1.80	$1.95	$2.17½

(b) The maximum prices authorized in paragraph (a) are subject to the following:

(1) The instructions for manufacturers and wholesalers which preface the tables in Appendix A of RMPR 506;

(2) The provisions in section 4 (a) of RMPR 506 with respect to a manufacturers' "wholesale percentage", and the quota of deliveries which must be made at Group I prices;

(3) The marking and informational requirements of section 6 of RMPR 506. In addition to these requirements, the Monte Glove Company, on all deliveries of the style number listed in paragraph (a), made pursuant to this order, on and after September 15, 1944, must place the letter "S" following the lot number or brand name stated on the label, ticket, or other device used to mark the gloves.

(c) The definitions in RMPR 506 shall apply to this order.

(d) The Monte Glove Company must furnish each of its customers, who, on or after May 30, 1944, purchased or purchases the style number listed in paragraph (a) for purposes of resale, a notice in the form set forth below. The Monte Glove Company must also notify each such customer (other than a seller at retail) that he is required in turn to transmit to his customers a copy of the notice set forth below. The notice may be attached to the invoice or may be stamped or printed on the invoice.

This notice is sent to you as required by Order No. 6 under section 4 (b) of Revised Maximum Price Regulation 506 issued by the Office of Price Administration. It lists ceiling prices fixed by OPA for the work glove number enumerated in the table below, manufactured by the Monte Glove Company.

OPA has ruled that the Monte Glove Company may sell this number at or below the prices listed in Column A below, subject to the provisions of section 4 (a) of RMPR 506 with respect to the quota of deliveries which must be made at Group I prices. Wholesalers in turn are authorized to make regular sales at wholesale of this number at or below the price listed in Column B. Retailers will determine their ceiling prices on this number in accordance with section 2 of RMPR 506.

Style No.	Manufacturer's prices: Group I ceiling	Manufacturer's prices: Group II ceiling	Wholesalers' prices
G65S	$1.80	$1.95	$2.17½

You will note that the letter "S" follows the manufacturers' lot number or brand name. This letter indicates this glove has been specially priced by OPA under section 4 (b).

(e) This Order No. 6 under Revised Maximum Price Regulation 506 may be revoked or amended by the Price Administrator at any time.

(f) On all deliveries of the work glove number listed in paragraph (a) since May 30, 1944, pursuant to OPA adjustable pricing authorizations, the Monte Glove Company must refund to its customers any monies collected in excess of the ceiling prices authorized in this order. Within thirty days from the effective date of this order, the Monte Glove Company shall send to OPA, Washington, D. C., a notification of the steps it has taken to comply with the provisions of this paragraph (f) of this order.

This order shall become effective July 4, 1944.

Order No. 18 under Maximum Price Regulation No. 165 as amended—Services.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 as amended, Executive Orders 9250 and 9328, and Maximum Price Regulation No. 165 as amended—Services, *It is ordered:*

(a) In all cases where sellers of laundry service have received adjustments of their maximum prices in the nature of a percentage surcharge to be added to their maximum prices and the order of adjustment requires the separate statement of such surcharge, or the amount in dollars and cents representing the surcharge, in the customer's bill, it shall no longer be necessary to state the surcharge or amount thereof separately, upon compliance with the following conditions.

For sellers providing pick-up and delivery services:

(1) The seller shall supply each of its customers and any new customers it may acquire with a statement showing its maximum prices for every service it supplies. This statement shall show the surcharge; that such surcharge has been authorized by the Office of Price Administration to maintain supply; and that the purchaser's bill will be increased by that amount;

(2) Each purchaser shall be supplied with a bill with each sale of service which shall show every item of service for which a charge is made. This bill shall contain the total price charged the customer;

(3) Upon request, any purchaser shall be provided with a bill which shall show separately the charges made for each item of service rendered and the amount of the surcharge.

For sellers providing cash and carry service: The seller shall post in each of his selling establishments a placard, in a place and manner where it is plainly visible to the public, setting forth the seller's maximum prices for each of the services he supplies, the surcharge permitted, a statement that the surcharge has been authorized by the Office of Price Administration to maintain supply, and that the purchaser's bill will be increased by that amount.

Strict compliance with the foregoing is a condition of this order and it shall be inapplicable to any seller who fails to comply herewith, in which event the seller shall continue to state the surcharge separately on his bill as provided in the order granting the adjustment.

The order shall not be construed as requiring any seller to cease indicating the surcharge separately, and any seller may continue to state the surcharge separately on his bills in accordance with the order granting his adjustment.

This order shall became effective July 19, 1944.

Issued this 5th day of July 1944.

CHESTER BOWLES,
Administrator.

MR. I. DORFMAN

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 23 under section 21 of the Maximum Import Price Regulation.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and by Executive Orders Nos. 9250 and 9328, it is ordered:

(a) *Effect of this order.* This order establishes maximum prices at which the importer may sell, and maximum prices at which wholesalers and retailers may buy and sell, certain silver plated cigarette lighters, in brass cases and operated by a spark wheel and flint, imported from Mexico by Mr. I. Dorfman, 1048 West Elizabeth Street, Brownsville, Texas, hereinafter called the "importer". These lighters are identified by the name "Dorcet" engraved at the bottom of each lighter.

(b) *Maximum prices on sales by the importer.* The importer may sell such lighters to wholesalers at a price not exceeding $1.75 each, on a delivered basis; to retailers at a price not exceeding $2.50 each, on a delivered basis, and to consumers at a price not exceeding $4.50 each. No wholesaler, retailer or consumer may pay the importer higher prices.

(c) *Maximum wholesale and retail prices.* No wholesaler or retailer may sell, and no person buying from them may pay, prices higher than the following for such lighters.

Class of sellers:	Maximum prices, each
Sales by wholesalers	*$2.50
Sales by retailers	4.50

*On a delivered basis.

(d) *Importer to notify wholesalers.* The importer shall furnish a copy of this order to each wholesaler to whom such lighters are sold and shall also include on the invoice the following statement:

The enclosed Order No. 23, issued under the Maximum Import Price Regulation by the OPA, establishes your maximum selling prices for these lighters and requires you to notify your customers what is their maximum price, as stated in the order.

(e) *Wholesalers to notify retailers.* Every wholesaler selling such lighters shall include on his invoice to each retailer the following statement:

Your maximum selling price for these lighters, as established by Order No. 23 under the Maximum Import Price Regulation issued by OPA, is $4.50 each.

(f) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective on July 6, 1944.

[Region II Rev. Order G-31 Under RMPR 122]

SOLID FUELS IN NEW YORK CITY

Revised Order No. G-31 under § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Adjustment in maximum prices for bituminous coal and coke delivered by dealers in Manhattan, Bronx, Brooklyn and Queens, City of New York, State of New York.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and for the period commencing with the effective date of this order and expiring midnight, April 30, 1945, *It is ordered:*

(a) Any dealer making sales of bituminous coal and coke, delivered in Manhattan, Bronx, Brooklyn and Queens in the City and State of New York, may, to the extent that he does not determine his maximum prices under the emergency pricing rules contained in Revised Order No. G-21, "Sales of Emergency Bituminous Coal", and Revised Order No. G-28, "Emergency Sales of Coke", or any subsequent revision thereof, and to the extent that he calculates his maximum prices under Revised Maximum Price Regulation No. 122, increase the maximum prices so calculated as follows:

1. For "direct-delivery" sales of bituminous coal or coke, dealers may add 30¢ per net ton.

(b) The increases authorized herein shall not apply to any sales of bituminous coal or coke for which maximum prices are determined under the emergency pricing rules contained in Revised Order No. G-21, "Sales of Emergency Bituminous Coal", or Revised Order No. G-28, "Emergency Sales of Coke", or any subsequent revisons thereof: *Provided*, That, if a maximum price is determined pursuant to a pricing rule embodied in § 1340.254 of Revised Maximum Price Regulation No. 122, specifically incorporated by reference in said Revised Order No. G-21 or Revised Order No. G-28, dealers may add the increase set forth

in paragraph (a) hereof to such maximum prices.

(c) Dealers making sales subject to this order shall not change their customary allowances, discounts, or other price differentials unless such change results in prices lower than the prices permitted by this order (after applying the customary allowances, discounts, or other price differentials).

(d) *Reports.* Every dealer making sales subject to this order shall, within ten days after he determines or redetermines his maximum prices hereunder, report to the New York District Office of the Office of Price Administration the maximum prices so determined.

(e) *Definitions.* When used in this Revised Order No. G-31 the term:

1. "Direct-delivery" means the customary method of delivery whether to the buyer's bin or storage space, or to the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck.

2. Unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to all other terms used herein.

(f) *Effect of Order on Order No. G-31 as originally issued and amended.* Order No. G-31 as issued on February 10, 1944, and as thereafter amended, is hereby revoked in full as of the effective date of this revised order.

(g) This order, which may be revoked, amended, or corrected at any time shall, unless earlier revoked or replaced, expire on midnight, April 30, 1945.

NOTE: The record-keeping and reporting requirements of this Revised Order No. G-31 have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Revised Order No. G-31 shall become effective May 1, 1944.

[Peoria Order G-3 Under MPR 426.285]

FRUITS AND VEGETABLES IN BLOOMINGTON AND NORMAL, ILL.

Order No. G-3 under § 1439.3-15, Appendix H (f) Appendix I (g) of Maximum Price Regulation No. 426 and § 1351.1254a (a) of Maximum Price Regulation No. 285. Delivery differentials for wholesalers of certain fresh fruits and vegetables in Bloomington and Normal, Illinois.

For the reasons set forth in the accompanying opinion issued simultaneously herewith and under the authority vested in the District Director of the Peoria District Office of the Office of Price Administration by § 1439.3-15, Appendix H (f), Appendix I (g) of Maximum Price Regulation 426 and § 1351.-1254a (a) of Maximum Price Regulation 285, Order No. G-3 is hereby issued.

(a) *What this order does.* This order determines the limits of the free delivery zone at the wholesale receiving point of the Cities of Bloomington and Normal, Illinois. It also establishes differentials for non-delivered sales in the free delivery zone and for delivery sales beyond the free delivery zone. The order applies to such fresh fruit and vegetable items as are now or may hereafter be subject to the pricing provisions of MPR 285 and Appendices H and I of Maximum Price Regulation 426. The only sellers who are subject to this order are those wholesalers who price under Maximum Price Regulation 285 and secondary jobbers and service wholesalers, as those terms are used in Appendices H and I of Maximum Price Regulation 426.

(b) *Establishment of delivery zones.* (1) The free delivery zone established by this order shall be the area comprising the Cities of Bloomington and Normal, located in the County of McLean and State of Illinois.

(2) The zone in which charges may be made for delivery is the area outside the free delivery zone.

(c) *Differentials for non-delivered and delivered sales of items listed in appendices H and I of Maximum Price Regulation 426*—(1) *Non-delivered sales.* For sales on a non-delivered basis there shall be deducted from the price for delivered sales in the free delivery zone 5¢ per container for standard shipping containers weighing under 50 lbs. gross weight and 10¢ per container for standard shipping containers weighing 50 lbs. or over gross weight.

(2) *Delivered sales in the free delivery zone.* For deliveries in the free delivery zone the maximum delivered price computed under Maximum Price Regulation 426, for the type of sale being made without any deduction from or addition thereto.

(3) *Delivered sales beyond the free delivery zone.* For deliveries beyond the free delivery zone the seller may add to the maximum price for delivered sales in the free delivery zone the sum of 20¢ per cwt. The cwt. charge on commodities covered by Appendix H and Appendix I shall be figured on the basis of gross weight.

(d) *Differentials for non-delivered and delivered sales of items under Maximum Price Regulation 285*—(1) *Non-delivered sales and delivered sales in the free delivery zone.* For non-delivered sales and for delivered sales in the free delivery zone the maximum price shall be the maximum delivered price computed under Maximum Price Regulation 285 for the type of sale being made. Discounts and price differentials including any differentials or discount for f. o. b. non-delivered sales must be maintained.

(2) *Delivered sales beyond the free delivery zone.* For delivered sales beyond the free delivery zone, the wholesaler may add 30¢ per cwt. The cwt. charge on bananas shall be figured on a net weight basis.

(e) *Definitions.* "Delivery" means delivery to the physical premises of a retail store, hotel, restaurant or institution.

Unless the context otherwise requires, the terms used therein shall have the same meaning as given them in Maximum Price Regulation 285 and Maximum Price Regulation 426.

(f) This order may be revoked, revised, amended or corrected at any time.

(g) This order shall become effective on the 26th day of June 1944.

WAR MANPOWER COMMISSION.

FINDLAY-FOSTORIA-TIFFIN, OHIO, AREA

MINIMUM WARTIME WORKWEEK

Designation of the Findlay-Fostoria-Tiffin, Ohio, Area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region No. V by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours," (8 F.R. 7225), and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Findlay-Fostoria-Tiffin, Ohio, Area as subject to the provisions of Executive Order No. 9301.

I. For the purposes of this designation, the Findlay-Fostoria-Tiffin Area shall include:

Hancock County.
Seneca County.
Wood County (8 townships only—Liberty, Portage, Montgomery, Henry, Bloom, Perry, Milton, Jackson).

II. The effective date of this designation is August 1, 1944.

III. Not later than the effective date, each employer in the Findlay-Fostoria-Tiffin Area shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State or local law or regulation limiting hours of work. Such applications must be filed before July 18, 1944.

Date of issuance: July 5, 1944.

CONSERVATION AND DEVELOPMENT OF PETROLEUM IN DISTRICT FIVE

APPROVAL OF P. A. W. DIRECTIVE

The ATTORNEY GENERAL.

I submit herewith Petroleum Directive 19 (*Supra*) of the Petroleum Administration for War.

For the purposes of section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), I approve the Directive; and after consultation with you, I hereby find and so certify to you that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with Petroleum Directive 19 is requisite to the prosecution of the war.

However, because paragraph (d) (4) of the directive does not call for collaborative action on the part of industry, it is not my intention to extend the statutory immunity to action taken under that paragraph.

"BEAR"

DETERMINATION OF VESSEL OWNERSHIP

Notice of determination by War Shipping Administrator pursuant to section 3 (b) of the act approved March 24, 1943 (Public Law 17—78th Congress).

Whereas on October 5, 1943, title to the vessel "Bear" (211114) (including all spare parts, appurtenances and equipment) was requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended; and

Whereas section 3 (b) of the act approved March 24, 1943 (Public Law 17—78th Congress), provides in part as follows:

(b) The Administrator, War Shipping Administration, may determine at any time prior to the payment in full or deposit in full with the Treasurer of the United States, or the payment or deposit of 75 per centum, or just compensation therefor, that the ownership of any vessel (the title to which has been requisitioned pursuant to section 902 of the Merchant Marine Act, 1936, as amended, or the Act of June 6, 1941 (Public Law 101, Seventy-Seventh Congress), is not required by the United States, and after such determination has been made and notice thereof has been published in the FEDERAL REGISTER, the use rather than the title to such vessel shall be deemed to have been requisitioned for all purposes as of the date of the original taking: *Provided, however*, That no such determination shall be made with respect to any vessel after the date of delivery of such vessel pursuant to title requisition except with the consent of the owner, • • •"; and

Whereas no portion of just compensation for the said vessel has been paid or deposited with the Treasurer of the United States; and

Whereas the ownership of the said vessel, spare parts, appurtenances and equipment is not required by the United States; and

Whereas the former owner of the vessel has consented to this determination and to the return of the vessel and the conversion of the requisition of title therein to a requisition of use thereof in accordance with the above-quoted provision of law;

Now therefore, I, Emory S. Land, Administrator, War Shipping Administration, acting pursuant to the above-quoted provisions of law, do hereby determine that the ownership of said vessel, spare parts, appurtenances and equipment is not required by the United States, and that, from and after the date of publication hereof in the FEDERAL REGISTER, the use rather than title thereto shall be deemed to have been requisitioned, for all purposes, as of the date of the original taking.

Date: June 30, 1944.

vilian enterprise of any of the activities which an exchange is authorized to operate under the provisions of § 54.5 is prohibited. [Par. 4]

§ 54.3 *Legal status.* The legal status, rights, and liabilities of Army exchanges, exchange funds, property and personnel, commanding officers, and exchange officers, and the rights as to litigation are determined by statute, the decisions of the Courts, the opinions of the Attorney General, and The Judge Advocate General of the Army. Subject to the foregoing and to these regulations, the Chief of Army Exchange Service is authorized to establish by interpretation the policy of the War Department upon the subjects noted. [Par. 8]

§ 54.4 *Exchange buildings and utilities.* Authority of the Secretary of War is required to permit the erection of temporary buildings on military reservations by private individuals or commercial concerns. This authority is not required for construction by exchanges, or when construction contracts between private individuals or commercial concerns and the exchange specify that immediately upon completion of the buildings, title thereto passes to the exchange. [Par. 9]

§ 54.5 *Activities—*(a) *Authorized activities.* An exchange may consist of or include, when approved by the commanding officer, the following activities and facilities, and no other revenue-producing agency will engage in such activities or operate such facilities if there is an exchange at the installation:

(1) Main store, including military clothing and equipment.
(2) Branches.
(3) Warehouses.
(4) Soda fountain, including service clubs.
(5) Beer bar.
(6) Meat market.
(7) Vegetable and grocery market.
(8) Gasoline filling station.
(9) Automobile garage and service station.
(10) Restaurant or cafeteria, including cafeterias in service clubs.
(11) Barber shop.
(12) Beauty shop.
(13) Laundry.
(14) Watch repair shop.
(15) Radio repair shop.
(16) Tailor shop, including dry cleaning and pressing.
(17) Shoe repair shop.
(18) Photographic studio.
(19) Vending and amusement machines.
(20) Guest houses.
(21) Procurement of food supplies for resale to other agencies on an installation.
(22) The provisions of management service in the operation of feeding facilities where requested by officers' clubs and non-commissioned officers' clubs.
(23) Recreation rooms, including billiard and pool tables, bowling alleys, and equipment for other indoor games when not provided by other services.
(24) Taxicab and bus operation, subject to the following limitations:

(i) Unless strictly confined to military personnel and/or civilians employed or resident at a War Department installation as passengers, an exchange is not authorized to operate a taxicab or bus transportation facility nor to compete in any manner with civilian enterprise in such activity.

(ii) The exchange may enter into a separate contract with any taxicab or bus company operating on the post, camp, station, or installation under a revocable license from the post commander, under which contract the exchange agrees to act as agent for such company for the sale of tickets entitling the holder to transportation.

(iii) The contract under (ii) above requires the approval of the commanding general of the service command.

(iv) For its service as such ticket agent the exchange may receive a legal commission. This will not exceed 10 percent of the sales price of such tickets, and no part of such commission will be rebated or allowed in any manner as a credit to the purchaser of such ticket.

(b) *Limitations on activities.* (1) Activities other than those enumerated in this section will not be added to the business of an exchange without obtaining approval of the Chief of Army Exchange Service.

(2) Except at stations located outside the continental limits of the United States and subject to the provisions of § 54.6 (c), articles for sale will be limited to those articles of necessity and convenience as the commanding officer of the post, camp, station, or installation or the commanding general of the service command may determine desirable in view of local conditions.

(3) In all cases where the exchange acts as a collection agency for either a civilian activity or a concessionaire, its liability will be limited to that of an agent and it will not be bound to perform any part of the customer's contract either by the payment of money or otherwise.

(4) Exchanges may sell supplies obtained from quartermaster stores at cost price plus overhead cost fixed by the Secretary of War.

(5) The sale to enlisted personnel of regulation trousers, shirts, caps, belts, ties, shoes, socks, dresses, skirts, underwear, insignia, including cloth insignia such as chevrons, shoulder, sleeve, and other patch type of insignia, is authorized.

(6) The operation of any gambling device, such as punch boards, slot machines, etc., by or in any exchange or exchange activity is prohibited.

(7) The sale of or dealing in beer, wine, or any other intoxicating liquors by any person in any exchange or upon any premises used for military purposes by the United States is prohibited. Beer with an alcoholic content of not more than 3.2 percent in weight is considered nonintoxicating. (See § 54.12 (g).)

(c) *Concessions.* (1) So far as is practicable all of the authorized activities of the exchange will be conducted by the exchange.

(2) Subject to the provisions of (3) and (4) below, and when unusual conditions warrant, concessions may be granted by the exchange officer with the consent of the commanding officer only for the conduct of activities indicated in (a) (6) to (18), inclusive, of this section.

(3) Concessions will not be granted private individuals, firms, or corporations to operate any of the activities of the type listed in (2) above without the approval of the commanding general of the service command, and if the furniture, fixtures, and equipment necessary to operate any such activity are owned by the exchange, in the absence of extenuating circumstances, such approval will not be given.

(4) A concession contract will be approved only when it embodies the express provision that the concessionaire assumes complete liability for all local taxes applicable to the property, income, and transactions of the concessionaire.

(5) Contracts with concessionaires will provide:

(i) For the payment of commissions to the exchange.

(ii) That post authorities will retain supervision over the activities and control of prices to be charged.

(iii) That the concessionaire will carry adequate insurance in accordance with policies established by the Chief of the Army Exchange Service.

(6) Contracts with concessionaires will neither state nor imply that any rental is to be charged for occupancy of space in buildings or for the use of utilities or facilities on a military reservation except as provided in Army Regulations.

(7) When concessionaires occupy real estate not under control of the exchange, a license or lease is required (see Army Regulations).

(8) A concessionaire is in no sense an agent of the exchange and will not be permitted to represent himself as such to the public by the use of the words "_____Exchange" on letter or bill heads, signs or in any maner.

(9) The limitations imposed upon sales by exchanges apply equally to exchange concessionaires.

(d) *Vending and amusement machines.* (1) Vending and amusement machines at War Department installations will be procured and operated only by the exchange except in the case of officers' clubs, aviation cadet clubs, noncommissioned officers' clubs or other voluntary associations of military or civilian personnel.

(2) Vending and amusement machines may be installed by:

(i) Outright purchase for cash, or installment contract.
(ii) Rental purchase.
(iii) Loan.
(iv) Rental. [Par. 10]

§ 54.6 *Army Exchange Service.* (a) The Army Exchange Service has jurisdiction over and provides staff supervision of the operation of all Army exchanges, and consists of such officers, enlisted men, and civilian personnel as are necessary.

(b) This service will have jurisdiction over, and will be extended to, all exchanges of the Army through appropriate personnel on the staffs of commanding generals of service commands and commanding officers of posts, camps, station, and installations, at whose directions exchanges have been established.

(c) With reference to all Army exchanges, the Army Exchange Service is charged with:

(1) Developing policies, plans, and procedures for and supervising the installation and operation of:

(i) A uniform and coordinated system of operating procedures, merchandising methods, including the determination of permitted types of merchandise, pricing policies, and procedures for the safeguarding of exchange funds and property.

(ii) Personnel policies and procedures, to include insurance plans, in-service training programs, and the training of exchange officers.

(iii) Accounting and auditing methods and procedures.

(iv) Minimum and maximum percentages of gross profits, operating expenses, and net profits.

(v) The determination of financial policy, including the regulation of dividends and similar matters pertaining thereto, subject to War Department direction.

(vi) Establishment of fees to be paid by exchanges to the Army exchange fund.

(vii) Determination of type of equipment and fixtures to be used by exchanges.

(viii) The determination of policy in connection with the procurement of food and supplies, and the management and operation of food installations as principal or as agent for the respective principals in accordance with War Department directives.

(2) Performing the following functions:

(i) Providing and prescribing the use of purchasing and fiscal services.

(ii) Obtaining price agreements from manufacturers and distributors on items purchased by exchange, and prescribing the use of such price agreements.

(iii) Establishing and controlling the administration of the Army exchange fund, including the authority to:

(*a*) Open bank accounts.

(*b*) Make grants or lend monies from such fund to authorized activities subject to War Department direction.

(c) Establish such reserves as may be necessary from time to time to assure the liquidation of obligations not only of the Army exchange fund, but also of obligations of Army exchanges.

(iv) Negotiating for and providing funds to be loaned to exchanges under such regulations as the Chief of Army Exchange Service may prescribe.

(3) Transmitting to exchange officers and personnel in an appropriate manner necessary information as to all activities within the scope of the foregoing duties and functions.

(4) Exercising an advisory and policy-making function for the War Department in all other matters within the scope of the foregoing duties and functions. [Par. 11]

§ 54.7 *Purchases—*(a) *For exchange.* (1) Except as authorized in (i) and (ii) below all purchases of merchandise or other property will be made by the exchange officer who will notify all vendors on the purchase order, or by other appropriate means, that the contract is made with the exchange and not with the United States Government.

(i) The exchange officer may delegate to a commissioned assistant or an appropriate civilian employee of the exchange the authority to make routine purchases during a period of his absence.

(ii) In large exchanges maintaining a purchasing department and stock control system, routine replacement of lines of merchandise handled in the exchange may be made by the head of the purchasing department from a list of dealers authorized by the exchange officer.

(2) The exchange officer will, in all cases, be responsible for the purchase

(Rev. RO 16, Am. 11, 12) (2 documents) ---------- 7578

by private individuals or commercial con-

the exchange may receive a legal com-

made by any subordinate as authorized in (1) (i) and (ii) above.

(3) Purchases made verbally by the exchange officer, or as provided in (1) (i) and (ii) above, will be confirmed by written purchase order immediately thereafter.

(4) Inventories will be held to a reasonable minimum.

(5) Purchases at prices in excess of those published in Army Exchange Service price agreements (§ 54.6 (c)) are not authorized except to supply immediate needs of exchanges or in emergencies due to lost or delayed shipments or other like circumstances, or when procurement, delivery, or service considerations render it to the interest of the exchange to purchase from local distributors.

(6) (i) All purchases within the continental limits of the United States by exchanges located outside the continental limits of the United States will be made through Army Exchange Service.

(ii) Commercial and financial transactions of any type within the United States by exchanges located outside the continental limits of the United States will be conducted only through Army Exchange Service in accordance with provisions prescribed by the Chief of Army Exchange Service.

(7) The purchase or sale by Army exchanges of articles of military uniform and equipment not in conformity with the provisions of §§ 79.1 to 79.64 inclusive, is forbidden.

(b) *For concessionaires.* The purchase by the exchange of material needed by concessionaires in the operation of their concessions is permitted only after all taxes involved, if any, have been advanced by the concessionaire and when such material is not to be resold.

(c) No merchandise will be held on consignment or to be paid for by exchanges when sold. The provisions of this paragraph will not be construed as prohibiting the established business practice of making an agreement, at the time of purchase, for the return to the vendor for credit of unsold seasonable merchandise at a specific time. [Par. 12]

§ 54.8 *Sales*—(a) *To whom made.* Exchanges are authorized to sell to the following-named persons, organizations and funds only:

(1) Personnel and organizations now or hereafter authorized by law and regulation to purchase subsistence stores or other quartermaster supplies as defined in paragraphs 2 and 6, AR 30-2290,[1] may purchase at exchanges. Dependent members of the families of persons so authorized may act as agents for such persons upon proper identification.

(2) Civilians as follows:

(i) Civilians who are resident at War Department installations may purchase at the exchange.

(ii) Civilians who are employed at a War Department installation but not resident thereon may purchase, for their own consumption on the post, items of food, drink, and tobacco products but no other merchandise of any kind.

(iii) The family, friends, and visitors of military personnel may purchase at service club cafeterias operated by exchanges for their own consumption while on the post items of food, drink, and tobacco products.

(3) Sales to the Government by exchanges are authorized only in cases where the same class of service cannot be conveniently or reasonably obtained elsewhere and where a direct advantage will accrue to the Government from the method resorted to. In no case will an exchange or concessionaire bidding as such be permitted to enter into public competition or to submit bids in response to advertisements calling for proposals for furnishing supplies or services. When accounts are submitted for sales of the kind described, the vouchers will contain a full statement of the grounds upon which the sale of supplies or services was based and will fully set forth all the circumstances of the transaction with a view to enabling the proper agencies of the United States Government to determine whether such purchase was in the public interest.

(b) *Resale.* (1) The resale by military or civilian personnel of merchandise purchased in an Army exchange is prohibited.

(2) The privilege of purchasing at Army exchanges may be denied completely by post commanders to any civilian who resells merchandise purchased at any Army exchange. The receipt of money or any other article of value in exchange for such merchandise will be deemed to be a resale.

(3) Nothing herein contained will be construed to prohibit military personnel from receiving actual reimbursement without profit for merchandise purchased at an exchange as a matter of economy, convenience, or necessity as agent for other members of the military forces. [Par. 13]

§ 54.9 *Personnel*—(a) *General.* (1) So far as practicable, exchanges will be operated by civilian employees, with Army officers in executive control.

(2) Great care will be exercised in the selection of personnel in order that an efficient and permanent body of civilian employees may be developed.

(b) The staff of an exchange will consist of an exchange officer, such assistant exchange officers, and civilian employees, together with such enlisted personnel as are authorized in § 54.10 [Par. 17]

§ 54.10 *Enlisted employees.* (a) The commanding officer of the post, camp, station, or installation may, subject to pertinent War Department directives authorize the use of enlisted personnel in exchanges.

(b) Enlisted personnel may be employed on a part time basis outside of military duty.

(c) Position responsibility of enlisted employees will be as prescribed for civilian personnel.

(d) The employment of enlisted men by exchange concessionaires is prohibited. [Par. 23]

§ 54.11 *Civil auditors.* Under unusual circumstances and only after approval by the commanding general of the service command, the commanding officer may authorize the employment of a qualified civilian accounting firm at stated intervals to audit the accounts of the exchange at its expense. In such cases the commanding general of the service command will retain his full responsibility for supervision. Audit reports of such firms will be reviewed for compliance with the Audit Manual. The officer designated as the auditing officer may work with the accountant, in which case he is authorized to amend the certificate required of him. [Par. 29]

§ 54.12 *Contracts.* (a) Under the provision of the regulations in this part, the exchange officer is the contracting officer for the exchange, and he is authorized to execute contracts obligating the exchange.

(b) All contracts and agreements to which exchanges are parties will contain when applicable the statement that such contracts will be terminated when an exchange is liquidated or for other reasons at the option of the exchange.

(c) Contracts on behalf of an exchange will not cover periods of more than 1 year without the approval of the commanding general of the service command.

(d) Proposed concession contracts will be submitted to the commanding general of the service command for approval, as provided in § 54.5 (c).

(e) All contracts involving future performance will be reduced to writing, signed by the contracting parties, and filed in the records of the exchange.

(f) All contracts that involve the use of Government property not under the control of the exchange will be submitted to the commanding general of the service command for approval.

(g) Contracts involving the sale of 3.2 percent beer entered into connection with the provisions of § 54.5 (b) (7) of these regulations will, without exception, be accompanied by affidavit of the manufacturer and distributor of such beer certifying that the alcoholic content of such product does not exceed that permitted by these regulations.

(h) (1) Exchange contracts are solely the obligation of the exchange. They are not Government contracts and the distinction between exchange contracts and Government contracts will be observed and clearly indicated at all times.

(2) Contracts for the erection of temporary exchange buildings will contain a statement that the proposed construction is an exchange transaction and that the exchange alone is responsible for the debt, and not the Government.

(i) When applicable, contracts for the erection of temporary buildings will contain a statement that immediately upon completion of the building, title thereto passes to the exchange. See § 54.4.

(j) Notwithstanding the provisions of (a) above, whenever an exchange outside the continental limits of the United States makes purchases within the United States as provided in § 54.7 (a) (6) the fiscal agent appointed for such exchange is, within the scope of the assigned duties under such appointment, the contracting officer for the said exchange in limitation of the functions of the commanding officer and the exchange officer as set forth in (a) above. TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs. Serial 313]

PART 241—PERMITS FOR FOREIGN AIR CARRIERS

APPLICATION FOR FOREIGN AIR CARRIER PERMITS (GRANDFATHER CLAUSE)

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 1st day of July 1944.

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 (d) and 205 (a) thereof, and deeming its action necessary to carry out the provisions of said act and to exercise its powers and perform its duties thereunder, hereby makes and promulgates the following regulation:

Effective July 1, 1944, § 241.1 of the Economic Regulations is hereby amended in its entirety to read as follows:

§ 241.1 *Application for foreign air carrier permits*—(a) *Formal requirements of applications.* Applications for permits to engage in foreign air transportation under the terms of section 402 of the act (hereinafter called foreign air carrier permits) shall meet the requirements set forth in § 285.3 of the Economic Regulations as to execution, number of copies, formal specifications of papers and verifications. Such verifications shall be subscribed and sworn to before a notary public or other officer authorized to administer oaths in the jurisdiction in which such application is executed. Notwithstanding the laws of the country of applicant's citizenship, an application verified before a United States consular officer will be deemed to have met the requirements of this paragraph. All pages of an application shall be consecutively numbered, and the application shall clearly describe and identify each exhibit by a separate number or symbol. All exhibits shall be deemed to constitute a part of the application to which they are attached.

(b) *Filing and service.* Applications for foreign air carrier permits shall be forwarded to the Board, through diplomatic channels, by the government of the applicant's country of citizenship, and shall be deemed to have been filed on the date such applications are actually received by the Board. Each applicant shall furnish such additional copies of its application and shall make such service thereof upon such other persons as the Board may at any time require.

(c) *Amendments to applications.* Any information which the Board may request of an applicant subsequent to receiving its application, or any information which the applicant deems appropriate to submit thereafter, shall be furnished in the form of an amendment to the original application. All amendments to applications shall be consecutively numbered and shall comply with the requirements of this regulation as to form, number of copies, verification and in all other essential respects.

(d) *Incorporation by reference.* In general it is desirable that incorporation by reference shall be avoided. However, where two or more applications are filed by a single carrier, lengthy exhibits or other documents attached to one may be incorporated in the others by reference if that procedure will substantially reduce the cost to the applicant.

(e) *General provisions governing contents.* The statements contained in an application shall be restricted to significant and relevant facts. They shall be free from argumentation or from expressions of opinion, except as such may be required by this regulation. Each application shall give full and adequate information with respect to each of the items set forth in this paragraph. The application may contain such other information and data as the applicant shall deem necessary or appropriate in order to acquaint the Board fully with the particular circumstances of its case. Among other things, every such application shall contain the following information:

(1) The full name and address of the applicant, the nature of its organization (individual, partnership, corporation, etc.), and, if other than an individual, the name of the country under the laws of which it is organized and the statutory citation of such laws, if any. The citizenship of the applicant should be shown, as well as the percentage of direct and indirect beneficial and nonbeneficial interest in applicant held by each government and aggregate of nationals of each government, other than the government of applicant's citizenship. If the applicant is governmentally owned or controlled in whole or in part, the extent of such governmental ownership or control should be shown.

(2) The name and official address of the competent air authority of applicant's country of citizenship having regulatory jurisdiction over applicant.

(3) An identification of the route or routes to be covered by the permit for which application is made, specifying the type or types of service (mail, passenger and property) to be rendered on each such route, and whether or not such services are to be rendered in scheduled operations. The identification of each route shall name every terminal and intermediate point to be served by applicant in connection with the service for which a permit is sought.

(4) A map (which may be attached as an exhibit) drawn approximately to scale, showing all terminal and intermediate points, both in the United States and in all foreign countries to be served by applicant in connection with the service for which the permit is sought, giving the approximate air mileages between all adjacent points, and principal overall distances.

(5) If the application is made pursuant to section 402 (c) of the Act, it shall state that a permit for the services applied for was issued by the Secretary of Commerce under section 6 of the Air Commerce Act of 1926, as amended, giving the date of such issuance, and that such permit was in effect on May 14, 1938.

(Sec. 402, 52 Stat. 991; 49 U.S.C., 482)

By the Civil Aeronautics Board.

Chapter I—Federal Trade Commission

[Docket No. 5039]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

TRANS-PAC SERVICES, INC., ET AL.

§ 3.6 (j 10) *Advertising falsely or misleadingly—History of product or offering:* § 3.6 (t) *Advertising falsely or misleadingly—Qualities or properties of product or service:* § 3.6 (y) *Advertising falsely or misleadingly—Safety.* In connection with offer, etc., of medicinal preparation OCA Pinkovels and OCA, or any other similar medicinal preparation, disseminating, etc., any advertisements by means of the United States mails, or in commerce, or by any means, to induce, etc., directly or indirectly, purchase in commerce, etc., of respondents' preparation, which advertisements represent, directly or through inference, that said preparation, (1) constitutes a competent and effective treatment for colds; will mitigate a cold or prevent the complications of a cold or is of any value in the treatment of a cold in excess of temporarily relieving some of the symptoms thereof; (2) can be depended upon to overcome persistent pains in the head or back; (3) constitutes a new preparation; or (4) is safe or harmless in use; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) (Cease and desist order, Trans-Pac Services, Inc., et al., Docket 5039, June 7, 1944)

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 7th day of June, A. D. 1944.

In the Matter of Trans-Pac Services, Inc., a Corporation; and Dorland International, Inc., a Corporation

This proceeding having been heard by the Federal Trade Commission on the complaint of the Commission and the answers of respondents, in which answers respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and conclusion that said respondents have violating the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents Trans-Pac Services, Inc., a corporation, and Dorland International, Inc., a corporation, their officers, representatives, agents, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of the medicinal preparation designated OCA Pinkovels and OCA, or any other medicinal preparation composed of substantially similar ingredients or possessing substantially similar properties, whether sold under the same names or any other name or names, do forthwith cease and desist from:

(a) Disseminating, or causing to be disseminated, any advertisement by means of the United States mails, or by any means in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or through inference, that said preparation

(1) Constitutes a competent and effective treatment for colds; will mitigate a cold or prevent the complications of a cold or is of any value in the treatment of a cold in excess of temporarily relieving some of the symptoms thereof.

(2) Can be depended upon to overcome persistent pains in the head or back.

(3) Constitutes a new preparation.

(4) Is safe or harmless in use.

(b) Disseminating, or causing to be disseminated, any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce as "commerce" is defined in the Federal Trade Commission Act of respondents' preparation, which advertisement contains any of the representations prohibited in paragraph (a) hereof and the respective subdivisions thereof.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Chapter VI—Selective Service System

[Amdt. 243, 2d Ed.]

PART 618—REGISTRATION OUTSIDE CONTINENTAL UNITED STATES, ALASKA, HAWAII, AND PUERTO RICO

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend the heading and paragraph (a) of § 618.2 (8 F.R. 14603) to read as follows:

§ 618.2 *Duty to register at District of Columbia Local Board No. 1 (Foreign) or in the Virgin Islands.* (a) Unless he is a person excepted by section 5 (a) of the Selective Training and Service Act of 1940, as amended, or by section 208 of the Coast Guard Auxiliary and Reserve Act of 1941, as amended, every male citizen of the United States outside the continental United States, the Territory of Alaska, the Territory of Hawaii, and Puerto Rico, who has not been registered and who on December 31, 1943, shall have attained or who thereafter attains the eighteenth anniversary of the day of his birth and who on December 31, 1943, shall not have attained the forty-fifth anniversary of the day of his birth, shall, on the day or days fixed by Proclamation of the President, present himself for and submit to registration (1) before a registrar in the Virgin Islands of the United States, if he is a resident of the Virgin Islands of the United States, or (2) if he is not a resident of the Virgin Islands of the United States, before a member or clerical assistant of District of Columbia Local Board No. 1 (Foreign): *Provided*, That in lieu of presenting himself for and submitting to registration before a registrar in the Virgin Islands of the United States or a member or clerical assistant of District of Columbia Local Board No. 1 (Foreign), any such person may present himself for and submit to registration before:

(1) Any diplomatic or consular officer of the United States who is a citizen of the United States, all of whom are hereby appointed chief registrars; or

(2) Any other person who may be appointed by the Director of Selective Service as chief registrar; or

(3) Any member or clerical assistant of a local board; or

(4) Any registrar appointed as provided in § 618.3.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

Chapter IX—War Production Board

Subchapter A—General Provisions

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 27, Interpretation 2, as Amended July 5, 1944]

LENGTH OF VALIDITY OF RATINGS ASSIGNED ON EXPORT LICENSES

The following amended interpretation is issued with respect to Directive 27:

A rating assigned by the Foreign Economic Administration, under the authority of Directive 27, by endorsing the required legend on an export license is valid for the life of the export license in the absence of any applicable rule or restriction set forth in an order or regulation of the War Production Board governing transactions in the material covered by the rating. This means that the rating must be applied and the material covered by the rating must have been delivered to the holder of the export license before the expiration of the life of the license. Otherwise, the procedure applicable when an individually assigned rating is revoked, provided in § 944.4a of Priorities Regulation 1, will be deemed applicable. On the other hand, if the rating has been applied and the material to which it has been applied has been delivered before the expiration of the life of the export license, its subsequent expiration will not affect the right of the supplier to extend the rating in order to replenish his inventory. Such extension is, of course, subject to the provisions of paragraph (h) (1) of Priorities Regulation 3.

Revocation of an export license on which a rating has been assigned by the Foreign Economic Administration revokes the rating, and § 944.4a of Priorities Regulation 1 is consequently applicable. Extension of the life of an export license, on the other hand, extends the period for which a rating assigned on the export license is valid.

Issued this 5th day of July 1944.

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-566]

LEE MILLER

Lee Miller of Plaquemine, Louisiana, is engaged in the business of installing and supplying butane equipment and dealing in general plumbing and heating supplies governed by General Limitation Order L-79. Between May 23 and December 16, 1942, in four instances without securing the required certificates of necessity and without other authorization he sold and delivered new plumbing and heating equipment restricted by, and in violation of General Limitation Order L-79. Between December 16, 1942, and September 1, 1943, in three instances without authorization he sold and delivered on unrated orders heating equipment restricted by, and in violation of General Limitation Order L-79. After September 1, and before the end of October, 1943, in four instances without securing the required rationing certificate and without other authorization he sold and delivered on unrated orders heating equipment restricted by, and in violation of General Limitation Order L-79. He was aware of the order and these acts constitute wilful violations.

These violations of General Limitation Order L-79 have diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.566 *Suspension Order No. S-566.* (a) Deliveries of material to Lee Miller, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied, or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotments, shall be made to Lee Miller, his successors or assigns, of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Lee Miller, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect July 5, 1944, and shall expire on September 5, 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-572]

STANDARD GAS & EQUIPMENT COMPANY, INC.

Standard Gas & Equipment Company, Inc., of Plaquemine, Louisiana, is a corporation engaged in dealing with butane equipment and plumbing and heating supplies as governed by General Limitation Order L-79. Between May 23 and December 16, 1942, in four instances without securing the required certificates of necessity and without other authorization, it sold and delivered new plumbing and heating equipment restricted by, and in violation of General Limitation Order L-79. Between December 16, and September 1, 1943, in seven instances without authorization it sold and delivered on unrated orders heating equipment restricted by, and in violation of General Limitation Order L-79. After September 1, and before the end of October, 1943, in two instances without securing the required rationing certificate and without other authorization it sold and delivered on unrated orders heating equipment restricted by, and in violation of General Limitation Order L-79. It was aware of the order and these acts constitute wilful violations.

These violations of General Limitation Order L-79 have diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.572 *Suspension Order No. 572.* (a) Deliveries of material to Standard Gas & Equipment Company, Inc., its successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotments, shall be made to Standard Gas & Equipment Company, Inc., its successors or assigns, of any material or product the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Standard Gas & Equipment Company, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 19, Direction 2]

DELIVERIES OF FARM CHAIN BY CHAIN MANUFACTURERS

The following direction is issued pursuant to paragraph (f) (1) of Priorities Regulation 19 in order to supply urgent requirements for farm chain:

(1) During the period from July 6, 1944 through December 31, 1944 chain manufacturers are directed to disregard preference ratings (other than AAA) to the extent necessary to fill all orders for farm chain from suppliers and dealers who serve the farm trade. Farm chain includes only the following types of chain, and preference ratings are to be disregarded only up to the stated percentage of total weight production of each type during the calendar year 1940 or 1941 whichever was greater:

Type of chain	Percentage of total weight production in 1940 or 1941 whichever was greater
Harness chain (including breast, butt, heel & trace chains	50
Wagon chains	50
Cow ties, tie outs & halter chains	50
Log chains under ½"	30
Repair & lap links (10–3, 10–2, 10–1, 5/16" x 1½", 3/8" x 2", 1½" x 2½")	75

(2) If any chain manufacturer is unable to fill all orders from such suppliers and dealers out of the stated percentages he may prorate deliveries among them on the basis of normal shipments regardless of preference ratings (other than AAA). Orders from such suppliers and dealers in excess of the stated percentages are to be filled only in accordance with priorities regulations.

(3) Suppliers and dealers who are entitled to obtain chain under this special procedure should certify on their purchase orders that they serve the farm trade. However a chain manufacturer who knows or has reason to believe that a particular supplier or dealer does serve the farm trade need not insist that a certification be furnished on the purchase order.

(4) Except as specifically otherwise provided manufacture and delivery of farm chain are subject to the provisions of Limitation Order L-302, Priorities Regulation 19, and all other applicable orders and regulations of the War Production Board as amended from time to time.

PART 3293—CHEMICALS

[Allocation Order M-370, as Amended July 6, 1944]

CHROME PIGMENTS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of chrome pigments for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.586 *Allocation Order M-370*—(a) *Meaning of certain terms.* (1) "Chrome pigments" means Class A and Class B pigments as defined herein.

(2) "Class A pigments" refers to C. P. chrome yellow, C. P. chrome orange, C. P. chrome green, C. P. molybdate chrome orange, and C. P. hydrated chromium oxide. The term includes substandard and extended pigments and dry and wet dispersions of these pigments calculated on a C. P. (commercially pure) color basis.

(3) "C. P. chrome yellow" and "C. P. chrome orange" mean the pigments which are reaction precipitates consisting of normal or basic lead chromates or mixtures of these with or without other insoluble compounds of lead—Color Index 1270.[1]

(4) "C. P. chrome green" means a pigment consisting of a precipitated mixture of C. P. chrome yellow—Color Index 1270[1]—and C. P. iron blue—Color Index 1288.[1]

(5) "C. P. molybdate chrome orange" means a mixed crystal containing lead chromate, lead molybdate, and lead sulfate with or without other insoluble compounds of lead.

(6) "C. P. hydrated chromium oxide" means a pigment approximately conforming to the formula $Cr_2O(OH)_4$—Color Index 1292.[1]

(7) "Class B pigments" refers to C. P. chromium oxide green and C. P. zinc chromate. The term includes substandard and extended pigments and dry and wet dispersions of these pigments calculated on a C. P. (commercially pure) color basis.

(8) "C. P. chromium oxide green" means a pigment approximately conforming to the formula Cr_2O_3—Color Index 1291.[1]

(9) "C. P. zinc chromate" means a pigment manufactured as a reaction product of soluble chrome chemicals and a suitable zinc compound-Color Index 1271.[1] The term includes the pigment known as zinc tetroxy chromate (ZTO).

(10) "Exempt order" means any purchase order for Class A pigments which:

(i) Are to be delivered to, or used on or incorporated in material or equipment to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission, the War Shipping Administration, Bureau of Engraving and Printing, United States Government Printing Office, the Government of Canada, or to or for the account of any foreign country pursuant to the Act of March 11, 1941 (Lend-Lease Act); or

(ii) Are to be used in the manufacture of any product (except printing ink and crayons) to be delivered to, or used on or incorporated in material or equipment to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission, the War Shipping Administration, Bureau of Engraving and Printing, United States Government Printing Office, the Government of Canada, or to or for the account of any foreign country pursuant to the Act of March 11, 1941 (Lend-Lease Act).

The term also includes purchase orders for Class A pigments for the manufacture of marine paints which in turn are to be used for maintenance, repair, and operating supplies in accordance with paragraph (d) (2) of Preference Rating Order P-65.

(11) "Quota order" means any purchase order for Class A pigments that is not an exempt order as defined above.

(12) "Printing ink" includes any fluid or viscous material or composition of materials used in printing, impressing, stamping or transferring upon paper or paper-like substances, wood, fabrics (including awnings) or metals by the recognized mechanical reproductive processes employed in printing, publishing and related service industries.

(13) "Crayons" includes any solid chalk, wax, or resin composition with pigments (including extenders) used for writing or marking by means of pressure and friction. This does not include coatings for crayons.

NOTE: Subparagraphs (14), (15), (16), (17) and (18), formerly (13), (14), (15), (16) and (17) redesignated July 6, 1944.

(14) "Pigment quota" means the amount of Class A pigments which any consumer may use or acquire in any calendar quarter for the manufacture of any product to fill quota orders. The table in Appendix D shows how to determine this quota.

(15) "Producer" means any person engaged in the production of chrome pigments.

(16) "Distributor" means any person who buys chrome pigments for the purpose of resale.

(17) "Supplier" means a producer or distributor.

(18) "Consumer" means any person who uses chrome pigments.

Restrictions on Class A Pigments: Chrome Yellow, Chrome Orange, Chrome Green, Molybdate Chrome Orange, Hydrated Chromium Oxide

(b) *Inapplicability of preference ratings.* No person shall apply, extend, or give any effect to any preference rating heretofore or hereafter assigned, applied or extended for the delivery of Class A pigments.

[1] Society of Dyers and Colourists "Colour Index", Bradford, Yorkshire, January 1924.

(c) *Exempt orders; certification required.* Any person may, without authorization of War Production Board, deliver or accept delivery of Class A pigments to fill an "exempt order" or to replace the total quantity of Class A pigments which was withdrawn from inventory to fill "exempt orders", but which had not been originally acquired to fill "exempt orders": *Provided,* That the person accepting delivery furnishes to the person making the delivery, the Exempt Order Certification set forth in Appendix C. (The standard certification described in Priorities Regulation No. 7 may not be used instead.) There are no quantity restrictions on Class A pigments which may be used to fill "exempt orders." No person engaged in the business of manufacturing printing ink or crayons may use the Exempt Order Certification for any purchase order for Class A pigments which are to be used by him for the manufacture of printing ink or crayons for sale.

(d) *Quota orders; delivery restrictions and certification.* No consumer shall accept delivery of Class A pigments in any calendar quarter, for the manufacture of any product to fill "quota orders", in excess of his "pigment quota" set forth in Appendix D for the manufacture of that product, unless War Production Board shall otherwise specifically authorize pursuant to application on Form WPB-2945. No supplier shall deliver Class A pigments to a consumer to fill "quota orders" unless the consumer furnishes the supplier with the Quota Order Certification set forth in Appendix C, or unless the supplier is specifically authorized by War Production Board on Form WPB-2946 to make the delivery. (The standard form of certification described in Priorities Regulation No. 7 may not be used instead.) This provision governs the total quantity of Class A pigments which a consumer may acquire in any calendar quarter to fill "quota orders". Paragraph (g) of this Order M-370 contains one further provision with which a consumer must comply when accepting delivery of Class A pigments to fill both "quota orders" and "exempt orders". Paragraph (g) states an inventory restriction which controls the quantity of Class A pigments which a consumer may acquire at any one time within a calendar quarter.

If for any reason a supplier is unable to ship Class A pigments to a consumer during the calendar quarter for which such pigments were ordered, he may make such shipment at any time within the first 21 days of the following calendar quarter and the consumer may accept such shipment, without authorization of the War Production Board. Shipment and acceptance of such a shipment shall be considered to be a delivery made and accepted during the calendar quarter for which it was ordered.

(e) *Quota orders. Use restrictions on Class A pigments.* No consumer shall use Class A pigments in any calendar quarter, to manufacture any product, to fill "quota orders", in excess of his "pigment quota" set forth in Appendix D for the manufacture of that product, unless War Production Board shall otherwise specifically authorize pursuant to application on Form WPB-2945.

(f) *Exceptions to restrictions of paragraphs (d) and (e).* The restrictions in paragraphs (d) and (e) shall not apply to the delivery (or acceptance of delivery) of Class A pigments:

(1) To a laboratory in quantities not exceeding five pounds per month for chemical reagent purposes, or

(2) To consumers at retail in containers not exceeding one pound of C. P. pigment content for any use.

NOTE: Paragraphs (g) through (m), formerly (f) through (l), redesignated July 6, 1944.

(g) *Consumer's inventory restrictions.* No consumer shall accept any single delivery of Class A pigments which shall result in his having an inventory of such pigments:

(1) To fill "exempt orders", in excess of that quantity of Class A pigments which he will be required to use within the next sixty days in order to meet delivery dates under such "exempt orders"; and

(2) For the manufacture of any product to fill "quota orders", in excess of 2,000 pounds or his "pigment quota" as set forth in Appendix D (whichever is the greater) for the manufacture of that product, unless he shall have been otherwise specifically authorized by War Production Board, pursuant to application made by letter addressed to Chemicals Bureau, War Production Board, Washington 25, D. C., Reference M-370, setting forth the reasons why he needs to exceed the inventory restrictions.

Restrictions on Class B Pigments: Chromium Oxide Green, Zinc Chromate

(h) *Deliveries and use of Class B pigments* No person shall deliver, accept delivery of, or use, Class B pigments except as specifically authorized by War Production Board, pursuant to applications filed on Forms WPB-2946 and WPB-2945 respectively.

(i) *Exception for small deliveries of Class B pigments.* Any consumer may withdraw from his inventory, or accept delivery from all sources, and use for any purpose but not for resale, in any calendar month, of not more than 25 pounds of chromium oxide green and not more than 50 pounds of the zinc chromate without authorization from War Production Board notwithstanding the fact that he may have already received authorization from the War Production Board to acquire in that month more than the small deliveries mentioned above. No supplier may deliver in any calendar month more than the aggregate quantity of Class B pigments authorized by War Production Board for such small deliveries.

Authorization Procedure for Chrome Pigments

(j) *How the consumer obtains authorization.* When War Production Board authorization to use or accept delivery of chrome pigments is necessary under paragraphs (d) (e) or (h) of this order, the procedure is as follows:

(1) *Use and acquisition of Class A pigments in excess of pigment quotas.* Each person desiring to use from inventory, or accept delivery for use in any calendar quarter of Class A pigments in excess of his "pigment quota" set forth in Appendix D, shall file with the Chemicals Bureau, War Production Board, Washington 25, D. C., three copies of Form WPB-2945 (formerly PD-600) on or before the 5th day of the second month of that calendar quarter. If the application is for permission to accept delivery applicant should send one copy of Form WPB-2945 to his supplier. War Production Board will return to the applicant one copy of Form WPB-2945 on which will be indicated the quantity of chrome pigments which may be used or acquired in excess of his "pigment quota". Instructions for filling out this form are set forth in Appendix A.

(2) *Use and acquisition of Class B pigments in addition to small deliveries exception.* Each person desiring to use from inventory or accept delivery of and use Class B pigments in addition to the permitted small deliveries, shall file with the War Production Board, Chemicals Bureau Washington 25, D. C., three copies of Form WPB-2945, on or before the 5th day of the month preceding the month in which delivery or use is requested. If the application is for permission to accept delivery, applicant should send one copy of Form WPB-2945 to his supplier. War Production Board will return to the applicant one copy of Form WPB-2945 on which will be indicated the quantity of chrome pigments which may be used or acquired. Instructions for filling out this form are set forth in Appendix A.

(k) *How the supplier obtains authorization.* When War Production Board authorization to deliver chrome pigments is necessary under paragraphs (d) and (h) of this order, the procedure is as follows:

(1) *Class A pigments in excess of pigment quota.* Each supplier desiring authorization to deliver Class A pigments in any calendar quarter to a customer in excess of that customer's pigment quota, for that calendar quarter, shall file three copies of Form WPB-2946 (formerly PD-601) with the Chemicals Bureau, War Production Board, Washington 25, D. C.,

on or before the 15th day of the second month of that calendar quarter. Instructions for filling out this form are set forth in Appendix B. One copy of Form WPB–2946 will be returned to the supplier on which War Production Board will indicate the quantities of chrome pigments which may be delivered.

(2) *Class B pigments.* Each supplier desiring to deliver Class B pigments shall file three copies of Form WPB–2946 with the Chemicals Bureau, War Production Board, Washington 25, D. C., on or before the 15th day of the month before the month in which delivery is requested. Instructions for filling out this form are set forth in Appendix B. One copy of Form WPB–2946 will be returned to the supplier on which War Production Board will indicate the quantities of chrome pigments which may be delivered.

General Provisions

(l) *Special directives.* War Production Board may from time to time issue special directives to any person with respect to the delivery and use of chrome pigments, notwithstanding the other provisions of this order.

(m) *Changes in "pigment quota."* War Production Board may from time to time make whatever changes it may deem necessary in the "pigment quota" for Class A pigments.

(n) *Reports where allocated material is not ordered.* If any purchaser does not place a purchase order and also give shipping instructions to the seller before the end of the allocation period for the entire quantity of chrome pigments allocated to him, he must report to the War Production Board, Washington 25, D. C., by letter, within ten days after the allocation period, stating the amount of allocated quantity of chrome pigments which he did not purchase and the reasons why he did not purchase the full amount allocated. The supplier of such customer shall also notify the War Production Board, Washington, D. C., within ten days after the allocation period of the name of such customer and the amount of the allocated quantity of chrome pigments which that customer did not purchase. For the supplier's convenience in reporting, it is suggested that he make one additional copy each month of his Form WPB–2946 and within ten days after the allocation period covered by that form, insert in Column 10, under remarks opposite the name of customer, the amount of the allocated quantity which the customer did not purchase and then send this copy to the War Production Board. This suggestion is optional; the supplier may report by letter if he prefers.

NOTE: Paragraphs (o) through (s), formerly (m) through (q), redesignated July 6, 1944.

(o) *Approval of Bureau of the Budget.* The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(p) *Applicability of regulations.* Except as provided in paragraph (b) above, this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(q) *Duration of specific authorizations.* If it is not practicable for a supplier to make all deliveries of chrome pigments in the allocation period for which specifically authorized, he may complete them as early as practicable in the next allocation period, but the purchaser must place his order and give shipping instructions to the seller before the end of the allocation period and may not require postponement of delivery beyond ten days after the allocation period. Specific authorization to use chrome pigments shall be valid for forty-five days after receipt of the specific authorization or of the material allocated for the use, whichever is later. What chrome pigments are not used in this period may not be used for any purpose until further authorized or directed.

(r) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(s) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–370.

Issued this 6th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—INSTRUCTIONS FOR FILING APPLICATIONS ON FORM WPB 2945 (FORMERLY PD–600) FOR SPECIFIC AUTHORIZATION TO USE OR ACCEPT DELIVERY OF CHROME PIGMENTS

1. *Form WPB 2945.* Copies of Form WPB 2945 may be obtained at local field offices of the War Production Board.

2. *Who should file.* Specific authorization of War Production Board is required for any consumer to use or acquire Class A pigments in any calendar quarter, for the manufacture of any product to fill "quota orders", in excess of his "pigment quota" for the manufacture of that product, and for any distributor or consumer to use or acquire Class B pigments in excess of the small order exemption. Any producer requiring authorization to use a part or all of his production of Class B pigments or of Class A pigments in excess of his "pigment quota", shall file application on Form WPB 2945 in the same manner.

3. *Number of sets.* Applications shall be made on separate forms for each separate supplier of chrome pigments, and separate applications shall be submitted for each delivery destination. Separate forms shall also be filed for (a) Class A pigments, (b) chromium oxide green, and (c) zinc chromate.

4. *Number of copies of each set.* Five copies shall be prepared, of which one copy shall be retained by the applicant, one shall be forwarded to the supplier, and three copies (one certified) shall be forwarded to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–370.

5. *Special instructions for filling out form.* Follow the instructions on the form except when they conflict with the specific instructions given below:

Heading. Under "Name of Chemical", specify "Chrome pigments" and below it "Class A pigments", or "chromium oxide green" or "zinc chromate" whichever is the case; under "WPB Order No.", specify "M–370"; under "Unit of measure", specify "Pounds"; and otherwise fill in as indicated.

Table I. Specify in the heading the quarter or month and year for which authorization for use or acceptance of delivery is sought for both Class A and Class B pigments respectively.

Column 1. Specify grade or type of chrome pigment in terms of producer's trade-mark for the product.

Column 2. Specify the quantity in pounds on a C. P. color basis. Enter only the amount required for production during the allocation period for which this application is made.

Column 3. Specify primary product in terms of the following:

Coated fabric, crayons, floor coverings, granules, kalsomine, leather, metallurgical, paint, paper, plastics, printing ink, rubber, shade cloth, water paint, export, resale, inventory, all other (specify).

Orders on hand should be listed separately from anticipated orders and in both cases the primary product should be specified.

Column 4. Opposite each primary product, specify ultimate end use. In the case of military orders for Class B pigments, specify contract and specification numbers. If the pigment is to be incorporated in a primary product described in WPB I–217 (Primary Products & End Use List, prepared by the Protective Coating Section, Chemicals Bureau, War Production Board), its end use should be defined by the symbols listed in WPB I–217. Orders on hand should be listed separately from anticipated orders and the above end use information given for both except that in the case of anticipated orders, contract numbers are unnecessary.

If "Export" is listed in Column 3, specify opposite it in Column 4, the name of the individual, company, or governmental agency to whom or for whose account the chrome pigment will be exported and the country of destination. If shipment is for Lend-Lease, specify the Lend-Lease contract or serial number. If the exportation is not for Lend-Lease or for shipment to Canada, Form WPB 2945 must first be sent to the Foreign Economic Administration together with application for an export license. If the export license is granted, the Foreign Economic Administration will then affix the export license number to the Form WPB 2945 and forward it to the War Production Board.

If "Resale" is listed in Column 3, suppliers shall write opposite in Column 4 "upon further authorization" or "for small order exemption". If "Inventory" is listed in Column 3, write opposite it in Column 4 "to hold subject to further authorization".

Column 10. Leave blank for Class B pigments. In the case of Class A pigments in excess of "pigment quota", specify the total quantity of all Class A pigments (on a C. P. color basis) acquired in 1941.

Table II. Fill in as indicated for Class B pigments. For Class A pigments, fill in only Columns 15–C and 16.

Table III. Fill in only for Class B pigments.

APPENDIX B—INSTRUCTIONS FOR FILING APPLICATION OF FORM WPB 2946 (FORMERLY PD–601) FOR SPECIFIC AUTHORIZATION TO DELIVER CHROME PIGMENTS

1. *Form WPB 2946.* Copies of Form WPB 2946 may be obtained at local field offices of the War Production Board.

2. *Who should file.* Specific authorization of War Production Board is required for any person to deliver Class A pigments in excess of "pigment quota" to fill "quota orders", and to deliver Class B pigments.

3. *Number of separate sets.* Separate sets shall be filed for (a) Class A pigments, (b) Chromium oxide green, and (c) Zinc chromate.

4. *Number of copies of each set.* Prepare an original and three copies. File original and two copies with the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–370, retaining the third copy for your files.

5. *Special instructions for filling out forms.* Follow the instructions on the form except where they conflict with the specific instructions given below:

Heading. In the heading under "Name of chemical", specify "Chrome pigments" and below it "Class A pigments", or "Chromium oxide green", or "Zinc chromate", whichever is the case; under "WPB Order No.", specify "M–370"; indicate month and year under which deliveries are to be made; under "Unit of measure", specify "Pounds"; and check whether you are producer or distributor. The address of plant or warehouse from which shipments are to be made need not be given nor need a separate form be filed for each plant or warehouse.

Column 1. Class A Pigments. List names of customers who apply on Form WPB 2945 for Class A pigments for delivery during the particular calendar quarter.

Class B pigments (chromium oxide green and zinc chromate). List the names of customers who have applied on Form WPB 2945 for material to be delivered during the following month. If it is necessary to use more than one sheet to list customers, number each sheet in order and show grand total for all sheets on last sheet, which is the only one that need be certified. Small deliveries of Class B pigments should be estimated. Fill in the aggregate amount of such deliveries; do not list the name of each customer. A producer requiring permission to use a part or all of his own production of Class A pigments, or Class B pigments in excess of his "pigment quota" shall list his own name as a customer in Column 1, specifying the quantity required.

Column 2. In Column 2 (except for "small deliveries" of Class B pigments as explained above), specify delivery destination.

Column 5. Column 5 may be filled in, but it is optional.

Column 6. Leave Column 6 blank.

Table II. This table need not be filled in for class A pigments. In the case of Class B pigments, each producer shall fill in Columns 8, 9, 10, 11, 12, 13 and 15. In Column 14, state approximate production capacity. Distributors need only fill in Columns 8, 10, 12 and 15 for Class B pigments.

APPENDIX C

A certificate in substantially the following form, either signed manually or as provided in Priorities Regulation No. 7, is required for delivery of "exempt orders" for Class A pigments, pursuant to paragraph (c) of Order M–370. A purchase order number of one of the government agencies specified in paragraph (a) (10) of Order M–370 may be stated on the certificate in place of the contract number. If the Class A pigments are to be used for the manufacture of marine paints controlled by Order P–65, which paints are to be used for maintenance, repair or operating supplies in accordance with paragraph (d) (2) of Order P–65, specify merely "P–65 Marine Paints" in place of "Contract Nos.".

EXEMPT ORDER CERTIFICATION

The undersigned hereby certifies to the War Production Board and to _____ (insert name and address of supplier) that he is familiar with the provisions of Order M–370, and that his Purchase Order No. ____, dated _____, is an "exempt order" or is for replacement of inventory used to fill "exempt orders" as defined in Order M–370, and bear Contract Nos. _____. The undersigned further certifies that acceptance of delivery of the chrome pigments covered by this purchase order will not increase his inventory in excess of the limits set forth in paragraph (g) of Order M–370.

_____
Name of purchaser

_____
Date

By _____
Signature and title of duly authorized official

A certificate in substantially the following form, either signed manually or as provided in Priorities Regulation No. 7, is required for delivery of all "quota orders" for Class A pigments not authorized on Form WPB–2946, as provided in paragraph (d) of Order M–370:

QUOTA ORDER CERTIFICATION

The undersigned hereby certifies to the War Production Board and to _____ (insert name and address of supplier) that he is familiar with the provisions of Order M–370, and that acceptance of delivery of the Class A pigments listed on his purchase order, No._____, dated_____, will not exceed his "pigment quota" for the current calendar quarter, 194__, and will also not increase his inventory in excess of the limits set forth in paragraph (g) of Order M–370.

_____
Name of purchaser

By _____
Signature and title of duly authorized official

APPENDIX D—PIGMENT QUOTAS—CLASS A PIGMENTS

The table set forth below shows the total amount of Class A pigments you may acquire or use in a calendar quarter to fill "quota orders". You have a different quota for pigments acquired or used for the manufacture of printing ink and crayons than for the manufacture of all other products. At the present time, there are only three classes of products listed. Opposite each, in the second column, is the quota of Class A pigments which you may acquire in any calendar quarter to make that class of product. (The quantity of Class A pigments which a producer used of his own production of those pigments in 1941 for the manufacture of that class of product, shall be considered as having been acquired by him in 1941 for the manufacture of that class of product.) The third column shows the quota of Class A pigments which you may use in any calendar quarter to make that class of product.

You may not exceed these quotas without obtaining authorization from War Production Board.

TABLE FOR DETERMINING APPLICABLE PIGMENT QUOTA

[NOTE: Table amended in its entirety July 6, 1944.]

Product to be manufactured	Quota of Class A pigments which may be acquired in a calendar quarter	Quota of Class A pigments which may be used in a calendar quarter	Quantity of Class A pigments which may be used or acquired to fill exempt orders
Printing ink	300 lbs. or 12½% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of printing ink.	300 lbs. or 12½% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of printing ink.	None.
Crayons	300 lbs. or 12½% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of crayons.	300 lbs. or 12½% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of crayons.	None.
All other products	300 lbs. or 6¼% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of all other products.	300 lbs. or 6¼% of total Class A pigments acquired by the particular consumer in 1941 (whichever is the greater) for the manufacture of all other products.	Unlimited.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 17, as Amended July 6, 1944]

ACRYLIC MONOMER AND ACRYLIC RESIN

§ 3295.1017 *Schedule 17 to General Allocation Order M-300*—(a) *Definitions.* For the purpose of this schedule and Order M-300:

(1) "Acrylic monomer" means the first grade unpolymerized forms of the methyl and higher esters of acrylic and methacrylic acids.

(2) "Acrylic resin" means the first grade polymerized form of the methyl and higher esters of acrylic and methacrylic acids, in the following forms:

First grade cast sheet (unfabricated) not including pieces having an area of less than three square feet produced as a by-product of normal casting or fabricating operations.
First grade molded sheet (unfabricated).
First grade molding powder.
First grade rod.
First grade tube.
First grade solution.
First grade emulsion.
First grade cast primary shapes.
First grade acrylic denture-base material.
First grade granular polymers.

(3) "Supplier" of acrylic monomer and acrylic resin means any person who: (i) Synthesizes monomer from raw materials; or (ii) Manufactures acrylic monomer by de-polymerization of acrylic resin; or (iii) Manufactures acrylic resin by polymerization of acrylic monomer; or (iv) Purchases acrylic monomer or acrylic resin for the purpose of resale without further fabrication, processing or admixing.

(b) *General provisions.* Acrylic monomer and acrylic resin are subject to allocation under General Allocation Order M-300 as Appendix B materials. The initial allocation date is January 1, 1943, the date when these materials first became subject to allocation under Order M-260 (revoked). The allocation period is the calendar month. The small order exemption per person per month, without use certificate, is each and all the following:

Cast sheet	50 square feet
Molded sheet	50 square feet
Molding powder	100 pounds
Cast shapes	50 pounds
Tube	25 pounds
Rod	25 pounds
Solution	400 pounds (1 barrel)
Emulsion	400 pounds (1 barrel)
Monomer	10 gallons (80 pounds)
Granular polymers	100 pounds

Small order quantities may be received in addition to allocated quantities for experimental use and also to complete current jobs for which acrylic monomer or resin has been allocated, notwithstanding paragraph (p) (2) of Order M-300.

NOTE: Former paragraph (c) revoked; paragraphs (d) through (h) redesignated (c) through (g) July 6, 1944.

(c) *Special dental exception.* A supplier who delivers acrylic monomer and acrylic resin exclusively for dental use may make such deliveries, and his customers may order and accept delivery for dental use, without restriction under this order.

(d) *Special exception for suppliers' intra-company deliveries.* In the case of any group of suppliers under common ownership and control who produce both acrylic monomer and acrylic resin for general purposes, the monomer producing units may deliver acrylic monomer to the resin producing units to the extent necessary to produce resin to fill authorized orders, and the resin producing units may receive and use the monomer for this purpose, without application or specific authorization.

(e) *Suppliers' applications on WPB-2947.* Each supplier (as defined in paragraph (a) (3) above) seeking authorization to use or deliver shall file application on Form WPB-2947 (formerly PD-602). The filing date is the 15th day of the month before the proposed use or delivery month. Send three certified copies to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300-17. File a separate set of applications for each plant and for each different grade or type of acrylic monomer or acrylic resin as set forth in paragraph (a) (2) above. An aggregate quantity may be requested, without specifying customers' names, for delivery on uncertified small orders. Purchase orders or releases against purchase orders for aircraft glazing sheet shall not be listed individually, but totals shall be listed. Fill in Table II.

(f) *Military emergency shipments.* A supplier may make application on Form WPB-2947 for authorization to expedite shipments against anticipated emergency war orders from the Armed Services or their contractors. Column 1 shall read "Emergency shipments against Government contracts". Column 4 shall show the aggregate quantity of the proposed shipments. From the quantity allocated on this application the supplier may make such shipments without further authorization. Subsequently, on the first WPB-2947 form filed after the end of the month, the supplier shall report his emergency shipments by listing in the usual manner the customers, end uses and quantities. An entry shall be made in Column 7 for each such customer to show that the material was expedited and that shipment was made in the preceding month, as, for example, "Expedited—May". In the case of emergency shipments to contractors, suppliers must obtain written or telegraphic certification from the Armed Service involved, stating that an emergency exists. Any unused material in the "emergency pool" at the end of the month shall be returned to inventory.

(g) *Certified uses with purchase orders.* Each person placing purchase orders for delivery of more than the small order exemption quantity shall furnish each supplier with a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M-300. Examples of and uses are: "Aircraft radio lens", "Industrial steamgauge lens", "Military denture-base material" or "Civilian denture-base material". Military items are those which are being produced against a prime or sub-contract for the Armed Services. Confidential end uses may be described in general terms but the prime contract number must be specified.

(h) *Surplus stocks.* (1) Surplus and excess stocks of first grade cast sheet (unfabricated) in sizes and thicknesses listed in the manufacturer's price list when the stock is sold, may be sold by the holder under Priorities Regulation 13 to any supplier (whose use or redelivery is subject to this order) or to any aircraft manufacturer, who may use the sheet for aircraft purposes without application or further authorization. A sale to any other purchaser must be authorized upon application by the holder on Form WPB-1161, and the authorized purchaser may use the sheet sold under the authorization without further application or authorization.

(2) Surplus and excess stocks of first grade cast sheet (unfabricated) in sizes and thicknesses not listed in the manufacturer's price list when the stock is sold, may be freely sold and delivered by the holder under Priorities Regulation 13, and thereafter shall not be subject to restriction under this order.

(3) Surplus and excess stocks of acrylic monomer or resin in forms other than cast sheet may be sold under Priorities Regulation 13 without application or specific authorization, but the purchaser must apply to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-17, on Form WPB-2945 or by letter (three copies), for authorization to use this material.

(4) Instead of disposing of surplus and excess stocks in accordance with paragraphs (h) (1), (2) and (3) above, the holder may elect to treat himself as a supplier and to file application for authorization to deliver under paragraph (e) of this schedule, based on use certificates from his customers filed under paragraph (g) of this schedule.

(i) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Communications to the War Production Board.* Communications concerning this schedule shall, unless otherwise directed, be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Reference: M-300-17.

Issued this 6th day of July 1944.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 32]

CARBON BLACK

§ 3293.1032 *Schedule 32 to General Allocation Order M-300*—(a) *Definitions.* (1) "Carbon black" means furnace type carbon black and channel type carbon black as defined herein. The term does not include lampblack, acetylene black, animal black, or vegetable black.

(2) "Furnace type carbon black" means the pigment produced by the thermal decomposition of hydrocarbons in a furnace. The term includes but is not limited to those blacks known commercially as high modulus, semi-reinforcing and thermal.

(3) "Channel type carbon black" means the pigment produced by the impingement of a flame (burning natural gas) against a channel and weighing, when packed, 17 pounds or more per cubic foot. The term includes but is not limited to those blacks known commercially as easy processing, medium processing, and hard processing.

(b) *General provisions.* Carbon black is subject to the provisions of General Allocation Order M-300 as an Appendix C material. The initial allocation date is November 1, 1942, for furnace type carbon black, previously allocated under Allocation Order M-244 (revoked), and for Channel type carbon black the initial allocation date is August 1, 1944. The allocation period is the calendar month. A customer may purchase an aggregate quantity of 100 pounds or less of carbon black per month from all suppliers without restrictions, must furnish use certificates with each order when seeking delivery of between 100 and 20,000 pounds per month from all suppliers, and must file on Form WPB-2945 for more than 20,000 pounds per month from all suppliers.

(c) *Special provisions.* (1) Use, delivery and acceptance of delivery of furnace type carbon black prior to August 1, 1944 will be authorized on the basis of applications filed in the form heretofore prescribed in Order M-244.

(2) All stocks of carbon black are subject to this Schedule, notwithstanding the "consumers' stocks" exemption in paragraph (n) of Order M-300.

(d) *Suppliers' applications on Form WPB-2947.* Each supplier seeking authorization to deliver shall file application on Form WPB-2947 (formerly PD-602). The filing date is the 20th of the month preceding the proposed delivery month. Send four copies (one certified) to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-32. The unit of measure is pounds. Fill in Tables I and II as indicated.

(e) *Customers' applications on Form WPB-2945.* Each person seeking authorization to use or accept delivery of more than 20,000 pounds of carbon black per month from all suppliers shall file application for authorization on Form WPB-2945 (formerly PD-600). The filing date is the 15th day of the month preceding the requested allocation month. Send three copies (one certified) to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref.: M-300-32, one copy (reverse side blank) to the supplier, and retain one copy. Separate forms should be filed for each different grade or type of carbon black, and separate sets shall be submitted for each delivery destination of applicant. The unit of measure is pounds.

In Column (3), specify primary product in terms of the following:

Crude rubber
Liquid latex
Whole tire reclaim
All other reclaim
Scrap rubber
Buna S
Buna N
Butyl
Thiokol
Neoprene
All other types of synthetic rubber (specify)
Other primary products (specify)
Export (as carbon black)
Resale (as carbon black)
Inventory (as carbon black)

In Column (4), opposite each type of rubber specified in Column (3), specify the end use pattern in terms of the following code numbers, giving the percentage of carbon black requested for each different code number:

Use	War (code number) [1]	Civilian (code number) [2]
Passenger tires	20	50
Truck and bus tires	21	51
Farm tractors & implement tires	22	52
Tank blocks, treads & tracks	23	-----
Solids, industrial & truck solids and bogie wheels	24	54
Bicycle tires	25	55
Airplane tires	26	56
Passenger type camelback	27	57
Truck & bus camelback	28	58
Tire tubes	29	59
Tires & tube repair material	30	60
Belting	31	61
Hose and tubing	32	62
Packing and gaskets	33	63
Other mechanical goods	34	64
Wire and cable	35	65
Footwear	36	66
Heels	37	67
Soles	38	68
Curing bags	39	69
Proofing, clothing and fabrics	40	70
Drug sundries	41	71
Bullet sealing fuel cells	42	-----
Life rafts, boats, vests	43	-----
Miscellaneous	44	73

[1] "War Code Number" means that the particular carbon black is to be incorporated into products to be delivered to the Army, Navy, Coast Guard, Maritime Commission, or to or for the account of any foreign country under the Act of March 11, 1941 (Lend-Lease Act).

[2] "Civilian Code Number" means any end use not identified by a "War Code Number".

(f) *Certified uses with purchase orders.* Each person placing purchase orders for delivery of between 100 and 20,000 pounds of carbon black per month in the aggregate from all suppliers shall furnish each supplier with a certified statement of proposed use, in the form prescribed in Appendix D of General Allocation Order M-300. Describe proposed end use in the same manner as described in paragraph (e) above. Certified end use statements shall be filed with the supplier not later than the 15th of the month preceding the requested delivery month.

(g) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Communications to War Production Board.* All reports filed hereunder and all communications concerning this Schedule, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref.: M-300-32.

Issued this 6th day of July 1944.

PART 1305—ADMINISTRATION

[Supp. Order 93]

ELIMINATION OF HIGHEST PRICE LINE LIMITATION FROM SPECIFIED REGULATIONS WITH RESPECT TO SELLERS OF GARMENTS AT RETAIL

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

§ 1305.121 *Elimination of the highest price line limitation from specified regulations with respect to sellers of garments at retail.* (a) On and after June 30, 1944, the highest price line limitations contained in Maximum Price Regulation 14.2, Maximum Price Regulation 177, Maximum Price Regulation 178, Revised Maximum Price Regulation 287 and Maximum Price Regulation 330,[1] and in any orders issued thereunder by the Office of Price Administration, shall not apply to sellers of garments at retail. For purposes of this supplementary order "highest price line limitation" means any provision in any of the above regulations, or orders issued thereunder, which requires a seller to limit his sales with reference to any highest price line offered for sale or delivered by him at any prior time.

This Supplementary Order No. 93 shall become effective as of June 30, 1944.

PART 1346—BUILDING MATERIALS

[MPR 544]

FLAMEPROOF COTTON INSULATION

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, to replace the General Maximum Price Regulation and Maximum Price Regulation No. 188, insofar as they apply to the determination of maximum prices for flameproof cotton insulation, with a separate regulation establishing maximum prices for this product. Installed sales of flameproof cotton insulation are not covered by this regulation.

So far as practicable, the Price Administrator has consulted representatives of the trade or industry affected, and in the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected. Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Maximum Price Regulation No. 544 is hereby issued.

ARTICLE I—PERSONS AND TRANSACTIONS SUBJECT TO THIS REGULATION; ITS RELATIONSHIP TO OTHER REGULATIONS

SECTION 1.1 *Persons subject to this regulation.* Any person who makes the type or kind of sale or purchase covered by this regulation is subject to it.

"Person" means any individual, corporation, partnership, association, or any other organized group of persons, or legal successors, or representatives of any of the foregoing, and includes the United States or any agency thereof, or any other Government, or any of its political subdivisions, or any agency of any of the foregoing.

SEC. 1.2 *Transactions covered by this regulation.* This regulation covers sales and purchases of flameproof cotton insulation by any person on an uninstalled basis.

"Flameproof cotton insulation" means a type of insulating material produced from low-grade, short-staple cotton or cotton waste, which has been treated so as to be fire resistant, and produced in accordance with Cotton Insulation Specification No. 6 of the Cotton Insulation Program of the War Food Administration.

Flameproof Cotton Insulation is hereafter referred to in this regulation as the "Product."

SEC. 1.3 *Relationship of this Maximum Price Regulation No. 544 to other regulations.* The provisions of this regulation supersede the General Maximum Price Regulation and Maximum Price Regulation No. 188 with respect to sales and purchases of the product by any person. Installed sales remain under the coverage of Maximum Price Regulation No. 251, including any amendment, supplement, revision, or other price regulation which, subsequent to the issuance of this regulation, may be applicable to such installations.

SEC. 1.4 *Geographical applicability.* The provisions of this regulation shall apply to the 48 states of the United States and the District of Columbia.

ARTICLE II—MAXIMUM PRICES FOR FLAMEPROOF COTTON INSULATION

SEC. 2.1 *Maximum prices for sales and purchases of flameproof cotton insulation*—(a) *Classes of purchasers.* Maximum prices for sales and purchases of the product are those set forth in Tables I and II for the classes of purchasers as defined in this paragraph (a).

"Class A distributor," means a person who performs the same function as a manufacturer's sales organization, and distributes principally to wholesalers and jobbers over a nation-wide or wide geographical area, without normally having physical possession of the product.

"Class B distributor," means a person who purchases the product for resale principally to trade buyers[1], who normally warehouses the principal portion of his purchases and who operates over an area equal to at least 25 percent of the continental United States.

"Class C distributor," means a person who purchases the product for resale principally to trade buyers, who normally stocks in his warehouse the principal portion of his purchases and who operates over an area equal to less than 25 percent of the continental United States. For the purpose of the price schedules contained in Tables I and II, mail order houses and equipment accounts shall be considered Class C distributors. Equipment accounts are any persons who incorporate the product as an integral part of an article which they manufacture and sell, such as prefabricators, refrigerator manufacturers, trailer manufacturers, etc.

"Retailer," means a person who purchases the product normally for resale to the ultimate consumer and who generally carries the product in stock. For the purposes of the price schedules contained in Tables I and II, an insulating contractor shall be considered a "retailer."

"Consumer" means a person who purchases the product for his own ultimate use rather than for resale. For the purposes of the price schedules contained in Tables I and II, a consumer purchasing in carload lots shall be considered a retailer purchasing in less-than-carload lots from a Class B or C distributor's warehouse and shall be charged no more than the maximum prices established in Tables I and II for retailer less-than-carload shipments from such distributor's warehouse.

NOTE: Any person subject to this regulation who is doubtful as to his class of purchaser status is requested to communicate with the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., giving the following information:

1. Name and address of applicant.
2. Description of the geographical area served by applicant.
3. Approximate percentage of sales to applicant's various classes of purchasers.
4. Any other relevant information which will assist the Office of Price Administration in properly classifying the applicant.

(b) *Geographical zones.* The geographical zones to which reference is made in Tables I and II are as follows:

[1] Trade buyer refers to any person other than one who purchases for his own ultimate use.

(c) *Transportation practices.* (1) The maximum prices set forth in Tables I and II for sales to Class A distributors, as defined in suparagraph (a) above, are f. o. b. factory.

(2) On sales to Class B distributors, Class C distributors and retailers, in carload or less-than-carload lots for direct shipment from the factory, full freight to railhead destination shall be allowed.

(3) On sales to retailers, in less-than-carload lots out of a Class B or C distributor's warehouse, the maximum prices set forth in Tables I and II are f. o. b. such warehouse.

(4) On sales to consumers, in carload lots, full freight to railhead destination shall be allowed.

(5) A carload is the maximum quantity of flameproof cotton insulation that can be loaded in a boxcar without subjecting the lower packages to damage by crushing, and does not necessarily mean the minimum carload weight for the product as provided for in the tariffs. The aggregate weight of a carload, however, shall total 6,000 pounds or more.

(6) A less-than-carload shipment of the product shall be a quantity of material, the aggregate weight of which is less than 6,000 pounds.

NOTES TO TABLES I AND II

Maximum prices for thicknesses of the product varying within those set forth in Tables I and II shall be determined as follows:

1. Select those thicknesses listed in Table I directly above and directly below the thickness being priced.

2. The maximum price for the new thickness shall be in direct proportion to the prices set forth in Table I for the thicknesses directly above and below the new thickness. Thus, the maximum price for standard paper backed 1¼" insulation for sales to Class "A" distributors, applying the above steps, would be $15.13. Similarly, the maximum price for 1⅝" standard paper backed insulation for sales to Class "A" distributors would be $18.25.

SEC. 2.2 *Sales between manufacturers and between retailers.* (a) Any manufacturer subject to this regulation may offer to sell, sell and deliver flameproof cotton insulation to any other manufacturer subject to this regulation at a price agreed upon by the seller and buyer under the following conditions:

(1) Both the seller and the buyer must be "manufacturers" as that term is defined in this subparagraph (a);

(2) The buyer must resell the product in the same form as purchased from the seller; and

(3) The price resulting from the agreement under this section must not in any way change or affect, directly or indirectly, the prices set forth in Tables I and II for subsequent sales nor may such price be used as a basis for a request for an increase in price by way of an application for adjustment or petition for amendment under this regulation.

"Manufacturer" means any person who normally produces his purchasers' requirements of flameproof cotton insulation, but who may, from time to time, supplement his own production with purchases from other manufacturers for resale usually under his own name or trade brand to the same trade classifications through which he normally distributes his own product.

(b) Any retailer subject to this regulation may offer to sell, sell and deliver such commodity to any other retailer subject to this regulation at a price agreed upon by the seller and buyer under the following conditions:

(1) Both the seller and the buyer must be "retailers" as that term is defined in this regulation;

(2) The buyer must resell the product in the same form as purchased from the seller; and

(3) The price resulting from the agreement under this section must not in any way change or affect, directly or indirectly, the prices set forth in Tables I and II for subsequent sales nor may such price be used as a basis for a request for an increase in price by way of an application for adjustment or petition for amendment under this regulation. Use of the adjustment provisions set forth in this paragraph (b) shall not extend to insulating contractors. Such persons are regarded as "retailers" only for the purposes of the price schedules contained in Tables I and II.

SEC. 2.3 *Pricing of flameproof cotton insulation not specifically covered by this regulation.* The maximum prices for any flameproof cotton insulation which is offered for sale on and after July 11, 1944, the effective date of this regulation, and for which no maximum price has been established by this regulation shall be determined in accordance with § 1499.154 of Maximum Price Regulation No. 188 by manufacturers, and §§ 1499.2 and 1499.3 of the General Maximum Price Regulation by persons other than manufacturers.

ARTICLE III—PROHIBITIONS AND PENALTIES

SEC. 3.1 *Prohibitions against sales and purchases of flameproof cotton insulation at prices above maximum prices.* (a) On and after July 11, 1944, the effective date of this regulation:

(1) No person shall sell the product at prices above those established by this regulation.

(2) No person in the course of trade or business shall buy or receive the product at prices higher than those permitted by this regulation.

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2) of this paragraph.

(b) *Prices lower than maximum prices.* Lower prices than those provided for by this regulation may, of course, be offered, charged or paid.

SEC. 3.2 *Prohibited practices.* Any practice which is a device to secure the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

SEC. 3.3 *Penalties.* (a) Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement suits, treble damage actions, and proceedings for revocation of licenses provided by the Emergency Price Control Act of 1942, as amended.

(b) No War Procurement Agency or any contracting or paying finance officer thereof, shall be subject to any liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended. "War Procurement Agency" as used in this paragraph includes the War Department, Navy Department, United States Maritime Commission, and the Lend-Lease Section of the Procurement Division of the Treasury Department, or any agency of any of the foregoing.

ARTICLE IV—MISCELLANEOUS PROVISIONS

SEC. 4.1 *Application for adjustment—(a) Government contracts and subcontracts.* Any person who has made or intends to make a government contract or subcontract thereunder, who believes that a maximum price under this regulation impedes or threatens to impede the production or distribution of a commodity which is deemed essential to the war program by the appropriate government agency, and which is or will be the subject of the contract or subcontract, may file an application for adjustment of that maximum price in accordance with Revised Supplementary Order No. 9 and Procedural Regulation No. 6, issued by the Office of Price Administration.

SEC. 4.2 *Petitions for amendment.* Any person who seeks a change in any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1. A petition for amendment must propose a change of general applicability for the industry as a whole or a substantial portion of the industry or a change affecting all sellers in a given area, as distinguished from an application for an individual price adjustment.

SEC. 4.3 *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 4.4 *Adjustable pricing.* Any person may agree to sell at a price which may be increased up to the maximum price in effect at the time the product is delivered, but no person may, unless authorized by the Office of Price Administration, sell or agree to sell the product at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after such commodity has been delivered. Such authorization may be given when a request for a change in the applicable price is pending, but only if the authorization is necessary to promote production or distribution and will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order except that it may be given by letter or telegram when the pending request is for an individual application for adjustment.

SEC. 4.5 *Federal and State taxes.* (a) There may be added to the maximum prices established by this regulation the amount of tax levied by any Federal excise tax statute or any state or municipal sales, gross proceeds, gross receipts, or compensating use tax statute or ordinance under which the tax is measured by gross proceeds or units of sale, if, but only if (1) such statute or ordinance requires the vendor to state the tax separately from the purchase price paid by the purchaser, consumer or user, on the bill, sales check, or evidence of sale at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the consumer, purchaser or user with tokens or other media of State or municipal tax payments; or (3) such statute or ordinance permits the vendor to state such tax separately, and such tax is in fact separately stated by the vendor. The amount of tax permitted to be added by this paragraph shall in no event exceed that actually paid by the purchaser, consumer or user.

(b) Supplementary Order No. 31, issued by the Office of Price Administration, dealing with the treatment of the tax on transportation of property imposed by the Revenue Act of 1942, shall be applicable to sales of flameproof cotton insulation under this regulation.

SEC. 4.6 *Records and reports.* (a) *Records.* Every person making sales subject to this regulation must keep records containing a description of each such sale, showing the date thereof, the name and address of the buyer, the point of origin and the point of destination, the prices received, and the exact nature of the sale made by the seller. All such records must be available for inspection by representatives of the Office of Price Administration for as long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) *Reports.* Persons subject to this regulation shall submit such reports to the Office of Price Administration as it may from time to time require, subject

to the approval of the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Effective date. This regulation shall become effective July 11, 1944.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 6th day of July 1944.

FATS AND OILS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

A new Article XVIII is added to read as follows:

ARTICLE XVIII—DOMESTIC TUNG OIL

SEC. 18.1 *Maximum prices of domestic tung oil (Chinawood oil).* The maximum prices of domestic tung oil, f. o. b. New York, Gulf ports or Pacific Coast ports, shall be the following prices:

	Cents per pound
Tankcars	38.375
Returnable drums, carlots	39.00

(a) *Quantity differentials.* When tung oil is sold in returnable drums in less than carlot quantities, the seller may add to the carlot price set forth above, the differentials hereinafter set forth for the particular quantity sold:

Quantity sold:	*Differential to be added (cents per pound)*
Carlots, in more than one delivery of 10 drums each	1.00
5 to 9 drums, one delivery	1.50
1 to 4 drums, one delivery	2.00

(b) *Container differentials.* (1) If the oil is shipped in nonreturnable drums, the cost of the drums may be added to the above returnable drum prices.

(2) The usual or normal differentials for containers other than tankcars or drums shall continue to apply.

This amendment shall become effective July 11, 1944.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16, Amdt. 12]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 16 is amended in the following respects:

1. Section 4.11 (b) (5) is added to read as follows:

(5) A primary distributor is not required to file any report on OPA Forms R-1606 (Revised), R-1607, or R-1609 (Revised) for foods covered by this order which have a zero point value during the entire period covered by the report.

2. Section 4.11 (c) (4) is amended by adding at the end thereof the following: "He must continue to report on OPA Form R-1606A for any reporting period during which he transfers canned fish even though he is not required to report on OPA Form R-1606 (Revised) under paragraph (b) (5) of this section."

3. Section 4.11 (d) is amended by adding at the end thereof the following: "However, a primary distributor is not required to include in his report on OPA Forms R-1606 (Revised), R-1607, or R-1609 (Revised) any information with respect to foods covered by this order while they have a zero point value."

4. Section 4.16 (f) is added to read as follows:

(f) A primary distributor need not keep the records required by this section for any food covered by this order while that food has a zero point value. He must, however, keep such records for canned fish.

This amendment shall become effective July 10, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard: Department of the Navy

PART 9—REGULATIONS RELATING TO THE REMOVAL AND EXCLUSION OF PERSONS FROM VESSELS AND WATERFRONT FACILITIES

SURRENDER OF DOCUMENTS BY PERSONS ORDERED EXCLUDED

Under the authority of Executive Order No. 9074 (7 F.R. 1587) and pursuant to the Act of July 9, 1943, c. 212, 57 Stat. 391 (50 Appendix U.S.C. Supp. III, 1311, 1312), and to make more effective the regulations relating to the removal and exclusion of persons from vessels and waterfront facilities (8 F.R. 16867), the following regulations relating to the surrender of documents by persons ordered excluded under said regulations are hereby promulgated and approved:

Sec.
9.101 Definition.
9.102 Surrender of maritime documents; penalty.
9.103 Disposition of maritime documents.
9.104 Separability.

AUTHORITY: §§ 9.101 to 9.104 inclusive, issued under E.O. 9074, 7 F.R. 1587; 57 Stat. 391, 50 U.S.C. App. Supp. III, 1311, 1312.

§ 9.101 *Definition.* As used in this subpart the term "maritime documents" means: (a) Certificates of identification, continuous discharge books, certificates of service, certificates of efficiency, certificates of registry, licenses as officers, and employment cards, issued by any agency of the United States to seamen and officers of merchant vessels; and (b) Coast Guard Captain of the Port Identification Cards.

§ 9.102 *Surrender of maritime documents; penalty.* Any person heretofore or hereafter ordered excluded from vessels and waterfront facilities pursuant to the regulations relating to the removal and exclusion of persons from vessels and waterfront facilities (8 F.R. 16867) shall, as soon as possible after demand therefor, deliver to the District Coast Guard Officer for the Naval District in which he is present, all maritime documents issued to him or in his possession. Wilful violation of this section is a misdemeanor punishable by a fine of not to exceed $5,000 or imprisonment for not more than one year, or both, under the Act of July 9, 1943, c. 212, 57 Stat. 391 (50 Appendix U.S.C. Supp. III, 1311).

§ 9.103 *Disposition of maritime documents.* Upon delivery of maritime documents to the District Coast Guard Officer pursuant to § 9.102 appropriate receipt will be issued therefor. In the case of temporary exclusions, the District Coast Guard Officer will retain the maritime documents pending final decision in the case. If the temporary exclusion is vacated, the maritime documents shall be returned against an appropriate receipt. If the temporary exclusion is made permanent for the duration, the Coast Guard Captain of the Port Indentification Card shall be destroyed and the other maritime documents transmitted to the Commandant, United States Coast Guard, for safekeeping for the duration of the war.

§ 9.104 *Separability.* If any provision of the regulations contained in this subpart or the application of such provision to any person, maritime document, or circumstance, shall be held invalid, the validity of the remainder of the regulations contained in this subpart and the applicability of such provision to other persons, maritime documents, or circumstances, shall not be affected thereby.

R. R. WAESCHE,
Vice Admiral, U. S. C. G.,
Commandant.

Approved: July 5, 1944.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter II—Office of Defense Transportation

[Gen. Order ODT 24, Amdt. 2]

PART 500—CONSERVATION OF RAIL EQUIPMENT

PASSENGER TRAIN OPERATIONS RESTRICTED

Pursuant to Executive Order 8989, as amended, Amendment 1 to General Order ODT 24 (7 F.R. 7814, 10484) is superseded, and § 500.43 of General Order ODT 24 is hereby amended to read as follows:

§ 500.43 *Exemptions.* The provisions of § 500.41 of this General Order ODT 24 shall not apply to:

(a) Passenger trains or cars operated for the exclusive service of the President of the United States, or for the exclusive service of the military, naval or merchant marine forces of the United States or of any nation allied with the United States in the war, whether traveling under official orders or on furlough;

(b) Passenger trains or cars operated for the purpose of transporting prisoners of war, or other persons when in the official custody of the United States;

(c) Passenger trains or cars operated for the purpose of transporting to or from a place of employment, groups of workers recruited by an agency or department of the United States: *Provided, however,* That the agency or department of the United States responsible for the recruiting of any such group of workers has furnished written notice to the rail carrier which is to originate any such train, or to arrange for the furnishing of any such car, that such workers are to be employed immediately in an occupation essential to the prosecution of the war, or that such workers are returning from a place where they have been so employed;

(d) Extra sections of scheduled passenger trains where the operation of such extra sections is made necessary (1) as a result of the handling of cars primarily occupied by the military, naval or merchant marine forces of the United States or of any nation allied with the United States in the war, whether traveling under official orders or on furlough; or (2) by reason of the handling of cars the operation of which is authorized by the provisions of paragraphs (b) and (c) hereof;

(e) (1) Passenger train schedules, railroad cars or extra sections when the motive power and the equipment thereof have been assigned to or have been used for the transportation of troops and such motive power and equipment are proceeding from their terminal to the point of origin of such troop movement or returning from the point of destination thereof to the terminal of origin of such train; or (2) an extra section to any scheduled passenger train when by reason of weather conditions it is necessary to divide such scheduled passenger train in order to provide adequate heating therefor or to insure safety in the operation thereof: *Provided, however,* That with respect to the operation of any passenger train schedules, railroad cars or extra sections as contemplated by this paragraph (e), the chief operating officer of the operating rail carrier shall, on each Saturday, make a report in writing to the Office of Defense Transportation, describing each passenger train schedule, railroad car, or extra section operated by such carrier during the six preceding calendar days and set forth the conditions requiring such operations;

(f) Passenger train schedules, railroad cars, or extra sections required as a result of emergencies arising from an accident, public calamity, military necessity of the United States or of any nation allied with the United States in the war, or train delay: *Provided, however,* That with respect to the operation of any such passenger train schedules, railroad cars or extra sections, other than those operated as a result of emergencies arising from military necessity, the chief operating officer of the operating rail carrier shall, within 48 hours of such operation, make a report in writing to the Office of Defense Transportation describing each such train schedule, railroad car, or extra section so operated and explaining in full the emergency requiring the operation thereof.

This Amendment 2 to General Order ODT 24 shall become effective on July 10, 1944.

Amendment 1 to General Order ODT 24 (7 F.R. 10484) is hereby revoked as of the effective date of this Amendment 2.

(E.O. 8989, as amended, 6 F.R. 6725, 8 F.R. 14183)

Issued at Washington, D. C., this 6th day of July 1944.

J. M. JOHNSON,
Director,
Office of Defense Transportation.

[Supp. Vesting Order 3774]

PAUL VON NEINDORFF

In re: Smudge pots owned by Paul von Neindorff.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Having found by Vesting Order Number 2841, dated December 21, 1943, that Paul von Neindorff is a resident of Germany and a national of a designated enemy country (Germany);

2. Finding that Paul von Neindorff is the owner of the property described in subparagraph 3 hereof;

3. Finding that the property described as follows:

All those certain smudge pots, believed to be 560, presently located on real property described in Exhibit B, attached to and by reference made a part of said Vesting Order Number 2841,

is property within the United States owned or controlled by a national of a designated enemy country (Germany);

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C. on June 7, 1944.

LANSEC CORP.

In re: Dividend declared by Lansec Corporation.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Having found in Vesting Order No. 2784, dated December 15, 1943, that Lanova Geneve, S. A. and Gotthard Wielich are nationals of a designated enemy country (Germany);

2. Finding that the property described in subparagraph 3 hereof is property of Lanova Geneve, S. A. and/or Gotthard Wielich;

3. Finding that the property described as follows:

The unpaid dividend of $6.00 per share declared on December 27, 1943, by Lansec Corporation on the 150 shares of $100 par value common capital stock vested by Vesting Order No. 2784,

is property within the United States owned or controlled by nationals of a designated enemy country (Germany);

and determining:

4. That Gotthard Wielich and Lanova Geneve, S. A. are controlled by or acting for or on behalf of a designated enemy country (Germany) or persons within such country and are nationals of a designated enemy country (Germany);

5. That such nationals are persons not within a designated enemy country, but that the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification, required by law and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States,

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

[Detroit Order G-6 Under MPR 426]

CERTAIN DECIDUOUS TREE FRUITS IN WAYNE COUNTY, MICH.

Order No. G-6 under Maximum Price Regulation No. 426. Order adjusting certain maximum markups of certain deciduous tree fruits sold in Wayne County, Michigan.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Office and Administrator of Region III by Article III, section 15, Appendix J, paragraph (I) (4) of Maximum Price Regulation No. 426 and by the Regional Administrator delegated to the Detroit District Office or District Director thereof, it is hereby ordered:

(a) *Primary receivers selling ex-car, ex-truck, ex-dock, ex-terminal sales platform.* For sales ex-car, ex-truck, ex-dock, or ex-terminal sales platform at a terminal market or any wholesale receiving point by primary receivers in less-than-carlots or less-than-trucklots, the maximum price shall be the maximum delivered price (see Column 6 of the applicable table in paragraph (d) of Appendix J), plus the mark-up named in Column 5 of the table in Exhibit A of this order.

(b) *Definitions.* The terms used in this order shall have the same meaning that they have when used in the Appendix J except as herein modified or changed. The term "terminal sales platform" means a platform at a railroad terminal used for the purposes of making displays and sales of cars of produce and other perishables which are held on track regardless of whether such terminal platform is used free of charge or whether there is a compensation required to be paid for such use, and which platform is not equipped for permanent storing or warehousing.

(c) To the extent applicable, the provisions of this order supersede Maximum Price Regulation No. 426.

This order may be modified, amended or revoked at any time by the Office of Price Administration.

This order shall become effective June 29, 1944.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

Issued this 28th day of June 1944.

MILK IN NEW YORK REGION

Amendment No. 2 to Order No. G-1 issued under § 1351.817 (a) of Maximum Price Regulation 280, as amended. Maximum prices for specific food products. Maximum prices for interhandler sales of bulk fluid milk.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1351.817 (a) of Maximum Price Regulation No. 280, as amended, *It is ordered that:*

Section (f) of Order No. G-2 as amended, be further amended to read as follows:

(f) (1) The maximum price at which an intermediate handler (as hereinafter defined in section (1) may sell and deliver fluid milk at wholesale in other than glass or paper containers to any purchaser other than a store, hotel, restaurant or institution, in the course of trade or business, may purchase or receive such fluid milk from an intermediate handler within the States of New York, New Jersey, Pennsylvania, Delaware, Maryland and the District of Columbia, comprising Region II of the Office of Price Administration, shall be the price at which such fluid milk was purchased from a primary handler in accordance with section (b) hereof, plus can, transportation and pasteurization costs, if any, in accordance with sections (c), (d) and (e) hereof, plus a markup no greater than the difference, if any, between the markup the primary handler was entitled to take under section (b) hereof and the markup the intermediate handler would be entitled to take on the sale by him if such sale had been made by him as a primary handler. For example, if an intermediate handler purchases the entire annual output of fluid milk in accordance with section (b) (1) hereof, and if such intermediate handler resells such fluid milk in accordance with section (b) (2) hereof, he shall be entitled to the difference between the 25¢ markup prescribed in section (b) (1) and the 30% markup prescribed in section (b) (2). If an intermediate handler purchases fluid milk from a first intermediate interhandler, in accordance with section (b) (2) hereof, such second intermediate handler shall be entitled to the difference between the markup prescribed in section (b) (2) and the markup prescribed in section (b) (3). It is the purpose of this section to prevent successive intermediate handlers from adding successive markups at the full amount permitted by sections (b) (1), (2) or (3) to the end that the aggregate markups taken by all handlers shall not exceed 40¢ per cwt.

(2) The maximum price at which a handler, who commingles fluid milk purchased from producers and other handlers, or from other handlers only, may sell and deliver such fluid milk at wholesale in either glass or paper containers to a purchaser other than a store, hotel, restaurant or institution and the maximum price at which any purchaser other than a store, hotel, restaurant or institution in the course of trade or business may purchase or receive such fluid milk from such handler shall be the weighted average price at which such handler purchased all such fluid milk (except that, in computing the cost of fluid milk purchased from other handlers, the markup paid by such handler permitted by section (b) (1) (2) or (3) herein shall not be included), plus can, transportation and pasteurization costs, if any, in accordance with sections (c), (d) and (e) hereof, plus the applicable markup which a primary handler would be entitled to take under section (b) hereof, and; *It is further ordered,* That:

Section (i) (7) be amended to read as follows:

(7) "The primary handler's fluid milk cost" means the price paid for fluid milk by a primary handler to a producer but not exceeding the maximum price established therefor under Maximum Price Regulation No. 329, as amended, or any applicable order issued under said regulation. If a primary handler purchases or receives fluid milk from a producer under the provisions of any order, agreement or license issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, "the primary handler's fluid milk cost" shall mean the price paid by such primary handler to such producer under such order, agreement or license. Where a primary handler commingles fluid milk purchased from more than one producer, the "primary handler's fluid milk cost" shall be the weighted average cost of all such milk so purchased.

This Amendment No. 2 to Order G-1 shall become effective July 1st, 1944.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-883]

BUFFALO, NIAGARA AND EASTERN POWER CORP.

ORDER MODIFYING CONDITIONS AND GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of June 1944.

A declaration having been filed with this Commission by Buffalo, Niagara and Eastern Power Corporation, a subsidiary of Niagara Hudson Power Corporation, in turn a subsidiary of The United Corporation, a registered holding company, pursuant to section 12 (b) of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder regarding the forgiveness of open account indebtedness of $285,000 owing to it by a wholly-owned subsidiary, The Lockport and Newfane Power and Water Supply Company; consummation of such transaction being subject, however, to an arrangement of a satisfactory closing agreement with the Commissioner of Internal Revenue; and

The Commission having by order dated May 2, 1944 permitted the declaration to become effective subject to the terms and conditions prescribed in Rule U-24 which rule provides in part that, unless otherwise requested the transactions proposed by declarant be carried out within 60 days of the Commissioner's order permitting the declaration to become effective; and

Buffalo, Niagara and Eastern Power Corporation having advised the Commission of its unexpected inability to effectuate the requisite closing agreement within the 60-day period provided by Rule U-24 within which to consummate the proposed transaction; and having requested that the terms and conditions of said rule be modified to the extent necessary to extend the time within which the transactions, as set forth in the declaration, may be consummated; and the Commission deeming it appropriate that such request be granted;

It is ordered, That the terms and conditions contained in our order of May 2, 1944 (Holding Company Act Release No. 5023) be, and hereby are, modified to the extent necessary to extend the time within which such transactions may be consummated to September 1, 1944.

By the Commission.

ARKANSAS-MISSOURI POWER CORP.

[File No. 70-911]

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 4th day of July, A. D. 1944.

Arkansas-Missouri Power Corporation, a registered holding company in The Middle West Corporation holding-company system, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935, particularly section 12 (d) thereof and Rule U-44 thereunder, regarding the proposed sale to Central States Edison, Inc. of (a) 14,547 shares of common stock (all such outstanding shares) of East Missouri Power Company for a base consideration of $600,000 and (b) an open account indebtedness of $30,000 owing by East Missouri Power Company to Arkansas-Missouri Power Corporation for $30,000;

Arkansas-Missouri Power Corporation having included in its declaration a proposal regarding the solicitation of authorizations of its common stockholders in connection with the above described transaction pursuant to Rule U-62 of the act;

Said declaration containing copies of the proposed notice of special meeting to stockholders, proxy and proxy statement, and a full statement of the manner in which the solicitation is proposed to be made;

Arkansas-Missouri Power Corporation having requested that the declaration in respect of the proxy solicitation material be considered and disposed of independently of the principal transaction and that the Commission enter its separate order permitting said declaration as to all such proxy solicitation material, to become effective;

It appearing that the solicitation of authorizations of the common stockholders as proposed to be conducted, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder, that the Commission issue

[1] 9 F.R. 4789.

any order with respect thereto other than an order permitting the declaration as to such solicitation to become effective;

It is therefore ordered, That, without passing upon the merits of the declaration filed pursuant to section 12 (d), the declaration as to solicitation of authorizations be and it is hereby permitted to become effective forthwith.

By the Commission.

AMERICAN GAS AND ELECTRIC CO., ET AL.

NOTICE OF FILING AND ORDER FOR HEARING

In the matter of American Gas and Electric Company, Indiana & Michigan Electric Company, and St. Joseph Heating Company.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of July A. D. 1944.

Notice is hereby given that a joint application or declaration (or both) has been filed with this Commission by American Gas and Electric Company ("American Gas"), a registered holding company, and its subsidiary companies Indiana & Michigan Electric Company ("Indiana & Michigan") and St. Joseph Heating Company ("St. Joseph"), pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations of this Commission promulgated thereunder. All interested persons are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

St. Joseph will sell and Indiana & Michigan will purchase all of the physical property, the depreciation fund and certain other assets of St. Joseph. The physical property of St. Joseph will be sold at a price equal to the book cost thereof less accrued depreciation as shown on the books of St. Joseph as of the end of the month preceding the date of sale, but not in excess of $35,000. The depreciation fund, consisting of cash and securities in the book amount of $165,219.62, will be sold for an amount equal to the cash plus the cost or market value, whichever is lower, of the securities in said depreciation fund as of the end of the month preceding the date of sale. Among the securities in said depreciation fund are 310 shares of 7% preferred stock of Indiana & Michigan.

Upon the completion of the sale described above, St. Joseph will wind up its business and dissolve. After other creditors have been fully satisfied American Gas, as the sole creditor of St. Joseph and the owner of all of its capital stock, will receive the remaining assets owned by St. Joseph. Such remaining assets will consist solely of cash and 30 shares of 7% preferred stock of Indiana & Michigan.

The application or declaration (or both) states that the business of St. Joseph consists exclusively of supplying buildings within reach of its distribution system with steam for heating purposes and that St. Joseph does not have a plant or facilities for the production of the steam used by it in carrying on its business but purchases all the steam used by it from Indiana & Michigan.

It appearing to the Commission that it is appropriate in the public interest that a hearing be held with respect to said matters and that said application or declaration (or both) shall not be granted or permitted to become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules thereunder be held on July 19, 1944 at 10.30 a. m., E. W. T., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated at such time by the hearing room clerk in Room 318. Notice of said hearing is hereby given to the above named applicants or declarants and to all interested parties, said notice to be given to said applicants or declarants by registered mail and to all other persons by publication in the FEDERAL REGISTER.

It is further ordered, That Charles S. Lobingier or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a Trial Examiner under the Commission's rules of practice.

It is further ordered, That any person desiring to be heard at said hearing or proposing to intervene therein shall file with the Secretary of the Commission on or before July 17, 1944, his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That, without limiting the scope of the issues presented by said application or declaration (or both), particular attention will be directed at said hearing to the following matters and questions:

(1) Whether the proposed transactions comply with the requirements of section 10 (b) (2) and 10 (c) (1) of the act.

(2) Whether the accounting entries in connection with the proposed transactions are in conformity with the standards of the act.

(3) Whether in all other respects the proposed transactions are in conformity with the applicable provisions of the act and the rules, regulations and orders thereunder.

(4) What terms and conditions, if any, are necessary or appropriate in the public interest or the interest of investors or consumers to insure compliance with the requirements of the Public Utility Holding Company Act of 1935, or any rules, regulations, or orders promulgated thereunder.

By the Commission.

WAR MANPOWER COMMISSION.

[Gen. order 8]

MORRISTOWN, N. J., AREA

MINIMUM WARTIME WORKWEEK

Designation of the Morristown, New Jersey, labor market area as subject to Executive Order No. 9301.

By virtue of the authority vested in me as Regional Manpower Director of Region No. III by § 903.2 of War Manpower Commission Regulation No. 3, "Minimum Wartime Workweek of 48 Hours," (8 F. R. 7225), and having found that such action will aid in alleviating labor shortages which are impeding the war effort, I hereby designate the Morristown, New Jersey, area as subject to the provisions of Executive Order No. 9301.

I. For the purposes of this designation, the Morristown, New Jersey, area shall include:

Sussex County; Morris County, excluding the municipalities of Butler, Kinnelon, Lincoln Park, Pequannock and Riverdale; Bernardsville and Bernards Township (North of Lyons) in Somerset County; and Allamuchy, Blairstown, Frelinghuysen, Hardwick and Pahaquarry in Warren County.

II. The effective date of this designation is July 1, 1944.

III. Not later than the effective date, each employer in the Morristown, New Jersey area shall, in accordance with War Manpower Commission Regulation No. 3:

(a) Extend to a minimum wartime workweek of 48 hours, the workweek of any of his workers whose workweek can be so extended without involving the release of any worker;

(b) If extension of the workweek of any of his workers to a minimum wartime workweek of 48 hours would involve the release of any workers, submit to the Area Manpower Director the number and occupational classification of the workers whose release would be involved, together with proposed schedules for their release, and thereafter extend such workweek when and as directed in schedules authorized by the War Manpower Commission;

(c) File an application for a minimum wartime workweek of less than 48 hours for those workers engaged in employment in which the employer claims that a workweek of 48 hours would be impracticable in view of the nature of the operations, would not contribute to the reduction of labor requirements, or would conflict with any Federal, State, or local law or regulation limiting hours of work.

Date of issuance: June 29, 1944.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 244, 2d Ed.]

PART 622—CLASSIFICATION

IDENTIFICATION OF LIMITED SERVICE REGISTRANTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 622.82 to read as follows:

§ 622.82 *Identifying certain registrants in Class I–A, Class I–A–O, and Class IV–E found qualified for limited service only.* When a selected man in Class I–A, Class I–A–O, or Class IV–E has been found qualified for limited service at the induction station, he shall be identified in all records by following his classification with the letter "(L)" so long as he remains classified in Class I–A, Class I–A–O, or Class IV–E. While such registrant is retained in Class I–A, he shall be identified thus, "Class I–A (L)." While such registrant is retained in Class I–A–O, he shall be identified thus, "Class I–A–O (L)." While such registrant is retained in Class IV–E he shall be identified thus, "Class IV–E (L)."

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

[Amdt. 245, 2d Ed.]

PART 652—ASSIGNMENT AND DELIVERY OF PERSONS TO WORK OF NATIONAL IMPORTANCE UNDER CIVILIAN DIRECTION

CONSCIENTIOUS OBJECTOR REPORT

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend paragraphs (b) and (c) and add paragraph (d) to § 652.1 to read as follows:

§ 652.1 *Report of conscientious objector to Director of Selective Service.*

* * *

(b) When a registrant is classified in Class IV–E and identified by following his classification with the letter "(L)" and his classification is not under consideration on appearance, reopening, or appeal, and the time in which he is entitled to request an appearance or take an appeal has expired, and his order number is reached in the process of selecting Class I–A and Class I–A–O registrants to report for induction whose classifications are identified with the letter "(L)," the local board shall immediately notify the Director of Selective Service on Conscientious Objector Report (Form 48) that the registrant is available for assignment to work of national importance under civilian direction.

(c) Four copies of the Conscientious Objector Report (Form 48) shall be filled out and signed by a member of the local board. Under "Remarks" the local board should add any additional information that might aid in the proper assignment of the registrant. The original and two copies of the Conscientious Objector Report (Form 48) shall be mailed to the State Director of Selective Service and the remaining copy retained in the registrant's Cover Sheet (Form 53). The State Director of Selective Service shall immediately transmit the original and one copy of the Conscientious Objector Report (Form 48) to the Director of Selective Service and shall file the remaining copy.

(d) Until such time as his defects have been corrected, no Conscientious Objector Report (Form 48) shall be filled out or used for a registrant who, according to the report of the examining physician, will be qualified for general service after satisfactory correction of specified remediable defects.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

HOUSING

Section 1075.1 *Conservation Order L-41*, Schedule C is hereby amended by deleting the words "Housing, except farm housing and hotels" and by substituting "Housing covered by WPB Directive No. 24".

Issued this 7th day of July 1944.

PART 1075—CONSTRUCTION

[Conservation Order L-41, Interpretation 8]

INSTALLATION OF PROCESSING MACHINERY

The following interpretation is issued with respect to Conservation Order L-41:

Paragraph (a) of Direction 2 to L-41 permits the installation of a piece of processing machinery or equipment under certain conditions. Paragraph (b) of that Direction permits the relocation of a piece of processing machinery or equipment or building service equipment within a plant under certain conditions.

If the installation of a piece of processing machinery or equipment satisfies the provisions of paragraph (a) of Direction 2, it may be made. The fact that the piece of processing machinery was formerly used in another plant belonging to the same owner or in the same plant does not prevent installation under paragraph (a).

Issued this 7th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 44-9982; Filed, July 7, 1944; 11:08 a. m.]

PART 1075—CONSTRUCTION

[Conservation Order L-41, Interpretation 9]

INSTALLATION OF EQUIPMENT AND FIXTURES

The following interpretation is issued with respect to Conservation Order L-41:

Paragraph (b) of L-41 describes the kind of work which is covered by the order under the term construction. It specifically states that "the installing of equipment or fixtures" is construction and is covered by L-41.

This means that if a piece of equipment or a fixture is attached to a building and used as a part of the building, or if a piece of equipment or a fixture is so firmly attached to the building that removal would result in material injury to the building or the fixture, construction under L-41 is involved and the limitations of L-41 apply.

The following kinds of installations are construction under L-41:

The installation of any piece of equipment or fixture which is attached to the plumbing system of a building; the installation of any piece of equipment or fixture which involves putting new wiring in a building; the installation of any piece of equipment or fixture for which a base or foundation must be built; the installation of any piece of equipment or fixture cemented to a floor or wall of a building; the installation of a furnace or stoker connected by pipes or flues or wiring to the building.

The following kinds of installations are not construction under L-41:

The installation of a counter, table or booth which is attached to the building only by nails or screws and which can be removed as a unit and will only make it necessary to fill up the holes left by the nails or screws (however, if the counter contains equipment which is attached to the plumbing system, construction is involved); the installation of a piece of equipment or fixture which requires only making a connection to an existing wiring outlet (if new wires must be run or a new outlet built into the wall or ceiling, construction is involved).

These examples illustrate the general principles. In case of doubt as to a particular installation, consult the nearest WPB office or file an application for permission to do the work, if the cost of the work plus the cost of other construction already done on the building during the calendar year exceeds the allowance given under the applicable paragraph of section (c) of L-41.

Issued this 7th day of July 1944.

Recording Secretary.

PART 3291—CONSUMERS DURABLE GOODS

[Supplementary Limitation Order L-30-d, as Amended July 6, 1944]

MISCELLANEOUS COOKING UTENSILS AND OTHER ARTICLES

§ 3291.165 *Supplementary Limitation Order L-30-d*—(a) *Definitions.* For the purposes of this order:

(1) "Manufacturer" means any person who produces or assembles any article listed on Schedule A or Schedule B attached to this order, or any part for any such article.

(2) "To produce" or "to assemble" an article does not include the application of a coating or finish or the attaching of bails, handles, spouts or ears to articles which are otherwise completed.

(3) "To put into process" means for a person to perform the first manufacturing or assembly operations on material or parts received by him.

(4) "Base period" means the twelve months ending June 30, 1941.

(5) "Joining hardware" means nuts, screws, nails, bolts, clasps, rivets and other similar items of small hardware used for joining or other similar purposes.

(6) "Repair parts" means any part for an article or product which is not produced for or used in a new article or product.

(7) "Preferred order" means any purchase order, contract, or subcontract for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission, or the War Shipping Administration.

(b) *Prohibition of production of articles on Schedule A.* No manufacturer shall produce or assemble any of the articles listed on Schedule A or parts (including repair parts) for such articles containing any metal.

(c) *Restrictions on production of articles on Schedule B.* No manufacturer shall produce or assemble any articles listed on Schedule B or any parts (including repair parts) for such articles containing any metal except in accordance with the provisions of that schedule.

(d) *Exceptions.* (1) The provisions of paragraphs (b) and (c) do not apply to (i) articles produced to fill preferred orders; (ii) articles containing not more than 5% by weight of iron and steel, including joining hardware; (iii) articles covered by other orders in the L-30 series, as amended from time to time, or by supplements or directions issued under those orders; or (iv) articles produced from iron or steel which, on November 17, 1942, had been cut, blanked or otherwise formed to size or shape for the articles, and is not in mill standard gauges and sizes.

(2) The War Production Board from time to time may issue directions under this order controlling the production of articles it covers. When a direction is issued its provisions will supersede the provisions of this order for the articles it covers, unless the direction states otherwise.

(e) *Provisions concerning distribution.* (1) For the purpose of this paragraph (i) "Special order" means a rated purchase order or contract bearing a statement that the preference ratings were assigned pursuant to Form WPB-547 (formerly PD-1X). It is the policy of the War Production Board to assign such ratings only to take care of emergencies or to fill special needs arising from war conditions.

(ii) "Total quarterly production" means either the total dollar value or the total number of units of each article produced under this order during a calendar quarter. Articles produced or sold on preferred orders shall be disregarded in this calculation.

(2) Of his total quarterly production of any article each manufacturer shall allocate his sales so that 25% are sold on special orders and 75% on other orders. Fifteen days after the end of the quarter any balance of the 25% for which he has no special orders may be sold on other orders. For example, articles produced in the third quarter and held for sale on special orders may be sold on or after October 15th on other orders.

(3) It is hereby declared to be the policy of the War Production Board that each manufacturer shall distribute equitably all articles sold on other than special orders. In line with this policy, each manufacturer should follow his 1942 pattern of distribution, making any adjustments necessary to take care of population and other changes resulting from war conditions. Upon complaint of any person or without such complaint, the War Production Board may investigate any case of supposed failure of any person to distribute his product equitably, and may issue such instructions as are necessary to obtain equitable distribution. Any instructions pursuant to this paragraph to be valid must be in writing.

(4) [Deleted July 6, 1944.]

(5) In complying with the provisions of subparagraph (3) above, each manufacturer shall fill all rated orders (other than special orders) in accordance with applicable War Production Board regulations. However, it should be noted that under Priorities Regulation No. 3, as amended, articles produced under this order are not subject to preference ratings assigned by any regulations or orders of the War Production Board for maintenance, repair or operating supplies (including CMP Regulation Nos. 5 and 5A).

(f) *Applicability of other orders and regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of articles covered by this order to a greater extent than this order or any direction issued under it, the other order shall govern unless there is a provision stating otherwise.

(g) *Appeals.* Any appeal from this order should be made on Form WPB-1477 (formerly PD-500) and should be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(h) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(i) *Reports.* On or before January 20, April 20, July 20, and October 20 of each year, each manufacturer shall file with the War Production Board, Form WPB-1600, showing his production, shipment and inventory during the preceding quarter, of articles produced in accordance with Schedule B. This reporting provision has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Communications.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref: L-30-d.

Issued this 6th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A: *Prohibited articles.* The production of the following articles is prohibited in accordance with the provisions of paragraph (b) of this order, except as provided in paragraph (d):

Cake coolers
Camp grids
Candlesticks
Carpet beaters
Closet accessories, except coat and hat hooks, boot and shoe trees, garment bags and garment hangers
Clothes pins
Concrete garbage receptacle containing more than 5 percent, by weight, of metal, exclusive of the weight of separate bases or blocks
Cup frames
Curtain rods and fixtures and drapery attachments
Cuspidors and spittoons
Dish pans
Dust pans, silent butlers and crumb sets
Fly swatters
Funnels
Household storage articles (all articles designed for the storage of foods or household supplies, including but not limited to, vegetable bins, canisters, spice sets, bread boxes, cake covers or safes, holders for salt, soap or cleanser cartons, step-on cans and window boxes for the storage of food, but excluding (i) pails, buckets and tubs; and (ii) containers designed for the packing, shipment or delivery of materials or products of any kind, including but not limited to, cans as defined in Conservation Orders M-81 or M-135, glass containers or closures as defined in Limitation Order L-103, and drums as defined in Limitation Order L-197
Picnic stoves
Pot chains
Pot cover holders
Sink accessories, including but not limited to, sink drainers, dish drainers, rinsing pans and pot scourers (except pot scourers produced from wire scrap only)
Soap savers and soap dishes
Toilet paper holders
Tooth brush holders
Towel bars and racks
Wash boards

SCHEDULE B. *Permitted articles.* The production of the articles listed must conform to the restrictions of this schedule in accordance with the provisions of paragraph (c) of Order L-30-d, except as provided in paragraph (d) of that order.

No manufacturer shall produce or assemble any article falling within any class in column (1) or any part for such article, containing any metal, except articles listed in column (2) conforming to the restrictions of column (3) and containing only the metals listed in column (4).

Definitions of terms used in column (4)

"Iron and steel" means unalloyed iron and steel.

"Black steel" means uncoated, polished or lacquered carbon steel. It does not include any steel which has a metal or vitreous-enameled coating.

"Plated" means that the iron or steel may be plated with another metal when not prohibited by any M Order or any other Order of the War Production Board.

"Specified materials" means iron or steel which falls within one or more of the following classes:

(i) Iron or steel obtained pursuant to a special sale as defined in Priorities Regulation No. 13, and in accordance with the terms of that regulation;

(ii) Top cuts of steel (being that portion of steel in ingot normally discarded as not meeting special quality requirements of the customer's order for which it was melted);

(iii) Bessemer processed steel;

(iv) Sheet mill seconds, rejects and wasters, 28-gauge and heavier;

(v) Tin mill black plate rejects, 29 and 30-gauge;

(vi) Iron or steel obtained from a warehouse (as defined in Conservation Order M-21-b):

(vii) Rerolled rail steel.

(viii) Scroll-sheer butts and slitter waste;

(ix) Wire shorts and rejects.

Quarterly quotas of iron and steel. Except in fulfillment of preferred orders, no manufacturer shall put into process during any calendar quarter, beginning July 1, 1943, more iron and steel, by weight, in the production of any articles listed in column (2) and parts for such articles, than the percentage specified in column (5) of the average quarterly amount of iron and steel, by weight, put into process by him in the production of such articles and parts during the base period. Unless otherwise noted, the base period production shall include all articles of the type listed in column (2) produced by him in the base period, whether or not they conformed to the limitations of columns (3) and (4).

In addition to his quota as explained above, a manufacturer may put into process in the production of any articles during any calendar quarter any unused part of his previous quarter's quota of iron and steel for such articles.

Chapter XI—Office of Price Administration

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 3,[1] Amdt. 81]

SUGAR

A rationale accompanying this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 3 is amended in the following respect:

1. Section 1407.87e is added to read as follows:

§ 1407.87e *Packers of fancy, choice or standard whole unpeeled apricots may obtain and use additional sugar.* (a) In addition to any other provisional allowance of sugar he may obtain, an industrial user may obtain and use during the 1944 apricot packing season a provisional allowance of 1.3 pounds of sugar for each case of fancy whole unpeeled apricots he will pack during the 1944 packing season in excess of the number of such cases he packed in 1941; one pound of sugar for each case of choice whole unpeeled apricots he will pack during the 1944 packing season in excess of the number of such cases he packed in 1941; and 0.6 pound of sugar for each case of standard whole unpeeled apricots he will pack during the 1944 packing season in excess of the number of such cases he packed in 1941.

(b) Application for the additional sugar may be made at any time during the 1944 packing season to the Board (or District Office if he is registered there) on OPA Form R-315 and shall state: (1) The number of cases of fancy whole unpeeled apricots he will pack during the 1944 packing season and the number of such cases he packed in 1941; (2) the number of cases of choice whole unpeeled apricots he will pack during the 1944 packing season and the number of such cases he packed in 1941; and (3) the number of cases of standard whole unpeeled apricots he will pack during the 1944 packing season and the number of such cases he packed during 1941.

(c) If the Board (or District Office if he is registered there) finds that the facts stated in the application are true it will issue to the applicant a certificate in the amount provided in (a).

(d) Sugar obtained under this section may be used only for the purposes for which it was granted, and only during the 1944 apricot packing season.

(e) An industrial user who obtains sugar under this section must within 30 days after the close of the 1944 apricot packing season account for his use of such sugar to the Board (or District Office if he is registered there).

NOTE: A "case" means a case of 24/2½'s (or equivalent).

This amendment shall become effective July 7, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1306—IRON AND STEEL PRODUCTS

[RPS 6,[1] Amdt. 10]

IRON AND STEEL PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Price Schedule 6 is amended in the following respects:

1. Section 1306.7a is added to read as follows:

§ 1306.7a *Adjustable pricing.* Any person may agree to sell at a price which may be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by letter or telegram when the contemplated revision might be the granting of an individual application for adjustment.

2. Section 1306.8 (h) (3) (ii) (*a*) is amended to read as follows:

(*a*) The maximum chemical analyses extras for the following basic open hearth grades shall be:

	Per 100 lbs.
NE 8600	$0.65
NE 8700	.70
AISI 4100 (Mo.—.15 to .25)	.70
AISI 3100	.85

On analyses of all other alloy steels for which chemical extras and extras for alloy content are not included in the standard extra list, the applicable charge for chemical composition and alloy content shall be calculated from the list of extras for hot rolled alloy steel bars as published and filed by the Carnegie-Illinois Steel Corporation.

The customary differentials for electric furnace quality and for variations from the standard analyses range shall apply to these extras.

3. Section 1306.8 (h) (4) is added to read as follows:

(*4*) The extras or other charges which may be charged on the sales of hot finished alloy steel bars and bar strip, billets, blooms, and slabs, cold rolled alloy strip, and hot and cold finished alloy mechanical and pressure tubing shall be as established in subparagraphs (1) and (2) of § 1306.8 (h), *Provided*, That: (i) with respect to sales of alloy steel bars, bar strip, billets, blooms, slabs and cold

rolled alloy strip the maximum analysis extras for the following basic open hearth grades, shall be:

	Basic Open Hearth	
	Bars—Bar strip cold rolled strip Per 100 lbs.	Blooms, billets and slabs Per gross ton
NE 8600	$0.65	$13.00
NE 8700	.70	14.00
AISI 4100 (mo.—0.15 to 0.25)	.70	14.00
AISI 3100	.85	17.00

The customary differentials for electric furnace quality and for variations from the standard analysis range shall apply to these extras.

(ii) With respect to sales of alloy steel mechanical and pressure tubing (except aircraft tubing and bearing tubing) the maximum analysis extras for the following basic open hearth grades, NE 8600, NE 8700, AISI 4100 and AISI 3100, shall be the bar extras stated in subparagraph (i) of this paragraph converted to a percentage "base" in accordance with the "Analysis Extras and Deductions" tables filed with the Office of Price Administration by producers of alloy steel tubing.

4. Section 1306.8 (c) is amended by amending the proviso at the end of that paragraph to read as follows: "*Provided*, That the term shall not include axles or car wheels, or any combination rolled or forged, or pig iron."

5. Section 1306.11, Appendix B is amended by deleting from the list of products contained therein the following: "axles, car wheels, or any combination—rolled or forged".

This amendment shall become effective July 12, 1944.

Issued this 7th day of July 1944.

Appendix E.

ARTICLE I—SCOPE AND PROHIBITIONS OF THE REGULATION

SECTION 1. *Products, persons, and transactions covered*—(a) *Products.* This regulation applies to "bolts, nuts, screws and rivets". Wherever used in this regulation "bolts, nuts, screws and rivets" means and includes the following products when manufactured from ferrous and/or non-ferrous metals other than aluminum:

(1) All types and sizes of the products mentioned in Appendix B of this regulation and also every similar fastening, manufactured by any process to any specifications whatsoever;

(2) Threaded studs of all types; socket head and recessed head bolts and screws; blank bolts, track bolts, track bolt nuts and screw spikes; lock nuts; speed nuts, wing nuts, thumb nuts, acorn nuts, cap nuts, clinch nuts; thumb screws; binding screws; split rivets and tubular rivets; clevis pins; wire spokes and spoke nipples; all of these when manufactured by any process to any specifications whatsoever; and

(3) Miscellaneous headed, threaded, punched, bent or cut-off products when manufactured by a person who is otherwise a "producer" by the use of any machine customarily used in the manufacture of any headed or punched product mentioned in Appendix B: *Provided*, That, "bolts, nuts, screws and rivets" does not mean or include the following products: except for those mentioned in (1) and (2) above, screw machine products[2] (Maximum Price Regulation 136); wire nails (Revised Price Schedule 6); cut nails, cut tacks, cotter pins or washers (General Maximum Price Regulation); pipe plugs or pipe fittings (Maximum Price Regulation 188); solid or flexible staybolts (Maximum Price Regulation 136).

(b) *Persons.* This regulation applies to producers of bolts, nuts, screws and rivets and to persons who purchase from such producers.

(1) "Producer" is any person who manufactures bolts, nuts, screws and rivets.

(2) "Person" includes: an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing; the United States or any government, or any of its political subdivisions; or any agency of the foregoing.

(c) *Transactions.* This regulation applies to all transactions in connection with sales by a producer for delivery within any of the forty-eight states or the District of Columbia of bolts, nuts, screws and rivets manufactured by him or purchased by him from surplus stocks accumulated as a result of the war or purchased by him from another producer on a price basis which includes a manufacturer's exchange discount which customarily was or would have been given by one producer to another between October 1 and 15, 1941, except that the following transactions are not covered by this regulation:

(1) Transactions in connection with the sale of bolts, nuts, screws and rivets purchased from another producer on a price basis which does not include a manufacturer's exchange discount which customarily was or would have been given by one producer to another between October 1 and 15, 1941;

(2) An "export" or an "export sale"[3] as defined in the Second Revised Maximum Export Price Regulation;

(3) Transactions in connection with the sale of bolts, nuts, screws and rivets as "pole line hardware" for use in transmission or distribution line construction;

(4) Transactions in connection with the sale of bolts, nuts, screws and rivets when specially packaged and sold as "automotive parts" by a "manufacturer" of automotive parts, both as defined in Maximum Price Regulation 452, or when sold as replacement parts by a manufacturer of motor vehicles or by a manufacturer of an assembly designed for use only as an automotive part or accessory;

(5) Transactions in connection with the sale of bolts, nuts, screws and rivets other than those contained in Appendix B by a producer who was not engaged in the manufacture and sale of any bolts, nuts, screws and rivets between October 1 and 15, 1941.

SEC. 2. *Prohibition against dealing in bolts, nuts, screws and rivets at prices above the maximum.* On and after July 12, 1944, regardless of any contract, agreement, lease or other obligation:

(a) No producer shall sell or deliver bolts, nuts, screws and rivets at prices higher than the maximum prices set forth in this regulation;

(b) No person shall buy or receive from a producer any bolts, nuts, screws and rivets in the course of trade or business at prices higher than the maximum prices set forth in this regulation;

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing.

SEC. 3. *Prohibition against evasive practices.* The price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to bolts, nuts, screws and rivets alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

SEC. 4. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 3808, 3905, 8948; 8 F.R. 6361, 12476.

[2] "Screw machine products" are products manufactured complete or in their first operation on hand or automatic screw machines from rod, bar or tube stock and sold unassembled.

[3] Includes Lend-Lease sales to government procurement agencies.

price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 5. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

ARTICLE II—GENERAL PROVISIONS

SEC. 6. *General definitions.* Wherever used in this regulation:

(a) "Item" means a bolt, nut, screw or rivet of one combination of type, specifications and dimensions.

(b) "Price" means price per pricing unit.

(c) "Pacific Coast" means the states of Washington, Oregon and California.

(d) "Carload" means a quantity of bolts, nuts, screws and/or rivets whose weight equals or exceeds the minimum weight required to obtain the all-rail carload freight rate in the published all-rail freight tariff in effect at time of shipment.

(e) "Point of shipment" means on board conveyance at the selling producer's factory point.

(f) "Point of delivery" means the point to which the railroad customarily carries shipments directed to the plant of the purchaser or of the person to whom the purchaser instructs that delivery be made.

SEC. 7. *Taxes.* The amount of any tax upon, or in connection with, sales or deliveries of bolts, nuts, screws and rivets incurred or paid by the seller may be collected from the purchaser in addition to the maximum prices established by this regulation if the amount is stated separately and if the statute or ordinance imposing such tax does not prohibit the seller from separately stating and collecting it.

SEC. 8. *Records and reports.* (a) Every person making sales of bolts, nuts, screws and rivets and every person making purchases from a producer shall keep for inspection for a period of not less than one year a complete and accurate record of each purchase or sale, showing the date thereof, the dimensions, type and quantity of each item sold or purchased, the name and address of the buyer or seller, the shipping point price or delivered price as the case may be, and transportation charges or allowances, if any.

(b) For as long as this regulation is in effect, and for one year thereafter, each producer shall keep on file a record of all price schedules, extras, discounts and minimum charges which he published or customarily used for pricing purposes between October 1 and 15, 1941; and also a record of his material costs, labor rates and overhead rates in effect during that period.

(c) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require.

SEC. 9. *Filing of price schedules.* On or before August 11, 1944, each producer shall file with the Office of Price Administration, Washington, D. C., one copy of each list price schedule and base price schedule with applicable discounts, extras and minimum charges published or used for pricing purposes between October 1 and 15, 1941, excepting those price schedules and applicable discounts, extras and minimum charges which have already been so filed.

SEC. 10. *Applications for adjustment and petitions for amendment.* (a) The Price Administrator may grant an adjustment permitting a producer to calculate his transportation charges for delivery from the emergency basing point in cases where the producer shows that by reason of unusual circumstances arising from the emergency demands of the war he proposes to make, or is making, a shipment or series of shipments to a place which is not within his usual market area. Applications for such adjustments must be filed in accordance with Revised Procedural Regulation No. 1[7] issued by the Office of Price Administration. As used in this paragraph: "Emergency basing point" means the established basing point at or nearest the place of production or the origin of shipment; "usual market area" of any producer means that area into which bolts, nuts, screws and rivets had, between October 1, 1940, and October 1, 1941, inclusive, customarily been shipped by such producer in quantities and types comparable to the shipments with respect to which application is made.

(b) Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 12. *Enforcement.* Persons violating any provisions of this regulation shall be subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

ARTICLE III—MAXIMUM PRICES AND EXCEPTIONS

SEC. 13. *Maximum prices.*—(a) *Bolts, nuts, screws and rivets contained in Appendix B.* The maximum delivered price for any item shall be the applicable domestic list price, including extras, published by any of the following producers and in effect between October 1 and 15, 1941:

American Screw Company.
Atlas Bolt & Screw Company.
Bayonne Bolt Corporation.
Bethlehem Steel Company.
Buffalo Bolt Company.
Central Screw Company.
Champion Rivet Company.
Clark Brothers Bolt Company.
Cleveland Cap Screw Company.
Continental Screw Company.
Corbin Screw Corporation.
Erie Bolt & Nut Company.
Federal Screw Works.
Ferry Cap & Set Screw Company.
Lamson & Sessions Company.
Milton Manufacturing Company.
National Lock Company.
National Screw & Mfg. Company.
Oliver Iron & Steel Corporation.
Ottemiller, Wm. H., Company.
Parker, Charles Company.
Pittsburgh Screw & Bolt Corporation.
Republic Steel Corporation.
Russell, Burdsall & Ward Bolt & Nut Company.
Sheffield Steel Corporation.
Townsend Company.

Provided, That:

(1) In the case of a large rivet, the maximum delivered price shall be a base price of $3.75 per hundred pounds or, when delivery is made on the Pacific Coast, $4.50 per hundred pounds for carload or $4.95 per hundred pounds for less than carload, plus the applicable extras published by any of the producers listed above and in effect between October 1 and 15, 1941;

(2) There shall be deducted the applicable discounts in Appendix C or, in the case of items for which discounts are shown in Appendix D when delivery is made on the Pacific Coast, the applicable discounts in Appendix D;

(3) Adjustment shall be made for credit terms in accordance with the selling producer's customary practice in effect between October 1 and 15, 1941, and for additional applicable discounts or allowances customarily granted by the selling producer between October 1 and 15, 1941, to other producers or to jobbers, dealers or other distributors, or to a specific purchaser or to specific classes of purchasers such as the railroad, carbuilding or automotive industries;

(4) In the case of a sale to the Government or any of its agencies of an item packed for shipment outside continental United States, the maximum price shall be the maximum price for the same sale if made for Lend-Lease purposes, computed as described in Appendix E;

(5) Where a producer customarily made a minimum charge on certain types of sales between October 1 and 15, 1941, such minimum charge may be made on the same types of sales;

(6) There may be added the applicable delivery charges in Appendix A;

(7) When, in the case of an emergency arising from the demands of war, a producer is requested to furnish an item contained in Appendix B and does not have such item in stock and, in order to meet the required delivery, manufactures such item from a longer item of the same type and specifications, on a quantity not exceeding 150 pieces of such item delivered to any one purchaser during any seven-day period he may charge the maximum price applicable to the longer item or to an item two inches longer than the required item, whichever is less, plus the cost of converting the longer item to the required item, provided such cost is separately stated on the invoice.

(b) *Modifications of bolts, nuts, screws and rivets contained in Appendix B.* The maximum delivered price shall be:

(1) For an intermediate length of any bolt or screw contained in Appendix B, the maximum delivered price for the next longer size of the same type and diameter contained in the list prices mentioned in paragraph (a);

(2) For an intermediate length or diameter or both of any small rivet contained in Appendix B, the maximum delivered price for next smaller size contained in the list prices mentioned in paragraph (a);

(3) For an intermediate length or diameter or both of any large rivet contained in Appendix B, a maximum delivered price computed as prescribed in paragraph (a);

(4) For a modification of a bolt or a rivet, which modification is described in any extras published with the list prices mentioned in paragraph (a), a maximum delivered price computed as prescribed in paragraph (a) with applicable extras included in the list price;

(5) For a semi-finished nut[9] which is standard except double chamfered, the maximum delivered price for the standard nut computed as prescribed in paragraph (a) except that 10 per cent may be added to the applicable list price;

(6) For an American standard light semi-finished nut[9] which is standard except coarse thread, the maximum delivered price for the standard nut, computed as prescribed in paragraph (a); and

(7) For an item contained in Appendix B or in subparagraphs (1) through (6) above, but modified by a special treatment or surface finish, the applicable list price less the applicable discounts in Appendix C or D; or, if there are no such applicable discounts, the maximum price for such item plus the charge customarily made by the selling producer for such special treatment or surface finish between October 1 and 15, 1941; *Provided,* That on an order for an item contained in subparagraph (1), (5) or (6) above, or for a bolt contained in (4) above, a net charge of $10.00 may be added when the quantity does not exceed the applicable quantity shown below:

	Pieces
Stove bolts, wood screws and machine screws	25,000
Sheet metal screws	50,000
All other bolts and screws:	
½" x 6" and smaller	15,000
9/16" through ¾" diameter through 6" long	10,000
⅞" through 1¼" diameter through 6" long	3,000
Any diameter through 1¼" longer than 6" through 12"	1,000
Any diameter through 1¼" longer than 12"	500
Nuts:	
¼" diameter and smaller	50,000
5/16" diameter through ⅜"	25,000
7/16" diameter through 9/16"	10,000
⅝" diameter through ¾"	5,000
⅞" diameter through 1⅛"	1,000
1½" diameter and larger	250

(c) *Bolts, nuts, screws and rivets not covered by paragraph (a) or (b) but contained in price schedules published or customarily used by the selling producer between October 1 and 15, 1941.* The maximum delivered price for any item shall be the applicable price contained in any domestic price schedule published or customarily used for pricing purposes by the selling producer between October 1 and 15, 1941, plus the applicable extras customarily charged by such producer between October 1 and 15, 1941; *Provided,* That:

(1) There shall be deducted the applicable discounts customarily deducted by such producer between October 1 and 15, 1941;

(2) Adjustment shall be made for credit terms in accordance with the selling producer's customary practice in effect between October 1 and 15, 1941, and for additional applicable discounts or allowances customarily granted by the selling producer between October 1 and 15, 1941, to other producers or to jobbers, dealers or other distributors, or to a specific purchaser or to specific classes of purchasers such as the railroad, carbuilding or automotive industries;

(3) Adjustment shall be made for applicable charges or allowances for delivery customarily made by such producer between October 1 and 15, 1941, at the applicable rates of transportation in effect at the time of shipment;

(4) Intermediate lengths shall be priced by the method customarily used by the selling producer between October 1 and 15, 1941;

(5) In the case of a sale to the Government or any of its agencies of an item packed for shipment outside Continental United States the maximum price shall be the maximum price for the same sale if made for Lend-Lease, computed as described in Appendix E;

(6) When, in the case of an emergency arising from the demands of war, a producer is requested to furnish an item contained in this paragraph (c) and does not have such item in stock and, in order to meet the required delivery, manufactures such item from a longer item of the same type and specifications, on a quantity not exceeding 150 pieces of such item delivered to any one purchaser during any seven-day period he may charge the maximum price applicable to the longer item or to an item two inches longer than the required item whichever is less, plus the cost of converting the longer item to the required item, provided such cost is stated separately on the invoice; and

(7) Except in the case of a sale described in subparagraph (6) above, a net charge of $10.00 may be added on an order for an item included in this paragraph (c) when neither sold from stock nor customarily carried in stock at time of shipment and when the quantity does not exceed the applicable quantity shown below:

	Pieces
Stove bolts, wood screws and machine screws	25,000
Sheet metal screws	50,000
All other bolts and screws:	
½" x 6" and smaller	15,000
9/16" through ¾" diameter through 6" long	10,000
⅞" through 1¼" diameter through 6" long	3,000
Any diameter through 1¼" longer than 6" through 12"	1,000
Any diameter through 1¼" longer than 12"	500
Nuts:	
¼" diameter and smaller	50,000
5/16" diameter through ⅜"	25,000
7/16" diameter through 9/16"	10,000
⅝" diameter through ¾"	5,000
⅞" diameter through 1⅛"	1,000
1½" diameter and larger	250

(d) *Specials; bolts, nuts, screws and rivets other than those described in paragraphs (a), (b) or (c).*—(1) *Specials manufactured in their first operation on equipment other than hand or automatic screw machines.* The maximum price for any item at point of shipment for each producer shall be the price such producer would have charged at point of shipment between October 1 and 15, 1941, for the same quantity of the same item ordered for production and shipment at one time. The maximum price for such item at point of delivery shall be the sum of the maximum price at point of shipment and the actual charges paid to a public carrier for transportation from point of shipment to point of delivery. In computing the maximum price at point of shipment the producer shall use the material cost, straight-time labor rates, overhead rates, applicable markups, method of estimating cost and method of computing selling price for a sale to the same purchaser or to the same class of purchaser, all as in effect for such producer between October 1 and 15, 1941, for sale of the same or a similar item manufactured on like equipment; *Provided,* That:

(i) In a case where it is necessary for a producer to purchase a partly completed item from another manufacturer and such producer performs additional operations to complete the manufacture of such item, the charge paid for the partly completed item, not in excess of the applicable maximum price, may be used by such producer in lieu of material cost in computing his maximum price for the completed item;

(ii) In a case where it is necessary for the producer to employ another manufacturer to perform one or more secondary operations on an item, the charges paid by such producer for such secondary operations, not in excess of the applicable maximum prices, may be included in the cost used by such producer in computing his maximum price for the completed item; and

(iii) Recomputation shall be made as follows: When a producer, by production experience on one order, has determined the actual cost as of October 1 to 15, 1941, of manufacturing a special and has recomputed the maximum price for the quantity on that order by use of said cost, such recomputed maximum price may be charged on all subsequent orders for the same quantity of such item manufactured on like equipment. For orders

for other quantities of the same item manufactured on like equipment the maximum price shall be determined on the basis of said cost adjusted for the quantity ordered. When a producer has not determined the actual cost for an item as of October 1 to 15, 1941, and he accepts more than one order for production of the item the maximum prices for the second and all subsequent orders for quantities manufactured on like equipment shall be computed by use of the actual cost as of October 1 to 15, 1941, determined from his experience on the first order he produces on such equipment and adjusted for the quantities specified by the additional orders; *Provided,* That:

(*a*) Shipments against orders accepted before production has been completed for one order may be made at the prices at which the orders were accepted; and

(*b*) When recomputation of the maximum price based on the actual cost as of October 1 to 15, 1941, adjusted for quantity results in a price which is higher than the price previously established for the same quantity or than the price previously established for a smaller quantity, or when computation of the maximum price based on manufacturing the item on a different type of equipment results in such a higher price, such higher price may be charged on the first order accepted after such computation or recomputation. The price charged on subsequent orders may not be higher than the price charged on the first order accepted for the same quantity unless such higher price has been approved by the Office of Price Administration, Washington, D. C., or not disapproved within thirty days after request for approval is received. In cases where no change has been made in the type of equipment used the request for approval of the increased price shall be mailed within ten days after acceptance of an order at the higher price; in cases where the increase in price is caused by a change in the type of equipment used the request for approval shall be mailed within ten days after the actual cost as of October 1 to 15, 1941, has been determined from experience in production for one order by the different equipment. The request for approval of the increased price shall be accompanied by a report containing:

(*1*) A full description of the item;

(*2*) The price on the last order accepted prior to the price increase, the date of such order, the quantity ordered and the name and address of the purchaser;

(*3*) The price charged on an order accepted between October 1 and 15, 1941, or on the first order accepted subsequent to October 15, 1941, the date of such order, the quantity ordered and the name and address of the purchaser;

(*4*) The recomputed price, the date of the order for which the price was recomputed, the quantity ordered, the date of the purchaser's acceptance of the higher price, and the name and address of the purchaser;

(*5*) A complete statement of the cost factors, the method of price computation and the reasons for the increase in price. In lieu of approving or disapproving the higher price, the Office of Price Administration may approve such price as it deems fair and equitable on the basis of the report.

(2) *Specials manufactured complete or in their first operation on hand or automatic screw machines.* (i) The maximum prices for such bolts, nuts, screws and rivets for each producer shall be determined in accordance with subparagraph (1) above, substituting "March 31, 1942" for "between October 1 and 15, 1941,"; or

(ii) The maximum prices shall be determined in accordance with the provisions of Maximum Price Regulation 136, as amended, or any revision thereof, in which case the sales shall, in every respect, be subject to said Maximum Price Regulation 136, or any revision thereof. Each producer who, between October 1 and 15, 1941, customarily manufactured by the upset method any bolt, nut, screw or rivet contained in Appendix B shall be governed by the provisions of subdivision (i) unless he notified the Iron and Steel Branch of the Office of Price Administration, Washington, D. C., in writing within ten days after September 24, 1943, that he would be governed by the provisions of subdivision (ii); any other producer shall be governed by the provisions of subdivision (ii) unless he notified the Machinery Branch of the Office of Price Administration, Washington, D. C., in writing within ten days after September 24, 1943, that he would be governed by the provisions of subdivision (i) or unless, in the case of a producer first producing and selling after September 24, 1943, he gives such notification within ten days after his first sale.

SEC. 14. *Exceptions to this regulation.* (a) Exceptions granted under § 1368.7 of Maximum Price Regulation 147 and in effect at the time of the issuance of this Revised Maximum Price Regulation 147 shall remain in full force and effect. They may, however, be revoked or amended by the Administrator at any time.

(b) Irrespective of the maximum prices otherwise established by this regulation, the maximum delivered price for the Parker-Kalon Corporation of New York City for any sheet metal screw contained in its list price schedules in effect between October 1 and 15, 1941, shall be the applicable list price adjusted for all discounts, commissions, and terms of payment and delivery which were customarily in effect for said Parker-Kalon Corporation between October 1 and 15, 1941: *Provided,* That in the case of a shipment of 100 lbs. or more of sheet metal screws to the Pacific Coast by a route which does not include intercoastal steamship, the maximum charge which may be added for delivery shall be the amount by which the lowest applicable railroad charge for transporting an identical shipment from Chicago, Illinois, to point of delivery exceeds 65 cents per 100 lbs., plus the excess cost of shipping by an emergency method of transportation requested by the purchaser, over the cost of transporting an identical shipment from point of shipment to point of delivery at current railroad freight rates. Maximum delivered prices for said Parker-Kalon Corporation for sheet metal screws not contained in its said list prices, and for any other bolts, nuts, screws and rivets shall be those established in section 13 of this regulation.

APPENDIX A—CHARGES FOR DELIVERY APPLICABLE TO SECTION 13 (a) AND (b)

Maximum prices set forth in paragraphs (a) and (b) of section 13 are at point of shipment. "Maximum delivered price" means price at point of delivery. The maximum delivered price shall be computed by adding to the maximum price as set forth in paragraph (a) or (b) of section 13 the public carrier's transportation charge to the extent actually incurred except that in the following instances only the applicable charges specified below may be added:

(a) *Shipments to domestic points other than Pacific Coast points.* (1) On a shipment of the following items:

Bolts, other than stove or tire bolts;
Nuts, other than stove bolt nuts, machine screw nuts, semi-finished, castellated or slotted nuts; and/or
Rivets

The maximum charge which may be added shall be the lowest applicable railroad charge for the transportation of an identical quantity to point of delivery from whichever of the following basing points the lowest railroad charge applies: Pittsburgh, Pennsylvania; Cleveland, Ohio; Chicago, Illinois; Birmingham, Alabama.

(2) On a shipment of 200 lbs. or more of the following items:

Stove bolts;
Stove bolt nuts;
Machine screw nuts; and/or
Screws

The maximum charge which may be added shall be the lowest applicable railroad charge, to the extent that such charge exceeds 65 cents per 100 lbs., for the transportation of an identical quantity to point of delivery from whichever of the following basing points the lowest railroad charge applies: Cleveland, Ohio; Chicago, Illinois; New York, New York.

(3) On a shipment of 300 lbs. or more of tire bolts the maximum charge which may be added shall be the lowest applicable railroad charge for the transportation of an identical quantity from point of shipment to point of delivery, to the extent that such charge exceeds 65 cents per 100 lbs.

(4) On a shipment of 200 lbs. or more of semi-finished, castellated or slotted nuts the maximum charge which may be added shall be the lowest applicable railroad charge, to the extent that such charge exceeds 50 cents per 100 lbs., for the transportation of an identical quantity to point of delivery from whichever of the following basing points the lowest railroad charge applies: Cleveland, Ohio; Chicago, Illinois; Pittsburgh, Pennsylvania.

(b) *Shipments to Pacific Coast points.* Where used in this paragraph "Pacific Coast basing point" is any one of the cities of San Pedro, Wilmington, Long Beach, San Diego, San Francisco, Los Angeles, Oakland, Sacramento or Stockton, in the State of California; or Portland, Oregon; or Tacoma or Seattle in the State of Washington.

(1) On a shipment of the following items:

Bolts, other than stove or tire bolts;
Nuts, other than stove bolt nuts, machine screw nuts, semi-finished, castellated, or slotted nuts; and/or
Rivets

to a point on the Pacific Coast, except in the case of a shipment from a point east of the Pacific Coast, the maximum charge which may be added shall be

(i) On a shipment of 400 lbs. or more, the lowest applicable railroad charge for the transportation of an identical quantity to point of delivery from whichever Pacific Coast basing point the lowest railroad charge applies; and

(ii) On a shipment of more than 200 lbs. but less than 400 lbs., the lowest applicable railroad charge for the transportation of an identical quantity to point of delivery from whichever of the following Pacific Coast basing points the lowest railroad charge applies: San Francisco, California; Los Angeles, California.

(2) On a shipment of any of the items listed in paragraph (b) (1) from a point east of the Pacific Coast to a point on the Pacific Coast the maximum charge which may be added shall be

(i) In the case of a carload shipment, the actual cost of transporting the shipment from point of shipment to point of delivery, not in excess of the cost at the lowest applicable railroad rate, to the extent that such cost exceeds 76 cents per 100 lbs., but in no event shall the charge exceed 40 cents per 100 lbs., and

(ii) In the case of a less-than-carload shipment, the actual cost of transporting the shipment from point of shipment to point of delivery, not in excess of the cost at the lowest applicable railroad rate, to the extent that such cost exceeds $1.35 per 100 lbs., but in no event shall the charge exceed $1.16 per 100 lbs.

(3) On a shipment of 200 lbs. or more of semi-finished, castellated or slotted nuts to a point on the Pacific Coast no additional charge may be made.

(4) On a shipment to a point on the Pacific Coast of items named in paragraphs (a) (2) and (a) (3) of this Appendix A the maximum delivery charge shall be computed as set forth in said paragraphs.

(c) *Unusual transportation charges.* When a shipment is made at the purchaser's request by a method of transportation whose cost exceeds that of the method customarily used by the selling producer between October 1 and 15, 1941, for shipment to the same locality, the excess cost of such method of transportation may be added to the applicable charge authorized by paragraph (a) or (b) of this Appendix A: *Provided,* That the amount of such excess, the method of transportation and the authority for using such transportation are stated separately on the invoice.

APPENDIX B—STANDARD SIZES, TYPES AND SPECIFICATIONS

The products mentioned in this appendix are made from steel unless otherwise specifically stated. Each type and size checked with the symbol "x" is included in this appendix when manufactured to either American Standards Association's specifications or United States Department of Commerce National Bureau of Standards Handbook H28 or British Standard Association's specifications, all as in effect on the effective date of this Revised Maximum Price Regulation No. 147, and when manufactured from the same or substantially the same grade of raw material as that customarily used in its manufacture between October 1 and 15, 1941 by any of the companies listed in section 13.

TABLE I—BOLTS

The bolts included in this Table I are considered standard sizes when furnished with standard square nuts or with nuts covered by published extras or without nuts.

(1) American standard regular square head machine bolts, American national coarse-thread series, Class 2 tolerance, (either cut thread in all listed sizes or rolled thread in all listed sizes up through ½" diameter by 6" long) or Whitworth thread (either cut thread in all listed sizes or rolled thread in all listed sizes up through ⅜" diameter by 6" long):

[1] Letters in the vertical columns under the nominal screw sizes indicate the style of head for a particular length of screw thus: F—flat head, R—round head, O—oval head, P—fillister head. Short-length flat and oval head screws indicated in large letters have undercut head, with the countersunk portion approximately two-thirds of the standard height, with slot depths proportionately less, but with standard head diameters.

APPENDIX E—EXPORTS AND EXPORT SALES

"Export" and "export sale" are defined in the Second Revised Maximum Export Price Regulation.[1] In general, the Second Revised Maximum Export Price Regulation uses as the base price the seller's "maximum domestic price applicable to the transaction." For the purposes of the Second Revised Maximum Export Price Regulation a producer's "maximum domestic price applicable to the transaction" for bolts, nuts, screws and rivets is as follows:

(a) *Export sales by producers located at points east of the Pacific Coast*—(1) *Bolts, nuts, screws and rivets contained in both Appendix B and Table I of this appendix.* The "maximum domestic price applicable to the transaction" shall be the applicable export list price, including extras, published by any of the following producers and in effect between October 1 and 15, 1941:

American Screw Company
Armco International Corp.
Bayonne Bolt Corporation
Bethlehem Steel Export Corp.
Buffalo Bolt Company
Champion Rivet Company
Clark Brothers Bolt Company
Lamson and Sessions Company
Milton Manufacturing Company
National Screw and Mfg. Company
Oliver Iron and Steel Corporation
The Charles Parker Company
Republic Steel Corporation
Russell, Burdsall & Ward Bolt & Nut Co.

Provided, That:

(1) In the case of a large rivet a base price of $4.25 per hundred pounds for carload or $4.45 per hundred pounds for less than carload shall be used and the applicable extras published by any of the producers listed above and in effect between October 1 and 15, 1941, may be added;

(ii) There shall be deducted the applicable discounts in Table I of this appendix and there may be added the applicable extras in Table I;

(iii) Where a Lend-Lease sale is made to a procurement agency of the Government, the following discounts shall be deducted in addition to those otherwise prescribed by this subparagraph (1):

Wood screws	10%
Rivets ½" or more in diameter	2½%
All other bolts, nuts, screws and rivets	5%

(iv) Adjustment shall be made for credit terms in accordance with the selling producer's customary practice in effect between October 1 and 15, 1941, and for additional applicable discounts customarily granted by the selling producer to a specific purchaser or to specific classes of purchasers between October 1 and 15, 1941;

(v) On shipments of 300 lbs. or more there may be added the public carrier's actual transportation charge to the extent that such charge exceeds the lowest applicable railroad charge for the transportation of an identical quantity from the point of shipment to the vessel's side in New York City, and on shipments of less than 300 lbs. there may be added the public carrier's transportation charge to the extent actually incurred;

(vi) A maximum domestic price computed as above includes standard export packing and export premium and expenses customarily absorbed by the selling producer on similar shipments between October 1 and 15, 1941.

(2) *Modifications of bolts, nuts, screws and rivets contained in both Appendix B and Table I of this appendix.* A producer's "maximum domestic price applicable to the transaction" shall be:

(i) For an intermediate length of any bolt or screw contained in Appendix B, the applicable price for the next longer size of the same type and diameter contained in the list prices mentioned in subparagraph (1), computed as prescribed in subparagraph (1); or, when priced from weight list prices, the applicable price for the next shorter size of the same type and diameter contained in the list prices mentioned in subparagraph (1), computed as prescribed in subparagraph (1);

(ii) For an intermediate length or diameter or both of any small rivet, the applicable price for the next smaller size contained in the list prices mentioned in subparagraph (1), computed as prescribed in subparagraph (1);

(iii) For an intermediate length or diameter or both of any large rivet, a price computed as prescribed in subparagraph (1);

(iv) For a modification of a bolt or a rivet, which modification is described in any of the extras published with the list prices mentioned in subparagraph (1), a price computed as prescribed in subparagraph (1), with the applicable extras included in the list price;

(v) For a semi-finished nut which is standard except double chamfered, the applicable maximum price for the standard nut, computed as prescribed in subparagraph (1), except that 10 percent may be added to the applicable list price;

(vi) For an American standard light semi-finished nut which is standard except coarse thread, the applicable price for the standard nut, computed as prescribed in subparagraph (1);

(vii) For an item contained in both Appendix B and Table I, or in subdivisions (i) through (vi) above, but modified by a special treatment or surface finish, the maximum price for such item plus the charge customarily made by the selling producer for such special treatment or surface finish between October 1 and 15, 1941: *Provided*, That on an order contained in subdivision (i), (v) or (vi) above, or for a bolt contained in (iv) above, a net charge of $10.00 may be added when the quantity does not exceed the applicable quantity shown below:

	Pieces
Stove bolts, wood screws and machine screws	25,000
Sheet metal screws	50,000
All other bolts and screws:	
½" x 6" and smaller	15,000
9/16" through ¾" diameter through 6" long	10,000
⅞" through 1¼" diameter through 6" long	3,000
Any diameter through 1¼" longer than 6" through 12"	1,000
Any diameter through 1¼" longer than 12"	500
Nuts:	
¼" diameter and smaller	50,000
5/16" diameter through ⅜"	25,000
7/16" diameter through 9/16"	10,000
⅝" diameter through ¾"	5,000
⅞" diameter through 1⅜"	1,000
1½" diameter and larger	250

(3) *Bolts, nuts, screws and rivets not covered by subparagraph (1) or (2) but contained in an export price schedule published or customarily used by the selling producer between October 1 and 15, 1941.* A producer's "maximum domestic price applicable to the transaction" shall be the applicable price contained in any export price schedule published or customarily used for pricing purposes by such producer between October 1 and 15, 1941, plus the applicable extras customarily charged by such producer between October 1 and 15, 1941: *Provided*, That:

(i) There shall be deducted from said price the applicable discounts customarily deducted by such producer between October 1 and 15, 1941;

(ii) Intermediate lengths shall be priced by the method customarily used by the selling producer between October 1 and 15, 1941;

(iii) Where a Lend-Lease sale is made to a procurement agency of the Government the following discounts shall be deducted in addition to those otherwise prescribed by this subparagraph (3):

Wood screws	10 percent.
Mild steel track bolts and track bolt nuts.	10 cents per 100 lbs.
Rivets ½" or more in diameter.	2½ percent.
All other bolts, nuts, screws and rivets.	5 percent.

(iv) Adjustment shall be made for credit terms in accordance with the selling producer's customary practice in effect between October 1 and 15, 1941, and for additional applicable discounts which were customarily granted by the selling producer to a specific purchaser or to specific classes of purchasers between October 1 and 15, 1941;

(v) Adjustment shall be made for applicable charges or allowances for delivery customarily made by such producer between October 1 and 15, 1941;

(vi) A maximum domestic price computed as above includes standard export packing and export premiums and expenses customarily absorbed by the selling producer on similar shipments between October 1 and 15, 1941; and

(vii) A net charge of $10.00 may be added on an order for an item contained in this subparagraph (3) when neither sold from stock nor customarily carried in stock at time of shipment and when the quantity does not exceed the applicable quantity shown below:

(4) *Bolts, nuts, screws and rivets not covered by subparagraphs (1), (2) or (3).* A producer's "maximum domestic price applicable to the transaction" shall be the maximum delivered price which such producer may charge a domestic consumer located at the port of exit, computed in accordance with paragraph (a), (b), (c) or (d) of section 13, whichever paragraph is applicable: *Provided*, That:

(i) Where a Lend-Lease sale is made to a procurement agency of the Government the following discounts shall be deducted in addition to the discounts prescribed by the applicable paragraph of section 13:

Wood screws	10 percent.
Mild steel track bolts and track bolt nuts	10 cents per 100 lbs.
Rivets ½" or more in diameter	2½ percent.
All other bolts, nuts, screws and rivets	5 percent.

(ii) The excess of the cost of placing the shipment at the vessel's side over the cost of delivering an identical shipment to a consumer at the port of exit may be added; and

(iii) A maximum domestic price computed as above includes domestic packing only and does not include export packing or export premiums.

(b) *Export sales by producers located on the Pacific Coast.* A producer's "maximum domestic price applicable to the transaction" shall be the maximum delivered price which such producer may charge a domestic consumer located at the port of exit, computed in accordance with paragraph (a), (b), (c) or (d) of section 13, whichever paragraph is applicable: *Provided*, That:

(1) Where a Lend-Lease sale is made to a procurement agency of the Government the following discounts shall be deducted in addition to those prescribed by the applicable paragraph of section 13:

Wood screws	10 percent.
Mild steel track bolts and track bolt nuts	10 cents per 100 lbs.
Rivets ½" or more in diameter	2½ percent.
All other bolts, nuts, screws and rivets	5 percent.

(2) The excess of the cost of placing the shipment at the vessel's side over the cost of delivering an identical shipment to a consumer at the port of exit may be added; and

(3) A maximum domestic price computed as above includes domestic packing only and does not include export packing or export premiums.

[1] Section 11 (a) (1) of the Second Revised Maximum Export Price Regulation reads as follows:

(1) "Export" or "export sale" means:

(i) Any sale of a commodity by a seller or his agent in the continental United States to a purchaser outside thereof in which the selling or invoicing is done in the continental United States, or is done outside the continental United States on behalf of a principal or parent firm in the continental United States, and the commodity sold is or has been transported from the continental United States to a point outside thereof;

(ii) Any sale to a procurement agency of the United States for Lend-Lease purposes;

(iii) Any sale to an agency of a foreign government;

(iv) Any sale of the exported commodity by an agent abroad of the exporter for the exporter's account, or by a firm owned or controlled by the exporter, within a period of two years after the date of shipment of the commodity from the continental United States except as provided in section 9 (g).

COTTON GINNING SERVICES AND BAGGING AND TIES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Maximum Price Regulation 211 is amended in the following respects:

1. Paragraph (d) is added to § 1499.552 to read as follows:

(d) *Maximum prices for ginners who during the base period did not charge separately for cotton ginning services and for bagging and ties.* For those ginners who during the base period did not charge separately for cotton ginning services and for bagging and ties the maximum charge per bale for performing cotton ginning services, including the furnishing of bagging and ties, shall be 108% of the highest dollars-and-cents price per bale charged by such ginners for supplying the same or substantially similar services to purchasers of the same general class during the base period.

2. Section 1499.558 is added to read as follows:

§ 1499.558 *Exemptions.* This regulation shall not apply to any cotton gin, which would be otherwise covered by it, if the maximum price for its ginning services and bagging and ties is established or otherwise regulated, and if the business of cotton ginning has been classified appropriately as a public utility and is regulated as such, by state or municipal authority.

3. Section 1499.552 (a) (5) is revoked.

This amendment shall become effective July 12, 1944.

Issued this 7th day of July 1944.

AUTOMOTIVE TRADES STEAMSHIP CO. AND T. J. MCCARTHY STEAMSHIP CO.

FINDINGS AS TO CONTRACTS IN PROSECUTION OF THE WAR

In the matter of Automotive Trades Steamship Co. and T. J. McCarthy Steamship Co., Detroit, Michigan; (Case No. S-1071).

Pursuant to section 2 (b) (3) of the War Labor Disputes Act (Pub. no. 89, 78th Cong., 1st sess.) and the directive of the President dated August 10, 1943 published in the FEDERAL REGISTER, August 14, 1943, and

Having been advised of the existence of a labor dispute involving the Automotive Trades Steamship Co. and the T. J. McCarthy Steamship Co. of Detroit, Michigan;

I find that the transportation of grain and other commodities between points on the Great Lakes by the above companies pursuant to Commodity Credit Corporation contracts for the purchase thereof, is contracted for in the prosecution of the war within the meaning of section 2 (b) (3) of the War Labor Disputes Act.

Signed at Washington, D. C., this 5th day of July 1944.

CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS FRIDAY, JUNE 30, 1944

The apportioned classified Civil Service includes central offices physically located in Washington, D. C., or elsewhere. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his state of original residence. Certifications of eligibles are first made from states which are in arrears. The apportionment is observed in certifications except to low salaried positions; but as persons who received appointments in the Departmental Service under the War Service Regulations do not thereby acquire a permanent classified civil service status, their appointments are not charged to the apportionment.

The maximum prices so determined are f. o. b. point of shipment (Florence, Alabama or Sheffield, Alabama) and are subject to a cash discount of 2% for payment within 10 days, net 60 days. These prices are also subject to all other terms, discounts, and allowances (including post-dating terms) no less favorable than those in effect during the period January 15–June 1, 1941.

(b) Wholesale distributors and retailers whose present maximum prices for the stoves listed above were established under the General Maximum Price Regulation or Maximum Price Regulation No. 210, as the case may be, may sell and deliver the listed models at prices no higher than those arrived at by adding to their established maximum prices in effect for each stove prior to the effective date of this order, the dollars and cents amount by which their acquisition cost of each model of stove has been increased by the adjustment herein granted to the manufacturer. The sum

of these two figures shall constitute the seller's new maximum price for the particular model.

(c) At the time of or prior to the first invoice after the effective date of this order, for the sale of any stove for which a maximum price is established by this order, to each purchaser for resale, Martin Stove and Range Co. and every wholesale distributor shall notify the purchaser of the conditions set by this order which are applicable to the purchaser, and the method provided by this order for determining maximum prices for resales by the purchaser. This notice may be given in any convenient form, and must set forth specifically the dollars and cents amounts by which the purchaser for resale may increase his previously established maximum prices in accordance with the terms of this order. In addition, within 10 days after the sending of each different notification required under this paragraph, the manufacturer must file a copy thereof with the Office of Price Administration, Washington, D. C.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective July 7, 1944.

Issued this 6th day of July 1944.

Regional and District Office Orders.

[Sioux City Order G-2 Under MPR 426 and MPR 285]

CERTAIN FRESH FRUITS AND VEGETABLES IN YANKTON, S. D.

Order No. G-2 under § 1439.3-15 Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285. Delivery differentials for wholesalers of certain fresh fruits and vegetables in Yankton, South Dakota.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Sioux City, Iowa District Office of the Office of Price Administration, by § 1439.3-15, Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285, *It is hereby ordered:*

(a) *What this order does:* This order determines the limits of the free delivery zone at the wholesale receiving point of Yankton, South Dakota. It also establishes differentials for non-delivered sales in the free delivery zone and for delivered sales beyond the free delivery zone. The order applies to such fresh fruits and vegetable items as are now or may hereafter be subject to the pricing provisions of Maximum Price Regulation No. 285 and Appendices H and I of Maximum Price Regulation No. 426. The only sellers who are subject to this order are those wholesalers who price under Maximum Price Regulation No. 285, and secondary jobbers and service wholesalers, as those terms are used in Appendices H and I of Maximum Price Regulation No. 426.

(b) *Establishment of free delivery zone.* 1. The free delivery zone established by this order shall be the area within the corporate limits of Yankton, South Dakota.

2. The zone in which charges may be made for delivery is the area outside the free delivery zone.

(c) *Differentials for non-delivered and delivered sales of items listed in Appendices H and I of Maximum Price Regulation No. 426.* 1. *Non-delivered sales.* For sales on a non-delivered basis there shall be deducted from the price for delivered sales in the free delivery zone, 5 cents per container for standard shipping containers weighing under 50 pounds gross weight, and 10 cents per container for standard shipping containers weighing 50 pounds or over gross weight. A deduction of 2 cents or 5 cents, respectively, shall be made for non-delivered sales of half standard shipping containers or more, or for bulk sales weighing as much as or more than half a standard container of the item being sold. No deductions need be made for sales in less than half containers and for bulk sales which weigh less than half a standard container of the item being sold.

2. *Delivered sales in the free delivery zone.* For deliveries in the free delivery zone the maximum delivered price shall be the maximum delivered price computed under Maximum Price Regulation No. 426 for the type of sale being made without any deduction from or addition thereto.

3. *Delivered sales beyond the free delivery zone.* For deliveries beyond the free delivery zone, the amounts set out below may be added to the price for delivered sales in the free delivery zone. Mileage beyond the free delivery zone shall be computed via the nearest publicly traveled route.

All containers and in bulk	Distance from seller's place of business	Maximum addition
Gross weight	From 1 to 50 miles	25¢ per cwt.
	Over 50 miles	35¢ per cwt.

(d) *Differentials for non-delivered and delivered sales of items under Maximum Price Regulation No. 285.* 1. *Non-delivered sales and delivered sales in the free delivery zone.* For non-delivered sales and for deliveries in the free delivery zone the maximum price shall be the maximum delivered price computed under Maximum Price Regulation No. 285 for the type of sale being made. Discounts and price differentials including any differentials or discounts for f. o. b. seller or non-delivered sales must be maintained.

2. *Delivered sales beyond the free delivery zone.* For deliveries beyond the free delivery zone the amount set out below may be added to the price for delivered sales in the free delivery zone. Deliveries beyond the free delivery zone shall be computed via the nearest publicly traveled route.

Bananas	Distance from sellers place of business	Maximum addition
Net weight	From 1 to 50 miles	25¢ per cwt.
	Over 50 miles	35¢ per cwt.

(e) *Definitions.* Delivery means delivery to the physical premises of a retail store, hotel, restaurant or institution. Unless the context otherwise requires, the terms used herein shall have the same meaning as given them in Maximum Price Regulation No. 285 and Maximum Price Regulation No. 426.

(f) This order may be revoked, revised, amended or corrected at any time.

(g) *Effective date.* This order shall become effective on July 8, 1944.

(Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681)

[Region II Order G-44 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN WESTCHESTER COUNTY, EXCEPT CITY OF YONKERS, N. Y.

Order No. G-44 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers.

Pennsylvania anthracite delivered by dealers in Westchester County, except the City of Yonkers, State of New York—Coal Area X.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does*—(1) *Dealers' maximum prices: area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in State of New York—Coal Area X. Coal Area X includes Westchester County except the City of Yonkers.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area X are set forth in Schedule I hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area X, whether or not you are located in Coal Area X.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Refer to Schedule I which contains separate tables of prices for "direct delivery" sales and "yard sales" of anthracite. (You will find Schedule I in paragraph (d).)

(2) Take the dollar-and-cents figure set forth in the applicable table of the schedule for the size and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure derived as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in Schedule I.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area X. There are separate tables of prices for "direct-delivery" sales and "yard sales".

(1) *Sales on a "direct-delivery" basis.* For sales of anthracite of the sizes and in the quantities specified.

Screenings "B"	3.00	3.00	-------	-------

Required discounts. You shall deduct from the prices set forth in table (2) (iii) of this schedule, on sales and deliveries to dealers, of all sizes except screenings, in quantities of one ton or more, a discount of 15¢ per net ton on broken, egg, stove, and nut sizes and 10¢ per ton on pea size, where payment is made within fifteen days after delivery. On sales and deliveries to consumers, you shall deduct a discount of 50¢ per net ton and 25¢ per net ½ ton, on all sizes except screenings, where payment is made within 10 days after delivery. Nothing herein requires you to sell on other than a cash basis.

(e) *Commingling.* If you sell one size of anthracite commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed at the point of loading, the dealer may commingle those sizes in the truck or other vehicle in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(f) *Ex Parte 148 freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(g) *Addition of increase in supplier's maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(h) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal Tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the State of New York or any political subdivision thereof, you need not state this tax separately.

(i) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(j) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that a petition shall be filed with the Regional Administrator and acted upon by him.

(k) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(l) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(m) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(n) *Posting of maximum prices: Sales Slips and Receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable table and Schedule of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size and quantity of the anthracite sold to him, the date of the sale or delivery, and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipts containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(o) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with the New York Regional Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(p) *Definitions and explanations.* When used in this Order No. G-44, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller," "buy", "purchase" and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the Schedule herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(5) The sizes of "Pennsylvania anthracite" described herein as broken, egg, stove, nut, pea, buckwheat, rice, barley and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of New York—Coal Area X with such designations during December 1941. Under no circumstances, however, shall the anthracite contain an ash content in excess of the limits specified by Amendment No. 1 to Solid Fuels Administration for War Regulation No. 9.

"Screenings A" are screenings derived from the primary or initial screenings of egg, stove, nut pea, and buckwheat sizes of anthracite, before any of these sizes have been reclaimed from screenings.

"Screenings /B" are the resultant screenings after buckwheat and larger sizes have been reclaimed from "Screenings A".

(6) "Direct delivery" except with respect to sales in 100 lb. and 50 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or vehicle or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. and 50 lb. lots shall mean depositing in buyer's bin or other storage space designated by the buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car or at a place of business of the seller other than at seller's truck or vehicle.

(9) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(q) *Effect of order on Revised Maximum Price Regulation No. 122.* This order shall supersede Revised Maximum Price Regulation No. 122, except as to any sales or deliveries of solid fuels not specifically subject to this order.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G-44 shall become effective July 5, 1944.

[Jacksonville Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN FLORIDA

Order No. G-1 under General Order No. 50. Maximum prices for malt and cereal beverages in the State of Florida.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Jacksonville District Office of Region IV of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SEC. 1. *Purpose of order.* It is the purpose of this order to establish specific max mum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the State of Florida.

SEC. 3. *Ceiling prices.* (a) On and after July 1, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this Order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed above" is not appropriate to such beverage you may make application to the Jacksonville District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Jacksonville District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

(c) You may not add any taxes to your ceiling prices set forth in Appendix A hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group, as set forth in Appendix A.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1B.* Your establishment belongs to Group 1B, if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1B establishments.

(2) *Group 2B.* Your establishment belongs to Group 2B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 2B establishments, but were less than those provided in Appendix A for Group 1B establishments.

(3) *Group 3 B.* Your establishment belongs to Group 3 B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2 B establishments. All establishments not in operation during the base period of April 4–10, 1943 also belong to Group 3 B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1 B or Group 2 B, you may file an application with the Jacksonville District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3 B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.

2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

3. The selling prices by brand name of all beverages sold since the beginning of its operation.

4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

5. Any other information pertinent to such application or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before June 30, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, required you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 4–1).

(e) Sales by the war Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943, to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 4–1, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B", "OPA 2B", or "OPA 3B", whichever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you customarily issued receipts or sales slips you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal remain subject to the provisions of Restaurant Maximum Price Regulation 4–1.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer".

(c) "On draught" means dispensed by a seller at retail from any container of ⅛ barrel or larger size.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place, establishment or location, whether temporary or permanent in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell food items or meals, or beverages for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions." Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Jacksonville District Office.

SEC. 19. *Revocation and amendment.* This order may revoked, amended, or corrected at any time.

SEC. 20. *Effective date.* This order shall become effective July 1, 1944.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget and in accordance with the Federal Reports Act of 1942.

[Nashville Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN DESIGNATED AREAS OF TENNESSEE AND VIRGINIA

Order No. G-1 Under General Order No. 50. Maximum prices for malt and cereal beverages in certain areas.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Nashville District Office of Region IV of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties of the State of Tennessee: Anderson, Bledsoe, Blount, Bradley, Campbell, Cannon, Carter, Cheatham, Clay, Claiborne, Cocke, Cumberland, Davidson, DeKalb, Fentress, Grainger, Greene, Hamblen, Hamilton, Hancock, Hawkins, Jackson, Jefferson, Johnson, Knox, Loudon, Macon, McMinn, Meigs, Monroe, Morgan, Overton, Pickett, Polk, Putnam, Rhea, Roane, Robertson, Rutherford, Scott, Sequatchie, Sevier, Smith, Sullivan, Sumner, Trousdale, Unicoi, Union, Van Buren, Warren, Washington, White, Williamson, Wilson—and the municipality of Bristol, Virginia.

SEC. 3. *Ceiling prices.* (a) On and after July 1, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed above" is not appropriate to such beverage, you may make application to the Nashville District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Nashville District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1B.* Your establishment belongs to Group 1B, if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages

subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1B establishments.

(2) *Group 2B.* Your establishment belongs to Group 2B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 2B establishments, but were less than those provided in Appendix A for Group 1B establishments.

(3) *Group 3B.* Your establishment belongs to Group 3B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2B establishments. All establishments not in operation during the base period of April 4–10, 1943 also belong to Group 3B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2B, you may file an application with the Nashville District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information.

1. Name and address of the establishment and of its owner or owners.

2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

3. The selling prices by brand name of all beverages sold since the beginning of its operation.

4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

5. Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before July 10, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such), including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a nonprofit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 4–1.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona Fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943 to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 4–1, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B," "OPA 2B," or "OPA 3B," which ever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal remain subject to the provisions of Restaurant Maximum Price Regulation 4–1.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer."

(c) "On draught" means dispensed by a seller at retail from any container of ⅛ barrel or larger size.

(d) "Person" includes an individual corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place, establishment or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell feed items or meals, or beverages for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions." Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Nashville District Office.

SEC. 19. *Taxes.* Sellers who are required to pay a Federal Excise Tax on cabarets may add the same to the prices shown in Appendix A, provided such tax is separately stated and collected. All other Federal and State taxes are included in the prices shown in Appendix A hereof.

SEC. 20. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

SEC. 21. *Effective date.* This order shall become effective July 1, 1944.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget and in accordance with the Federal Reports Act of 1942.

(Public Laws 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871, E.O. 9328, 8 F.R. 4681, General Order 50, 8 F.R. 4808)

[Jackson Order G–1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN MISSISSIPPI

Order No. G–1 under General Order No. 50. Maximum prices for malt and cereal beverages in the State of Mississippi.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Jackson (Mississippi) District Office of Region IV of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SEC. 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt and cereal beverages including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating, or drinking establishment, either for consumption on the premises or when carried away.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the entire State of Mississippi.

SEC. 3. *Ceiling prices.* (a) On and after June 9, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed above" is not appropriate to such beverage, you may make application to the Jackson District Office of the Office of Price Administration requesting that such beverage be specifically included in Appendix A hereof. With or without such application the Jackson District Office of the Office of Price Administration may, at any time and from time to time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

(c) You may not add any taxes to your ceiling prices set forth in Appendix A hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group as set forth in Appendix A.

SEC. 4. *How to figure your ceiling prices.* (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4–10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4–10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. You must figure the group to which you belong as follows:

(1) *Group 1B.* Your establishment belongs to Group 1B, if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 1B establishments.

(2) *Group 2 B.* Your establishment belongs to Group 2 B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were the same as, or more than the prices listed in Appendix A hereof for Group 2 B establishments, but were less than those provided in Appendix A for Group 1 B establishments.

(3) *Group 3 B.* Your establishment belongs to Group 3 B if during the base period of April 4–10, 1943 your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A herefor for Group 2 B establishments. All establishments not in operation during the base period of April 4–10, 1943 also belong to Group 3 B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4–10, 1943, and, if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2 B, you may file an application with the Jackson District Office of the Office of Price Administration requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon and your establishment is reclassified, it must retain the classification of a Group 3 B seller, and must observe the ceiling prices as provided for that group in Appendix A hereof. All such applications for reclassification must contain the following information:

1. Name and address of the establishment and of its owner or owners.

2. A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

3. The selling prices by brand name of all beverages sold since the beginning of its operation.

4. The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

5. Any other information pertinent to such application, or which may be requested by the Office of Price Administration.

SEC. 5. *Filing with War Price and Rationing Board.* When you have figured your proper group under section 4 above, you must, on or before June 19, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number.

SEC. 6. *Modification of prices.* After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the district in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4–10, 1943 legal ceiling prices, this order, properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4–10, 1943, were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. *Exempt sales.* The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such) including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as part of, a meal and where the price of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 4–1).

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating and drinking establishment and subject to this Order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4, 1943 to April 10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4 to April 10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals.

SEC. 9. *Records and Menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 4–1, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. *Posting of prices.* If you are an operator of an eating and drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled beverage, and the quantity and ceiling price of all beverages sold on draught.

(b) Posting a sign giving the same information as required on menus or bills of fare by subparagraph (a) above. Such a sign must be posted in the establishment at a place where it can easily be read by the customers. If you prefer you may use a similar sign furnished by the Office of Price Administration.

SEC. 11. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B" or "OPA 2B" or "OPA 3B", whichever is applicable. You may use the card furnished you for this purpose by the War Price and Rationing Board.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same.

If you have customarily issued receipts or sales slips, you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Maximum Price Regulation No. 259 and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the meal remain subject to the provisions of Restaurant Maximum Price Regulation 4–1.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer".

(c) "On draught" means dispensed by a seller at retail from any container of ⅛ barrel or larger size.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sales at retail" or "selling at retail" means a sale or selling to an ultimate consumer other than an industrial or commercial user.

(f) "Eating or drinking establishment" shall include any place establishment or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for immediate consumption on the premises or to be carried away without substantial change in form or substance. However, grocery and other stores that do not sell food items or meals, or beverages for immediate consumption on the premises are specifically excluded from this definition.

(g) "Other definitions". Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance of the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Jackson District Office.

SEC. 19. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

SEC. 20. *Effective date.* This order shall become effective June 9, 1944.

NOTE: The reporting and record keeping requirements of this order have been approved by the Bureau of the Budget and in accordance with the Federal Reports Act of 1942.

[Atlanta Order G-1 Under MPR 426, Amdt. 1]

ICEBERG LETTUCE IN ATLANTA, GA.

Amendment No. 1 to Order No. G-1 under Maximum Price Regulation No. 426, as amended. Fresh fruits and vegetables for table use, sales except at retail. Adjustment of maximum prices for certain sales of iceberg lettuce in less than carlot or less than trucklot quantities.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Atlanta District Office of the Office of Price Administration by section 2 (b) of Maximum Price Regulation No. 426, as amended, and Regional Delegation Order No. 16, *It is hereby ordered:*

I. Paragraph (a) (1) is amended to read as follows:

(1) The maximum price for a sale of iceberg lettuce in L. A. or Salinas crates containing not less than 48 heads with a minimum weight of 60 pounds shall be:

(i) On a sale by an intermediate seller whose selling establishment is located within the Cities of or free delivery zones of Macon and Columbus, Georgia, and who received the particular lot of lettuce, from which the sale is being made, in carlot quantities, or whose selling establishment is located within the free delivery zone of Atlanta, Georgia, to another intermediate seller;

(a) When sold f. o. b. seller's platform or delivered to the purchaser's establishment located within one of the named cities or free delivery zones thereof, $5.24 per crate.

(b) When delivered to the premises of the purchaser not located in the Cities of or the free delivery zones of Macon, Columbus, or Atlanta, Georgia.

(1) $5.54 per crate.

(ii) On a sale by any seller whose selling establishment is located within the Cities of or the free delivery zones of Macon and Columbus, Georgia, who received the lot, from which the sale was made, in carlot quantities, or whose selling establishment is located within the free delivery zone of Atlanta, Georgia, to a "retailer," institutional user, or procurement agency of the United States or of any state located within the Cities of or free delivery zones of Atlanta, Macon, and Columbus, Georgia, $5.54 per crate.

(iii) On a sale by any seller delivered to the premises of a "retailer," institutional user, or procurement agency of the United States or of any state located outside the City of or free delivery zone of Atlanta, Georgia, the higher of the following:

(a) The maximum price which he could have paid his supplier for the lot from which the sale is made plus 30¢ per crate, but in no event over $5.84 per crate; or

(b) The maximum price established for such sale by Maximum Price Regulation No. 426, as amended.

II. Paragraph (B) (1) is amended to read as follows: (1) "Free delivery zone" of Atlanta, Georgia, means the "Metropolitan Atlanta-Decatur Trade Area" located in Fulton and De Kalb Counties, consisting of the territory within the corporate limits of the Municipalities of Atlanta, East Point, College Park, Hapeville, Decatur, and Avondale Estates, and all of the territory lying within the following militia districts: Buckhead (722 GM), Collins District (1328 GM), Center Hill District (1511 GM), Adamsville District (1289 GM), Poole District (1762 GM), Blackhall District (530 GM), East Point District (1332 GM), Cooks District (469 GM), Peachtree District (1362 GM), Bryant's District (479 GM), Hapeville District (1589 GM), and Southbend District (1348 GM), all in Fulton County, and Decatur District (531 GM) in De Kalb County. The following points and landmarks are within the territory included and lie near or on the outside boundaries of the "Metropolitan Atlanta-Decatur Trade Area:" On the north, North Fulton Park; on the northwest, the Chattahoochee River; on the southwest, Ben Hill; on the south, the southern limits of the Cities of College Park and Hapeville; on the southeast, the Fulton County-De Kalb County boundary line, the eastern limits of the City of Avondale Estates; and on the northeast, Emory University. "Free delivery zone" of the Cities of Macon and Columbus, Georgia, means all of the territory embraced in Bibb and Muscogee Counties, Georgia.

III. This Amendment No. 1 to Order No. G-1 under Maximum Price Regulation No. 426, as amended, shall become effective on and after June 27, 1944.

[Sioux City Order G-1 Under MPR 426 and MPR 285]

CERTAIN FRUITS AND VEGETABLES IN SIOUX CITY, IOWA

Order No. G-1 under § 1439.3-15 Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285. Delivery differentials for wholesalers of certain fresh fruits and vegetables in Sioux City, Iowa.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Sioux City, Iowa District Office of the Office of Price Administration, by § 1439.3-15, Appendix H (f), Appendix I (g) of Maximum Price Regulation No. 426, and § 1351.1254a (a) of Maximum Price Regulation No. 285, it is hereby ordered:

(a) *What this order does.* This order determines the limits of the free delivery zones at the wholesale receiving point of Sioux City, Iowa. It also establishes differentials for non-delivered sales in the free delivery zones and for delivered sales beyond the free delivery zones. The Order applies to such fresh fruits and vegetable items as are now or may hereafter be subject to the pricing provisions of Maximum Price Regulation No. 285 and Appendices H and I of Maximum Price Regulation No. 426. The only sellers who are subject to this order are those wholesalers who price under Maximum Price Regulation No. 285, and secondary jobbers and service wholesalers, as those terms are used in Appendices H and I of Maximum Price Regulation No. 426.

(b) *Establishment of free delivery zone.* (1) The free delivery zone established by this order shall be the area within the corporate limits of Sioux City, Iowa, and South Sioux City, Nebraska.

(i) Deliveries made to any point within the confines of the Sioux City Air Base shall, for the purposes of this order be considered as deliveries made within the limits of the free delivery zone.

(2) The zone in which charges may be made for delivery is the area outside the free delivery zones.

(c) *Differentials for non-delivered and delivered sales of items listed in Appendices H and I of Maximum Price Regulation No. 426*—(1) *Non-delivered sales.* For sales on a non-delivered basis there shall be deducted from the price for delivered sales in the free delivery zones, 5 cents per container for standard shipping containers weighing under 50 pounds gross weight, and 10 cents per container for standard shipping containers weighing 50 pounds or over gross weight. A deduction of 2 cents or 5 cents, respectively, shall be made for non-delivered sales of half standard shipping containers or more, or for bulk sales weighing as much as or more than half a standard container of the item being sold. No deductions need be made for sales in less than half containers and for bulk sales which weigh less than half a standard container of the item being sold.

(2) *Delivered sales in the free delivery zones.* For deliveries in the free delivery zones the maximum delivered price shall be the maximum delivered price computed under Maximum Price Regulation No. 426 for the type of sale being made without any deduction from or addition thereto.

(3) *Delivered sales beyond the free delivery zones.* For deliveries beyond the free delivery zones, the amounts set out below may be added to the price for delivered sales in the free delivery zones. Mileage beyond the free delivery zones shall be computed via the nearest public traveled route.

All containers and in bulk	Distance from sellers place of business	Maximum addition
Gross weight	From 1 to 50 miles	25¢ per cwt.
	From 50 to 75 miles	30¢ per cwt.
	From 75 to 100 miles	35¢ per cwt.
	Over 100 miles	40¢ per cwt.

(d) *Differentials for non-delivered and delivered sales of items under Maximum Price Regulation No. 285*—(1) *Non-delivered sales and delivered sales in the free delivery zones.* For non-delivered sales and for deliveries in the free delivery zones the maximum price shall be the maximum delivered price computed under Maximum Price Regulation No. 285 for the type of sale being made. Discounts and price differentials including any differentials or discounts for f. o. b. seller or non-delivered sales must be maintained.

(2) *Delivered sales beyond the free delivery zones.* For deliveries beyond free delivery zones the amount set out below may be added to the price delivered sales in the free delivery zones. Deliveries beyond the free delivery zones shall be computed via the nearest publicly traveled route. Delivery charge shall be computed for the net weight of bananas delivered.

	Distance from sellers place of business	Maximum addition
Net weight	From 1 to 50 miles	25¢ per cwt.
	From 50 to 75 miles	30¢ per cwt.
	Over 75 miles	35¢ per cwt.

(e) *Definitions.* Delivery means delivery to the physical premises of a retail store, hotel, restaurant or institution. Unless the context otherwise requires, the terms used herein shall have the same meaning as given them in Maximum Price Regulation No. 285 and Maximum Price Regulation No. 426.

(f) This order may be revoked, revised, amended or corrected at any time.

(g) *Effective date.* This order shall become effective on July 8, 1944.

[Colorado Order G–1 Under MPR 165]

CLEANING SERVICES IN DENVER AREA

Order No. G–1 issued under § 1499.114 (d) of Maximum Price Regulation 165, as amended. Order establishing maximum prices charged by persons in Denver Area for cleaning domestic heating units and cleaning, checking and oiling domestic stokers; Docket No. 7C–2.165–114 (d) (12)–4–4.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director by section 114 (d) of Maximum Price Regulation No. 165, as amended, and by Region VII Delegation Order No. 36, it is hereby ordered:

(a) *To what persons this order applies.* This order applies to all persons whose places of business are located within the Denver area.

(b) *To what services this order applies.* This order applies to the service of cleaning domestic heating units and to the service of cleaning, checking and oiling domestic stokers when the heating units or stokers upon which such services are rendered are located in the Denver area. "Domestic heating unit" means a heating unit using coal for fuel (other than a stove), which is used to heat a separate living unit or is used to heat one or two living units in a building containing two or more living units. "Domestic stoker" means a mechanical coal stoker that is used in connection with a domestic heating unit. The following services constitute the cleaning of a domestic heating unit, whether hand-fired or stoker-fired: vacuum cleaning of heating surfaces of furnace or boiler; vacuum cleaning smoke pipe and base of stack (the pipe being removed, cleaned, replaced and resealed); cleaning fire box and removing ashes; painting front of furnace; vacuum cleaning exterior of warm air and cold air pipes, if any; vacuum cleaning steam pipes, if any, where necessary; and inspecting and adjusting dampers. The following services constitute the cleaning, checking and oiling of a stoker: removing coal from hopper and worm housing to prevent rust; cleaning plenum chamber; cleaning and oiling motor; checking thoroughly fan unit; flushing gear case and refilling it with approved oil; and inspecting and adjusting "V" belts. Services in repairing heating units and in repairing stokers and in cleaning of ducts and outlets are not covered by this order, and the maximum prices of same shall be those established under the provisions of Maximum Price Regulation 165, as amended.

(c) *Meaning of Denver Area.* "The Denver area" means all of that territory within the City and County of Denver, Colorado, and within the towns or cities of Arvada, Aurora, Englewood, Wheatridge, Edgewater and Lakewood, Colorado, together with all other territory within the area bounded by the following streets or avenues or extensions of the center lines thereof: Colorado Boulevard on the east, Quincy Avenue on the south, Wadsworth Avenue on the west and West 64th Avenue on the north. "The Denver area" shall also include any piece or parcel of land which immediately adjoins any boundary line of "the Denver area" as defined in the preceding sentence, or which immediately adjoins any street or avenue which constitutes a boundary of "the Denver area," as defined in the preceding sentence.

(d) *Maximum prices established.* The following maximum prices are hereby established for the services to which this order applies: for cleaning a domestic heating unit, either hand-fired or stoker-fired, $4.25; and for cleaning, checking and oiling a domestic stoker, $1.75. *Provided, however,* That if the maximum price of any person for any service to which this order applies, as established under the provisions of Maximum Price Regulation 165, as amended, and as stated in a statement filed with the appropriate War Price and Rationing Board before the effective date of this order in accordance with the provisions of § 1499.108 of Maximum Price Regulation 165, as amended, shall be higher than the maximum price for such service under the provisions of this subdivision, then the maximum price of such person for such service shall be the maximum price so established under Maximum Price Regulation 165, as amended, and so stated in such statement; each such person shall post in a conspicuous place in his place of business his maximum price for such service as it was stated in the statement so filed with the War Price and Rationing Board. Discounts which are required to be continued by the provisions of Maximum Price Regulation 165, as amended, shall be continued in accordance with said Maximum Price Regulation 165, as amended.

(e) *Coverage by Maximum Price Regulation 165, as amended.* In all particulars which are not specifically covered or which are excepted by this order, all sellers of services to which this order applies shall be subject to the provisions of Maximum Price Regulation 165, as amended.

(f) *Revocation, amendment or correction.* This order may be revoked, amended or corrected at any time.

(g) *Effective date.* This order becomes effective June 27, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

Issued this 27th day of June 1944.

PART 42—LOANS AND DISCOUNTS

EXAMINATIONS AND REPORTS OF BORROWING AND REDISCOUNTING ORGANIZATIONS

Section 42.302 Title 6, Code of Federal Regulations, is hereby amended to read as follows:

§ 42.302 *Examinations and reports of borrowing and rediscounting organizations.* Federal intermediate credit banks shall require, as a condition precedent to making loans to or discounting paper for any eligible organization (other than a production credit association or bank for cooperatives, organized under the Farm Credit Act of 1933) its agreement to furnish to the bank and/or the Farm Credit Administration and/or any Farm Credit examiner at any time upon call, a detailed statement of its financial condition in such form as may be prescribed; and its agreement to submit, at its own expense, to periodic examinations by examiners for the Federal intermediate credit bank, by national bank examiners and/or by Farm Credit examiners; *Provided, however,* That any bank, trust company, or savings institution operating under the supervision of State or national banking authorities, in lieu of such agreement, may submit its authorization to such supervising authority, in writing, to furnish the Federal intermediate credit bank and/or the Farm Credit Administration upon request any report of condition or examination, or other confidential information in the possession of such supervising authority.

(Sec. 2, 42 Stat. 1458, 1459, as amended; 12 U.S.C. 1091, 1101; E.O. 6084, March 27, 1933)

PART 43—PRIVATELY CAPITALIZED FINANCING INSTITUTIONS

MISCELLANEOUS AMENDMENTS

Paragraph (a) of § 43.501, is hereby amended and, paragraph (e) of § 43.501, §§ 43.503, 43.504–1, and 43.504–2, Title 6, Code of Federal Regulations, are hereby added to read as follows:

§ 43.501 *Eligibility of institutions.* In order to be eligible to obtain credit from a Federal intermediate credit bank, a privately capitalized financing institution (other than a bank or a credit union) must meet the following requirements:

(a) *Incorporation and capitalization.* It must be incorporated with a paid-in and unimpaired capital commensurate with the volume of business it expects to handle and, in any event, not less than $10,000.

Ordinarily, such a corporation should have a minimum capital of $25,000 to enable it to handle a volume of business that will produce earnings sufficient to cover operating costs and establish reserves for possible losses.

* * * * *

(e) *Definition of capital and surplus.* Only that portion of a corporation's authorized and subscribed capital which has been paid for, and for which stock certificates are actually outstanding in the names of bona fide stockholders, plus such sums as have been definitely and regularly credited to surplus account and remain therein, may be regarded as capital and surplus for the purposes of this section. Undivided profits may not be treated as surplus, until actually set aside for that purpose; but such undivided profits and any reserves set up will, to the extent of the amount available, be recognized as an offset against losses or other items which otherwise might impair the corporation's capital or surplus.

§ 43.503 *General collateral requirements (financing institutions).* A financing institution (other than a commercial bank, or a bank for cooperatives organized under the Farm Credit Act of 1933) as a condition precedent to borrowing from or rediscounting with a Federal intermediate credit bank, is required to pledge as general collateral to any and all obligations to the bank, cash, United States Government securities, Federal Farm Mortgage Corporation bonds, Federal land bank bonds, Federal intermediate credit bank debentures, or other readily marketable securities of high rating, in an amount equal to a substantial portion of its capital. In the discretion of the Federal intermediate credit bank concerned, banking institutions also may be required (unless prohibited by law or by supervisory authority) to deposit general, acceptable collateral.

§ 43.504–1 *Substitution of direct obligations (financing institutions).* As an incident to the exercise of its specific powers, and as a step in the liquidation of paper discounted for or purchased from a privately-capitalized financing institution pursuant to the provisions of section 202 (a) (1) of the Federal Farm Loan Act, as amended (12 U.S.C. 1031), a Federal intermediate credit bank may accept from such financing institution, in substitution for any such paper which is overdue or otherwise in default, a direct promissory note of such institution secured by the pledge of bonds or other acceptable collateral.

§ 43.504–2 *Temporary advances to financing institutions.* Advances may be made to financing institutions, for temporary periods only, upon the basis of their direct notes secured by the pledge of bonds or other acceptable collateral, provided such advances are incident to the extension of credit by means of loans and discounts as contemplated by section 202 (a) (1) of the Act (12 U.S.C. 1031). Such advances shall be made only in cases where the bank finds that funds are required by the financing institution to enable it to close loans which are to be offered to the bank for discount or purchase, or as collateral for a loan or loans, pursuant to said section 202 (a) (1).

(Sec. 2, 42 Stat. 1455, 1459; 12 U.S.C. 1031, 1101; E.O. 6084, Mar. 27, 1933)

TITLE 7—AGRICULTURE

Chapter X—War Food Administration (Production Orders)

[WFO 9–11]

PART 1220—FEED

SET ASIDE REQUIREMENTS FOR PROCESSORS OF OILSEED FOR AUGUST 1944

Pursuant to the authority vested in me by War Food Order No. 9 (8 F.R. 16960, 9 F.R. 3475, 4319), issued on December 18, 1943, and to effectuate the purposes of such order pertaining to set aside requirements for oilseed meal produced by processors, and to secure an equitable distribution of such oilseed meal, it is hereby ordered, that:

§ 1220.14 *Set aside requirements for processors of oilseed for August 1944*—(a) *Amount to be set aside.* Each processor shall set aside at each processing plant operated by him 20 percent of his

production of cottonseed, soybean, linseed and peanut oil meal, cake or pellets (hereinafter called "oilseed meal"), during August 1944. The amount of production upon which the quantity of oilseed meal set aside is based shall not include any oilseed meal produced for the Commodity Credit Corporation under the provisions of contracts designated "CCC Soybean Form 106, 1943 Crop," and this order shall not apply to oilseed meal produced under such contracts.

(b) *Sale and delivery of oilseed meal set aside.* (1) Oilseed meal set aside pursuant to this order shall not be sold or delivered by any processor except to a buyer named in a Certificate of Designated Buyer issued by the Agricultural Conservation Committee for the State or county in which the buyer's farm or establishment is located or by the Chief of the Feed Management Branch, Office of Production, War Food Administration. The certificate shall be in substantially the following form:

CERTIFICATE OF DESIGNATED BUYER

---------- is authorized to purchase and accept delivery of----------(tons-pounds) of oilseed meal from amounts set aside by----------of----------
(Name of Processor) (Address of Processor)
----------, pursuant to the order of the Director of Food Production. (If, for any reason, delivery of oilseed meal cannot be made, this certificate shall be returned by the processor to the issuing Agricultural Conservation Committee with the reasons why delivery was not made.)

FOOD PRODUCTION ADMINISTRATION
Agricultural Conservation Committee of

(Address)
J. B. HUTSON,
Director,

Expiration Date ----------

(2) Agricultural Conservation Committees may commence issuing Certificates of Designated Buyers pursuant to this order during July 1944, and processors may commence delivery of oilseed meal pursuant to such certificates during July 1944. A processor shall be entitled to credit such deliveries made in July 1944 against the quantity of oilseed meal which he is required to set aside in August 1944, if he makes the report provided for in paragraph (d) (1) hereof.

(3) Shipment of any oilseed meal, set aside pursuant to this order must be made by a processor within twelve days of the receipt of any such certificate.

(4) The original and the processor's copy of appropriately executed certificates shall be sent by the person responsible for their issuance directly to the processor and a copy shall be sent to the designated buyer. The designated buyer and the processor shall arrange the details of transfer of materials designated on the certificate, using such intermediary parties as the processor may designate. The processor who delivers such oilseed meal pursuant to a certificate shall file such certificate as required under the provisions of paragraph (d) (2).

(5) No processor shall be required to honor a Certficate of Designated Buyer unless the designated buyer furnishes the processor or his agent, before midnight of August 15, 1944, with (i) shipping instructions, and, in the case of designated buyers other than feeders, (ii) the statement required by paragraph (h) of War Food Order No. 9. If a processor elects not to honor a Certificate of Designated Buyer under the provisions of this paragraph, he shall return such certificate to the issuing office and he may dispose of the oilseed meal covered by the certificate free from the restrictions of this order: *Provided, however,* That the provisions of this paragraph shall not apply to oilseed meal required to be set aside by this order which has not heretofore been reported to the Director.

(c) *Existing contracts.* If this order makes it impossible for a processor to fill all of his contracts for the delivery of oilseed meal, which are in existence on the date of the issuance of this order, he shall not, by reason of this order, refuse to make delivery of more than 20 percent of the oilseed meal covered by any such contract.

(d) *Processor's reports.*—(1) *Report of tonnage for July delivery for credit against August set aside.* If a processor wishes to make deliveries of oilseed meal pursuant to this order in July 1944 for credit against his set aside in August 1944, he must report to the Director in writing (or by telegraph) not later than July 25, 1944, the estimated tonnage of each kind of oilseed meal which will be available at each of his processing plants for delivery in July 1944 for such credit. Each processor may also submit such additional information as he deems pertinent to the allocation or distribution of oilseed meal to be set aside under this order.

(2) *Report of tonnage set aside and deliveries made.* Each processor subject to this order shall file a report with the Director on FPA Form 2 not later than September 10, 1944, for each plant operated by him. Certificates of Designated Buyers, pursuant to which oilseed meal has been delivered, shall be attached to and made a part of FPA Form 2.

(e) *Certificates issued by County Agricultural Conservation Committees.* No County Agricultural Conservation Committee shall issue Certificates of Designated Buyers unless authorized to do so by its State Agricultural Conservation Committee.

(f) *Release of oilseed meal set aside under prior orders.* Any processor who has on hand oilseed meal, which has been reported pursuant to any set aside order prior to War Food Order No. 9–10 [1] as set aside for sale and delivery to designated buyers and for which the processor has received no shipping instructions from the designated buyers prior to the issuance of this order, may sell and deliver such oilseed meal free from the restrictions of the order under which it was set aside.

(g) *Communications.* All reports required to be filed hereunder and all communications concerning this order, unless instructions to the contrary are issued, shall be addressed to the Director of Production, War Food Administration, Washington 25, D. C., Ref: WFO 9–11.

NOTE: The record keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1461—OILSEEDS

REMOVAL OF RESTRICTIONS FOR KANSAS AND OKLAHOMA

War Food Order No. 94, as amended (9 F. R. 2323, 4319, 5333, 6249), § 1461.1, is further amended by deleting (b) (1) and substituting in lieu thereof the following:

(1) No crusher or seed dealer shall, except as otherwise authorized by the Director, purchase or accept delivery of flaxseed of the 1943 crop in a total quantity which, together with his total existing supplies of flaxseed in the following areas, would be in excess of his requirements for (i) crushing at plants located in such areas during the period ending on the date set opposite such areas and (ii) seed deliveries from storage points located in such areas during such periods: Provided, that this restriction shall not apply to purchases or deliveries of flaxseed to crushers or seed dealers located in California, Oregon, Kansas, or Oklahoma.

Area:	*Period ends*
Iowa, Minnesota, and Texas	August 15, 1944
Illinois and Wisconsin	August 22, 1944
Ohio; and Erie County in New York	September 1, 1944

No flaxseed of the 1943 crop purchased or received by a crusher or seed dealer after the effective date of this order shall be used by him except for meeting such requirements or for sale to persons eligible under this order to purchase or accept delivery of such flaxseed. Unless otherwise authorized by the Director, no flaxseed shall be transferred from any of the above-specified areas to any place, except California, Oregon, Kansas, or Oklahoma, not included in one of such areas.

This order shall become effective at 12:01 a. m., e. w. t., July 7, 1944.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 94, as amended, prior to the effective date hereof, all provisions of said War Food Order No. 94, as amended, in effect prior hereto, shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

CURRENT REPORTS AND PROHIBITION OF TRADING

Amendment to rule relating to current reports to be filed and adoption of rule prohibiting trading during suspension of trading on a national securities exchange.

The Securities and Exchange Commission, deeming it necessary for the exercise of the functions vested in it and necessary and appropriate in the public interest and for the protection of investors so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, particularly sections 2, 13, 15 and 23 (a) thereof, hereby takes the following action:

I. Section 240.13A–6 (Rule X-13A–6) is amended by adding thereto the following new paragraph (e):

§ 240.13A–6 *Current reports.* * * *

(e) A current report shall be filed by the registrant whenever its board of directors (or persons performing similar functions) decide to declare a dividend or distribution to the holders of any class of securities of such registrant, either with or without consideration, partly or wholly in the form of (1) an asset other than cash, stock, or a warrant or right to subscribe to or purchase stock, or (2) anything evidencing a right to receive such an asset. Such current report shall be filed promptly by confirmed telegram sent not later than midnight of the same day. The telegram shall be filed with each exchange on which any security of the registrant is registered and with the Commission, and the confirmation shall be filed with each such exchange and in triplicate with the Commission. Both the telegram and the confirmation may be filed in any form and shall contain a full and accurate description of the contemplated dividend or distribution. Whenever the terms of such contemplated dividend are changed in any material respect prior to the actual declaration of the dividend or distribution, and in any event upon such actual declaration, a supplementary report shall be filed, in the same manner and within the same time, bringing up to date the information contained in the report or reports previously filed under this paragraph.

II. The following new § 240.15C2–2 (Rule X–15C2–2) is adopted:

§ 240.15C2–2 *Prohibition of trading during the suspension of trading on a national securities exchange.* The term "fraudulent, deceptive, or manipulative act or practice," as used in section 15 (c) (2) of the act, is hereby defined to include any act of any broker or dealer designed to effect with or for the account of a customer any transaction in, or to induce the purchase or sale by such customer of, any security during the period between (a) a public announcement by the Commission that it has suspended trading in such security on a national securities exchange pursuant to section 19 (a) (4) of the act in order to prevent fraudulent, deceptive, or manipulative acts or practices and (b) the expiration or lifting of such suspension.

(Sec. 2, 48 Stat. 881, 15 U.S.C. 78b; sec. 15, 52 Stat. 1075, 15 U.S.C. 78o; sec. 23, 48 Stat. 901; sec. 8, 49 Stat. 1379; 15 U.S.C. 78w) (Gen. Rules and Regs., Rule X-13A–6 and Rule X-15C2–2, effective July 7, 1944)

By the Commission.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5388]

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

PART 35—EXCESS PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

MISCELLANEOUS AMENDMENTS

Regulations 109 and 112 amended to conform to sections 121 (d) (6) and 121 (e), relating to technical amendment to section 718 (a) (6) (A) of the Internal Revenue Code, section 201, relating to taxable years to which amendments applicable, section 207, relating to strategic minerals, section 208 (d), (e), and (f), relating to exclusion from excess profits net income of nontaxable income of certain industries with depletable resources, and section 209, relating to exempt corporations, of the Revenue Act of 1943, and for other reasons.

In order to conform Regulations 109 (26 CFR Cum. Supp., Part 30) and Regulations 112 (26 CFR Cum. Supp., Part 35) to sections 121 (d) (6), 121 (e), 201, 207, 208 (d), (e), and (f), and 209 of the Revenue Act of 1943 (Public Law 235, 78th Congress) enacted February 25, 1944, and for other reasons, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 30.718–1 the following:

SEC. 121. REORGANIZATION OF CERTAIN INSOLVENT CORPORATIONS. (Revenue Act of 1943, Title I.)

* * * * *

(d) *Technical amendments.*

* * * * *

(6) Section 718 (a) (6) (A) is amended by striking out "112 (b) (3), (4), or (5), or so much of section 112 (c) (d), or (e) as refers to section 112 (b) (3), (4), or (5)" and inserting in lieu thereof "112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10)".

(e) *Effective date.* Provisions having the effect of the amendments made by * * * subsection (d) * * * (6), shall be deemed to be included in the revenue laws respectively applicable to taxable years beginning after December 31, 1933, but shall not affect any tax liability for any taxable year beginning prior to January 1, 1943. * * *

PAR. 2. Section 30.718–4 (b), as amended by Treasury Decision 5092, approved October 21, 1941, is further amended as follows:

(A) By striking out the phrase "section 112 (b) (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (d) (3), (4), or (5)" wherever it appears and inserting in lieu thereof "section 112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10)".

(B) By inserting immediately after the third sentence in that portion of the paragraph preceding the example the following new sentence: "The application of section 112 (b) (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (10), to an exchange involving the acquisition of equity invested capital shall not affect any tax liability for any taxable year beginning in 1940 or 1941."

PAR. 3. There is inserted immediately preceding § 30.727–1 the following:

SEC. 209. EXEMPT CORPORATIONS. (Revenue Act of 1943, Title II.)

(a) *Corporations subject to Title IV of the Civil Aeronautics Act of 1938.* Section 727 (h) (exempting certain corporations subject to Title IV of the Civil Aeronautics Act of 1938) is amended by adding at the end thereof the following new sentence: "Such exclusion from gross income for such year shall also be made in computing the unused excess profits credit adjustment for any other taxable year, but only for the purpose of determining whether the corporation is exempted by this subsection from the tax imposed by this chapter for such other taxable year."

(b) *Retroactive effect.* The amendment made by this section shall be effective as if it were a part of the Excess Profits Tax Act of 1940 on the date of the enactment of such Act.

PAR. 4. Section 30.727–1 (d) is amended to read as follows:

(d) A corporation which claims exemption under section 727 (h) shall attach to its income tax return for the taxable year for which exemption is claimed a statement showing for such taxable year (1) that it is subject to the provisions of Title IV of the Civil Aeronautics Act of 1938, (2) the amount of the compensation included in the gross income of the corporation as compensation received from the United States for the transportation of mail by aircraft, and (3) the computation and the amount of its gross income, net income, excess profits net income, excess profits credit, and adjusted excess profits net income, after excluding from its gross income the amount of such compensation received from the United States, including a separate computation of its unused excess profits credit adjustment for such year containing the information required by this subsection with respect to each taxable year entering into the computation of such unused excess profits credit adjustment.

PAR. 5. There is inserted immediately preceding § 35.711 (a)–1 the following:

SEC. 208. NONTAXABLE INCOME OF CERTAIN INDUSTRIES WITH DEPLETABLE RESOURCES. (Revenue Act of 1943, Title II.)

(d) *Excess profits credit computed under income credit.* Section 711 (a) (1) (I) (relating to nontaxable income of certain industries with depletable resources) is amended to read as follows:

(I) *Nontaxable income of certain industries with depletable resources.* In the case of a producer of minerals, or a producer of logs or lumber from a timber block, or a lessor of mineral property, or a timber block, as defined in section 735, there shall be excluded nontaxable income from exempt excess output of mines and timber blocks provided in section 735; in the case of a natural gas company, as defined in section 735, there shall be excluded nontaxable income from exempt excess output provided in section 735; and in the case of a producer of minerals, or a producer of logs or lumber from a timber block, there shall be excluded nontaxable bonus income provided in section 735. In respect of nontaxable bonus income provided in section 735 (c), a corporation described in section 735 (c) (2) shall be deemed a producer of minerals for the purposes of this subparagraph.

(e) *Excess profits credit computed under invested capital credit.* Section 711 (a) (2) (K) (relating to excess profits credit computed under invested capital credit) is amended to read as follows:

(K) *Nontaxable income of certain industries with depletable resources.* In the case of a producer of minerals, or a producer of logs or lumber from a timber block, or a lessor of mineral property, or a timber block, as defined in section 735, there shall be excluded nontaxable income from exempt excess output of mines and timber blocks provided in section 735; in the case of a natural gas company, as defined in section 735, there shall be excluded nontaxable income from exempt excess output provided in section 735; and in the case of a producer of minerals, or a producer of logs or lumber from a timber block, there shall be excluded nontaxable bonus income provided in section 735. In respect of nontaxable bonus income provided in section 735 (c), a corporation described in section 735 (c) (2) shall be deemed a producer of minerals for the purposes of this subparagraph.

(f) *Taxable years to which certain amendments applicable.* The amendments made by this section with respect to lessors of mineral properties which were in operation during the base period, and with respect to lessors of timber blocks, as defined without regard to the amendments made by this section, which were in operation during the base period, and with respect to natural gas companies, shall be applicable with respect to taxable years beginning after December 31, 1941.

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years begining after December 31, 1943.

PAR. 6. Section 35.711 (a)–2, as amended by Treasury Decision 5361, approved April 20, 1944, is further amended by striking out the first sentence of the second paragraph immediately following the first example and inserting in lieu thereof the following:

For the exclusion of nontaxable income from exempt excess output of mines and timber blocks provided in section 735 in the case of a producer of minerals or a producer of logs or lumber from a timber block, or in the case of a lessor of a mineral property, a coal mining or iron mining property, or a timber block, as defined in section 735, for the exclusion of nontaxable income from exempt excess output provided in section 735 in the case of a natural gas company as defined in section 735, and for the exclusion of nontaxable bonus income provided in section 735 in the case of a producer of minerals or a producer of logs or lumber from a timber block as defined in section 735, see section 711 (a) (1) (I), as amended by Public Law 172 (78th Congress, 1st Session), approved October 26, 1943, and by section 208 (d) of the Revenue Act of 1943. The exclusion for nontaxable income from exempt excess output in the case of a producer of minerals from, or a lessor of, a coal mining or iron mining property which was not in operation during the base period as defined in section 735, and in the case of a producer of logs or lumber from, or a lessor of, a timber block which was not an operation unit existing as of December 31, 1941, or which was not in operation during the base period, shall be applicable only with respect to taxable years beginning after December 31, 1943. A lessor of a mineral property, a coal or iron mining property, or a timber block is not entitled to the benefit of the exclusion for nontaxable bonus income.

PAR. 7. Section 35.711 (a)–4 (a) is amended by striking out the last sentence and inserting in lieu thereof the following:

The tax under section 710 (a) (1) (B) for a taxable year of less than 12 months is determined on the basis of the actual normal tax and surtax for the taxable year, and on the basis of the corporation surtax net income for such year computed for the period for which the return was made without placing the net income on an annual basis and with the proper adjustments under that section with respect to such year.

PAR. 8. Section 35.711 (b)–1 is amended by changing that part designated as (2) of the first paragraph immediately following the first example to read as follows:

(2) If the excess profits tax taxable year begins on or after January 1, 1943,

the capital loss carry-over provided in section 117 (e) (1), as amended by the Revenue Act of 1942, shall be applicable to net capital losses for taxable years beginning after December 31, 1934, and for the purpose of determining such carry-over capital gains and losses shall be determined as if the provisions of section 23 (g) (2) and (k) (2) and section 117 of the Code, as amended by the Revenue Acts of 1942 and 1943 (not including section 117 (k) (1), were applicable to all such years, and if the excess profits tax taxable years begin on or after January 1, 1944, as if section 117 (k) (1) of the Code, as added by section 127 of the Revenue Act of 1943, were also applicable to all of such years.

PAR. 9. There is inserted immediately preceding § 35.718–1 the following:

SEC. 121. REORGANIZATION OF CERTAIN INSOLVENT CORPORATIONS. (Revenue Act of 1943, Title I.)

* * * * *

(d) *Technical amendments.*

* * * * *

(6) Section 718 (a) (6) (A) is amended by striking out "112 (b) (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), or (5)" and inserting in lieu thereof "112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10)".

(e) *Effective date.* Provisions having the effect of the amendments made by * * * subsection (d) * * * (6), shall be deemed to be included in the revenue laws respectively applicable to taxable years beginning after December 31, 1933, but shall not affect any tax liability for any taxable year beginning prior to January 1, 1943. * * *

PAR. 10. Section 35.718–4 (b) is amended as follows:

(A) By striking the phrase "section 112 (b) (3), (4), or (5), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), or (5)" wherever it appears, and inserting in lieu thereof "section 112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10)".

(B) By inserting immediately following the third sentence of that portion of the paragraph preceding the example the following new sentence: "The application of section 112 (b) (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (10), to an exchange involving the acquisition of equity invested capital shall not affect any tax liability for any taxable year beginning prior to January 1, 1943."

PAR. 11. Section 35.721–4 is amended by changing that portion of the first paragraph immediately preceding and including the colon, which follows immediately after example (2) to read as follows:

For any taxable year for which the excess profits tax or the increase in excess profits tax is determined under section 721 (c), the excess profits tax, if computed pursuant to the provisions of section 710 (a) (1) (B), shall be an amount which when added to the normal tax and surtax for the year is equal to 80 percent of the corporation surtax net income for such year determined under section 15 or Supplement G of Chapter 1 (relating to insurance companies) and properly adjusted pursuant to the provisions of section 710 (a) (1) (B) which are applicable to such year. As to the adjustments to be made to corporation surtax net income pursuant to the provisions of section 710 (a) (1) (B), see § 35.710–4. For the purposes of the computation provided by section 710 (a) (1) (B) in case of a determination under section 721 (c), the normal tax and surtax, and the corporation surtax net income prior to adjustment, shall be computed as follows:

PAR. 12. Section 35.721–5 is amended as follows:

(A) By striking out the first two sentences of the second paragraph and inserting in lieu thereof the following:

The excess profits tax is determined as the lesser of the amounts computed under section 710 (a) (1) (A) and section 710 (a) (1) (B). Under section 710 (a) (1) (A), the tax for years beginning prior to January 1, 1944 is 90 percent of the adjusted excess profits net income, and for years beginning after December 31, 1943, is 95 percent of the adjusted excess profits net income. Under section 710 (a) (1) (B), the excess profits tax is an amount which when added to the normal tax and surtax for the year is equal to 80 percent of the corporation surtax net income for such year properly adjusted pursuant to the provisions of that section applicable to such year.

(B) By changing the third, fourth, and fifth sentences in the third paragraph to read as follows:

The excess profits tax for 1945 computed without the application of section 721 (d) (1) is $147,500. Under section 721 (d) (1), the excess profits tax is determined to be $119,000. If only $20,000, instead of $50,000, had been included as net abnormal income in the gross income for 1945, the excess profits tax for that year without the application of section 721 (d) (1) would be $119,000.

(C) By changing the first example following the fourth paragraph to read as follows:

Example. A taxpayer, on the calendar year basis, has net abnormal income for 1941, of which $10,000 is attributed to 1945, and net abnormal income for 1942, of which $20,000 is also attributed to 1945. The tax for 1945, before the application of section 721 (d) (1), is $95,000. The adjusted excess profits net income for 1945 is $100,000, and the gross income and other amounts necessary to determine this amount are such that a decrease in gross income (if such decrease is $100,000 or less) causes a decrease of an equal amount in adjusted excess profits net income. For the purpose of applying section 721 (d) (1) to 1945, computations under (a) and (b) are first made only with respect to the $10,000 attributed from 1941, and the $20,000 attributed from 1942 is not considered net abnormal income. Upon this computation, the tax under (a) is $95,000. The tax under (b) (1), determined by excluding $10,000 from gross income, is $85,000. Assuming that the amount determined under (b) (2) with respect to the $10,000 net abnormal income is $4,750, the excess profits tax would then be determined under (b) as $90,250, a lesser amount than the $95,000 computed under (a). The computations under (a) and (b) are then made with respect to the $20,000 attributed from 1942. For this purpose, the tax under (a) is considered to be the $90,250 amount computed with respect to the net abnormal income attributed from 1941. For the purposes of (b), the taxpayer is considered to have such gross income and other items of deductions and credits as would produce the tax of $90,250 determined with respect to the net abnormal income attributed from 1941. That is, the gross income is considered reduced by $5,000, the items of deductions and credits remaining the same, so that the adjusted excess profits net income is reduced to $95,000, on which amount the tax would be $90,250. The exclusion of $20,000 from that amount of gross income which would produce $95,000 adjusted excess profits net income would reduce such adjusted excess profits net income to $75,000, on which the tax is $71,250, and this $71,250 amount is considered the tax under (b) (1) determined by excluding the $20,000 from gross income. Assuming that the amount determined under (b) (2) with respect to the $20,000 net abnormal income is $18,000, then the tax finally determined under section 721 (d) (1) for the future taxable year would be $89,250, the sum of $71,250 and $18,000, which is a lesser amount than the $90,250 determined under (a).

PAR. 13. Section 35.722–2 (d) is amended to read as follows:

(d) *Normal output and normal unit profit in case of producers of minerals or timber, natural gas companies, and lessors of mines or timber blocks.* Nontaxable income from exempt excess output of mines or timber blocks or from natural gas properties determined under section 735 (relating to nontaxable income from certain mining and timber operations, and from natural gas properties) may be excluded under section 711 (a) (1) (I) from the excess profits net income of a taxpayer for which there is established under section 722 a constructive average base period net income. For the purposes of computing nontaxable income from exempt excess output under section 735 in such a case, there shall be determined with respect to each mineral property as defined in section 735 (a) (6), coal or iron mining property set forth in section 735 (b) (2) and defined in § 35.735–2 (1), or timber block as defined in section 735 (a) (8), in which an economic interest is owned by the taxpayer, and with respect to the natural gas property of the taxpayer as defined in section 735 (a) (5), a fair and just amount to be used as the normal output as defined in section 735 (a) (4). With respect to such mineral property or coal or iron mining property there shall also be determined a fair and just amount to be used as the normal unit profit as defined in section 735 (a) (9). However, no amounts representing a fair and just normal output or normal unit profit for such base period shall be established for any mineral property, coal or iron min-

ing property, timber block, or natural gas property unless the constructive average base period net income under section 722 is predicated in whole or in part upon normal earnings attributable directly to such mineral property, coal or iron mining property, timber block, or natural gas property, and unless such property or block satisfies the requirements of section 735 with respect to the taxable year for which the benefits of section 735 are claimed. A normal output and a normal unit profit may be established for a mineral property, coal or iron mining property, or timber block in which an economic interest is owned by the taxpayer, or for a natural gas property owned by the taxpayer, despite the fact that such taxpayer came into existence after December 31, 1939, if such property or block meets the requirements provided in the preceding sentence and if the relief determined with respect to such taxpayer under section 722 is predicated in whole or in part upon normal earnings attributable directly to such property or block.

PAR. 14. Section 35.722–5 (b) (26) (a) is amended to read as follows:

(a) Normal output during the base period, as defined in section 735 (a) (4),

PAR. 15. Section 35.726–1 (b) is amended by striking out that portion of the first paragraph immediately following the second sentence and inserting in lieu thereof the following:

The tentative tax under section 726 (b) (1), as is the case with respect to the tax computed under section 710, shall be the lesser of:

(1) An amount equal to 90 percent of the adjusted excess profits net income in the case of taxable years beginning prior to January 1, 1944, or 95 percent of the adjusted excess profits net income in the case of taxable years beginning after December 31, 1943 (section 710 (a) (1) (A)), or

(2) An amount which when added to the sum of the normal tax and surtax for the taxable year equals 80 percent of the corporation surtax net income computed under section 15 (a) and properly adjusted pursuant to the provisions of section 710 (a) (1) (B) applicable to the taxable year involved.

If the tentative tax is computed under section 710 (a) (1) (B) and clause (2) of the immediately preceding sentence, the normal tax and surtax for such purposes shall be the actual normal tax and surtax computed under Chapter 1 and shall be determined by using as the credit under section 26 (e), in computing normal tax net income and corporation surtax net income, the amount of which the tax computed under section 726 (b) pursuant to the provisions of section 710 (a) (1) (A) is 90 percent in the case of taxable years beginning prior to January 1, 1944, or 95 percent in the case of taxable years beginning after December 31, 1943. The corporation surtax net income for the purposes of section 710 (a) (1) (B) and clause (2) above, properly adjusted pursuant to the provisions of section 710 (a) (1) (B), shall be increased by the amount of any payments made, or to be made, to the United States Maritime Commission with respect to contracts or subcontracts subject to the provisions of section 505 (b). For the computation of tax under section 710 (a) (1) (B), see § 35.710–4 (a) and (c).

PAR. 16. There is inserted immediately preceding § 35.727–1 the following:

SEC. 209. EXEMPT CORPORATIONS. (Revenue Act of 1943, Title II.)

(a) *Corporations subject to Title IV of the Civil Aeronautics Act of 1938.* Section 727 (h) (exempting certain corporations subject to Title IV of the Civil Aeronautics Act of 1938) is amended by adding at the end thereof the following new sentence: "Such exclusion from gross income for such year shall also be made in computing the unused excess profits credit adjustment for any other taxable year, but only for the purpose of determining whether the corporation is exempted by this subsection from the tax imposed by this chapter for such other taxable year."

(b) *Retroactive effect.* The amendment made by this section shall be effective as if it were a part of the Excess Profits Tax Act of 1940 on the date of the enactment of such Act.

PAR. 17. Section 35.727–1 is amended as follows:

(A) Paragraph (d) is amended to read as follows:

(d) A corporation which claims exemption under section 727 (h) shall attach to its income tax return for the taxable year for which exemption is claimed a statement showing for such taxable year (1) that it is subject to the provisions of Title IV of the Civil Aeronautics Act of 1938, (2) the amount of the compensation included in the gross income of the corporation as compensation received from the United States for the transportation of mail by aircraft, and (3) the computation and the amount of its gross income, net income, excess profits net income, excess profits credit, and adjusted excess profits net income, after excluding from its gross income the amount of such compensation received from the United States, including a separate computation of its unused excess profits credit adjustment for such year containing the information required by this subsection with respect to each taxable year entering into the computation of such unused excess profits credit adjustment.

(B) The first paragraph of paragraph (e) is amended to read as follows:

(e) If any corporation described in subsection (e), (g), or (h) of section 727 is a member of an affiliated group of corporations filing consolidated returns under section 141, such corporation shall not be exempt under section 727 for such year.

PAR. 18. There is inserted immediately preceding § 35.731–1 the following:

SEC. 207. STRATEGIC MINERALS. (Revenue Act of 1943, Title II.)

(a) *In general.* Section 731 (relating to corporations engaged in mining certain strategic minerals) is amended by inserting after "tungsten," the following: "fluorspar, flake graphite, vermiculite,".

(b) *Taxable years to which applicable.* The amendment made by subsection (a) insofar as it relates to flake graphite shall be applicable with respect to taxable years beginning after December 31, 1942.

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1943.

PAR. 19. Section 35.731–1 (a) is amended to read as follows:

(a) The portion of the adjusted excess profits net income of a domestic corporation engaged in mining within the United States the following minerals (all of which are hereinafter referred to as strategic minerals) and attributable to such mining shall be exempt from excess profits tax: antimony, chromite, manganese, nickel, platinum, quicksilver, sheet mica, tantalum, tin, tungsten, vanadium; flake graphite with respect to taxable years beginning after December 31, 1942; or fluorspar or vermiculite with respect to taxable years beginning after December 31, 1943. The excess profits tax on the remaining portion of such adjusted excess profits net income is an amount which bears the same ratio to the excess profits tax computed without regard to section 731 as such remaining portion bears to the entire adjusted excess profits net income. The excess profits tax shall be the lesser of:

(1) An amount equal to 90 percent of the adjusted excess profits net income in the case of taxable years beginning before January 1, 1944, or 95 percent of the adjusted excess profits net income in the case of taxable years beginning after December 31, 1943 (section 710 (a) (1) (A)), or

(2) An amount which when added to the sum of the normal tax and surtax for the taxable year equals 80 percent of the corporation surtax net income computed under section 15 (a) and properly adjusted pursuant to the provisions of section 710 (a) (1) (B) applicable to the taxable year involved. If the excess profits tax computed without regard to section 731 is determined under section 710 (a) (1) (B) and clause (2) of this paragraph, the normal tax and surtax for such purposes shall be determined by using as the credit under section 26 (e) in computing normal tax net income and corporation surtax net income, the amount of which the tax computed pursuant to sections 710 (a) (1) (A) and 731 upon the adjusted excess profits net income other than from mining strategic minerals is 90 percent in the case of taxable years beginning before January 1, 1944, or 95 percent in the case of taxable years beginning after December 31, 1943.

For the computation of the excess profits tax for taxable years beginning in 1943 and ending in 1944, see § 35.710–4 (b).

PAR. 20. Section 35.736 (a)–1 (b) (3) is amended by changing the third and fourth sentences to read as follows:

In computing the net debit amount of such accounts for the installment base period there shall be allowed as credits not only payments, trade-ins, and returns and allowances but also the amount of installment accounts receivable which have been allowed as a deduction under section 23 (k) of the Internal Revenue Code or a corresponding provision of a prior revenue law. With respect to the taxable year for which eligibility for relief under section 736 (a) and this section is being determined, in addition to the credits for payments, trade-ins, and returns and allowances, there shall be allowed as a credit the amount of installment accounts receivable which have been allowed as a deduction under section 23 (k) of the Internal Revenue Code.

PAR. 21. Section 35.736 (a)–3 is amended as follows:

(A) By changing the second sentence of the second paragraph to read as follows: "The deduction for bad debts under section 23 (k) shall be allowed only with respect to specific debts."

(B) By changing the fourth sentence of the second paragraph to read as follows:

Only those debts which are allowed as a deduction in the computation of net income for the purposes of the income tax under Chapter 1 for the taxable year shall be allowed in the determination of the bad debt deduction for excess profits tax purposes under section 736 (a).

(C) By striking out the last sentence of the sixth paragraph and inserting in lieu thereof the following:

For the purposes of determining the excess profits tax under section 710 (a) (1) (B) as an amount which when added to the normal tax and surtax for the taxable year equals 80 percent of the corporation surtax net income properly adjusted pursuant to the provisions of section 710 (a) (1) (B) applicable to such taxable year, the corporation surtax net income shall include income from installment sales computed upon the straight accrual basis described in this section, the credit for dividends received used in computing corporation surtax net income shall be limited to 85 percent of the net income which shall include income from installment sales computed upon such straight accrual basis, and the normal tax and surtax shall be the actual normal tax and surtax determined under Chapter 1.

PAR. 22. Section 35.736 (b)–3 is amended as follows:

(A) By changing the first sentence of the fourth paragraph of paragraph (a) thereof to read as follows:

The excess profits tax may be computed under section 710 (a) (1) (B) as an amount which when added to the normal tax and surtax computed under Chapter 1 for the taxable year equals 80 percent of the corporation surtax net income properly adjusted under the provisions of section 710 (a) (1) (B) applicable to such year.

(B) By changing the second sentence immediately following (i) of paragraph (c) to read as follows:

If the excess profits tax is computed pursuant to an election under section 736 (b), such income is the amount of which the excess profits tax computed under section 710 (a) (1) (A) is 90 percent in the case of taxable years beginning prior to January 1, 1944, or 95 percent in the case of taxable years beginning after December 31, 1943.

PAR. 23. The first paragraph of § 35.760–1 (b) (1) is amended by striking the word "and" at the end of subdivision (v), by renumbering as (vii) the subdivision designated as (vi), and by inserting immediately preceding the subdivision renumbered as (vii) the following:

(vi) The application of section 113 (a) (22) to property acquired in a taxable year beginning after December 31, 1933, in a reorganization of a corporation resulting from certain receivership and bankruptcy proceedings (in the case of excess profits tax taxable years beginning after December 31, 1942); and

PAR. 24. Section 35.761–1 (a) (2) is amended by changing that portion thereof immediately preceding the first complete sentence to read as follows:

(2) A provision of law is applicable prescribing the nonrecognition of gain or loss in whole or in part upon such receipt, including a provision of the regulations applicable to a consolidated income tax return or a consolidated excess profits tax return, but not including the provisions of section 112 (b) (7) of the Revenue Act of 1938 relating to certain complete liquidations occurring during December 1938, the provisions of section 112 (b) (7) of the Internal Revenue Code relating to certain complete liquidations occurring during some one calendar month in 1944, the provisions of section 112 (b) (9) relating to certain complete liquidations of railroad corporations, or the provisions of section 112 (b) (10) relating to reorganizations of corporations in certain receivership and bankruptcy proceedings.

(Sec. 62 I.R.C. (53 Stat. 32; 26 U.S.C. 62) as made applicable by sec. 729 (a), I.R.C. (54 Stat. 989; 26 U.S.C. 729 (a)), and secs. 121 (d) (6), 121 (e), 201, 207, 208 (d), (e), and (f), and 209, Revenue Act of 1943 (Pub. Law 235, 78th Cong.) enacted Feb. 25, 1944)

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

TERRITORIAL WAR LABOR BOARD FOR HAWAII

Correction

In F. R. Doc. 44–9839, appearing at page 7512 of the issue for Thursday, July 6, 1944, the section number at the beginning of the second paragraph should read "§ 803.36".

Chapter IX—War Food Administration (Agricultural Labor)

PART 1107—SPECIFIC WAGE CEILING REGULATIONS

WAGE RATES AND INSPECTION OF RECORDS

The specific wage ceiling regulations issued by the War Food Administrator on January 20, 1944 (9 F.R. 831) are hereby amended as follows:

1. The table of contents is amended by adding at the end the following: "1107.10 Inspection of records."

2. Section 1107.4 is amended to read as follows:

§ 1107.4 *Wage rates.* Notwithstanding the provisions of any contract or other commitment, no payments of wages, salaries, or other valuable consideration to agricultural labor described in any determination and public notice issued pursuant to this part shall be made in excess of the maximum rates set forth in any such determination and public no-

tice, or of an equivalent of such rates, without the approval of the War Food Administrator under the procedure provided for in these regulations: *Provided*, That if an employer was paying a particular employee doing the same type of work at a higher wage or salary rate between January 1, 1942 and September 15, 1942, such employer may pay such employee at the wage or salary rate paid during that period, but the burden of proving the facts so justifying payment at such higher rate shall be upon the employer.

3. Section 1107.9 is amended by deleting from the first sentence of paragraph (e) the following: "a preponderance of the" and by substituting for the deleted matter the word "substantial."

4. A new section is inserted after § 1107.9 as follows:

§ 1107.10 *Inspection of records.* Upon request of an authorized agent of the War Food Administrator, the Department of Agriculture, or a WFA Wage Board, any person, including an independent contractor, employing or paying agricultural labor performing services described in any specific wage ceiling regulation issued pursuant to these regulations, shall make available for inspection and audit by such authorized agent all employment and wage records kept by such person, such inspection and audit to be made at a place designated by such authorized agent, unless such person prefers to have the audit and inspection made at such person's place of business where such records are kept.

(56 Stat. 765, 50 U. S. C. Supp. II 961 et seq., as amended by Pub. Law 34, 78th Cong.; E.O. 9328, 8 F.R. 9681; regulations of Economic Stabilization Director, dated August 28, 1943, as amended, 8 F.R. 11960, 12139, 16702, 9 F.R. 6035)

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 246, 2d Ed.]

PART 622—CLASSIFICATION

IDENTIFICATION OF CERTAIN REGISTRANTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 622.83 to read as follows:

§ 622.83 *Identifying certain registrants in Class II–A, Class II–B, and Class II–C.* When a registrant who has been found to be disqualified for any military service or to be qualified for limited military service only is classified in Class II–A, Class II–B, or Class II–C, he shall be identified in all records by following his classification with the letter "(F)" if he has been found disqualified for any military service or with the letter "(L)" if he has been found to be qualified for limited military service only.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

Chapter IX—War Production Board

Subchapter A—General Provisions

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1, as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 903—DELEGATIONS OF AUTHORITY

[Directive 24, Interpretation 1]

HOUSING CONSTRUCTION COVERED BY THE SCHEDULES TO DIRECTIVE 24

The following interpretation is issued with respect to Directive 24:

Directive 24 describes the kind of action which the National Housing Agency and its constituent operating agencies (Federal Housing Administration, Federal Public Housing Authority, and Home Owners' Loan Corporation) can take with respect to housing construction. Schedules A and B to Directive 24 set forth what is meant by housing construction for this purpose. If the construction is covered by Directive 24, persons (other than government units) who want permission to build should make application to the Federal Housing Administration on Form WPB–2896. Local public housing authorities apply on Form WPB–2896 to the FPHA. If the construction is not covered by Directive 24, Order L–41 will explain how to get permission to do the building. Schedules A and B of Directive 24 merely tell what kind of construction is reviewed by the National Housing Agency. They do not define residential construction for any other purpose. For example, Conservation Order L–41 establishes a dollar limit of $200 for residential construction which may be performed without permission. Schedules A and B have no bearing on the meaning of residential construction in L–41 for the purpose of determining the necessity for permission.

(a) *Room count and floor area.* Jurisdiction over hotel construction is determined by the number of rooms as provided in paragraph (c) of Schedule A. In cases of remodeling or additions, this room count should be applied to the completed structure and not to the structure before the remodeling or addition is made. Jurisdiction over new construction of structures which are partly commercial and partly residential depends on the percentage of floor area devoted to each use under paragraph (a) (3) of Schedule B. In cases of remodeling and additions, a change in the percentage of floor area devoted to living accommodations is sometimes involved. In such cases the determination of jurisdiction should be made on the basis of the floor area being remodeled or added, and should not be made on the basis of the floor area of the whole structure as it will be after completion of the remodeling or additions (see also paragraph (e) (2) (ii) of this Interpretation). Furthermore, if the remodeling or addition is wholly commercial, paragraph (h) of Schedule A applies; and if it is wholly residential, paragraph (a) (4) of Schedule B applies.

(b) *Farm housing.* As provided in paragraph (a) of Schedule A, farm housing is not covered by Directive 24. Whether a project is farm housing or other residential construction is ordinarily determined by its location. A farm house is a structure built on the farm and used primarily for housing agricultural workers required in the operation of that farm. A farm is a place primarily used for raising crops, livestock, dairy products, poultry, etc., for the market. A suburban house with a victory garden is not a farm. Except in unusual cases a place of less than five acres will not be considered a farm. Housing built off a farm for the purpose of housing farm laborers would not be farm housing. Housing constructed on a farm for the purpose of housing nonfarm workers would likewise not be farm housing, since running the rooming house or apartment house would be a separate nonfarming enterprise.

(c) *Institutional housing.* As provided in paragraph (d) of Schedule A, institutional housing is not covered by Directive 24. Housing which is owned or operated by an institution (whether or not it is rented to the occupant) primarily for accommodating its personnel, is institutional housing. The term includes, for example, a house being built by a church for a parson, or housing owned or operated by a university for its professors or other employees.

(d) *Housing for petroleum operators.* (Paragraph (f) of Schedule A). Application shall be made to the Petroleum Administration for War under P–98–b for housing to be built on or immediately adjacent to a "lease" (land where petroleum resources are being explored, developed, or depleted), or on an oil pipe line in a remote area, either by the operator for occupancy by his employees or by an employee for his own occupancy. Applications must be filed under P–55–c for all other types of housing needed in the Petroleum industry, including housing for refineries and other plants, and for petroleum distribution outlets.

(e) *Commercial establishments.* In many cases commercial establishments and dwelling units are either part of the same structure or are separate buildings which are part of the same project. The general rule is that for a single project only one application need be filed. Paragraph (h) of Schedule A and paragraphs (a), (b) and (g) of Schedule B tell how to determine whether or not a project containing commercial establishments is essentially a housing project for which a WPB–2896 should be filed.

(1) *New project.* New construction in which more than 50% of the floor area of each structure provides dwelling accommodations is a housing project under paragraph (a) (3) of Schedule B. In addition separate commercial establishments to serve the housing project may be constructed under the housing authorization if they meet the conditions of paragraph (g) of Schedule B. One of the conditions set forth in subparagraph (1) states that the commercial establishments must be "an integral part of" the housing project. This means that the commercial establishments must be located at or adjacent to the site of the dwelling accommodations, must be owned by the owner of the dwelling accommodations and must be part of the project as approved or as amended, providing the amendment is made before the dwelling accommodations have been completed. The building of separate structures for commercial purposes as an addition to a completed residential project is not housing construction. (See paragraph (b) of Schedule B).

(2) *Existing structures.* If an existing structure is being altered by remodeling or making additions so that the building will, when complete, include dwelling accommodations and commercial establishments, the remodeling or addition is a housing project under the following conditions:

(i) When the proposed construction involves the creation of additional dwelling units only. It is a housing project whether or not most of the floor area of the structure after remodeling is for commercial use. (See paragraph (a) (4) of Schedule B). However, if the proposed construction involves only space to be used for commercial purposes the construction is not a housing project. (See paragraph (h) of Schedule A).

(ii) If the addition or remodeling is partly for residential purposes and partly for commercial purposes the construction is a housing project only if more than 50% of the floor area of the addition or of the part of the structure being remodeled is to be used for dwelling accommodations. (See paragraph (h) of Schedule A and paragraph (a) (3) of Schedule B).

(f) *Accommodations for transient workers.* Bunk houses and similar accommodations built by employers for transient workers such as train and engine crews who need living accommodations at division points and terminals during a lay-over period or for maintenance of way workers are housing construction covered by paragraph (a) (2) of Schedule B and not by paragraph (c) or (d) of Schedule A if the accommodations are intended for a fixed location. Trailers and other mobile housing units for transient workers are not housing construction and are covered by paragraph (e) of Schedule A.

(g) *Repair.* Preference ratings for maintenance and repair of houses are available under the provisions of CMP Reg. 5 or 9A, Order L–79, or other WPB Orders or Regulations. No applications for priorities assistance for maintenance and repair may be approved on Form WPB–2896 if other orders are adequate.

(1) CMP Reg. 9A provides repairmen with an allotment symbol and preference rating equivalent to the rating available under P–55–c for use in obtaining materials within the quantity limitations specified in the Regulation. However, if the applicant proposes to do his own work and cannot be considered as a person "in the business of making repairs", he is not entitled to use CMP Reg. 9A authorization.

(2) CMP Reg. 5 provides that a person managing property for profit may use an AA–5 rating to get materials for maintenance and repair.

(3) Order L–79 authorizes repairs and replacements for plumbing and heating equipment subject to certain limitations.

(4) CMP Regs. 4 and 9 authorize warehouses and retailers to sell limited quantities of steel in the controlled material form and copper wire on unrated orders.

The National Housing Agency may consider applications on Form WPB–2896 for priorities assistance for maintenance and repair where (i) none of the above orders and regulations are sufficient to provide the needed materials and (ii) the maintenance and repair relates to housing covered by Schedule B of Directive 24.

Issued this 8th day of July 1944.

Program Vice Chairman.

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–564]

ROSENBERG IRON & METAL CO.

Isadore Louis Rosenberg, doing business as Rosenberg Iron & Metal Co., at 2450 Harrison Street, San Francisco, California has engaged in the business of buying and selling iron and steel.

During the period from May 11, 1943, through November 1, 1943, Mr. Rosenberg placed orders purporting to be authorized controlled material orders for more than 600 tons of steel for which he had received no allotment of controlled materials. Such of these acts as took place after May 28, 1943, constituted violations of CMP Regulation No. 1. In placing these orders, he made false and misleading statements to his suppliers and to the War Production Board.

In or about October, 1943, and November, 1943, Mr. Rosenberg delivered approximately 176 tons of steel which he was not required or permitted to deliver under the provisions of CMP Regulation No. 4. This was a violation of CMP Regulation No. 4 and of General Preference Order M–21.

On or about November 22, 1943, Mr. Rosenberg made false statements concerning his transactions in steel to representatives of the War Production Board. Mr. Rosenberg was aware, or from his business experience should have been aware, of CMP Regulations 1 and 4, Priorities Regulation No. 1 and of Order M–21; his violation of CMP Regulations 1 and 4 and of Order M–21 must be deemed wilful. These violations have diverted critical materials to uses unauthorized by the War Production Board and have hampered and impeded the war effort of the United States. The false statements made by Mr. Rosenberg subject him to administrative action under the provisions of CMP Regulation 1 and of Priorities Regulation 1. In view of the foregoing, it is hereby ordered, that:

§ 1010.564 *Suspension Order No. S–564.* (a) Isadore Louis Rosenberg, doing business as Rosenberg Iron & Metal Co., individually or under any other name, his successors and assigns, shall not either independently or for the account of another directly or indirectly buy, sell, or otherwise deal in steel as defined in General Preference Order M–21, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Isadore Louis Rosenberg, doing business as Rosenberg

Iron & Metal Co., individually or under any other name, his successors or assigns, from any restriction, prohibition, or provisions contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 7, 1944, and shall continue in effect until December 31, 1944.

Issued this 27th day of June 1944.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, as Amended July 8, 1944]

§ 944.34 *Priorities Regulation 13*—(a) *Purpose of this regulation.* This regulation, in general, describes the rules under which materials may be sold by persons who are not in the regular business of selling such materials. While most sales of this kind will be sales of frozen, idle, or excess materials the regulation also covers any sale from inventory by such persons. For example, a person who has idle materials on hand because his business has been converted to war work, or because the business he used to carry on has been stopped or limited by War Production Board orders, or whose contract has been cancelled or changed, may sell off the idle or excess materials only under the rules in this regulation and, if he follows this regulation, he does not have to look at any other order or regulation except in a few cases which are described in paragraph (f) (2) below. This regulation also controls liquidation sales, bankruptcy sales, general auction sales, and other special sales, as defined in paragraph (b) (1).

(b) *Special definitions used in this regulation.* This regulation deals only with "special sales" of "industrial materials" or "finished products." As used in the regulation, those terms have the following meanings:

(1) "Special sale" means a sale of a material or product by a person who does not, in the regular course of his business, sell it in that form. For example, if a manufacturer sells the raw material he has bought to use in making his regular product, it is a special sale because selling raw material is not his regular business. Or, if a contractor has bought building materials and equipment to build a building and cannot finish it and sells them, that is a special sale because his business is building houses, not selling lumber and nails and lighting fixtures. Liquidation sales by trustees in bankruptcy, receivers and other kinds of liquidators (unless they are continuing to operate a business) and sales by general auctioneers are special sales as that type of person is not considered to be regularly in the business of selling any particular products.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind. It includes both "industrial materials" and "finished products."

(3) "Industrial materials" means the simple kinds of materials that finished products are made out of. It includes simple material forms like pipe, metal sheet and rod, wire, lumber, chemicals, nails, nuts and bolts. These are things that are bought for use in making something else, or are to be put together with other things to make a finished product.

(4) "Finished products" means completed articles which are ready for use just as they are and which do not need to be put together with something else before they can be used. It includes wrenches and hammers, assembled parts, replacement parts and products like tools, machinery, motors, valves, drums and fabricated industrial, agricultural or household equipment. Other examples of what it includes are clothing, furnishings, light bulbs, etc.

(5) "Used materials" means any industrial materials or finished products which have been put into actual use.

(6) Materials not covered by this regulation. There are three types of materials which are not covered by this regulation. They are the following:

(i) Scrap. This includes both scrap normally generated in production and other material which is sold as scrap. There are special orders covering certain types of scrap and except in those cases scrap may be sold to a scrap dealer.

(ii) Rationed products which are controlled by another government agency.

(iii) Foods for humans or animals, medicines, tobacco, oils and fats, petroleum and petroleum products including natural and liquefied petroleum gases.

(c) *Kinds of special sales which may be made.* If a person wants to make a "special sale" (as described above), the rules in this regulation apply and only these rules. There is no need to look at any other order or regulation, and these rules must be followed, no matter how the material was bought, and no matter what any other order or regulation provides. The only exceptions to this rule are stated in paragraphs (f) (2) and (3). The types of special sales which may be made are the following:

(1) *Materials not on Lists A or B.* (i) Industrial materials not on List A may be sold freely to anyone.

(ii) Finished products not on List B may be sold freely to any producer who makes such a product in the form in which the holder has it, or to a wholesaler whose regular business is selling that sort of a product either to industrial users or to other distributors for resale. They also may be sold to anyone else on a rating of AA-5 or higher. If a holder has a total of not more than $100.00 worth of the particular finished product he wants to sell, he may sell it freely to anyone. In deciding whether he has $100.00 worth, he must count all products of the same type and style. For example, all wrenches, or chairs or ash cans. This does not mean that a person may sell freely separate lots worth less than $100.00 if he has more than that amount. It only allows the sale if all he has of that product is worth $100.00 or less. A holder may also make a special sale of a finished product which is not on List B if he obtains permission from the War Production Board as explained below in paragraph (c) (2) (iii).

(2) *Materials on List A or List B.* If the material that the holder wants to sell is one of the industrial materials listed on List A or is a finished product appearing on List B, the following are the only kinds of sales that can be made.

(i) Sales may be made in accordance with List A or List B. Those lists have four columns showing classes of buyers who might want to buy materials. Opposite each material on the lists in each column is shown whether, and under what conditions, sales can be made to the class of buyer described in the heading of the column.

(ii) A holder may sell freely to one of the following Government corporations, or to anyone buying as agent for one of them: Commodity Credit Corporation, Defense Supplies Corporation, Metals Reserve Company or Rubber Reserve Company.

(iii) A holder may sell if he has been given permission by the War Production Board to make the particular sale. Form WPB-1161 (PD-470) should be used in applying for permission. It shows the information which is needed before permission can be given and it should be sent to the regional office of the War Production Board in the region where the material is located. Copies of this form can be obtained from district or regional offices of the War Production Board. If a note in List A or List B states that another form is to be used, application should be made on that form.

(iv) A holder may sell freely to anyone if he has a total of not more than $100 worth of the particular material to be sold, unless it is one of the few materials for which special rules and amounts are stated in Column 6 of List A or List B. In deciding whether the holder has $100 worth he must count all material of the same type and composition. For example, all zinc sheet or cattle hides, or all cotton duck, or all shovels or hammers. This paragraph does not mean that a person may sell freely lots worth less than $100 if he has more than that amount. It only allows the sales if all he has of that kind of material is worth $100 or less.

(v) If the material is copper, copper base alloy, aluminum or steel in a form described as a "controlled material" in CMP Regulation 1, the holder may sell it to a buyer who gives him an order bearing a CMP allotment symbol or number and this certification:

> The undersigned purchaser certifies that he is entitled under CMP regulations to place an authorized controlled material order for the above material.

Or the certification may be in the form set out in CMP Regulation 7 or in any other form which may be used in placing an authorized controlled material order. The buyer must charge material bought under this paragraph, against his CMP allotment account. If the material which the holder wants to sell is steel he may also sell it to steel warehouses, dealers or distributors on orders bearing the endorsements described in M-21-b-1 and M-21-b-2.

(vi) Special permission to sell controlled materials. The War Production Board may give special permission to sell idle or excess controlled materials for any use which is permitted under War Production Board orders or regulations either to a person who has no allotment or to a person who already has an allotment and an authorized production schedule under the Controlled Material Plan. This permission may be given only if the material has been reported to the War Production Board as idle or excess and if the material is iron, steel, aluminum, copper or copper base alloy in controlled material form. If this permission is given, the holder need not get from the buyer the certification provided in paragraph (c) (2) (v) above and if the buyer has an allotment he does not have to charge against his allotment account the amount of controlled materials bought under this special permission. In the case of copper and copper base alloy in controlled material form, the above permission may be given only if the buyer has a production schedule authorized under the Controlled Materials Plan and will use the material for the same purpose for which the production schedule was authorized. The seller may apply for this permission in person or by writing, wiring or telephoning, giving full details about the size, shape, analysis, specifications and quantity of the material and the purpose for which it will be used. Requests for such permission should be directed to the regional office of the War Production Board for the region in which the material is located or to the appropriate materials division.

(3) *Special orders.* If the War Production Board, by an order or in any other way, has ruled that all persons engaged in a particular business may sell or exchange materials between themselves, they can do so.

(4) *Used materials.* Used materials may be sold freely to anyone unless there is a notation in List A or List B restricting the sale of the particular used material which the holder wants to sell.

(d) *Transfers within a company.* If a person wants to transfer material from one of his plants or operating units to another one which normally purchases separately, the transfer is considered equivalent to a sale and he may make it only under the same conditions as he could make a special sale under this regulation. In any other case where a person who has obtained material with priorities assistance wants to use it for another purpose, he should refer to § 944.11 of Priorities Regulation 1 or (in the case of controlled materials or Class A products obtained with an allotment) to paragraph (u) of CMP Regulation 1.

(e) *Replacing material sold.* If a person sells material under this regulation to someone who gives him a priority rating or a CMP allotment symbol or number, the seller cannot use this rating or allotment to replace the material he has sold. The effect of this rating or symbol or number stops when the seller receives it.

(f) *Sales covered by this regulation.* (1) This regulation applies only to "special sales" (as described in paragraph (b) (1)) and if the holder is regularly engaged in selling a material a sale of it by him is not a special sale and he is governed by all orders and regulations of the War Production Board which apply to the material he is selling.

(2) Provisions in any orders or regulations issued before July 1, 1944 which say that this regulation does not apply may be disregarded, except for Order U-1 affecting utilities, WPB Directive 16, which provides special rules for aircraft inventory transfers, and Order P-98-c, which applies to special sales in the petroleum industry. To find the rules for making a special sale there is no need to refer to any order or regulation other than Priorities Regulation 13, outside of the three exceptions stated. However, if another order or regulation issued after July 1, 1944 expressly mentions Priorities Regulation 13 and says that this regulation does not apply to a particular type of sale, then that order or regulation takes the place of this regulation.

(3) If any seller is allowed to make a sale under this regulation, the buyer is permitted to buy and accept delivery, except that:

(i) The buyer may not violate any regulation or order controlling the quantity of material which he may have or buy or receive or the amount of any product he may make or the use that he may make of any particular material. All the prohibitions in orders against the use of materials for particular purposes remain in effect.

(ii) If any order or regulation provides that a buyer of material must make any report or furnish any information either to the War Production Board or to the seller, this regulation does not excuse him from these requirements.

(iii) If any holder of material knows that a person who wants to buy it will use it for a prohibited purpose or would have more of it than he is permitted to have, the sale cannot be made.

(g) *Records.* Any person making a sale under this regulation must keep sufficient records so that he can show that the sale was permitted under this regulation.

(h) *Listing materials with the War Production Board.* If anyone has any excess, idle or frozen material that he wants to sell, he should report it to his nearest War Production Board office giving full details about its size, shape, analysis, specifications and quantity, and they will try to help him.

(i) *Letters and questions.* Any letters or questions about this regulation should be sent either to the Redistribution Division of the War Production Board in Washington, marked "Ref: P.R. 13", or to any of the field offices of the War Production Board.

(j) *Revisions of Lists A and B.* Lists A and B attached to this regulation will be revised from time to time. A person wishing to sell material under this regulation should be sure that he has the list which is in effect at the time of the sale. Copies may be obtained from any field office of the War Production Board.

Issued this 8th day of July 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

LISTS A AND B

NOTE: Lists A and B amended July 8, 1944.

Explanation of Lists A and B: Column (1) of List A lists the industrial materials (as defined in paragraph (b) (3) that are restricted under the regulation. This shows in some instances the class or group of materials and does not always list all the trade names and related materials.

Column (1) of List B lists the finished products to which the general sales rules in paragraph (c) (1) (ii) do not apply because the finished product is either more or less restricted than the general rule.

Columns (2), (3), (4) and (5) each apply to a type of possible buyer. Opposite each material in each column is shown the conditions under which a special sale of the particular material may be made to the person described in the heading of the column.

Column (2) applies to persons who make or produce material in the form in which the holder bought it. This includes non-integrated producers. If the holder bought copper wire, column (2) refers to a wire mill, which makes copper wire. If he bought a machine tool, it refers to a company which makes that kind of a product.

Column (3) refers to persons who are permitted to buy and use the material for production, construction, maintenance, repair or operating supplies or for capital expansion or replacement.

Column (4) refers to persons who buy new, rejected or second grade materials and who rework them. This includes persons who change the form of the material by redrawing, rerolling, etc., except that it does not include controlled material producers.

Column (5) refers to persons who are wholesale dealers in the material the holder has like a wholesaler in chemicals or textiles. A wholesaler means anyone whose regular business consists in whole or in part of the sale from stock or inventory of the particular materials or products to other persons for the purpose of resale, or for fabrication or assembly into other products. It also includes persons who recondition or rebuild equipment and machinery for resale to industrial users. Such a person is not, however, relieved from compliance with any orders or regulations of the War Production Board which control the distribution of the material by him.

Column (6) contains notes which should be read whenever a star (*) or note shows on the list.

If the list shows "no," it means that the holder cannot sell to the class of person mentioned in the column head without special permission of the War Production Board except when a note in column (6) allows certain kinds of sales. Paragraph (c) (2) (iii) of the regulation tells how to get permission.

If the list shows "PR" followed by a letter and number, like "PR AA-5," it means that the holder can sell to anyone who gives him an AA-5 priority rating for the sale, or a higher rating.

If the list shows "W. O. P.," it means the holder can sell to the person at the head of the column without any priority rating or allocation or allotment being necessary.

If the list shows "X," it means that there are no persons who fall in the description at the top of the column so far as that particular material is concerned.

LIST A—CLASSES OF BUYERS TO WHOM SPECIAL SALES OF INDUSTRIAL MATERIALS MAY BE MADE IN ACCORDANCE WITH THIS LIST, SUBJECT TO PARAGRAPH (f) (2) AND (3) OF THIS REGULATION

This list refers only to new industrial material unless used industrial material is specifically mentioned. Industrial material not on this list may be sold freely to anyone.

Application should be made by filing four copies of Form WPB-1319 with the Construction Machinery Specialist for the WPB region in which the applicant's home office is located. This restriction does not apply to sales outside the 48 states of the United States and the District of Columbia and does not apply to the following special sales: 1. Sales to distributors. The term "distributor" means any person who is engaged in the business of purchasing new, used or reconditioned construction machinery for the purpose of resale. 2. Transfers at a judicial or sheriff's auction or sale, tax sale, or other similar transaction conducted by a judicial or other legal officer. 3. Sales by any Governmental agency to any other Governmental agency. 4. Sales by farmers. The term "farmer" means a person who engages in farming as a business, by raising crops, livestock, bees or poultry. It also includes a custom operator who uses farm supplies in performing services for farmers. It does not include a person who merely has a "victory garden" or raises food or other agricultural products entirely for his own use.

PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P-142
Interpretation 2]

PRODUCTIVE CAPITAL EQUIPMENT

The following interpretation is issued with respect to Preference Rating Order P-142:

Paragraph (f) (4) of Order P-142 (§ 3216.1) permits operators to use their MRO ratings under the order to buy "minor items of productive capital equipment not exceeding $500 per unit (excluding cost of labor)."

"Items of productive capital equipment" are not limited to rolling stock items such as locomotives and cars, but include all items which the particular operator normally charges to his capital account. Examples are adzers and spike pullers (maintenance of way equipment), and lathes and drill presses (shop equipment).

Operators needing to buy such capital items costing more than $500 per unit (excluding cost of labor) may not do so under the provisions of P-142. The usual way to get these items is by applying on Forms WPB-541 (PD-1A) or WPB-1319, on other applicable forms (such as WPB-3131) for special items of equipment, or under Order L-41 if a construction job covered by that order is involved.

Issued this 8th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 8]

DISTRIBUTOR RECEIPTS ON CERTIFIED BUT UNRATED ORDERS AND RETAIL SALES ON UNCERTIFIED AND UNRATED ORDERS

The following direction is issued pursuant to Order L-335:

(a) *What this direction does.* This direction tells distributors how they can get lumber other than by extending their customers' certified orders, and explains what lumber may be sold by sawmills and distributors on uncertified and unrated orders. It also permits distributors to validate certain orders that distributors have placed with sawmills.

(b) *Lumber that a distributor may receive on certified but unrated orders.* Every distributor who was engaged in the business of selling lumber at retail before May 1, 1944, and who had a lumber inventory at that date is permitted to place certified but unrated orders with his lumber supplier and receive in each calendar quarter either 5,000 board feet of lumber or 10 percent of the amount of lumber he received in the same calendar quarter of 1943 provided the 10 percent is not more than 8,000 board feet of lumber. Orders that a distributor places with his lumber supplier to get this amount of lumber must bear the certification described in paragraph (q) (4) of Order L-335. A distributor is not authorized to apply a preference rating to such an order. Lumber that a distributor receives under this provision is in addition to any lumber that he is authorized on Form WPB-3813 to receive or any lumber he is authorized to receive through the extension of his customers' certified orders or under the provisions of paragraph (g) below.

(c) *Distribution yard of sawmill included.* If a person operates both a sawmill and a distribution yard and the distribution yard was engaged in selling lumber at retail prior to May 1, 1944, and had a lumber inventory at that date, the distribution yard may receive the same quantity of lumber from the sawmill as it would be entitled to receive from any other supplier. A transfer of lumber from the person's sawmill stock to his distributor stock must be treated the same way as if the transfer were from another lumber supplier and he must keep a record of the transfer in his sawmill files and endorse the certificate provided for in paragraph (q) (4) of Order L-335 of that record.

(d) *Distributor sales on uncertified and unrated orders.* The 5,000 to 8,000 board feet of lumber that a distributor receives under the provisions of paragraph (b) above is intended for sale to persons who need lumber for a purpose for which such persons have no rating or a rating of AA-5 MRO. This includes industrial plants, business enterprises and private individuals who do not have a rating, and industrial plants and business enterprises (except Class I consumers) who have an AA-5 MRO preference rating but who are not authorized to use it on a lumber order. Such persons are defined in paragraph (m) of Order L-335 as "all other consumers". Any lumber that a distributor receives under the provisions of paragraph (b) above may be sold on certified orders provided an equivalent amount of lumber so sold is made available to persons that are not authorized to place certified orders. A distributor must not sell more lumber on uncertified and unrated orders in a calendar quarter than the 5,000 to 8,000 board feet of lumber he is authorized to receive under paragraph (b) above.

(e) *Sawmills that also sell at retail but do not have a distribution yard.* Sawmills that were engaged in selling lumber at retail on May 1, 1944, but do not maintain a separate retail distribution yard are authorized to withdraw lumber from sawmill stock and sell it on uncertified and unrated orders to the same extent that a distributor is authorized to sell lumber on such orders under the above provisions, and the sawmill must compute the amount of lumber that he is authorized to sell on uncertified and unrated orders in the same way that a distributor computes the amount of lumber that he is authorized to receive on certified but unrated orders under the provisions of paragraph (b) above.

(f) *Distributors validation of orders placed with lumber suppliers during the months of June and July 1944.* Any lumber distributor that has received from the War Production Board a release on Form WPB-2720 under Orders L-290, M-361 and M-364 which is dated subsequent to May 31, 1944 and has placed an order with a sawmill but is not able to receive delivery of that lumber before August 1, 1944, may validate such an order by providing the supplier with the certification described in paragraph (q) (4) of Order L-335. If the order is validated before July 20, 1944 the distributor may receive that lumber in the month of August. If the order is not validated before July 20, 1944 receipt of that lumber must be had before August 1, 1944. Other lumber orders that a distributor has placed with his lumber supplier for delivery subsequent to August 1, 1944 may be validated only to the extent that he has received certified orders from his customers requesting delivery after August 1, 1944. The validation of such an order may only be made by extending his customers' certified orders as provided in paragraph (o) (1) of Order L-335. All other orders placed by distributors which cannot be delivered prior to August 1, 1944, must be cancelled by notifying the supplier.

(g) *Uncertified and unrated orders.* A distributor may place uncertified and unrated orders with and accept delivery of lumber from (1) lumber mills that produce less than 100,000 board feet of lumber per year; (2) sawmills that are permitted to accept and ship lumber on uncertified and unrated orders under paragraph (e) of Directions 1 to 5 inclusive; and (3) sawmills that are included in Direction 7. Acceptance of delivery on such orders is authorized. However, sawmills may not deliver lumber on an uncertified and unrated order if it will interfere with the filling of a certified order. The fact that a distributor is permitted to receive lumber under this paragraph on uncertified and unrated orders does not permit him to sell on uncertified and unrated orders more than the five to eight thousand board feet of lumber that he is authorized to sell on such orders under paragraph (d) above.

Issued this 8th day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Interpretation 2]

LUMBER CONTROL ORDER

The following interpretation in question and answer form is issued with respect to § 3285.121, Order L-335.

General

1. Q. What is the relation of Order L-335 Amended to present lumber control orders?

A. Orders M-208, M-361, M-364, L-218, and L-290 will be revoked as of August 1, 1944, and Order L-335 will supersede those orders.

2. Q. Will the restrictions of Order M-122 on the delivery and receipt of mahogany continue to be in effect after Order L-335 is effective?

A. Yes. Any authorization to receive lumber under Order L-335 will be subject to the restrictions of Order M-122.

3. Q. How will farmers who are now assigned preference ratings under Order M-208 obtain preference ratings after it is revoked?

A. Farmers who get authority from the County Agricultural Conservation Committees to receive lumber will, at the same time, get authority from these Committees to use preference ratings.

4. Q. How may orders placed for August and September delivery be validated?

A. These orders may be validated by giving the supplier the certification that a consumer would use if he were placing an order after August 1, 1944. A consumer may validate orders only to the extent he would be authorized to place new lumber orders after August 1, 1944.

5. Q. Is it necessary for consumers to validate delivery orders for the months of August and September if they have obtained releases on Form WPB-2720 or have certified their purchase orders as permitted by Orders M-361, M-364, or L-290?

A. Yes. Orders requesting delivery of lumber after August 1, 1944 cannot be filled unless validated.

6. Q. A Class I consumer has been authorized to receive 80,000 feet of lumber during the third quarter. He has orders for this lumber placed with sawmills and has been granted releases on WPB-2720. To obtain a release of this lumber under Order L-335, must he place another order with the mill bearing the certificate provided for in paragraphs (q) (1) or (q) (2)?

A. It is not necessary to send the mill another order, but he must send him a statement bearing the certificate provided for in paragraphs (q) (1) or (q) (2) of Order L-335, asking his supplier to attach this to his order.

7. Q. Would the procedure outlined in paragraph 6 above apply to other classes of consumers as well as the Class I consumer?

A. Yes. Any person authorized under L-335 to receive lumber may validate existing purchase orders by forwarding the proper certificate to his supplier.

8. Q. If a Class I consumer receives delivery of lumber during July, does the receipt of this lumber count against his third quarter authorization?

A. Yes. The authorization governs the amount of lumber which he may receive in the third quarter.

9. Q. May a mine in Peru which has been assigned a serial number under Order P-56 use the certificate provided in paragraph (q) (2) of Order L-335 in purchasing lumber to be delivered to it?

A. Authority to export lumber from the United States for a serialized mine located outside the continental United States must be obtained through the Foreign Economic Administration. Any person who wishes to buy lumber for export (except export for the Army and Navy) must submit his delivery orders to the Foreign Economic Administration for certification when requesting permission to export.

10. Q. A manufacturer of prefabricated housing units has a contract with a firm in Canada. The Canadian firm wishes to furnish him Canadian lumber to be made into prefabricated units which, in turn, will be shipped back to the Canadian firm. Must the fabricator place a certified order with this Canadian firm for the lumber to be so used?

A. No. He does not need an authorization to receive it, and has no authority to issue a certified order. The fabricator is a contractor and not a consumer.

Definitions

11. Q. A small sawmill produces, on an average, 4,000 board feet of oak per 8-hour day. The lumber it produces was not restricted under Order M-364. Will it be controlled by Order L-335 Amended?

A. Yes, if it operate 25 days a year. Order L-335 defines a sawmill as "any mill or plant, stationary or portable, which produced more than 100,000 board feet of lumber in the calendar year 1943 or any such mill or plant that expects to produce more than 100,000 board feet in the calendar year, 1944."

12. Q. Order L-335, issued March 22, 1944, did not exempt railroad and mine cross ties and switch ties from the definition of lumber. How are these items treated in the present Order?

A. Mine ties and railway cross ties, either sawed or hewed, are excluded from the definition of lumber, and delivery and receipt of these ties may be made without restriction. Bridge ties and railway switch ties, usually sold by board foot measure, are classed as lumber.

13. Q. Under Order M-364 hardwood flooring was defined as lumber, and its delivery by the producer was restricted. How is it defined in Order L-335?

A. Hardwood flooring is not defined as lumber under Order L-335. Delivery and receipt of hardwood flooring may be made without restriction, but the person who manufactures hardwood flooring must be authorized under the Order to receive the lumber.

14. Q. Order L-335 excludes from the definition of lumber edgings, trim, and off-fall less than 3 inches wide or less than 4 feet long which is not made into commercial lumber sizes or standards. What is meant by commercial lumber sizes or standards?

A. Commercial lumber or standards means any lumber which conforms to standard dimensions as given in any lumber grading rule book.

15. Q. A plant buys waste material less than 3 inches wide or less than 4 feet long from a hardwood mill. This waste material is used in a hardwood distillation plant. Is its receipt restricted under the order?

A. No, because it is not made into commercial lumber sizes or standards.

16. Q. A sawmill operates a remanufacturing plant. It takes the trim from the sawmill and produces strips 1" x 2" random length from this material. Must it have authorization to transfer these edgings from sawmill stock to the manufacturing plant?

A. No. Until remanufactured into strips 1" x 2", which are standard dimensions, this material is not lumber. As soon as it is remanufactured it becomes lumber under Order L-335.

17. Q. Is lumber worked to standard patterns such as flooring, car siding, or beaded ceiling considered lumber under Order L-335?

A. Yes, with the exception of hardwood flooring. Lumber worked to any other patterns for which standard dimensions are given in any lumber grading rule book is considered lumber under the order the same as boards, dimensions, planks and timbers. A producer may manufacture these patterns without prior permission of the War Production Board, but these patterns are subject to the same restrictions governing delivery and receipt that apply to other types of lumber. Softwood flooring is lumber.

18. Q. Does the definition of lumber in Order L-335 include moulding?

A. Moulding which is normally sold by the producer by the lineal foot is not lumber but is a fabricated product and is treated the same as box shook, dimension stock, cut stock and millwork. Moulding which is normally sold by the producer by board foot measure is lumber, and is subject to all the restrictions of the order on the delivery and receipt of lumber.

19. Q. How is a person to determine whether the item he receives and uses is lumber whose receipt and delivery is controlled by the order, or is a fabricated product which can be received and delivered without restriction under the order?

A. The purpose of Order L-335 is to control the distribution of lumber and to channel its use while the material still retains the general purpose utility characteristic of lumber. Within the various processes by which a log is converted into a fabricated product or is used in a structure or in some other way, the wood passes through the lumber stage. After the wood has reached the lumber stage, and before it has been converted into an item or used in a manner which takes it out of the classification of lumber, is the point at which control is exercised. The next step (the point at which the lumber is converted into a finished product or a semi-finished product, or put to some other specific use as in a structure) is the consumption of lumber. It is this consumption for which consumers must be authorized by the War Production Board to receive lumber. The delivery and receipt of lumber is restricted under Order L-335. The delivery and receipt of products made from lumber is not restricted under the Order (except paragraph (i) (5) restricts a Class I consumer's use of ratings to get fabricated products which he can produce). Normally there should be no difficulty in identifying the point at which lumber is consumed or changed to a product

which is no longer classed as lumber. For instance, lumber is consumed when a board is nailed into the framing of a house; a plank or board is cut into moulding strips; a piece of softwood matched flooring is cut and nailed into either a house or an object such as a crate or a fence; a timber cut to specification is incorporated into a bridge or building. Also, lumber is consumed when cut to specification or otherwise processed for a particular use in a way which destroys its general usefulness. Generally, dimension stock is not lumber but dimension lumber is lumber. Dimension stock is considered an unfinished wooden item cut to specifications (usually less than 4 feet long and less than 3 inches square in cross sectional area) which can be converted into a finished product by some further operation. For instance, a manufacturer of furniture might purchase dimension stock measuring 3 x 3 x 18 inches for use in manufacturing legs for chairs. This dimension stock being unfinished has not reached its final fabrication stage but it is not lumber because its size limits its usefulness to a very narrow field. On the other hand, in the trade, dimension lumber is usually more than 4 feet long and although cut to specification its use is not limited and therefore, it is still lumber. For instance, if a log has been cut to a particular specification for a particular use such as a 2 x 5 x 15 its general usefulness may not necessarily be destroyed. This lumber until incorporated into a structure can still be used in a different structure; it can be cut into smaller boards; it can be cut up for shipping and dunnage material; it can be cut into dimension stock or into boxing and crating material. Likewise, a cross arm blank which is normally more than 6 feet long and which, when further processed, is used to support wires on a telephone pole, is considered lumber in the blank form. If, however, the cross arm blank has been roofed and holes have been bored in it the general utility has been destroyed and it is no longer lumber.

20. Q. Are any of the following items lumber under the definition of Order L-335: (a) hewn wooden items such as firewood and fence posts; (b) poles and piling made from logs which have not been sawed lengthwise and are in their natural round shape; (c) sawdust, shavings, chips, ground wood products, and excelsior?

A. No. These items are not lumber and are not subject to the restrictions on receipt and delivery that L-335 places on lumber.

21. Q. Are staves, heads and hoops used in cooperage lumber as defined in Order L-335?

A. No. These are fabricated wooden products.

22. Q. Must the producer of cooperage stock such as staves, heads, and hoops be authorized to receive raw material for the manufacture of these items?

A. Not unless the material he receives is lumber. An authorization is not needed to receive bolts, as they are not lumber. But a manufacturer who uses lumber in making heading is restricted in his receipt of such lumber in the same way as any other consumer of lumber. Lumber used in the manufacture of tobacco hogshead staves is also subject to the restrictions of the order.

23. Q. A manufacturer of dimension stock cuts it direct from bolts and billets six feet or less in length. The dimension stock he produces is not classed as lumber. Does he need authorization to receive these short bolts and billets that are cut into such stock?

A. No. Bolts and billets are not considered lumber under the order. However, if lumber is used in the manufacture of dimension stock, the user must have authority to receive it. If he uses bolts or billets more than six feet in length and cuts them into boards or flitches as a step in the manufacture of dimension stock, this material assumes the form of lumber at one point in the process of manufacture, and he must have authority to use such lumber.

24. Q. A manufacturer of furniture purchases plywood panels with lumber cores. Must he have an authorization to receive these plywood panels?

A. No. Plywood panels are considered fabricated products and not lumber. The manufacturer of the panel must have authority to receive the lumber he uses in making the panels.

25. Q. A manufacturer receives lumber and uses it in making laminated trusses. How is he affected by Order L-335?

A. The trusses he manufactures are considered fabricated products and there is no restriction on their delivery or receipt. The lumber he uses in making these trusses is restricted under the order and he must have an authorization to receive such lumber.

26. Q. Match plank is purchased and cut into match blocks. How is this operation affected by Order L-335?

A. Match plank is considered lumber and match blocks are considered fabricated products. Match blocks may be delivered and received without authorization under the order, but the block manufacturer must have an authorization to receive the match plank which he converts into blocks.

27. Q. A plant uses treated lumber and timbers for construction purposes. Is authorization to receive this material necessary, or is it classed as a fabricated product?

A. Lumber treated with creosote or other preservative or fire retardant is still considered lumber and the purchaser must have authority under Order L-335 to receive it.

28. Q. A plant treats lumber, timbers, and poles. How is this operation affected under Order L-335?

A. The treating plant does not consume lumber because treated lumber is still classified as lumber. Therefore, the plant does not need any authorization of its own to receive lumber which is merely treated by it. The treating plant operates under Order L-335 in somewhat the same way as a distribution yard. It can deliver treated lumber and timbers only on certified orders, and it may extend those orders to its suppliers to get the lumber needed to fill the orders of its customers or to replace lumber in inventory. Poles and piling are not lumber, whether treated or untreated, and may be received and delivered without restriction under Order L-335.

29. Q. In the definition of a concentration yard the order refers to the volume of logs and lumber which the plant receives from the area in which it is located. What is meant by "the area in which the plant is located"?

A. Concentration yards and plants engaged in drying, sawing, edging, planing and other forms of processing lumber, generally serve the needs of several sawmills and are located in an area where timber is felled and logs are cut into lumber. This is the area in which the plant must be located in order for it to be classified as a concentration yard. The function of a concentration yard is to serve as an outlet for the lumber produced by sawmills. The function of a distribution yard is to provide a readily available source of supply for consumers. A concentration yard may have a retail sales department and be both a concentration yard and a distributor.

30. Q. Persons who own small timber tracts bring logs to a sawmill to be cut into lumber. The mill never takes title to the logs or the lumber but operates on a custom milling basis. Is there any restriction on the delivery of this lumber to the owner?

A. If the sawmill cuts more than 100,000 feet of lumber per year, whether it owns the logs or not, the lumber produced by the mill is restricted and can be delivered only in accordance with the provisions of Order L-335.

31. Q. Rough lumber is brought to a custom planing mill to be dressed. The mill does not take title to the lumber. Is there any restriction on delivery of lumber which is processed on this basis?

A. If the processed lumber is returned to the person who supplied it, there is no restriction on such delivery. However, if rough lumber is furnished by a sawmill or by a distributor for custom dressing and the owner requests that it be delivered to anyone who would need an authorization to receive lumber if he received it directly from the owner of the lumber, it may not be delivered to such a receiver unless he is authorized under Order L-335 to take receipt of such lumber and furnishes the proper certificate.

32. Q. A Millwork plant, in addition to manufacturing millwork from lumber which it is authorized to receive and use for this purpose, is occasionally requested to manufacture millwork on a custom basis without taking title to the lumber. Is there any restriction on the delivery of millwork which is made on this basis?

A. No. Millwork is a fabricated product and may be delivered and received without restriction under Order L-335. However, the person who supplies lumber and asks to have it manufactured into millwork for him must have an authorization to receive the lumber used for this purpose. If a sawmill or distribution yard wants its lumber made into millwork, it must have the same authority that would be required if the sawmill or distribution yard consumed such lumber on its own millwork department.

33. Q. What is meant by "production material" as used in Order L-335?

A. "Production material" means material to be incorporated into a product. Lumber is production material if it is to be incorporated into a table. Lumber required to crate the table is shipping material, and not production material. "Production material" excludes all material used for maintenance, repair and operating supplies.

34. Q. What is meant by the term "expressly" authorized by the War Production Board or any other Federal agency as used in paragraph (e) (2) and (j) (3) of the Order?

A. This means construction which has been authorized on one of the following forms under Order L-41. Forms GA-1456, WPB-2896, and WPB-2774 are now used to authorize construction under that order. In addition, there are various other orders and authorizations which are not generally used today, but construction which has heretofore been authorized under them is still proceeding. These orders and authorizations are: CMPL-224; CMPL-127; GA-235; GA-236; PD-443; PD-654; orders in the P-19 series; orders in the P-55 series; orders in the P-14 series; P-41; P-110; PD-3; PD-3A; and WPB-542.

35. Q. A plant operates a hardwood veneer mill and a basket factory. From the cores of its veneer bolts it cuts material which is used for basket bottoms and for crating purposes. Is an authorization needed to transfer these boards produced from veneer cores to the basket factory?

A. No. Material cut from hardwood veneer cores 6" to 8" in diameter is not considered lumber according to usual definitions, and no authorization is needed for its transfer or receipt.

36. Q. Douglas fir veneer mill cuts 2 x 4's and other standard items of lumber from its veneer cores. Are these items considered lumber under Order L-335?

A. Yes. These items are lumber, and delivery and receipt of these items is controlled by Order L-335.

Consumers

37. Q. A person has applied on Form 617 and has been given a rating for material and authority to begin construction. Is he authorized to use the certificate in paragraph (q) (1) on his lumber purchase orders?

A. Yes. Having made the application for authority to construct, he is the consumer of the lumber.

38. Q. A building contractor is doing work for others. The persons for whom the work is being done have applied to the War Production Board on Form 617 and have been given authority to begin construction. Is the contractor authorized to use the certificate in paragraph (q) (1) on lumber purchase orders?

A. No. The person for whom the contractor is doing the construction work is the user of the lumber. He must sign the certificate provided for in paragraph (q) (1), or he may delegate to the contractor authority to sign the certificate as his duly authorized official.

39. Q. A manufacturer of prefabricated houses on a custom basis uses lumber supplied to him by other persons. He does not take title to the lumber, but delivers the prefabricated units to the owner of the lumber. Does he need an authorization to receive this lumber?

A. No. The person who supplies him with the lumber and who receives the fabricated units is the one who needs authority to receive the lumber and who is entitled to issue a certified order for such lumber.

40. Q. An authorized consumer wishes to buy lumber from Canada. May he use the (q) (1) or (q) (2) certificate on his purchase order?

A. Yes. His Canadian supplier will need additional permission to ship the lumber to the United States, but will not be given this permission unless he has received a certified order.

41. Q. Is the definition of Class I Consumer in amended L-335 any different from the definition in the original Order?

A. Yes. Under the amended Order, a Class I Consumer is any consumer who has been granted an authorization on Form WPB-3640 to receive lumber. A person is not a Class I Consumer until he has filed his application on WPB-3640 and has been given an authorization. If he files an application and it is returned to him with instructions not to file further applications, he is no longer a Class I consumer.

42. Q. A person operates a lumber distribution yard, fabricating plant, and general merchandise business. He is not a Class I consumer, but his lumber requirements are increasing, and he may be required to file an application for the fourth quarter of 1944. He expects that he will need to receive lumber for the following purposes:

(1) He has filed Form WPB-617 and has been authorized to begin construction on a job which will take 20 thousand feet of lumber in the fourth quarter.

(2) He will need to receive 10 thousand feet for maintenance and repair of his own plant, on work which is permitted under Order L-41 without express authorization of the War Production Board.

(3) He will need to receive 150 thousand feet of lumber which will be sold to farmers and other consumers in his vicinity who can place certified orders for lumber.

(4) He will need to receive 40 thousand feet of lumber to be used in making ammunition boxes on a contract he has just received.

(5) He does some general contracting work and will need to receive 20 thousand feet of lumber to be used on construction jobs he will be doing for other persons.

(6) He will need to receive about 5 thousand feet of lumber to be used in boxing and crating material shipped from his plant.

(7) He does a retail business in millwork and will need to receive 2 thousand lineal feet of moulding, and storm sash and doors containing 10 thousand board feet of lumber.

Must he file Form WPB-3640 and, if so, for which of these items does he request authority to receive delivery of lumber?

A. The moulding and millwork are fabricated items and not lumber, and need not be considered at all. The total amount of lumber he will need to receive is 245 thousand board feet. However, he does not need to apply on Form WPB-3640 for authorization to receive lumber for all of these purposes. If he will refer to paragraph (e) (2) of Order L-335, he will note that lumber for certain purposes is not to be included in determining whether he is required to file the form. Among these are expressly authorized construction projects (his item 1), and lumber for resale (his item 3). If he will refer to paragraph (b) (6) of the order he will note that he is not the consumer of the lumber used in construction work done for other persons (his item 5). After subtracting lumber for purposes which are not to be included, he will need to receive 55 thousand board feet for maintenance and repair of his own plant, for making ammunition boxes, and for boxing and crating the products that he ships. This is the amount for which he should request permission to receive delivery.

43. Q. If the plant owner files an application according to the instructions in Question and Answer 42 above, he will get an authorization on Form WPB-3640 to receive not more than 55 thousand feet. Will he be authorized to receive the other 190 thousand feet of lumber he will need?

A. For the lumber needed to carry out the construction project which has been approved by WPB, he will be a Class II Consumer and as such may receive the lumber needed for that project. He will not get an authorization from the WPB for the lumber listed in Item 3 for resale. The ultimate users of this lumber will buy it from him on certified purchase orders and he will be permitted to extend their certificates in accordance with the provisions of Order L-335 relating to lumber distributors. The persons for whom he is doing the construction work will have their own authorizations for such lumber and their orders for lumber can be placed through him, but as a contractor he would not be authorized to place his own certification on the lumber order. The contractor may buy the lumber but the order will bear the certification of the person for whom he is doing the construction work. If a consumer authorizes a contractor to do so the contractor can sign a certification as the duly authorized agent of the consumer (see Question and Answer 38).

44. Q. A consumer filed Form WPB-3640 in April and received an authorization to receive lumber in the third quarter. He will not need to receive any lumber in the fourth quarter. Should he file WPB-3640 for the fourth quarter?

A. No. He should notify the War Production Board that he will not need to receive any lumber in the fourth quarter and he will be advised that he is no longer a Class I consumer and that he will not have to file.

45. Q. A sawmill operator uses his own lumber for repair work which is permitted under Order L-41 without express authorization of the War Production Board. He expects that he will need to use more than 50,000 board feet for this purpose in the fourth quarter. Should he file Form WPB-3640?

A. Yes. He must have authorization to withdraw lumber from his sawmill stock for these purposes just the same as he would need authorization if he were buying the lumber from someone else.

46. Q. A sawmill owner operates a box factory. Each quarter his box factory uses about 1 million feet of the lumber produced by his sawmill. How does he get authority to use this lumber in his box factory?

A. He must file application on Form WPB-3640 for his box factory to receive the lumber required by it. Lumber cannot be withdrawn from his sawmill stock for use in his box factory or for delivery to any other consumer except on certified orders as provided in Order L-335. When his box factory receives its authorization on Form WPB-3640 it will be qualified to use the certificate provided for in paragraph (q) (1) of Order L-335 to obtain the lumber it requires. The procedure is described in paragraph (w) of Order L-335. This also applies to the transfer of lumber from sawmill stock to a cut-up plant, dimension stock plant, or any other fabricating plant operated in conjunction with a sawmill.

47. Q. A consumer filed Form WPB-3640 asking for authority to receive 250 thousand feet of lumber during the third quarter. New contracts he has just received mean that he will need to receive 100 thousand feet in addition to the amount authorized. What should he do?

A. He should file a supplementary Form WPB-3640 requesting the additional amount required. He should clearly identify the application as a supplemental one and refer to his previous application and authorization.

48. Q. A consumer misunderstood the instructions on Form WPB-3640 when he filed it and did not include all the lumber he will need for the purposes to be reported on the application. What should he do?

A. He should file application on Form WPB-3640 for the amount he will require which was not originally reported, and explain the reasons why he is making this additional application.

49. Q. A person operates a distribution yard and a box factory. When he filed his Form WPB-3640 for the third quarter, he included with his lumber requirements some lumber which he needed for resale, and he received an authorization for the full amount. He now understands he should not have included lumber for resale. What should he do?

A. He should notify the War Production Board on Form WPB-3773 of the amount of lumber he does not need as a Class I consumer.

50. Q. Order L-335 provides for the return of authorization and the cancellation of purchase orders when any part of the amount authorized is not required during the quarter. This takes care of the situation if the authorized lumber has not been received by the applicant. A consumer was given an authorization to receive 100 thousand feet for the third quarter and this lumber was delivered to him. After he had used 40 thousand feet, the contract for which he was using the lumber was cancelled. What should he do with the 60 thousand feet he has in inventory?

A. He may use the lumber for other purposes if such use is in accordance with the provisions of Section 944.11 of Priorities Regulation 1, or he may dispose of the lumber in accordance with the provisions of Priorities Regulation 13.

51. Q. A lumber consumer normally buys lumber in carload lots from sawmills. His authority to receive lumber in the third quarter does not figure out to even carloads. Can he exceed his authorization to the extent necessary to permit him to continue buying in carlot quantities?

A. No. Usually he will be able to arrange carlot shipments to equal his authorization by requesting heavier loading than usual, or by pooling a car of lumber with someone located near him.

52. Q. A company has nine plants. Six of these plants maintain their individual inventory records of lumber; the other three are served from a common inventory for which only one record is kept. How should the company report its lumber requirements on Form WPB–3640?

A. It should make separate reports for each of the six plants having separate inventory records if as individual units they are required to file Form WPB–3640. One application should be filed covering the other three plants served by a common inventory if the requirements of the three combined necessitate the filing of an application.

53. Q. A company has three plants, each maintaining separate lumber inventory records. No individual plant will require 50 thousand feet of lumber per calendar quarter, but the combined requirements will exceed 50 thousand feet. Should this company report its combined requirements?

A. None of these plants is required to file. In determining in any instance whether any application should be filed depends on whether any individual unit maintaining an inventory record is required to file.

54. Q. A plant maintains one inventory record for lumber stored in three different places and all this lumber is used for maintenance and repair, crating or dunnage of the plant products. Should the plant file separate applications for each inventory maintained?

A. No. The plant should file only one report to include all lumber in inventory and complete plant requirements of lumber.

55. Q. A box plant operator in Indiana buys lumber in the South and stores it in the South. He also keeps a lumber inventory in his box plant in Indiana. How should he report on Form WPB–3640?

A. He should report the inventory at his box plant and the quantity stored elsewhere for use in his box plant. These should be combined in one report.

56. Q. After a Class I consumer receives his authorization on Form WPB–3640 to receive lumber, what must he do to actually get the lumber?

A. The consumer must find a supplier (a sawmill, a concentration yard, a retail or wholesale distribution yard, a commission man, a broker, or other supplier) who can accept his order for lumber, and he must endorse on each of his purchase orders the certification provided for in paragraphs (q) (1) or (q) (2) of Order L–335. This certification is the only authority or release required by the supplier before he can make shipment. Where a (q) (1) certification is used the order must bear the appropriate rating. No ratings may be used on orders bearing the (q) (2) certification.

57. Q. A Class I consumer who has been assigned a rating of AA–3 for lumber for production material was not able to place an order for the amount of lumber he was authorized to receive in the quarter for which he got the authorization. Can he place a certified order after the close of the quarter for lumber he was authorized to receive during the quarter?

A. No. Class I consumers may not place an order after the end of the quarter, nor may they order lumber for delivery after the quarter, for which they were authorized to receive the lumber, unless permission from the War Production Board has been granted.

58. Q. A Class I consumer received an authorization on Form WPB–3640 to receive 130 thousand board feet of lumber during the third quarter. He placed orders for delivery of this amount of lumber during the third quarter, but his supplier was unable to ship the full amount. May the Class I consumer receive the unshipped balance of his order after the end of the third quarter, and will such receipt of lumber count against his third or fourth quarter authorization?

A. So long as the lumber was ordered for delivery in the third quarter, the consumer may receive any lumber on this order shipped during the first month of the following quarter, and receipt of this lumber will be charged only against his third quarter authorization.

59. Q. A consumer did not file Form WPB–3640 for the second and third quarters of 1944 because his expected use of lumber was less than the required amount. He expects that in the fourth quarter he will need to receive more than 50,000 feet of lumber for the purposes to be reported on Form WPB–3640. Is he a Class I consumer?

A. No. He is not a Class I consumer but he is required to file Form WPB–3640 for the fourth quarter. He will become a Class I consumer when he receives an authorization on the form.

60. Q. A consumer did not file Form WPB–3640 for the third quarter of 1944 because he did not expect that he would need to receive more than 50 thousand feet of lumber for those purposes to be reported on the application form. He now discovers that he will need to receive more than 50 thousand feet in the third quarter in order to meet new contracts. What should he do?

A. As soon as he finds that his quarterly requirements for the purposes for which he is required to file WPB–3640 exceed 50 thousand feet, he should immediately file his application on that form.

61. Q. An operator of a small manufacturing plant is a Class II consumer because his lumber requirements for purposes which would require him to file Form WPB–3640 are less than 50 thousand board feet per quarter. Is he authorized under L–335 to use the certificate in paragraph (q) (1) to obtain all the lumber he needs?

A. The certificate may be used by him in obtaining lumber for any purpose which makes him a Class II consumer. It cannot be used on purchase orders for lumber for resale, for lumber for farm buildings and equipment, and for purposes for which he has not been assigned a preference rating. He is also forbidden to use this certificate for lumber for maintenance, repair and operating supplies unless he has a rating higher than AA–5 MRO for lumber for such purposes.

62. Q. Class I consumers are limited in the amount of lumber they may receive in any quarter by their authorization on Form WPB–3640. Is there any limit on the amount of lumber which can be received by a Class II consumer doing the same kind of business as a Class I consumer?

A. Yes. The receipts of a Class II consumer are restricted to the amount of lumber for which he has been authorized to use his preference ratings. To discover what amount of lumber this is, the Class II consumer should consult the regulation or preference rating order or certificate under which his ratings were assigned, and comply with the restrictions imposed by such regulation or order on the use of the preference rating assigned him as well as the general restrictions of Priorities Regulation 3. If a person is the type of Class II consumer defined in paragraph (j) (1) of Order L–335, he may not under any circumstances use a certificate to get more than 50 thousand board feet of lumber for purposes which make him that type of Class II consumer.

63. Q. How does a farmer get authority to receive lumber for the maintenance, repair and operation of his farm buildings and equipment?

A. He will get his authority to receive lumber for these purposes through procedures set up by the War Food Administration. He should get in touch with his local County Agricultural Conservation Committee for information on the procedures which have been set up by the War Food Administration for him to follow in getting his lumber.

64. Q. How does a farmer get authority to receive lumber for construction jobs which have been "expressly" authorized by the War Production Board?

A. Lumber for these purposes does not come out of the quota set up for the War Food Administration, and the farmer should not apply to his County Agricultural Conservation Committee for authority to receive lumber for this purpose. When using lumber for construction jobs which have been authorized on one of the forms mentioned in Q. and A. 34, the farmer is a Class II consumer and the authority on one of those forms to begin construction permits him to use the certificate provided for in paragraph (q) (1) of Order L–335 on his purchase orders for lumber.

65. Q. How does a farmer get authority to receive lumber for the maintenance and repair of his dwelling?

A. For this purpose, the farmer is classed with "all other consumers" and may place an uncertified and unrated order with a lumber distributor for such lumber.

66. Q. If a farmer needs to receive more than 50 thousand board feet of lumber per quarter for maintenance, repair and operation of farm buildings and equipment, and for new construction of farm buildings permitted by paragraphs (c) and (d) of Order L–41, should he file Form WPB–3640?

A. No. These are uses for which lumber requirements are not to be reported on the application form.

67. Q. A Class I consumer is engaged on a long term program which will require the use of lumber through the year 1945. He has been given an authorization on Form WPB–3640 for the third quarter of 1944. May he place certified orders for the delivery of lumber in the fourth and following quarters?

A. Yes. He may place certified orders for the delivery of lumber in future quarters for an amount of lumber not to exceed in any one future quarter, 50 percent of the amount he has been authorized to receive in any current quarter. He may use ratings on these orders for future delivery to the extent that he has been assigned ratings which will be valid for these future periods, after he has received an authorization in any future quarter his authorization for that quarter is the basis for orders placed in advance of that quarter.

Distributors

68. Q. In conjunction with his distribution yard, the owner operates a plant which makes box shook, millwork, and small dimension stock. How can he transfer lumber from his yard stock to his fabricating plant?

A. His fabricating plant must have authority either as a Class I or Class II consumer to receive lumber. This will be true whether the lumber is to be purchased from another person or transferred from his distributor's stock. The fabricating plant is not permitted to receive, and the yard is not permitted to transfer from distributor stock, an amount of lumber greater than the quantity which the fabricating plant is authorized under Order L–335 to receive in a quarter. The fabricating plant must furnish the distribution yard with the certificate provided for in paragraph (q) of Order L–335 for all lumber transferred, and the distribution yard must keep such certificates in its files.

69. Q. How is a lumber distribution yard authorized to replace in inventory lumber which it sells on certified orders to Class I and Class II consumers and farmers?

A. The distributor is authorized to place purchase orders with suppliers and to use on these orders the certificate provided for in paragraph (q) (3) of Order L–335 to the extent that he has consumers' certified orders. He will not pass the consumer's certificate on to his supplier, but will retain it in his files and issue his own (q) (3) certificate on orders he places with his suppliers. He may not extend certificates for an amount of lumber greater than the amount shown on the consumer's unextended certificates in his files.

70. Q. An operator of a distribution yard has received a certified order for items which he does not carry in stock. What procedure should he follow in obtaining these items to fill this order?

A. He may use the (q) (3) certificate, for an equal amount of lumber, on the order for these items which he places with his supplier.

71. Q. May a distribution yard sell lumber on any orders which are not certified in accordance with provisions of Order L–335?

A. Only to the extent that distribution yards may be authorized to make delivery on uncertified orders as provided in Direction 8 to Order L–335.

72. Q. Is there any provision in Order L–335 whereby distributors whose stocks of lumber are low may receive lumber to increase their inventories?

A. Yes. Order L–335 provides that distributors who were engaged in the business of selling lumber at wholesale or retail and who carried a lumber inventory prior to May 1, 1944, may apply to the War Production Board on Form WPB–3813 for authority to place a certified but unrated order with sawmills and to receive such additional quantities of lumber as may be authorized on that form. In placing such orders, the distributor may use the certification provided for in paragraph (q) (4) of Order L–335. The lumber received by distributors on these orders may be sold by them only on certified orders to their customers except to the extent that they may sell on uncertified and unrated orders as provided in Direction 8 to Order L–335.

73. Q. A small distribution yard wants to accumulate enough certified and rated orders so that it may extend these certificates for a full carload of lumber. By the time enough certificates for a carload have been accumulated, the ones received first are more than 90 days old. May the distributor extend the ratings on these certified orders after he has held them for 90 days?

A. Yes. Paragraph (o) (1) of Order L–335 provides that there is no time limit within which distributors must extend certified orders accepted for past or future delivery. This permits distributors to "basket" their ratings and to extend ratings which they could have extended 90 days earlier along with current ratings, notwithstanding the provisions of paragraph (h) (1) of Priorities Regulation No. 3.

Sawmills

74. Q. What types of orders may a sawmill accept?

A. A sawmill may accept certified and rated orders placed by an authorized consumer bearing a (q) (1) certificate, certified but unrated orders from a Class I consumer bearing a (q) (2) certificate, and orders from distributors bearing either the (q) (3) or (q) (4) certificates.

75. Q. Is there any difference in the treatment to be accorded each of these types of orders by sawmills?

A. Yes. Shipment may not be made on certified but unrated orders from Class I consumers or distributors bearing the (q) (2) or (q) (4) certificate if such shipment would interfere with the filling of a certified and rated order.

76. Q. Is there any limit on the amount of orders a sawmill may accept?

A. Yes. A sawmill may not accept certified and rated orders for delivery in any month in an amount exceeding 110 percent of its anticipated shipments of lumber in that month. A sawmill may accept as many orders bearing (q) (2) or (q) (4) certificates as it wants to but in order to protect the buyer, the sawmill should not accept more of these orders than it reasonably expects it may be able to ship.

77. Q. A sawmill may not accept certified, rated orders for delivery in any month in an amount exceeding 110 percent of its anticipated shipments of lumber in that month. Does this mean, for example, that if a mill, on the 20th of August, has booked certified and rated orders for delivery in October up to 110 percent of expected October shipments, that it cannot accept any more such orders?

A. No. The October shipping file remains flexible during August and if the mill, on the 21st of August, is offered an order which carries a higher rating than some of the orders on its October shipping schedule, the mill must accept this higher rated order. Because the acceptance of this order would bring total certified and rated orders for October shipment above 110 percent, orders for an equal amount of lumber bearing the lowest ratings would have to be dropped, and the person who placed the order which has been dropped must be notified of this fact.

78. Q. The order provides that if a mill has accepted certified and rated orders equal to 110 percent of its expected shipments by the beginning of the month prior to the month in which shipments are to be made, it cannot accept any more certified and rated orders. Does this mean that a mill's order file for September shipments is frozen on the first of August if certified and rated orders for September delivery equal 110 percent of expected September shipments?

A. Yes. Certified orders bearing a rating of AAA, and orders that the mill is required by either a direction or directive of the War Production Board to accept, are the only ones that can get on that order file.

79. Q. If, on the first of August, a mill has certified and rated orders for September delivery amounting to only 80 percent of its expected September shipments and it receives a certified and rated order during August, must the mill accept such order in accordance with the provisions of § 944.2 of Priorities Regulation No. 1?

A. Yes. The order must be accepted, and it will take precedence over any lower rated orders on the mill's books.

80. Q. Is there any provision whereby a mill's order file will be frozen for the first month in which Order L–335 is effective?

A. The order file for August will remain open during July until the mill has accepted certified and rated orders equal to 110 percent of anticipated August shipments, at which point the order file for August shipments becomes frozen and no more certified and rated orders for August delivery may be accepted.

81. Q. After a mill's order file for October delivery is filled in August with certified and rated orders, may the mill accept certified and unrated orders for October delivery?

A. Yes. There is no limit on the amount of these orders that a mill can accept, but it should be remembered that shipment cannot be made on certified and unrated orders if such shipment would interfere with shipment on certified and rated orders.

82. Q. A sawmill has accepted certified and rated orders for September delivery up to 110 percent of expected September shipments. During September the mill was able to ship only 80 percent of orders accepted for September shipment. The mill has also booked orders for 110 percent of its October shipment. What orders are to be shipped first during October?

A. The unshipped certified and rated orders for September delivery take precedence over orders scheduled for October delivery, even though these unshipped September orders bear lower ratings than the orders scheduled for October delivery. The unshipped September orders may be displaced only by orders rated AAA and such orders as the mill may have been required by a direction or directive of the War Production Board to fill in the early part of October.

83. Q. A sawmill has accepted certified and rated orders for delivery equal to 110 percent of expected shipments for a given month. During that month the mill receives an order bearing an AAA rating, which it is required to accept. Must the mill drop low rated orders for an equal amount of lumber, or may it exceed the 110 percent limit on acceptance of certified and rated orders?

A. The mill may exceed the 110 percent limitation to the extent that it receives AAA orders or orders which it was required by a direction or directive of the War Production Board to ship in that month, so long as these orders are received within 30 days preceding the month for which shipment is to be made. Lower rated orders are not dropped, and low rated orders that are not shipped during that month will be carried over to the following month and will have shipping precedence over any orders scheduled for delivery in the following month.

84. Q. Are sawmills authorized to accept uncertified and unrated orders?

A. Sawmills are permitted to accept uncertified and unrated orders only to the extent provided by directions issued under the order. Generally, this will be governed by Directions 1 to 7 inclusive.

85. Q. Directions 1 to 6 provide that a sawmill must not accept a military order after the beginning of the month preceding the month of shipment if the acceptance of the order will result in the displacement of other certified and rated orders calling for more than 10 percent of the sawmill's anticipated monthly shipments. What happens to orders displaced up to the 10 percent?

A. These orders are only displaced from that month's shipping schedule. Like other certified and rated orders which the mill is unable to fill in the month in which delivery was requested they are carried over to the next month and filled ahead of orders on the next month's schedule regardless of ratings.

86. Q. Referring again to the provision of Directions 1 to 6 stated in Question 85 a sawmill has accepted certified and rated orders for 110 percent of its anticipated monthly shipments. These orders were accepted before the beginning of the month preceding the month of shipment and the order file is frozen. Each of these orders calls for more than 10 percent of the mill's anticipated monthly shipment. If the military order is for 10 percent or a lesser percentage of the mill's anticipated monthly shipments it will interfere with filling of one of the other orders that are for more than 10 percent. Must the military order be accepted and what happens to the other certified and rated order?

A. The military order must be accepted. The sawmill should get in touch with the person placing the lowest rated order and advise him that all of his order cannot be filled during the month in which he requested shipment and ask the buyer whether he wants shipment on the part that still can be shipped with the balance being shipped at the beginning of the next shipping month ahead of other orders or whether he wishes to cancel his order and place it with another mill. The acceptance of the military order only displaces orders from the month's shipping schedule. If the order being displaced is for more than ten percent only that part of the order is displaced which calls for the amount required by the military.

PART 3290—TEXTILES, CLOTHING AND LEATHER

[General Limitation Order L–312, as Amended July 7, 1944]

INDUSTRIAL WIPING CLOTHS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of industrial wiping cloths for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3290.76 *General Limitation Order L–312*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time, except as otherwise provided herein.

(b) *Definitions.* (1) "Industrial wiping cloth" means any used cloth which has been reclaimed for industrial wiping and cleaning.

NOTE: Paragraphs (2) and (3), formerly paragraphs (3) and (4), redesignated, and former paragraph (2) deleted July 7, 1944.

(2) "Industrial wiping cloth processor" means a person who during any calendar month launders or causes to be laundered more than 12,000 pounds of reclaimed cloths for the purpose of selling them to any other person for use as industrial wiping cloths.

(3) "Direct military order" means an order for industrial wiping cloths to be delivered directly to the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, The Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, or the Office of Scientific Research and Development.

(c) *Reservation of industrial wiping cloths for direct military usage.* Notwithstanding any preference rating or preference rating certificate:

During each calendar month beginning July, 1944, no industrial wiping cloth processor shall deliver more than 33⅓% by weight of his production of industrial wiping cloths on industrial or other non-military orders. The remaining 66⅔% shall either be delivered against direct military orders or set aside for delivery against future direct military orders, unless the War Production Board by specific authorization in writing releases such stock set aside or allocates it to some other person. (Requests for such authorization may be made by letter to the War Production Board stating the quantity and quality of cloths involved and other pertinent facts.) However, no industrial wiping cloths which are set aside for direct military orders need to be held for more than 30 days if the processor has no direct military orders calling for delivery within that time.

The processor shall include in the stock delivered or set aside against direct military orders all his wiping cloths meeting specifications for wiping cloths approved by the Federal Specifications Board of the Bureau of Ships of the Navy Department. This paragraph shall not, however, require the setting aside of more than 66⅔% of any processor's production of all cloths.

On or before the 10th day of each calendar month each wiping cloth processor shall report on Form WPB–3133 to the War Production Board as directed on said form.

These reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(d) *Restrictions on grading, processing and delivery of industrial wiping cloths.* No industrial wiping cloth grader or processor shall grade, process or deliver any industrial wiping cloth contrary to any specific direction which may be issued in writing from time to time by the War Prodution Board in order to meet designated military or industrial requirements.

(e) *Restriction on delivery and use of new textile products for wiping cloths.* No user of industrial wiping cloths shall use any new towels, new diapers or other new textile product as a substitute for industrial wiping cloths, and no person shall deliver any such product if he has reason to believe it will be used for this purpose. This restriction does not apply to mill ends or remnants or to new fabric made especially for use as industrial wiping cloths.

(f) *Records.* All persons affected by this order shall keep and preserve the records required by § 944.15 of Priorities Regulation 1.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington, D. C., Ref.: L–312.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3293—CHEMICALS

[General Allocation Order M–300, Schedule 33]

HIGHER ALIPHATIC ALCOHOLS

§ 3293.1033 (*Schedule 33 to General Allocation Order M–300*—(a) *Definition.* "Higher aliphatic alcohol" means any one of the following:

(1) Capryl alcohol (known also as "methyl hexyl carbinol" and "2-octanol").

(2) Octanol (2-ethyl hexanol).

(3) Normal octanol (normal octyl alcohol).

(4) Normal decanol (normal decyl alcohol).

(5) Lauryl alcohol (any mixture of normal aliphatic alcohols containing more than 50% normal dodecanol).

(6) Oleyl alcohol (normal heptadecanol).

(7) Mixed higher aliphatic alcohols (any mixture of higher aliphatic alcohols containing less than 50% dodecanol and more than 80% of normal octanol, normal decanol, and lauryl alcohol, combined).

(b) *General provisions.* Higher aliphatic alcohols are subject to the provisions of General Allocation Order M–300 as Appendix B materials. The initial allocation date for oleyl alcohol is August 1, 1944, for capryl alcohol is July 1, 1942, when capryl alcohol first became subject to allocation under Order M–167 (revoked), and for octanol, normal octanol, normal decanol, lauryl alcohol and mixed higher aliphatic alcohols is September 1, 1943, when these alcohols first became subject to allocation under Order M–344 (revoked). The allocation period is the calendar month. The small order exemption without use certificate per person per month is as follows:

70 pounds of capryl alcohol.
370 pounds of octanol (2-ethyl hexanol).
50 pounds of normal octanol.
50 pounds of normal decanol.
360 pounds of lauryl alcohol.
40 pounds of oleyl alcohol.
50 pounds of mixed higher aliphatic alcohols.

(c) *Special provisions.* (1) Use, delivery and acceptance of delivery prior to August 1, 1944, of higher aliphatic alcohols other than oleyl alcohol will be authorized on the basis of applications filed in the form prescribed in Order M–344 (revoked). Oleyl alcohol is subject to allocation under this schedule beginning August 1, 1944.

(2) Restrictions on deliveries by suppliers shall apply to deliveries to other persons and not to intra-company deliveries, notwithstanding § 944.12 (intra-company deliveries) of Priorities Regulation No. 1, as amended.

(d) *Suppliers' applications on WPB-2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB–2947 (formerly PD–602). Filing date is the 20th day of the month before the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–33. A separate set of applications shall be filed for each higher aliphatic alcohol, but a consolidated application may be filed for all plants and warehouses.

The unit of measure is pounds. In Table II, first, list in Column 1 customers who have filed use certificates with the applicant, and in Column 1a enter each primary product and end use stated in each certificate; second, specify in Column 1 "aggregate exempt small orders" and leave Column 1a blank; third, the applicant may specify in Column 1 his own name, and in Column 1a the product and end use for which he requests authorization to use the higher aliphatic alcohol. Fill in the other columns of Table I and fill in Table II as indicated.

(e) *Customers' certified statements of use.* Each person placing a purchase order for delivery from all suppliers in any month of more of any higher aliphatic alcohol than the exempt quantity specified in paragraph (b) shall furnish each supplier with a certified statement of proposed uses as prescribed in Appendix D of General Allocation Order M–300. Primary product and end use may be specified as follows, for each higher aliphatic alcohol ordered:

(Primary product).
Chemical Manufacture (specify product).
Anti-foam.
Oil additive.
Solvent (describe use).
Detergent.
Wetting agent.
Other (specify).
(End use).
Industrial (specify product).
Civilian consumer goods (specify product).
Export (if Lend-Lease, specify contract number; if other exports, specify license number and consignee).
Military (specify branch of Service and contract and specification number).

If the higher aliphatic alcohol is to be resold or exported as such, proposed use may be specified as "For authorized resale", "For resale on exempt small orders" or "For export" (specify destination and export license number).

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this schedule shall be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M–300–33.

Issued this 8th day of July 1944.

PART 3293—CHEMICALS

[Conservation Order M–374, as Amended July 8, 1944]

BEVERAGE CANE SPIRITS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of industrial alcohol and of sugar, molasses, and grain, and facilities for the production of industrial alcohol, for defense, for private account and for export. The use of such raw materials as sugar, molasses and grain is necessary to the production of industrial alcohol for the manufacture of synthetic rubber and munitions. It is therefore deemed necessary and appropriate in the public interest and to promote the national defense, to allocate facilities for the production of beverage cane spirits (as defined in this order), and to control the importation of beverage cane spirits so as to prevent further uncontrolled diversion of sugar and molasses to the production of these spirits:

§ 3293.616 *Conservation Order M–374*—(a) *Definitions.* (1) "Beverage cane spirits" means ethyl alcohol of 50 proof or higher made from molasses, sugar, sugar cane or sugar cane juice, and produced for beverage purposes or tax paid for beverage purposes. The term includes any solution, compound or mixture containing ethyl alcohol of 50 proof or higher made from molasses, sugar, sugar cane or sugar cane juice, such as, for example, rum, cordials or gin.

(2) "Producer" means any person engaged in the production of beverage cane spirits.

(3) "Import" means to transport in any manner into the continental United States or into Puerto Rico, the Virgin Islands of the United States, or the territories of Hawaii and Alaska, from any foreign country, or from any territory or possession of the United States other than those mentioned above. It includes shipments into a free port, free zone or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for trans-shipment to Canada, Mexico or any other foreign country.

(4) Beverage cane spirits shall be deemed "in transit" if it is afloat, if an on-board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(b) *Restrictions on production of beverage cane spirits.* On and after March 15, 1944, no person shall produce beverage cane spirits except as specifically authorized by the War Production Board. The provisions of this paragraph shall be applicable to the continental United States, Puerto Rico, the Virgin Islands of the United States and the territories of Hawaii and Alaska.

(c) *Restrictions on imports of beverage cane spirits.* On and after March 15, 1944, no person shall import, attempt to import, purchase for import, or make any contract or other arrangement for the importing of any beverage cane spirits without first having obtained authorization to do so from the War Production Board. This paragraph applies to the importation of beverage cane spirits regardless of the existence on March 15, 1944, or thereafter, of any contract or other arrangement for importation.

(d) *Applications for authorization to produce or import.* Any person requiring authorization to produce or import beverage cane spirits may apply by letter, in triplicate, to the War Production Board, stating the amount, by calendar quarter, of beverage cane spirits applicant desires to produce or import. Applicant must also state the amount of beverage cane spirits he has produced or imported, by calendar quarters, during the years 1940, 1941, 1942, 1943 and 1944. All quantities should be expressed in terms of proof gallons. It will be the policy of the War Production Board to permit production or importation of beverage cane spirits to the extent consistent with the fulfillment of requirements of sugar, molasses and industrial alcohol for the defense of the United States.

(e) *Exceptions.* Paragraphs (c) and (d) of this order do not apply:

(1) To beverage cane spirits which, on or before March 15, 1944, were in transit to a point within the continental United States; or

(2) To beverage cane spirits consigned as gifts or as samples, or for use as samples, or imported for personal use, where the quantity of each consignment or shipment is not more than 2.4 proof gallons. No person shall split up a single order of beverage cane spirits into smaller orders for the purpose of coming within this exception.

(3) To shipments of beverage cane spirits in bond into the continental United States for trans-shipment to Canada, Mexico or any other foreign country.

(4) To shipments of beverage cane spirits into the United States or its territories or possessions by members of the armed forces of the United States on duty outside the continental limits of the United States to the extent that such shipments are admitted free of all customs duty, charges or exactions, or internal revenue taxes imposed upon or by reason of importation, pursuant to Public Law 790, 77th Congress (Act of December 5, 1942).

(5) To beverage cane spirits consigned to diplomatic representatives of any foreign government for their personal use or for the use of members of their staff.

NOTE: Subparagraph (6), formerly (4), redesignated July 8, 1944.

(6) To any bank or other person who participates, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation after March 15, 1944 of beverage cane spirits, provided such bank or person either has received a copy of the authorization issued by the War Production Board under the provisions of paragraph (d), or is satisfied from known facts that the proposed transaction comes within the exceptions set forth in this paragraph (e).

(f) *Special directives.* The War Production Board may from time to time issue special directives to producers concerning the kind of raw materials which

may be used for the production of beverage cane spirits. This paragraph applies only to the continental United States, Puerto Rico, the Virgin Islands of the United States and the territories of Hawaii and Alaska.

(g) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(h) *Reports.* No beverage cane spirits, which are imported after March 15, 1944, shall be entered through the United States Bureau of Customs for any purpose (other than pursuant to paragraphs (e) (2), (e) (3), and (e) (4) of this order) whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry a certificate in duplicate, stating the following information: (1) Name of importer; (2) Date of bill of lading (this is only necessary if the beverage cane spirits were in transit on or before March 15, 1944); (3) Date and number of importer's WPB authorization; (4) Quantity of beverage cane spirits covered by the entry; (5) Port of entry; (6) Port of origin of shipment. The certificate shall be signed manually by a duly authorized official of the importer or as provided by Priorities Regulation No. 7. The standard form of certification provided in Priorities Regulation No. 7 may not be used instead of the certificate described above. The filing of such certificate a second time shall not be required upon any subsequent entry of the same shipment of beverage cane spirits through the United States Bureau of Customs for any purpose; nor shall the filing of such certificate be required upon the withdrawal of any beverage cane spirits from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of the certificate shall be promptly transmitted by the Collector of Customs to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-374.

(i) *Bureau of the Budget Approval.* The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any person may be prohibited from making or obtaining further deliveries of or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Communications.* All communications concerning this order shall be addressed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-374.

Issued this 8th day of July 1944.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M-21-b-1, as Amended July 8, 1944]

GENERAL STEEL PRODUCT DISTRIBUTORS

§ 3294.81 *General Preference Order M-21-b-1*—(a) *Purpose and scope.* This order tells how a distributor obtains deliveries of general steel products for his own stock or for direct delivery to his customers. The rules governing his purchases of merchant trade products are contained in General Preference Order M-21-b-2, and the rules governing his deliveries of all types of steel products to consumers are contained in CMP Regulation No. 4.

(b) *Definitions.* For the purposes of this order:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I to CMP Regulation No. 1.

(2) "Alloy steel" means alloy steel as defined in Order M-21-a.

(3) "Carbon steel" means any steel (including wrought iron) other than alloy steel.

(4) "General steel product" means any of the steel products listed in Schedule A of this order.

(5) "Product group" means any of the 17 numbered groups of general steel products listed in Schedule A of this order.

(6) "Type" means (i) carbon steel, or (ii) stainless steel, or (iii) other alloy steel.

(7) "Base tonnage" of a distributor for any product group and type at any location means the tonnage of that product group and type certified to that distributor for that location by the War Production Board on form GA-996. In general, the base tonnage of any product group and type for any location will be the tonnage delivered by that distributor from his stock at that location during the first three months of 1941. In no event will a base tonnage be established for a distributor at any location except for product groups and types which he was regularly receiving into stock from producer on or before August 9, 1941.

(8) "Distributor" means any person (including a warehouse, jobber, dealer, or retailer) who receives physical delivery of steel into his stock for sale or resale in the same form, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding. A person who, in connection with any sale, bends, punches or fabricates steel for final use or assembly shall not be considered a distributor with respect to that sale. The term "distributor" excludes any person who purchases steel for resale who does not actually take physical delivery of the material into his stock at a location regularly maintained by him for such purpose. The activities of such a person are governed by the terms of Direction 48 to CMP Regulation No. 1.

(9) "Delivery" includes deliveries received on consignment.

(c) *Purchases for stock—(1) From a producer; only replacement orders permitted.* A distributor may not order general steel products for his stock from a producer except to replace general steel products delivered from his stock at one or more locations during the previous 90 days to consumers in accordance with CMP Regulation No. 4, or to other distributors in accordance with this order, plus scrap accumulated in the course of warehouse operations and actually sold to a scrap dealer or melter and reported to the War Production Board on Form WPB-2888, and which he has not previously replaced or ordered for replacement. A distributor may not, however, use any delivery from his stock authorized by the War Production Board pursuant to an appeal filed by him under Direction 44 to CMP Regulation No. 1 to support a stock replacement order. Within these limits, a distributor may order any general steel product for his stock from any producer.

(2) *From a producer; limits on product groups.* No distributor may order from a producer for his stock, and no producer may deliver to a distributor's stock, any carbon type steel plates (product group No. 3), mechanical tubing (product group No. 8), pressure tubing (product group No. 9) or sheets and strip, hot rolled (product group No. 11) unless the distributor has a base tonnage for carbon steel in the product group ordered. No distributor may order any carbon steel in any of these product groups from producers for delivery to his stock during any calendar quarter in excess of 150% of his carbon steel base tonnage for such product group.

(3) *From another distributor; replacement orders.* A distributor may order general steel products for stock replacement from another distributor in the same manner and subject to the same restrictions as when he purchases from a producer. However, such orders shall not be subject to the restrictions contained in paragraph (c) (2) of this order.

(4) *From another distributor; salvaged and excess steel.* In addition, a distributor may order for his stock from another distributor any general steel product items which the latter has purchased from a holder of idle or excess inventories in accordance with paragraph (c) (5) of this order, or has salvaged from material purchased as scrap. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order. However, the distributor making such a delivery may not use it to support his own stock replacement order with a producer or another distributor.

(5) *From a holder of idle or excess inventories.* In addition, a distributor may order any general steel products for his stock from a holder of idle or excess inventories. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order.

(6) *How to place orders.* Each distributor to whom the War Production Board has issued a GA-996 warehouse certificate shall file once with each of his producer suppliers of general steel products a copy of the front page of the GA-996 warehouse certificate most recently issued to him. The copy of the GA-996 certificate received by a producer from a distributor may be used by the producer to verify the existence of a base tonnage on any particular product group. Each purchase order for general steel products placed for shipment to a distributor's stock must bear the words, "For distributor's stock." On orders placed with producers for product groups for which the distributor has a base tonnage for the location where the material will be received into stock, he should also place the serial number assigned him on his GA-996 certificate; but this serial number must not be used on any other sort of order. In addition, an order placed under paragraph (c) (4) must bear the word "salvage" or "excess" to show that the order is for the sort of material described in that paragraph. This will constitute a representation to the seller and to the War Production Board that the purchase order complies in all respects with the requirements of this order. No other endorsement or form is required.

(7) *Status of orders for delivery to stock.* An order placed with a producer in accordance with this paragraph (c) and bearing the distributor's serial number, or an order placed with a holder of idle or excess inventories, will be considered an authorized controlled material order. Any other order placed in accordance with this paragraph (c) may, but need not, be accepted; any part of the order which is accepted will be considered an authorized controlled material order.

(d) *Purchases for direct delivery to a customer—(1) Placing of orders.* A distributor who receives from a customer an order which he is permitted to fill under CMP Regulation No. 4 or under paragraph (c) above, or an order which has been specifically authorized by the War Production Board, and who wishes to arrange for direct delivery from a supplier to the customer, must furnish with his own purchase order a copy of the endorsement received by him from the customer including the customer's name, or a copy of the specific permission granted by the War Production Board. The distributor may not specify delivery to his own warehouse unless the order is for less than a minimum carload; and in the latter case, the material must be promptly redelivered by him to his customer. A distributor may not use any such sale to support an order for stock replacement.

(2) *Status of orders.* An order placed in accordance with this paragraph (d) may, but need not, be accepted by the supplier. Any part of the order which is accepted shall be considered an authorized controlled material order. If a producer rejects such an order designating shipment to a consumer when he has open space available to fill it, he must immediately notify the distributor in writing that he is prepared to fill an authorized controlled material order direct from the consumer or through another person.

(e) *Warehouse load directives.* A distributor may place orders in accordance with paragraph (c) for any general steel product with any producer. However, when necessary to secure an equitable distribution of any scarce general steel product, the War Production Board may direct producers to reserve each month a part of their production of such product to fill authorized controlled material orders bearing distributors' serial numbers. In order to take advantage of the tonnage reserved for any month, a distributor must submit his orders in accordance with paragraph (c) to a producer not later than the expiration date stated in the warehouse load directive. A producer may fill distributors' orders for that month received after the expiration date but may not reserve any space for them. A producer may not, until after the expiration date, schedule distributors' orders which do not bear a serial number.

(f) *Earmarked warehouse stocks.* The War Production Board may establish earmarked stocks of general steel products with any distributor. Deliveries to and from such stocks must be made in accordance with specific directions which will be issued to the distributor when the earmarked stock is established.

(g) *Establishing an initial stock.* This paragraph covers three groups: persons who have not previously been authorized to act as distributors of general steel products, distributors wishing to purchase for stock a product group which they have not previously handled, and distributors who have not previously purchased general steel products from producers but who now wish to do so.

(1) *New distributors.* Hereafter, any person who wishes to become a distributor of any general steel product from stock at a location not in operation prior to April 1, 1944, may do so only by purchasing his entire working stock from holders of idle or excess inventories in accordance with paragraph (c) (5) of this order. Deliveries from such stock may be replaced in accordance with paragraph (c) of this order. The term "working stock" includes all of the tonnage deemed necessary by the distributor to maintain operations at the new location at a satisfactory level under this order. Each location established by any person pursuant to this paragraph (g) (1) shall hereafter be considered a separate distributor subject to all of the terms of this regulation even though the location may only represent the addition of another unit to a group operated by one distributor.

(2) *New product lines or sources of supply.* A distributor wishing to add a new general steel product group to his stock, or any distributor who wishes to place orders with producers for the first time may do so by placing orders in the manner authorized by paragraph (c) of this order.

(h) *General provisions—(1) Reports.* Each distributor must file a quarterly report on form WPB-2888 for each location at which his total base tonnage of general steel products, or his receipts of general steel products into stock from producers during the quarter, exceeds 150 tons. In addition, if his base tonnage of tool steel (product group No. 7) for any location, or his receipts of tool steel into stock at any location from producers during the quarter, exceed 25 tons, he must file this report. Each report must be filed in duplicate with the Bureau of the Census, Washington 25, D. C., on or before the 15th day of January, April, July and October. Each distributor, even though he is not required to file this report, must maintain for at least two years a record of his shipments from stock, receipts into stock, and inventory of each product group on hand at the end of each calendar quarter. This record must be available for inspection at any time by authorized representatives of the War Production Board.

(2) *Appeals.* Any appeal from this order must be made by letter referring to the particular provision appealed from and stating fully the grounds for the appeal. In emergency cases, appeal may be made by telegraph.

(3) *Communications to War Production Board.* All appeals or other communications concerning this order should be addressed to the Warehouse Branch, Steel Division, War Production Board, Washington 25, D. C., References: M-21-b-1.

(4) *Violations.* Any distributor or other person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under prior-

ity control and may be deprived of priorities assistance.

(5) *Special instructions.* The War Production Board may from time to time issue instructions to distributors with respect to making, withholding, accepting or refusing deliveries.

This amended order shall become effective July 15, 1944.

NOTE: The record keeping and reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 8th day of July 1944.

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M-21-b-2, as Amended July 8, 1944]

MERCHANT TRADE PRODUCTS DISTRIBUTORS

§ 3294.86 *General Preference Order M-21-b-2*—(a) *Purpose and scope.* This order tells how a distributor obtains deliveries of merchant trade products for his own stock or for direct delivery to his customers. The rules governing his purchases of general steel products are contained in Order M-21-b-1, and the rules governing his deliveries of all types of steel products to consumers are contained in CMP Regulation No. 4.

(b) *Definitions.* (1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule 1 to CMP Regulation No. 1.

(2) "Merchant trade products" means any of the steel products listed in Schedule I of this order.

(3) "Product group" means any of the 12 numbered groups of merchant trade products listed in Schedule I of this order.

(4) "Base period" means

(i) For merchant trade products in product groups 20–28, inclusive, the calendar year 1940.

(ii) For merchant trade products in product groups 24–31, inclusive, the 12 months ending June 30, 1941.

(5) "Base tonnage" of a distributor for any product group at any location means the tonnage of that product group delivered by producers to his stock at that location during the base period, or such other tonnage as may be specifically established by the War Production Board. By the use of Form WPB-2889 a distributor can shift his base tonnage for any product group from one producer to another.

(6) "Distributor" means any person (including a warehouse, jobber, dealer, or retailer) who receives physical delivery of steel into his stock for sale or resale in the same form, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding. A person who, in connection with any sale, bends, punches or fabricates steel for final use or assembly shall not be considered a distributor with respect to that sale. The term "distributor" excludes any person who purchases steel for resale who does not actually take physical delivery of the material into his stock at a location regularly maintained by him for such purpose. The activities of such a person are governed by the terms of Direction 48 to CMP Regulation No. 1.

(7) "Delivery" includes deliveries received on consignment.

(8) "Minimum carload" means a carload weighing not less than 40,000 lbs.

(c) *Purchases for stock*—(1) *From a producer; only replacement orders permitted.* A distributor may not order merchant trade products for his stock from a producer except to replace merchant trade products which he delivered from his stock at one or more locations during the previous 12 months to consumers in accordance with CMP Regulation No. 4 or to other distributors in accordance with this order, and which he has not previously replaced or ordered for replacement. A distributor may not, however, use any delivery from his stock authorized by the War Production Board pursuant to an appeal filed by him under Direction 44 to CMP Regulation No. 1 to support a stock replacement order. Within these limits, a distributor may order any merchant trade product for his stock from any producer. When placing orders with producers a distributor should, so far as possible, specify deliveries in not less than minimum carload quantities in order to save transportation.

(2) *From another distributor; replacement orders.* A distributor may order merchant trade products for stock replacement from another distributor in the same manner and subject to the same restrictions as when he purchases from a producer.

(3) *From another distributor; salvaged and excess steel.* In addition, a distributor may order for his stock from another distributor any merchant trade product items which the latter has purchased from a holder of idle or excess inventories in accordance with paragraph (c) (4) of this order, or has salvaged from material purchased as scrap. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order. However, the distributor making such a delivery may not use it to support his own stock replacement order with a producer or another distributor.

(4) *From a holder of idle or excess inventories.* In addition, a distributor may order any merchant trade products for his stock from a holder of idle or excess inventories. Such material does not have to be ordered on a replacement basis, and previous deliveries from stock are not needed to support such an order.

(5) *How to place orders.* Each order for merchant trade products for shipment to a distributor's stock must bear the words "For distributor's stock." In addition, an order placed under paragraph (c) (3) must bear the word "salvage" or "excess" to show that the order is for the sort of material described in that paragraph. This will constitute a representation to the seller and to the War Production Board that the purchase order complies in all respects with the requirements of this order. No other endorsement or form is required.

(6) *Status of orders for delivery to stock.* An order placed with a producer in accordance with this paragraph (c) for delivery of a merchant trade product to stock at a location where the distributor has a base tonnage for that product group with that producer, or an order placed with a holder of idle or excess inventories, will be considered an authorized controlled material order. Any other order placed in accordance with this paragraph (c) may, but need not be accepted; any part of the order which is accepted will be considered an authorized controlled material order.

(d) *Purchases for direct delivery to a customer*—(1) *Placing of orders.* A distributor who receives from a customer an order which he is permitted to fill under CMP Regulation No. 4 or under paragraph (c) above, or an order which has been specifically authorized by the War Production Board, and who wishes to arrange for direct delivery from a supplier to the customer, must furnish with his own purchase order a copy of the endorsement received by him from the customer including the customer's name, or a copy of the specific permission granted by the War Production Board. The distributor may not specify delivery to his own warehouse unless the order is for less than a minimum carload; and in the latter case, the material must be promptly redelivered by him to his customer. A distributor may not use any such sale to support an order for stock replacement.

(2) *Status of orders.* An order placed in accordance with this paragraph (d) may, but need not, be accepted by the supplier. Any part of the order which is accepted shall be considered an authorized controlled material order. If a producer rejects such an order designating shipment to a consumer when he has open space available to fill it, he must immediately notify the distributor in writing that he is prepared to fill an authorized controlled material order direct from the consumer or through another person.

(e) *Warehouse load directives.* A distributor may place orders in accordance with paragraph (c) for any merchant trade product group with any producer. However, when necessary to secure an equitable distribution of any scarce merchant trade product, the War Production Board may direct producers to reserve each calendar quarter a part of their production of such product to fill authorized controlled material orders from distributors for whom they have a base tonnage covering a specific location or locations. In order to take advantage of any such reserved tonnage, a distributor must submit his orders in accordance with paragraph (c) to the producer then holding his base tonnage, not later than the expiration date stated in the warehouse load directive. A producer may fill distributors' orders for that quarter received after the expiration date, but may not reserve any space for them. A producer must consider the first orders for any product group received from any distributor for delivery in a particular calendar quarter as applicable to the tonnage of such product group reserved for that distributor during that quarter. In addition to the tonnage of any product group which a distributor may order against the amount reserved for him by a warehouse load directive, he may place other properly supported orders for that product group with the same or any other producer in accordance with paragraph (c). However, a producer may not schedule such orders for delivery until after his obligations under the warehouse load directive have been filled, or unless when the order is received he knows that he will have material for shipment to distributors over and above the tonnage required to satisfy his warehouse load directive.

(f) *Earmarked warehouse stocks.* The War Production Board may establish earmarked stocks of merchant trade products with any distributor. Deliveries to and from such stocks must be made in accordance with specific directions which will be issued to the distributor when the earmarked stock is established.

(g) *Establishing an initial stock.* This paragraph covers three groups: persons who have not previously been authorized to act as distributors of merchant trade products, distributors wishing to purchase for stock a product group which they did not handle during the base period, and distributors who did not purchase merchant trade products from producers during the base period but who now wish to do so.

(1) *New distributors.* Hereafter, any person who wishes to become a distributor of any merchant trade product from stock at a location not in operation prior to April 1, 1944, may do so only by purchasing his entire working stock from holders of idle or excess inventories in accordance with paragraph (c) (4) of this order. Deliveries from such stock may be replaced in accordance with paragraph (c) of this order. The term "working stock" includes all of the tonnage deemed necessary by the distributor to maintain operations at the new location at a satisfactory level under this order. Each location established by any person pursuant to this paragraph (g) (1) shall hereafter be considered a separate distributor subject to all of the terms of this regulation even though the location may only represent the addition of another unit to a group operated by the distributor.

(2) *New product lines or sources of supply.* A distributor wishing to add a new merchant trade product group to his stock, or any distributor who wishes to place orders with producers for the first time may do so by placing orders in the manner authorized by paragraph (c) of this order.

(h) *General provisions*—(1) Reports. Each distributor who has a base tonnage for any of the following groups of merchant trade products at any one location in excess of that shown below must file with the Bureau of the Census, Washington, D. C., a quarterly report for such location in duplicate on Form WPB-2892.

	Net tons
Pipe (product groups 20–21)	240
Tin and terne plate (product group 22)	240
Galvanized, lead coated, or painted sheets and strip, including roofing and siding, valley, ridge roll, and flashing (product group 23)	240
Wire products (product groups 24–31)	240

This report must also be filed by a distributor for any of his warehouses which during the quarter receives into stock from producers over 100 tons of merchant trade products. Each distributor, whether or not he is required to file this report, must maintain for a period of not less than two years a record of his shipments from stock, receipts into stock, and inventory of each product group on hand at the end of his fiscal year. This record must be available for inspection at any time by authorized representatives of the War Production Board.

(2) *Appeals.* Any appeal from this order must be made by letter referring to the particular provision appealed from and stating fully the grounds for the appeal. In emergency cases, appeal may be made by telegraph.

(3) *Communications to War Production Board.* All appeals or other communications concerning this order should be addressed to the Warehouse Branch, Steel Division, War Production Board, Washington 25, D. C., Reference: M-21-b-2.

(4) *Violations.* Any distributor or other person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(5) *Special instructions.* The War Production Board may from time to time issue instructions to distributors with respect to making, withholding, accepting or refusing deliveries.

This amended order shall become effective July 15, 1944.

NOTE: The record keeping and reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 8th day of July 1944.

PART 3299—HIGHER ALIPHATIC ALCOHOLS

[Allocation Order M-344, Revocation]

Section 3299.1 *Allocation Order M-344* is hereby revoked. This revocation does not affect any liabilities incurred under the order.

Higher aliphatic alcohols are subject to allocation under General Allocation Order M-300 as Appendix B materials,

[1] With the approval of the producer receiving such an order, substitution of black sheets (21 gauge and lighter) may be made for galvanized flat sheets of the same gauge.

subject to Schedule 33 issued simultaneously with this revocation.

Use, delivery and acceptance of delivery prior to August 1, 1944, of those higher aliphatic alcohols heretofore subject to Order M-344, will be authorized on the basis of applications filed in the form heretofore prescribed in Order M-344.

Issued this 8th day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-576]

ELECTRIC MOTORS CORPORATION

Electric Motors Corporation, a corporation doing business at 111 South Meridian Street, Indianapolis, Indiana, is engaged in the business of purchasing and selling electric motors. Between May 5, 1943, and September 15, 1943, the corporation sold more than 1000 new fractional horsepower electric motors on unrated purchase orders, in violation of Limitation Order L-123. The corporation was familiar with the provisions of Limitation Order L-123, and its actions constituted a wilful violation of that order.

These violations have hampered and impeded the war effort of the United States by diverting scarce material to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.576 *Suspension Order No. S-576.* (a) Electric Motors Corporation, its successors or assigns, is hereby prohibited from accepting delivery of or receiving any new fractional horsepower electric motors and generators as defined in Limitation Order L-123, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Electric Motors Corporation, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 8, 1944, and shall expire on November 8, 1944.

Issued this 1st day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1029—FARM MACHINERY

[Limitation Order L-257-a, as Amended July 10, 1944]

EXPORTS

§ 1029.16 *Limitation Order L-257-a*—(a) *What this order does.* This order describes the rules governing the manufacture for export of machinery and equipment (both farm and non-farm) and repair parts, and supplements Limitation Order L-257 covering domestic production. All general provisions of the domestic order, such as definitions and rules for production schedules, will apply to producers for export under this order, unless this order indicates otherwise. It is expected that this order L-257-a will be the basic export order from year to year, but that "applicable export schedules" of quotas will be issued for each "current quota period", just as explained in Order L-257 for domestic quotas. It may be assumed that the applicable export schedules in effect at any particular time will continue into the next "current quota period", until such time as new schedules are issued.

(b) *Additional definitions.* The definitions of Order L-257, unless otherwise indicated in this order, shall apply for the purpose of this order, and also the following:

(1) "Base shipment" means one-half the net shipping weight of the total quantity (as reported on Form PD-388) of farm machinery and equipment and repair parts in the aggregate exported by a producer during the calendar years 1940 and 1941 combined to any country or group of countries (except Canada) listed on an applicable export schedule.

(2) "Lend-Lease order" means any order for machinery and equipment (both farm and non-farm) or repair parts placed by any agency of the United States Government in response to a requisition filed pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) "Applicable export schedule" means any schedule which relates to a current quota period and fixes manufacturing quotas for the foreign country or countries listed for that period.

(c) *Restrictions on production for export*—(1) *General export quotas (except Canada).* During any current quota period, no producer shall manufacture for shipment, or ship, to foreign countries more machinery and equipment (both farm and non-farm) and repair parts than his quota for the particular country or countries, as indicated on the applicable export schedule. Where countries are listed on an applicable export schedule as a group with only one quota percentage, the producer's quota for all countries in the group as a whole is the listed percentage of his base shipments to those countries. Where countries are listed individually with separate quota percentages, the producer's quota for each country is the applicable percentage of his base shipment to that country. Where the quota percentage is 0% for any country or group of countries listed, or where a particular foreign country is not listed at all, shipments can be made only by getting a special quota under paragraph (c) (4). These special quotas will be given only as the need arises.

Each export quota for a country or group of countries (except Canada) is an over-all tonnage, which the producer can divide up among farm machinery and equipment, non-farm machinery and equipment, and repair parts, as he chooses.

Exceptions to these general rules are stated in paragraph (d).

(2) *Canadian quotas.* During any current quota period, no producer shall manufacture for shipment to Canada more of any item of farm machinery and equipment (in units) or attachments (by weight) than his quota as indicated on the applicable export schedule. For each item of farm machinery and equipment (excluding attachments) the producer's quota is half the number of that item (in units) shipped by him to Canada during the calendar years 1940 and 1941, multiplied by the percentage shown for the item on the schedule. (Non-farm machinery and equipment is not included in the above quotas and may not be shipped to Canada.

For each item of attachments, the quota is half the net shipping weight of that item shipped by the producer to Canada during the calendar years 1940 and 1941, multiplied by the percentage shown for the item on the schedule. However, the producer may choose to lump all attachments as explained in paragraph (d) (3).

There is no quota limitation on the manufacture of repair parts for Canada. However, it is necessary to comply with paragraph (e) with respect to production schedules.

Exceptions to these general rules are stated in paragraph (d).

(3) *Special restrictions.* No producer shall manufacture for shipment, or ship, to any foreign country (including Canada):

(i) Any item of farm machinery and equipment requiring rubber tires except the following items:

Wheel type tractors including garden type.
Combines.
Pick-up hay balers and field hay harvesters.
Corn pickers.
Power sprayers over ten gallons per minute.
Any item requiring tires to be mounted on wheel rims of the following sizes (diameter): 15", 16", 18", 20" and 21".

(ii) Any item of farm machinery and equipment or repair parts except to the extent listed on an approved production schedule under paragraph (e).

(4) *Adjustments in quotas.* The War Production Board may, by specific written directions or authorizations issued to any producer or other person affected by this order, increase or decrease any export quota or authorized use of materials; and may transfer any portions of quotas between producers, taking into account the amount and weight of materials to be used, the need for particular items at the time required in particular countries, the labor and transportation situation in the manufacturing areas involved, and such other factors as may be proper.

(d) *Exceptions*—(1) *Production before or after current quota periods*—(i) *Advance planning of production.* Before the beginning of any current quota period, producers may plan their advance production for export as explained for domestic production in subparagraph (d) (5) (i) of Order L-257.

(ii) *Carry-over of uncompleted portions of quotas.* Any portions of export quotas under an applicable export schedule (including all amendments, appeals and specific authorizations) which are not completely manufactured by the end of the current quota period, may be carried over and added to the corresponding quotas of the next current quota period, but only to the extent that the particular items are covered by an export license or release certificate issued by or under authority of the Foreign Economic Administration, or by a Lend-Lease order, dated before July 1 of this next period. However, items for Canada may be carried over to the extent that they can be completed by July 31 of this next period. In addition, uncompleted quotas for the following items of harvesting machinery and equipment for Canada under Export Schedule X-10 (including special authorizations, etc.) may be carried over for completion any time before September 30, 1944:

Combines (Item 126 only).
Corn binders (Item 132).
Corn pickers (Items 133-136).
Field ensilage harvesters (Item 137).
Corn shellers (Items 166 and 167 only).
Feed grinders and crushers (Items 174, 175, and 175a only).
Portable elevators (Item 188).

(iii) [Deleted July 10, 1944.]

(2) *Bracketed items for Canada.* Wherever, in an applicable export schedule for Canada, two or more items are bracketed together, the producer may distribute his total quota (in units) for that bracket among all the items in that bracket, as set forth for domestic items in paragraph (d) (2) of Order L-257.

(3) *Attachments for Canada.* Any producer may choose not to follow the individual quota percentages for attachment items for Canada as indicated on the applicable export schedule, and instead manufacture up to 100% of half his total 1940 and 1941 shipments of all attachments (by weight) to Canada, under the terms set forth for domestic attachments in paragraph (d) (3) of Order L-257.

NOTE: The over-all quota for attachments under Schedule X-10 is 75%.

(e) *Production schedules.* Each producer who is not a "small producer" must have available for shipment export the quantities of items of machinery and equipment (both farm and non-farm) and repair parts as indicated on his production schedules which have been filed and approved in accordance with paragraph (e) of Order L-257. All provisions of that paragraph apply to production schedules for export, unless otherwise indicated. However, any item manufactured for export, whether for an O. E. W. country or Lend-Lease country (excluding Canada), may be shipped to any foreign country (except Canada) regardless of the schedule filed on Form WPB-3053 or WPB-3181, *Provided*, That the total shipments to any country or group of countries during the current quota period must not be more than the quota for that country or group of countries established under this order. Shifts of this nature do not have to be reported on Form WPB-3181.

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(g) *Reports.* Each producer must file by the 10th day of each month a report on Form WPB-813 of his export shipments to all foreign countries (except Canada) during the previous month in accordance with the instructions on the form. However, producers whose total export quota for all countries, except Canada, is 15,000 pounds or less for any current quota period, need not file this form.

NOTE: This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

NOTE: Paragraph (h) formerly (g) redesignated July 10, 1944.

(h) *Communications.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Farm Machinery and Equipment Division, Washington 25, D. C., Ref.: L-257-a.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPLICABLE EXPORT SCHEDULES OF ORDER L-257-A FOR CURRENT QUOTA PERIOD JULY 1, 1943 to JUNE 30, 1944

Quotas for countries listed on Schedules X-1, X-3, X-4, X-5, X-6, X-7 below are expressed as a percentage of one-half the total net shipping weight of the 1940 and 1941 shipments of farm machinery and equipment and repair part to all the countries in the particular group.

Quotas for countries listed on Schedule X-8 below are expressed as a percentage of one-half the total net shipping weight of the 1940 and 1941 shipments to each such country.

NOTE: Quota percentages are not established for countries listed in Schedules X-2 and X-9 below. Quotas for these countries, and for special projects in any country, will be allocated specifically from time to time under paragraph (c) (4).

Schedule X-10

Quotas for the following items of farm machinery and equipment (excluding attachments) are expressed as a percentage of

one-half the number of units of each item shipped to Canada during the combined calendar years 1940 and 1941; where applicable, the item numbers correspond to those in Schedule A of Order L-257. Bracketed items may be handled as indicated in paragraph (d) (2).

The quota base for each item of attachments, is one-half the net shipping weight of the 1940 and 1941 shipments thereof. Note option to lump all attachments as provided in paragraph (d) (3).

Items not listed are not to be manufactured for shipment to Canada.

GROUP 1: PLANTING, SEEDING AND FERTILIZING MACHINERY

Division 1: Planters (Horse and Tractor Drawn)

Item		Quota percentages
4	Two row corn planters	81
6	Three row and over corn planters	81

Division 2: Planters (Tractor Mounted)

10	Two row corn planters	81
12	Three row and over corn planters	81

Division 3: Potato Planters (Horse or Tractor Drawn)

14	One row	152
14a	Two row and larger	125

Division 4: Transplanters

(1)	Horse or tractor drawn	77
16	Hand, wheel type	77

Division 7: Beet Drills

(1)	Horse or tractor drawn	69

Division 8: Grain Drills

(1)	Fertilizer drills, horse or tractor drawn	75
(1)	Plain drills, horse or tractor drawn	75
(1)	Press drills, horse or tractor drawn	32

Division 10: Garden Planters

30	Hand planters wheel type	100

Division 12: Lime Spreaders (Sowers)

33	Wheeled type, horse or tractor drawn	70

Division 13: Manure Spreaders

36	Four wheeled, horse or tractor drawn	183
37	Two wheeled tractor drawn	133

151	Hay loaders	159

Division 4: Stackers

152	Stackers (Stationary type)	100

Division 5: Hay Balers

(1)	Pick-up hay balers (50 units to be allotted)	0

GROUP 8: MACHINES FOR PREPARING CROPS FOR MARKET OR USE

Division 1: Stationary Thrashers

158	Thrashers, width of cylinder under 28 inches	93
159	Thrashers, width of cylinder 28 inches or over	93
162	Ensilage cutters (silo fillers)	89

GROUP 8: MACHINES FOR PREPARING CROPS FOR MARKET OR USE—continued

Division 5: Feed Cutter (Hand and Power)

Item		Quota percentages
163	Feed Cutters, hand and power	105

Division 6: Corn Shellers

164	Corn shellers, hand	33
165	Power corn shellers (2, 4, 6 and 8 hole)	33
166	Power corn shellers, cylinder (150 bu. and under)	33
167	Power corn shellers, cylinder (over 150 bu.)	33

Division 9: Feed Grinders and Crushers

174	Power Burr type	183
175	Hammer	66
175a	Roughage mills	66
175b	Feed mixer (not concrete mixer)	126

176	Cleaners and graders (corn and grain)	100

Division 11: Potato Sorters and Graders

177	Potato sorters and graders	85

Division 16: Other Machines for Preparing Crops for Market Use

(1)	Roller or crusher type feed cutters	33
(1)	Pulper (feed)	100

GROUP 9: FARM ELEVATORS AND BLOWERS

Division 1: Elevators (portable)

188	Elevators, portable	50

Division 2: Elevators (stationary)

189	Elevators, stationary	0

GROUP 10: TRACTORS

Division 1: Tractors, Wheel Type, by Rated Belt H. P.

192	Special purpose under 30 h. p.	75
193	Special purpose 30 or over h. p.	75
194	All purpose under 30 h. p.	75
195	All purpose 30 and over h. p.	75

Division 2: Garden Tractors

196	Garden tractors including motor tillers (325 units to be allotted)	

GROUP 11: ENGINES

NOTE: Engines and repairs for same are not controlled by this order, but are scheduled by the Automotive Division.

GROUP 12: FARM WAGONS AND TRUCKS (NOT MOTOR)

Division 1: Wagons

205	Wagons, farm, without boxes	90
206	Trucks, farm, without boxes	97

Division 2: Wagon Bodies

207	Wagon and truck boxes, farm	141

GROUP 13: DOMESTIC WATER SYSTEMS

Division 1: Deep and Shallow Well System

213	Deep well, reciprocal	135
214	Deep well, jet pumps	135
215	250-499 gals. per hour, shallow well	135
216	500 to 3000 gals. per hour, shallow well	135

[1] No applicable item number on Schedule A of Order L-257.

GROUP 13: DOMESTIC WATER SYSTEMS—con.

Division 2: Power Pumps

Item		Quota percentages
217	Horizontal type up to and including 50 gals. per min. 100 lb. pressure	135

GROUP 14: FARM PUMPS AND WINDMILLS

Division 1: Pumps, Water

220	Pitcher pumps or cistern pumps	86
221	Hand and windmill pumps	162

Division 2: Windmills

222	Windmill heads	86
223	Windmill towers	35

Division 3: Pump Jacks

224	Pump jacks	160

GROUP 15: IRRIGATION EQUIPMENT

Division 2: Distribution Equipment

(1)	Repairs, sprinklers, valves and gates for truck garden sprinkling equipment, excluding piping and lawn sprinklers: (1,000 pounds to be allotted)	0

GROUP 16: DAIRY FARM MACHINES AND EQUIPMENT

Division 1: Milking Machines

237	Milking machines (with 2 pails per pump)	185

Division 2: Farm Cream Separators

238	Farm cream separators, capacity 250 lbs. per hour or less	0
239	Farm cream separators, cap 251-800 lbs per hour	186
240	Farm cream separators, capacity 801-1500 lbs. per hour	186

Division 3: Farm Milk Coolers

241	Immersion type (200 units to be allotted)	0

Division 4: Farm Butter Making Equipment

243	Butter churns	80

GROUP 17: BARN AND BARNYARD EQUIPMENT

Division 2: Hay Unloading Equipment

254	Hay carriers	103
255	Track for hay carriers	103
256	Hay forks, harpoon and grapple	103
257	Pulleys and fittings	103

Division 4: Livestock Drinking Cups and Watering Bowls

261	Livestock drinking cups	138

Division 5: Hog Troughs

264	Hog troughs	50

Division 8: Other Barn and Barnyard Equipment

270	Hog waterers	50
271	Hog rings	(15,000 lbs. to be allotted)
272	Bull rings	

GROUP 18: FARM POULTRY EQUIPMENT

Division 1: Incubators

274	Incubators, 1000 egg capacity and smaller	105
275	Incubators, over 1000 egg capacity	105

GROUP 18: FARM POULTRY EQUIPMENT—con.

Division 2: Floor Brooders (over 100 chick capacity)

Item		Quota percentages
277	Coal	159
279	Wood	159
280	Electric	159

NOTE: Producers may use one-half their production of oil brooders (over 100 chick capacity), as well as one-half their production of coal, wood and electric types, during 1940 and 1941, in figuring their total brooder quota; but they can produce for shipment to Canada only the coal, wood, and electric types listed above.

Division 3: Egg Cleaners and Brushes (hand use only)

(1)	Egg cleaners and brushes (hand use only)	150

GROUP 19: MISCELLANEOUS FARM EQUIPMENT

Division 4: Harness Hardware

298	Harness hardware (pounds)	156

Division 6: Electric Fence Controllers

300	Electric fence controllers	225
301	Electric fence accessories (pounds)	200

Division 8: Farm Wood-Sawing Machines

309	Farm wood-sawing machines	89

Division 10: Farm Lighting Plants

311	Wincharger type (battery not included)	25

ATTACHMENTS AND REPAIR PARTS

(1)	Repair parts: No quota limitation. However, it is necessary to comply with paragraph (e) of Order L-257-a with respect to production schedules.
(1)	Attachments: Quota percentage for each attachment item is the same as that listed above for the machine or item with which the attachment is used, except that the base is net shipping weight instead of units. However, option may be chosen to lump all attachments as provided in paragraph (d) (3) of Order L-257-a.

PART 1029—FARM MACHINERY

[Limitation Order L-257-a, Export Schedules X-11 Through X-18, as Amended July 10, 1944]

APPLICABLE EXPORT SCHEDULES OF QUOTAS FOR FARM MACHINERY, EQUIPMENT AND REPAIRS FOR EXPORT FOR THE CURRENT QUOTA PERIOD JULY 1, 1944, TO JUNE 30, 1945

§ 1029.18 *Export Schedule X-11 through X-18 to Limitation Order L-257-a.* In accordance with the provisions of Orders L-257 and L-257-a, the

following are the "applicable export schedules" for the current quota period starting July 1, 1944. These are similar to the applicable export schedules for the current quota period ending June 30, 1944, with some minor changes and consolidations, and with certain changes in quota percentages.

The production quotas set forth in these export schedules should be used by producers as the basis for planning their production, establishing production schedules and ordering material under CMP. The War Production Board may establish a final distribution pattern which is not in accord with these quotas. Any additional controls or exemptions which may be desirable with regard to production quotas, and any modifications with respect to final distribution of completed machines, will be issued as the need arises. In figuring his anticipated production, each producer must comply with the provisions of the basic Limitation Orders L–257 and L–257–a, unless these export schedules state otherwise.

Quotas for countries listed on Schedules X–11, X–13, X–14, X–15, and X–16, below are expressed as a percentage of one-half the total net shipping weight of the 1940 and 1941 shipments of farm machinery and equipment and repair parts to all the countries in the particular group.

Quotas for countries listed on Schedule X–17 below are expressed as a percentage of one-half the total net shipping weight of the 1940 and 1941 shipments to each such country.

NOTE: A quota percentage is not established for countries listed in Schedule X–12 below. Quotas for these countries will be allocated specifically from time to time under paragraph (c) (4) of Order L–257–a.

CANADA

SCHEDULE X–18

NOTE: Schedule X–18 amended July 10, 1944.

Quotas for the following items of farm machinery and equipment (excluding attachments) are expressed as a percentage of one-half the number of units of each item shipped to Canada during the combined calendar years 1940 and 1941; where applicable, the item numbers correspond to those in Schedule B of Order L–257. Bracketed items may be handled as indicated in paragraph (d) (2).

The quota base for each item of attachments is one-half the net shipping weight of the 1940 and 1941 shipments thereof. Note option to lump all attachments as provided in paragraph (d) (3).

Items not listed are not to be manufactured for shipment to Canada.

GROUP 1: PLANTING, SEEDING AND FERTILIZING MACHINERY

DIVISION 1: PLANTERS (HORSE AND TRACTOR DRAWN)

Item		Quota percentages
4	Two row, corn	81
6	Three row and over, corn	83

DIVISION 2: PLANTERS (TRACTOR MOUNTED)

10	Two row, corn	81
12	Three row and over, corn	0

DIVISION 3: POTATO PLANTERS (HORSE AND TRACTOR DRAWN)

14	One row	152
14a	Two row and larger	152

DIVISION 4: TRANSPLANTERS

15	Horse or tractor drawn, tractor mounted or self-propelled	87

DIVISION 7: BEET AND BEAN DRILLS OR PLANTERS

23	Horse or tractor drawn, or tractor mounted	124

DIVISION 8: GRAIN DRILLS

25	Fertilizer drills, horse or tractor drawn	67
26	Plain drills, horse or tractor drawn	92
26a	Plain, over 14 run, horse or tractor drawn	92
[1]	Press drill, horse or tractor drawn	37

DIVISION 10: GARDEN PLANTERS

30	Hand, wheel type	125

DIVISION 12: LIME SPREADERS (SOWERS)

33	Wheeled hopper type sower, horse or tractor drawn	84

DIVISION 13: MANURE SPREADERS AND LOADERS

36	Four Wheel, horse or tractor drawn	133
37	Two Wheel, tractor drawn	131

GROUP 2: FARM PLOWS AND LISTERS

DIVISION 1: MOLDBOARD PLOWS (HORSE DRAWN)

44	Walking, two horse and larger	57
46	Gang, two bottom and larger	26

DIVISION 2: MOLDBOARD PLOWS (TRACTOR DRAWN OR MOUNTED)

47	One bottom, tractor drawn	83
48	Two bottom, tractor drawn	83
49	Three bottom, tractor drawn	83
50	Four bottom, tractor drawn	83
51	Five bottom and larger, tractor drawn	83
52	One bottom, tractor mounted	74
53	Two bottom, tractor mounted	73

DIVISION 4: DISC PLOWS (TRACTOR DRAWN)

56	Two disc	0
57	Three disc	0

DIVISION 5: ONE-WAY DISC PLOWS OR TILLERS

63	Under five feet	94
63a	Five foot and over	94
[1]	Seed boxes for one-way plows (classified as attachments)	

GROUP 3: HARROWS, ROLLERS, PULVERIZERS & STALK CUTTERS

DIVISION 1: FARM TYPE HARROWS

78	Spike tooth harrow sections (steel), horse or tractor drawn	65
79	Spring tooth harrow sections (steel), horse or tractor drawn	65
80	Disc harrows, horse drawn	56
80e	Disc harrows, tractor drawn or mounted	82

[1] No applicable item number on Schedule B of Order L–257.

GROUP 2: FARM PLOWS AND LISTERS—Con.

DIVISION 3: SOIL PULVERIZERS AND PACKERS

Item		Quota percentages
[1]	Trailer Packers for one-way plows	41

GROUP 4: CULTIVATORS AND WEEDERS

DIVISION 1: CULTIVATORS (HORSE OR TRACTOR DRAWN)

91	One horse (all types) including hillers, disc hoes, shovel plows, little joes, and similar type harrows and rotary harrows	100
93	One row, riding, two horse	96
95	Beet and bean cultivators	76
96	Field cultivators, including chisels and orchard cultivators	85
97	Hand cultivators, wheel type, including hand plows	100

DIVISION 2: CULTIVATORS (TRACTOR MOUNTED)

98	One row	83
99	Two row, shovel or disc type	83
100	Three row and over, all types	83

DIVISION 4: WEEDERS, DRAWN OR MOUNTED

103	Rod weeders, horse or tractor drawn	85

DIVISION 5: OTHER CULTIVATORS AND WEEDERS

[1]	Tobacco cultivators	50

GROUP 5: FARM SPRAYERS, DUSTERS, AND ORCHARD HEATERS

DIVISION 1: POWER SPRAYERS

108a	Orchard type, auxiliary engine	166
108b	Orchard type, power take-off	166
108g	Field or row crop type, auxiliary engine	147
108h	Field or row crop type, power take-off	147
109	Traction sprayers	147

DIVISION 2: HAND SPRAYERS WITH TANK BARREL KNAPSACK, ETC., WITH COMPLETE EQUIPMENT (CAP. 1 QT. OR OVER BUT LESS THAN 6 GALS.)

110	Compressed air	100
111	Knapsack, self contained	100
112	Trombone, pump type	100
113	Bucket, pump type, single cylinder	100
114	Bucket, pump type, double cylinder	100
115	Atomizing, single action (1 qt. and larger capacity)	100
116	Atomizing, continuous (1 qt. and larger capacity)	100

DIVISION 3: HAND PUMP SPRAYERS (CAPACITY SIX GALLONS OR MORE)

117	Barrel pump sprayer	165
118	Wheelbarrow sprayer	163

DIVISION 4: SPRAY PUMPS, POWER

119	Spray pumps, power	100

DIVISION 6: DUSTERS

121	Power duster, auxiliary engines	164
121a	Power duster, power take-off	171
122	Traction dusters	148
123	Hand dusters, all types	100

GROUP 6: HARVESTING MACHINERY

DIVISION 1: COMBINES (HARVESTER THRESHERS)

126	Width of cut, 6 ft. & under, auxiliary engines	119
126a	Width of cut, 6 ft. & under, power take-off	119
127	Width of cut, over 6 ft. including 10 ft	119
128	Width of cut, over 10 feet	119
128a	Windrowers or swathers	244
[1]	Pickup for combine	200

[1] No applicable item number on Schedule B of Order L–257.

GROUP 6: HARVESTING MACHINERY—Con.

DIVISION 2: GRAIN AND RICE BINDERS

Item		Quota percentages
129	Grain binders (ground drive)	67
130	Grain binders (power take-off drive)	78

DIVISION 3: CORN BINDERS

132	Corn binders, ground drive	75
132a	Corn binders, power take-off	75

DIVISION 4: CORN PICKERS

133	One row, mounted type	127
134	Two row, mounted type	122
135	One row, pull type	128
136	Two row, pull type	132

DIVISION 5: FIELD ENSILAGE HARVESTERS—ROW TYPE

137	Field ensilage harvesters (row (type) (to be allotted).	

DIVISION 6: POTATO DIGGERS AND PICKERS

139	One row, ground drive	172
139a	One row, power take-off	172
139b	Two row, power take-off	173
139c	Potato Pickers (to be allotted).	

DIVISION 8: SUGAR BEET AND CANE HARVESTING EQUIPMENT

141	Beet lifters, horse or tractor drawn	97

GROUP 7: FARM HAYING MACHINERY

DIVISION 1: MOWERS

146	Horse or tractor drawn (ground drive)	98
147	Tractor mounted or semi-mounted (power take-off drive)	98
[1]	Knife or sickle grinder	71

DIVISION 2: RAKES

148	Sulky (dump)	93
149	Side delivery (incl. comb. side rakes and tedders)	129
150	Sweep (horse)	75

DIVISION 3: HAY LOADERS

151	Hay loaders	164

DIVISION 4: STACKERS

152	Stationary	100

DIVISION 5: PICK-UP HAY BALERS AND BALE LOADERS

153	Pick-up hay balers—Power take-off (to be allotted).	

GROUP 8: MACHINES FOR PREPARING CROPS FOR MARKET OR USE

DIVISION 1: STATIONARY THRESHERS—GRAIN, RICE AND ALFALFA

158	Threshers, width of cylinder under 28 ins	40
159	Threshers, width of cylinder 28 ins. and over	40

DIVISION 4: ENSILAGE CUTTERS—SILO FILLERS

162	Ensilage cutters (silo fillers)	89

DIVISION 5: FEED CUTTERS—HAND POWER

163	Feed cutters, hand and power	105

DIVISION 6: CORN SHELLERS

164	Corn shellers (hand)	40
165	Spring (2, 4, 6, and 8 hole)	40
166	Cylinder (150 bu. and under)	40
167	Cylinder (over 150 bushels)	40

GROUP 8: MACHINES FOR PREPARING CROPS FOR MARKET OR USE—Continued

DIVISION 9: FEED GRINDERS AND CRUSHERS (FARM)

Item		Quota percentages
174	Power, burr type	183
175	Hammer type	77
175a	Roughage mills, combination type with cutter head and Grinders	77
175b	Feed Mixers (not concrete mixers)	126

DIVISION 10: GRAIN CLEANERS AND GRADERS

176	Cleaners and graders—farm type (small grain and seed)	96

DIVISION 11: SORTERS AND GRADERS

177	Potato sorters and graders	86
[1]	Roller or crusher	33
[1]	Pulper	100

GROUP 9: FARM ELEVATORS AND BLOWERS

DIVISION 1: ELEVATORS—PORTABLE

188	Elevators, portable	99

GROUP 10: TRACTORS

DIVISION 1: FARM TRACTORS, WHEEL TYPE, BY RATED BELT H. P.

192	Special purpose, under 30 H. P	75
193	Special purpose, 30 and over	75
194	All purpose under 30 H. P	75
195	All purpose 30 and over	75

DIVISION 2: GARDEN TRACTORS

196	Garden tractors (incl. motor tillers) (to be allotted)	

GROUP 12: FARM WAGONS, GEARS AND TRUCKS (NOT MOTOR)

DIVISION 1: WAGONS AND TRUCKS

205	Wagon gears (less box)	89
206	Truck gears (less box)	97

DIVISION 2: WAGON BODIES

207	Wagon & truck boxes, farm	141

GROUP 13: DOMESTIC WATER SYSTEMS (FARM TYPE)

DIVISION 1: DEEP AND SHALLOW WELL SYSTEMS

213	Deep well, reciprocal	128
214	Deep or shallow well, jet type	128
215	Shallow well, 250–499 gals. per hour	128
216	Shallow well, 500 gals. per hour and over	128

DIVISION 2: POWER PUMPS

217	Horizontal type, up to and incl. 75 gal. p. m. 100. lbs pressure	129

GROUP 14: FARM PUMPS AND WINDMILLS

DIVISION 1: PUMPS, WATER

220	Pitcher pumps	87
221	Hand and windmill pumps	162

DIVISION 2: WINDMILLS

222	Windmill heads	92
223	Windmill towers	47

DIVISION 3S PUMP JACKS

224	Pump jacks	158

GROUP 16: DAIRY FARM MACHINES AND EQUIPMENT

DIVISION 1: MILKING MACHINES

237	Milking machines (complete outfits)	185

GROUP 16: DAIRY FARM MACHINES AND EQUIPMENT—Continued

DIVISION 2: FARM CREAM SEPARATORS

Item		Quota percentages
239	Capacity 251 lbs. to 800 lbs. per hour	186
240	Capacity 801 lbs. to 1500 lbs. per hour	185

DIVISION 4: FARM BUTTER MAKING EQUIPMENT

243	Butter churns	80

GROUP 17: BARN AND BARNYARD EQUIPMENT

DIVISION 3: OTHER BARN & BARNYARD EQUIPMENT

254	Hay carriers	103
255	Track for hay carriers	103
256	Hay forks, harpoon, and grapple	103

DIVISION 4: LIVESTOCK DRINKING CUPS AND WATERING BOWLS

261	Livestock drinking cups	131

DIVISION 5: BARNYARD STOCK TANKS

264	Hog troughs (iron and steel)	75

DIVISION 6: OTHER BARN & BARNYARD EQUIPMENT

270	Hog waterers	75
271	Hog rings(to be allotted).	
272[1]	Bull rings (to be allotted).	
[1]	Pulleys & fittings for hay forks (to be allotted).	
[1]	Calf weaners (to be allotted).	

GROUP 18: FARM POULTRY EQUIPMENT

DIVISION 1: INCUBATORS

274	Incubators, 1,000-egg capacity & smaller	105
275	Incubators, over 1,000-egg capacity, but not exceeding 33,000-egg capacity	105

DIVISION 2: FLOOR BROODERS

277	Coal (over 100 chick capacity)	159
278	Gas (over 100 chick capacity)	159
279	Wood (over 100 chick capacity)	159
280	Electric (over 100 chick capacity)	159

NOTE: Producers may use one-half their production of oil brooders (over 100 chick capacity), as well as one-half their production of coal, gas, wood and electric types, during 1940 and 1941, in figuring their total brooder quota; but they can produce for shipment to Canada only the coal, gas, wood, and electric types listed above.

DIVISION 3: BATTERY BROODERS (HEATED)

282	Four deck (heated)	100

DIVISION 8: OTHER FARM POULTRY EQUIPMENT

[1]	Egg cleaners & brushes, hand use only (to be allotted).	

GROUP 19: MISCELLANEOUS FARM EQUIPMENT

DIVISION 4: HARNESS HARDWARE

298	Harness hardware (to be allotted).	

DIVISION 6: ELECTRIC FENCE CONTROLLERS

300	Electric fence controllers	225
301	Electric fence accessories	200

DIVISION 8: FARM WOOD-SAWING MACHINES

309	Farm wood-sawing machines incl. self-powered cross-cut and drag 5 H. P. and less (to be allotted).	

DIVISION 10: FARM ELECTRIC PLANTS (WIND-DRIVEN)

311	Farm electric plants (wind-driven electric generating plants only; does not include batteries or towers)	25

[1] No applicable item number on Schedule B of Order L-257.

ATTACHMENTS AND REPAIR PARTS

Item		Quota percentages
[1]	Repair parts: no quota limitation. However, it is necessary to comply with paragraph (e) of Order L-257-a with respect to production schedules.	
[1]	Attachments: Quota percentage for each attachment item is the same as that listed above for the machine or item with which the attachment is used, except that the base is net shipping weight instead of units. If a producer chooses to lump all attachments as explained in paragraph (d) (3) of Order L-257-a, he may use the quota "100%" for purposes of this Schedule X-18 instead of the "75%" specified in that paragraph.

PART 3133—PRINTING AND PUBLISHING

[Conservation Order M-339, as Amended July 10, 1944]

COPPER AND ZINC FOR PRINTING PLATES

Section 3133.30 *Conservation Order M-339* is amended to read as follows:

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of copper, zinc and paper for the production of printed matter for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3133.30 *Conservation Order M-339*—(a) *Definitions.* Meaning of terms used in this order:

(1) A person "uses" copper, copper base alloy, copper scrap, copper base alloy scrap or zinc when he first changes its form or shape in the production of printing plates by putting it into an electrolytic bath or etching or engraving it, or re-using it in any way. However, in the case of an offset plate, zinc is "used" when the first prints are made from the plate. Re-use of a zinc offset plate after re-graining shall not be considered "use".

(2) The term "copper" includes copper, copper base alloy, copper scrap and copper base alloy scrap.

(3) The term "printing industry scrap copper" means old copper printing plates or other copper scrap derived from plate-making operations.

(4) The term "printing plate" means any kind or shape of printing or marking plate containing copper or zinc except plates made in plants or offices whose sole processing of plates is for use in connection with office machinery as listed in General Limitation Order L-54-c as amended from time to time.

(b) *Limitation on the use of zinc.* (1) In any calendar quarter beginning with the third quarter of 1944, no person shall use more zinc in the production of printing plates than 100%, by weight, of the zinc which he used in the production of such plates during the same quarter of 1941.

(2) If a plate-maker used less than 250 pounds of zinc in any calendar quarter of 1941, he may use up to 250 pounds of zinc in any calendar quarter beginning with the third quarter of 1944. Moreover, any person who used no zinc whatever in the production of printing plates in any calendar quarter of 1941 may use a total of 250 pounds in any calendar quarter beginning with the third quarter of 1944.

(3) A person may add an extra 15% to his permitted usage during one calendar quarter if he subtracts that amount from his permitted usage for the next quarter. Also, if he uses less than this order allows for one quarter, he may increase his use in the next quarter by that amount.

(4) No person shall deliver zinc to any plate-maker and no plate-maker shall accept zinc, except to fill an order carrying an authorized preference rating of AA-5 or higher.

(c) *General limitations on the use of copper.* In any calendar quarter after the second quarter of 1943, no person shall use more copper in the production of printing plates than 60%, by weight, of the copper which he used in the production of such plates during the same quarter of 1940. However, a person may use an additional 15% during one calendar quarter if he uses that much less during the next quarter. Also, if he uses less than this order allows for one quarter, he may increase his use in the next quarter by that amount.

(d) *Further provisions regarding the use of copper in certain processes*—(1) *Photoengraving.* In order to liquidate inventories of 16-gauge photoengravers sheet copper which are now in the possession of photoengravers and suppliers,

25 percent of the weight of any copper finished as 16-gauge photoengravers' sheet before July 1, 1943 which a photoengraver uses after that date, shall not be counted in computing his allowed usage under paragraph (c) of this order. For example, a photoengraver may use four pounds of such 16-gauge copper but he need charge only three pounds of the four against his allowable usage. Photoengravers' sheet copper thicker than 16-gauge is not exempted under this provision.

(2) *Electrotyping and gravure platemaking.* (i) For the third calendar quarter of 1944 and for each calendar quarter after that, one pound or more out of every two pounds of copper used for electrotyping and gravure platemaking must be in the form of printing industry scrap copper, recast anodes of such scrap, or new cast anodes received by the plate-maker in return for an equal amount of printing industry scrap copper.

(ii) If, in any calendar quarter, 95% or more of the copper which a person used for electrotyping and gravure platemaking is in the form of printing industry scrap copper, recast anodes of such scrap or new cast anodes received by him in return for an equal amount of printing industry scrap copper, he will be allowed a "bonus" equal to 10% of the copper which he used in that quarter for electrotyping and gravure platemaking. This "bonus" must be used in the form of printing industry scrap copper, recast anodes of such scrap, or new cast anodes received by him in return for an equal amount of printing industry scrap copper.

(iii) The delivery to and acceptance by an electrotyper or gravure platemaker of printing industry scrap copper, recast anodes of such scrap, or new cast anodes is subject to approval under Order M-9, as amended from time to time. Application for such authority shall be made on Form WPB-2959 as required by Order M-9.

(3) *Copperplate engraving.* (i) A person's entire allowable usage of copper for copperplate engravings must be composed of sheets which were in his possession or in the possession of his supplier on December 31, 1942 or old engraved plates, or a combination of the two.

(ii) Each copperplate engraver must deliver to a scrap dealer, or other person authorized by the War Production Board to accept the scrap, at least one pound of old copperplate engravings for each pound of copper sheet or old engraved plates used by him in making new copperplate engravings. Such delivery must be made not later than fifteen days after the end of the calendar quarter in which the copper was used for this purpose. This paragraph exempts copperplate engravers from the provisions of Order M-9, relating to the acceptance and delivery of old copperplate engravings in the production of new engraved plates.

(e) *Exceptions.* (1) When plates containing copper are ordered by any department or agency of the United States Government or when such plates are made exclusively for printed matter which is ordered directly from the producer of such printed matter by any department or agency of the United States Government, the copper used in such plates need not be counted in calculating the plate-maker's allowable usage under paragraph (c) of this order if the purchase order is endorsed as provided in the following paragraph. The exemption contained in this paragraph shall not apply in the case of subcontracted printing, that is, when the order for printed matter is placed by any person other than a department or agency of the United States Government even when the printed matter is delivered to such department or agency in the fulfillment of a government contract.

(2) Each person who orders plates containing copper for the purposes described in the first sentence of paragraph (e) (1) shall endorse on the purchase order for such plates a statement in substantially the following form signed manually, or as provided in Priorities Regulation No. 7 (§ 944.27), by an official duly authorized for such purpose:

The undersigned hereby certifies that the plates covered by this order are to be used in the production of printed matter as described in the first sentence of paragraph (e) (1) of Order M-339, such plates or printed matter being ordered by a department or agency of the United States Government under Contract No. ------

---
Name of person

Duly authorized official

(3) The gross weight of copper used to fill orders endorsed in the manner set forth in the previous paragraph shall be reported to the Printing and Publishing Division of the War Production Board once every calendar quarter. Persons who apply for copper on form CMP-4B shall make this report in a letter attached to such application. Persons who do not apply on this form shall report by letter not later than fifteen days after the end of each calendar quarter. The report shall state the weight of the metal and whether it is copper or electrotyping metal. In the case of electrotyping metal, the gross weight of the plates, including backing metal, shall be stated. The original records must be kept on file as long as this order remains in force and for two years after that. This reporting provision has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Effect of allocations, preference ratings and inventories.* Notwithstanding any allocation number or symbol or any preference rating which may be extended to any person or which may be granted to any person on specific application or by any blanket symbol or rating procedure, the provisions of this order shall prevail with relation to the amount of copper and zinc which may be used by any person in the production of printing plates. The fact that a person has an inventory of copper or zinc, or an allocation or rating for copper or zinc, in excess of his allowable usage, or that he has received permission under Order M-9 to accept printing industry scrap copper, recast anodes of such scrap or new cast anodes does not justify his use of such copper or zinc in excess of his allowable usage as prescribed by this order.

(g) *Inventory limitation.* No person shall accept delivery of copper or zinc if his combined new metal inventory of all gages and sizes of that metal for a given type of plate-making process prior to such acceptance exceeds a 60 days' supply at his current allowable rate of consumption.

(h) *Applicability of regulations.* This order and all transactions affected by it are subject to the regulations of the War Production Board, as amended from time to time.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(j) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C. Ref.: M-339.

(k) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 10th day of July 1944.

PART 3268—UREA AND MELAMINE ALDEHYDE RESIN AND MOLDING COMPOUND

[Allocation Order M-331, Revocation]

Section 3268.1 *Allocation Order M-331* is hereby revoked. This revocation does not affect any liabilities incurred under the order.

Urea and melamine aldehyde molding compounds are subject to allocation under General Allocation Order M-300 as Appendix A materials, subject to Schedule 35, issued simultaneously with this revocation.

Urea and melamine aldehyde resins are subject to allocation under General Allocation Order M-300 as Appendix B materials, subject to Schedule 34, issued simultaneously with this revocation.

Use, delivery and acceptance of delivery of these resins and molding compounds prior to August 1, 1944, will be

authorized on the basis of applications filed in the form heretofore prescribed in Order M–331.

Issued this 10th day of July 1944.

PART 3270—CONTAINERS

[Limitation Order L–239–a]

PAPER MILK CONTAINERS

The fulfillment of requirements for the defense of the United States has created shortages in the supply of materials entering into the production of paper milk containers for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.71 *Limitation Order L–239–a*—(a) *What this order does.* This order deals only with paper milk containers. It places quota restrictions on their manufacture and inventory restrictions on their use.

(b) *Definitions.* For the purpose of this order:

(1) "Paper milk container" means any waxed paper container, blank or folded carton of the type which is generally used to package fluid milk.

(2) "Blank" means any sheet of paper or paperboard cut to shape, or creased or scored, for the purpose of being used as a paper milk container or part thereof.

(3) "Folded carton" means any blank, scored and folded, to partially form a paper milk container.

(c) *Restriction on tonnage of paper and paperboard to be processed.* No person shall accept more paper and paperboard for the manufacture of paper milk containers in any calendar quarter, commencing with the third quarter of 1944, than the amount determined by the War Production Board to be his quota for that quarter. A person's quota for the third quarter of 1944, and for each succeeding quarter until the War Production Board determines otherwise, is 100% of the amount of paper and paperboard that he used for the manufacture of paper milk containers in the fourth quarter of 1943.

(d) *Inventory restrictions.* No person shall accept, or have set aside, any quantity of paper milk containers which will increase his inventory for such containers to more than his reasonably anticipated requirements for the next thirty days, except that, whenever his inventory is less than thirty days' supply, he may accept the minimum delivery required by his manufacturer under a published price list or sales policy in effect on the date of this order. No person shall order any quantity of paper milk containers for delivery to him or for his account on any date, if receipt thereof on that date would increase his inventory of such containers to more than the amount permitted in the first sentence of this paragraph.

(e) *Reporting requirements.* Any person who used during the first six months of 1944 more than fifteen thousand new paper milk containers for any purpose other than the packaging of fluid milk or other milk products shall report by letter to the War Production Board before July 15, 1944, the following facts: (1) description of the product packed, (2) number and size of paper milk containers used each month, (3) when he started packing the product in paper milk containers, and (4) what other container he could use. The reporting requirements of this paragraph have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Records.* All persons affected by this order shall keep for at least two years records concerning inventory, production, purchases and sales, and shall make reports on same if required.

(g) *Audit and inspection.* All records required to be kept by this order shall upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(h) *Appeals.* Appeals from Order L–239–a shall be filed by addressing a letter to the War Production Board, Containers Division, Washington 25, D. C., Ref: L–239–a.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(i) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable War Production Board regulations, as amended from time to time.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(k) *Communications to War Production Board.* All communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref: L–239–a.

Issued this 10th day of July 1944.

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[General Preference Order E–5–a, as Amended July 10, 1944]

GAGES AND PRECISION MEASURING HAND TOOLS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of gages and precision measuring hand tools, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3274.41 *General Preference Order E–5–a*—(a) *Definitions.* For the purpose of this order:

(1) "Gages and precision measuring hand tools" means those types of tools which are listed on Exhibit A attached hereto, excluding tools made of wood or plastics.

(2) "Producer" means any person who is engaged in the manufacture of gages or precision measuring hand tools.

(3) "Stock order" means any purchase order for gages or precision measuring hand tools now or hereafter placed with a producer by any person acquiring such tools pursuant to a rating assigned on Form WPB–547 (formerly PD–1X), Form WPB–646 (formerly PD–300), or Canadian Form PB–1010.

(4) "Other order" means any purchase order for gages or precision measuring hand tools except stock orders.

(5) "Total monthly production" means either, (i) The total dollar value of each of the types of gages and precision measuring hand tools listed on Exhibit A scheduled to be produced in any given month by a producer or, (ii) The total number of units of each of the types of gages and precision measuring hand tools listed on Exhibit A scheduled to be produced in any given month by a producer. Each producer may choose between computing his total monthly production on a dollar or a unit basis.

(b) *Necessity for preference ratings.* On and after June 6, 1944, no producer shall sell or deliver any gages or precision measuring hand tools except to fill purchase orders bearing a preference rating of AA–5 or higher.

(c) *Allocation of production between stock orders and other orders.* Beginning with the month of July 1944, and in each month thereafter, each producer shall schedule his monthly production and delivery of gages and precision measuring hand tools as follows:

(1) To the extent that he has stock orders on hand he shall schedule between 20 and 25 percent of his total monthly production of each type of gages and precision measuring hand tools listed on Exhibit A for delivery against stock orders requiring delivery in such month. No producer shall schedule any purchase order pursuant to this paragraph (c) (1) unless it clearly appears from such order that the rating was assigned on Form WPB–547 (PD–1X), Form WPB–646 (PD–300) or Canadian Form PB–1010.

The sequence of deliveries of stock orders within the percentage limitations which may be delivered in any given month shall be scheduled according to § 944.7 of Priorities Regulation No. 1 and other applicable War Production Board regulations.

(2) To the extent that he has other orders on hand he shall schedule between 75 and 80 percent of his total monthly production of each type of gages and precision measuring hand tools listed on Exhibit A for delivery against other orders requiring delivery in such month.

The sequence of deliveries of other orders within the percentage limitations which may be delivered in any given month shall be scheduled according to § 944.7 of Priorities Regulation No. 1 and other applicable War Production Board regulations.

(3) Any portion of the percentage allocated to stock orders which has not been taken up by such orders on or before the 15th day of the month preceding the month being scheduled shall be scheduled for delivery against other orders and vice versa.

(d) *Repair parts.* Nothing in this order shall be deemed to prevent the sale and delivery of any part manufactured for use in the repair or maintenance of gages and precision measuring hand tools. Purchase and delivery of such repair parts shall be in accordance with applicable regulations and orders of the War Production Board.

(e) *Intra-company deliveries.* Notwithstanding the provisions of § 944.12 of Priorities Regulation No. 1, the provisions of this order shall not apply to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(f) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(g) *Reports.* All persons affected by this order shall execute and file with the War Production Board such reports and questionnaires as said Board shall, from time to time request, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

(h) *Appeals.* Any appeal from the provisions of this order shall be made on Form WPB–1477 (formerly PD–500) or by letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal. All appeals should be filed with the field office of the War Production Board for the district in which is located the plant to which the appeal relates.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Tools Division, Washington 25, D. C., Ref: E–5–a.

Issued this 10th day of July 1944.

EXHIBIT A

Bevels, all types, excluding carpenter's.
Buttons, tool makers'.
Calipers, all types, including attachments, but excluding dial equipped calipers.
Center testers and wigglers.
Clamps, key seat, parallel, rule and tool makers'.
Dividers, all types, including attachments, but excluding draftsmen's and carpenters' dividers.
Drill or V-Blocks and clamps for same—Hardened and/or ground only, with capacity of 3" round and under.
Gages, the following types only:
- Angle, excluding universal.
- Ball or radius.
- Button.
- Center, including attachments.
- Circumference.
- Cutter clearance.
- Cylinder.
- Depth, all types.
- Drill, drill point.
- Fillet or radius.
- Height, all types.
- Hole, excluding dial equipped.
- Planer and shaper.
- Screw pitch.
- Screw and wire.
- Surface.
- Taper, all types.
- Telescope.
- Thread, used for grinding and setting tools for thread cutting.
- Thickness or feeler, including stock and holders.
- Wire or rolling mill, and attachments.

Hold downs, tool makers'.
Indicators, dial, excluding AGD dials specified in commercial standard CS 8–41, U. S. Bureau of Standards.
Indicators, test, excluding those having AGD dials specified in commercial standard CS 8–41, U. S. Bureau of Standards, and/or test indicators which have base dimensions greater than 3" or have a magnetic base.
Levels, machinist and precision.
Micrometers, external and internal, including attachments and standards for same.
Micrometer heads.
Parallels, under 6" in length.
Protractors, all types, excluding draftsmen's.
Sets, combination.
Squares, calibrated 1/32" and finer, all types, including attachments, but excluding draftsmen's squares.
Squares, hardened steel.
Steel rules, calibrated 1/32" and finer, excluding draftsmen's rules and steel tape rules.
Straight edges, excluding cast iron or cast steel, and draftsmen's and carpenters'.
Trammels, all types, including attachments, but excluding draftsmen's trammels.
Vernier tools, all types.

HARDWARE SIMPLIFICATION

§ 3284.81[1] *Limitation Order L–236*—(a) *Issuance of schedules of simplification of lines.* The War Production Board may, from time to time, issue schedules establishing simplified practices with respect to types, sizes, forms, specifications or other qualifications for any hardware. From and after the effective date of any such schedule, no such products shall be produced or fabricated, except as specifically permitted by such schedule.

(b) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter, in triplicate, referring to the particular provision appealed from and stating the grounds of the appeal. Appeals shall be filed with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(c) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(d) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Building Materials Division, Washington 25, D. C., Ref.: L–236.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3284—BUILDING MATERIALS

[Limitation Order L–236, Schedule II, as Amended July 10, 1944]

MARINE JOINER HARDWARE

§ 3284.83[2] *Schedule II to Limitation Order L–236*—(a) *Definitions.* For the purpose of this schedule:

(1) "Producer" means any person who manufactures, fabricates, assembles, melts, casts, extrudes, rolls, turns, spins, finishes, or otherwise processes Marine Joiner Hardware.

[1] Formerly Part 3154, § 3154.1.
[2] Formerly Part 3154, § 3154.3.

(2) "Marine joiner hardware" means locks; latches; door and cabinet trim including escutcheons, bolts, hooks, knobs, levers, tee handles, roses and turn pieces; butts and hinges; spring and floor hinges; door bumpers, closers and holders; dutch door sets; and miscellaneous hardware; as listed in Tables I through V of this Schedule, designed and constructed for marine use.

(3) "Marine use" means use on any commercial tugboat, cargo, combat, commercial fishing, passenger, transport ship or vessel.

(4) "Magnetic circle" means an area having the ship's compass as its center, and within which the presence of marine joiner hardware containing ferrous metal might influence the operation of the compass.

(5) "Secondary brass" means a copper base alloy in the composition of which the percentage of copper does not exceed 74 per cent and the percentage of tin does not exceed 2 per cent of the total weight of the alloy.

(b) *Simplified practices.* Pursuant to Limitation Order L–236, after July 10, 1944, no producer shall produce marine joiner hardware listed in this schedule which fails to conform with the permitted materials, finishes, sizes, types, grades and provisions set forth in Tables I through V and elsewhere in this schedule.

(c) *Restrictions affecting pleasure boats.* No producer shall produce any marine joiner hardware designed for use on pleasure boats.

(d) *Exceptions.* The provisions of this schedule do not apply to:

(1) Parts produced for the purpose of repair of marine joiner hardware.

(2) Marine joiner hardware produced from material or parts in the possession of the producer on or before the 28th day of August, 1943.

(3) Marine joiner hardware produced to fill a contract of the Army, Navy, Maritime Commission or War Shipping Administration, when such contract for marine joiner hardware has been executed prior to August 28, 1943.

(4) Mortise locks and butts produced for installation as a replacement of locks and butts produced prior to August 28, 1943, when the sizes and types permitted by this schedule will not fit the original mortise.

(e) *Exceptions from limitations of Table I of this schedule.* Notwithstanding the restrictions established in Table I of this schedule, marine joiner hardware may be furnished in non-ferrous metal:

(1) Where its installation is within the magnetic circle; or

(2) For application on exterior parts of a ship or vessel; or

(3) Where the use of non-sparking metal is necessary to prevent a hazard in the use or storage of explosive or inflammable materials.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

NOTE: Tables I–V amended July 10, 1944

TABLE I—MATERIALS AND FINISHES PERMITTED

(Subject to permissible exceptions in (e) of this schedule)

The following items of marine joiner hardware shall be made only from the materials specified opposite each of them.

Butts and hinges—Steel with brass pin.
Cabinet locks—Brass.
Cupboard turns and catches—Brass.
Cylinder keys—Brass or zinc.
Door closers—Cast iron or die cast zinc base alloy body, malleable iron or steel arms.
Door bumpers—Ferrous metal with felt, cork or scrap rubber tips. (When equipped with anti-rattle or swivel hook, the hook and eye may be secondary brass.)
Key tags—Fibre, plastics, zinc, brass or aluminum.
Lock cylinders—Brass.
Lock springs—Phosphor bronze.
Name plates—Cast iron, plastics, zinc, aluminum or porcelain enamel on steel.
Padlocks—Brass or zinc base alloy.
Spindles—Steel (when spindle is cast as integral part of a knob or ring handle it may be of the same material as the knob or ring).
Wardrobe and stateroom hooks—Ferrous metal or plastics.

Items of marine joiner hardware not listed above shall be made of ferrous metal, secondary brass, zinc base alloy, zinc, plastics or aluminum.

Items made of brass or secondary brass shall not be polished finer than with #120 wheel and shall not be buffed.

Items made of ferrous metal may be furnished galvanized or zinc coated.

Items made of aluminum shall be manufactured for use only as permitted under the terms of Order M–1–I; and shall be wherever practicable of low grade aluminum.

TABLE II—LOCKS AND LATCHES

Each manufacturer shall be limited in production to the number of types and sizes indicated for each lock or latch described functionally in this table, except locks required for metal doors which may be made in sizes according to templates established prior to August 28, 1943.

Locks and latches keyed alike shall be furnished with not more than one key per lock or latch. Other locks and latches shall be furnished with not more than two keys per lock or latch. Only six master keys may be furnished with each group of locks or latches when required to be master keyed.

Cylindrical locks and latches with comparable functions may be substituted for mortise locks and latches described hereinafter.

Locks and latches may be equipped with either swing or slide latch bolts.

Handles may be substituted for knobs when necessary on locks and latches.

1. Mortise cylinder lock: (1 type, 2 sizes).
Operation—Latch bolt by knob from either side, dead bolt by key from outside and by turn piece from inside.

1A. Same as No. 1 with two cylinders.
Operation—Dead bolt by key only from either side.

2. Mortise cylinder lock, panic proof: (1 type, 2 sizes).
Construction—Latch bolt only.
Operation—Latch bolt by key from outside and by knob at all times from inside. Inside turn piece dead locks latch bolt but it is automatically released when inside knob is operated. Outside knob always rigid.

3. Mortise cylinder lock, panic proof: (1 type, 2 sizes).
Construction—Latch bolt and dead bolt.
Operation—Latch bolt and dead bolt by key from outside and by knob at all times from inside. Inside turn piece throws dead bolt but latch bolt and dead bolt are automatically released when inside knob is operated. Outside knob always rigid.

4. Mortise cylinder lock: (1 type, 2 sizes).
Latch—Swing or anti-friction.
Auxiliary latch—Swing or slide.
Operation—Latch bolt by knobs from either side except when outside knob is made rigid by stops in face then by key from outside. Inside knob always operative. Auxiliary latch dead locks latch bolt.

4A. Same as No. 4 with ¾" throw of latch bolt (for fire doors).

5. Mortise cylinder lock: (1 type, 1 size).
Latch bolt—¾" throw (for fire doors).
Operation—Latch bolt by knob from either side. Dead bolt by key from outside. Inside turn piece throws dead bolt but latch bolt and dead bolt are automatically released when inside knob is operated.

6. Mortise cylinder dead lock: (1 type, 1 size).
Operation—By key only from outside and by turn piece from inside.

6A. Same as No. 6 with two cylinders.
Operation—By key only from either side.

7. Rim cylinder lock: (1 type, 1 size).
Operation—Latch bolt by knob from either side at all times. Dead bolt by key from outside and by turn piece from inside.

8. Bit key mortise lock: (1 type, 3 sizes).
Operation—Latch bolt by knob from either side. Dead bolt by key from either side.

9. Bit key rim lock: (1 type, 2 sizes).
Operation—Latch bolt by knob from either side. Dead bolt by key from either side.

10. Rim cylinder lock for metal or wood doors: (1 type, 2 sizes).
Operation—Latch bolt by knob from either side. Dead bolt by key from outside and by turn piece from inside.

11. Bit key rim lock for metal or wood doors: (1 type, 2 sizes).
Operation—Latch bolt by knob from either side. Dead bolt by key from outside and by turn piece or key from inside.

12. Mortise communicating door lock: (1 type, 1 size).
Operation—Latch bolt by knob from either side. Split dead bolt by turn piece from either side.

13. Mortise bathroom lock: (1 type, 1 size).
Operation—Latch bolt by knob from either side. Dead bolt by turn piece from inside and emergency key from outside.

14. Rim bathroom lock: (1 type, 1 size).
Operation—Latch bolt by knob from either side. Dead bolt by turn piece from inside and emergency key from outside.

15. Mortise bathroom latch, panic proof: (1 type, 1 size).
Operation—Latch bolt by knob from either side except when outside knob is dead locked by inside turn piece. When turn piece has been thrown operation of inside knob automatically releases latch bolt. Access by emergency key from outside.

16. Bit key narrow rim lock: (1 type, 1 size).
Size of case—approximately 4¼" by 2".
Operation—Latch bolt by knob from either side. Dead bolt by key from either side.

17. Mortise knob latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side.

18. Rim knob latch for metal or wood doors: (2 types, 1 size each).
Operation—Latch bolt by knob from either side.

19. Mortise screen door latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side.

20. Rim screen door latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side.

21. Rim screen door latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side. Auxiliary slide stop on inside.

22. Rim closet latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side or by knob outside and turn piece inside. Latch bolt can be set by outside key.

23. Rim wardrobe latch: (1 type, 1 size).
Operation—Latch bolt by knob from outside only.

24. Half-mortise cupboard latch: (1 type, 1 size).
Operation—Latch bolt by knob from outside only.

25. Rim toilet door latch: (1 type, 1 size).
Operation—Latch bolt by knob from either side. Latch bolt can be dead locked by thumb piece on inside.

26. Mortise cylinder night latch: (1 type, 1 size).
Operation—By key from outside and by knob from inside. Latch bolt can be held retracted by stop in face.

27. Rim cylinder night latch: (1 type, 1 size).
Operation—By key from outside and by turn knob from inside. Stop can be set to hold latch retracted.

28. Rim cylinder dead lock: (1 type, 1 size).
Operation—By key from outside and by turn knob from inside. Stop can be set to hold bolt retracted.

29. Mortise cylinder sliding door lock: (1 type, 1 size).
Operation—Latch bolt by knobs or by vertical lever handles except when locked by key from either side.

29A. Same as No. 29 except locked with a bit key.

30. Mortise sliding door latch: (1 type, 1 size).
Operation—Latch bolt by knobs or by vertical lever handles at all times.

TABLE III—DOOR, CABINET AND LOCK TRIM

1. Key plates, escutcheons and roses:
Key plates, approximate size 1¾" x 1¼".
Lock escutcheons, approximate size 8" x 2¼".
Screen door escutcheons, approximate size 4" x 1⅜".
Knob roses, approximate size 2" diameter.
(Knob roses for cylindrical locks may be approximately 2½" diameter).

2. Knobs:
Door knobs shall be ellipsoid or round types. Ellipsoid type shall be approximately 2½" x 1¾". Round type shall be approximately 2¼" diameter.
Knobs and levers for screen door sets.
Knobs shall be approximately 1¾".
Levers shall be approximately 2".
Knobs and closet spindles for wardrobe sets. Knobs may be ellipsoid or round with closet spindle to suit thickness of door.

3. Tee and lever handles.
Each manufacturer limited to two sizes of each.

4. Turn pieces.
Shall have oval plates approximately 1¾" x 1¼" with crescent or ellipsoid turns.

5. Vertical lever handles and quadrants.
(For sliding door locks.)
Lever handles shall be approximately 5¼" x 2¼".

6. Cabin door hooks—Navy Specification 42–H–5c, limited to sizes 2½", 3½", 4", 5", 6" and 8".

7. Ajar hooks—Same as No. 6, furnished with two eyes.

8. Square bolts—4", 6".
Square neck bolts—3" 4".
Barrel bolts—Federal type E–1019—2", 2½", 3", 4" and 5".

9. Lavatory throw bolts.
Approximate size 2⅛" x ¾"—Bar 3⅞".

10. Lavatory door pivots.
Similar to Russwin-Newton type.

11. Dutch door sets.
Set to consist of not more than two stay arms approximately 11" long, one pair 2" x 2" tight pin butts and two only friction catches approximately ¾" x ⅜".

12. Door closers and brackets.
Door closers shall be surface type—Federal E–3004 or E–3005.
Brackets shall be corner or soffit types.

13. Door pulls.
Federal type E–1274.

14. Cupboard turns.
Federal type 1082.

15. Grab rail brackets.
Similar to #93 and #94 as shown in Sargent & Company's Catalog #43.

TABLE IV—BUTTS, HINGES, HASPS AND SPRING HINGES

Butts shall be limited to the types and sizes permitted in Table I of Schedule I of L–236 and to the types and sizes listed in Navy specification 42H34e, with the addition of the following sizes: 3 x 2¾, 4 x 3, 5 x 4, 5 x 5 and 5½ x 4½.

Strap hinges, T. hinges, cabinet hinges, and hasps shall be limited to the types and sizes permitted in Tables I, III and VII of Schedule I of L–236.

Floor hinges shall be limited to the types and sizes permitted in Table II of Schedule I of L–236.

Spring hinges shall be limited to the types and sizes permitted in Tables VII and IX of Schedule I of L–236, with the addition of the following:

3 x 2 half surface cabinet spring hinge.
4" half surface spring hinge (similar to Bommer Springe Hinge Co.'s #10001).

TABLE V—MISCELLANEOUS

1. Name plates—Limited to one design for each manufacturer. Approximate width 1", length as required by lettering.

2. Sash anti-rattlers—Limited to one size and type for each manufacturer.

3. Side sash fasteners—Limited to one size and type for each manufacturer. May be furnished with single or continuous strikes.

4. Key tags, rings and links—Key tags may be oval (approximately ¾" x 2¼"), or round (approximately 1⅜" dia.).

5. Wardrobe and stateroom hooks—Two or three prong type, base approximately 1¾" x 1¾", projection not over 3½".

6. Cabinet locks—Types and sizes limited to those permitted in Table XIII of Schedule I of L–236 and to those listed in Navy specifications 42L13 (INT), 42L14 (INT) and 42L4 (INT). Cabinet locks keyed alike shall be furnished with not more than one key for each lock.

7. Padlocks—Types and sizes limited to those permitted in Table XIV of Schedule I of L–236. Padlocks keyed alike shall be furnished with not more than one key for each lock.

8. Door bumpers (Floor type)—Each manufacturer limited to one style and size with anti-rattle hook and one style and size without anti-rattle hook.

9. Door bumpers (Wall type)—Each manufacturer limited to one style with anti-rattle hook and one style without anti-rattle hook. Projection not to exceed 5".

PART 3288—PLUMBING AND HEATING EQUIPMENT

[Limitation Order L–23–c, Interpretation 2]

The following interpretation is issued with respect to Limitation Order L–23–c:

CHANGES IN STOVE MODELS

The restrictions contained in paragraph (c) (4) of Limitation Order L–23–c limiting the manufacture of stoves to the numbers of models, sizes, and other specifications contained on List B apply to all stoves produced by the manufacturer, and not merely to those produced at any one time. No person who has already produced the number of models and sizes allowed may change any size or model to a different size or model or different specifications without first obtaining specific authorization from the War Production Board to make such a change.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M–379]

WORK CLOTHING PRODUCTION ORDER

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of work clothing and of materials and facilities used in the production of work clothing for defense, for private account, and for export. It is decmed necessary and appropriate in the public interest and to promote the national defense to assign priority to orders for work clothing and to allocate materials and facilities available for civilian work clothing production on the conditions and in the manner and to the extent set forth in the following order:

§ 3290.341 Conservation Order M–379 (a) *Definitions.* For the purpose of this order:

(1) "Civilian work clothing" means the following items:

Civilian work clothing:
(1) Men's bib overalls.
(2) Boys' bib overalls.
(3) Men's dungarees.

[1] Formerly Part 3154.

(4) Boys' dungarees.
(5) Men's work shirts.
(6) Boys' work shirts.
(7) Men's one piece work suits.
(8) Men's work pants.
(9) Boys' work pants.
(10) Men's overall jackets (jumpers).
(11) Men's blanket-lined coats.

(2) "Garments" means civilian work clothing and any similar garments (such as shirts, dungarees, battle dress, fatigues, etc.) made for delivery to United States Army or Navy. It does not include headwear, leggings, hosiery and gloves.

(3) "Unit" means a dozen of garments, whether civilian work clothing or garments for delivery to the United States Army or Navy.

(4) "Base period" means the third calendar quarter of the year 1942.

(5) "Military unit" means a dozen of garments delivered by the producer to fill contracts of the United States Army or Navy.

(6) "Manufacturer" means a person in the business of producing any item of civilian work clothing and includes any person who causes civilian work clothing to be manufactured commercially for his account. It also includes a person who manufactures similar garments (such as dungarees, battle dress, fatigues, etc.) for the United States Army and Navy.

(b) *Production quotas.* (1) Each manufacturer shall in the calendar quarter beginning July 1, 1944, and in each calendar quarter thereafter, produce at least 90% of the number of units he produced in the base period. Thus, if the manufacturer's production in the base period totaled 100,000 dozen, he is required to produce quarterly at least 90,000 dozen garments, civilian and military. If in the particular quarter his production of military garments is 50,000 dozen, this amount may be subtracted from his total production quota (that is, 90% of his units of production in the base period), and his civilian work clothing quota in that quarter would be 40,000 dozen. The War Production Board may from time to time order increased production by the entire industry or by individual manufacturers. Unless his inventory of any finished item of civilian work clothing is less than 30 days production of the item, each manufacturer shall accept and fill all orders for the item tendered to him at regularly established terms and prices.

(2) *Civilian work clothing production quota by items.* Each manufacturer shall produce the number of units of civilian work clothing required by paragraph (b) (1) in those items of civilian work clothing which he produced in the base period; and the proportion of his production of each item to his total production of civilian work clothing in each calendar quarter shall be the same as the proportion which his production of such item in the base period was to his total civilian work clothing production in the base period. However, to the extent only that his machinery suitable for the manufacture of an item of civilian work clothing is not available because it is being operated in the manufacture of military garments he may shift his quota of that civilian item to other civilian items. (Thus, if in the base period he produced men's bib overalls, boys' bib overalls, boys' work shirts and men's one piece work suits, he must continue to produce the same items; and if in the base period his production of each of these items was 25% of his total civilian production, he must continue to produce each of these items in the same proportion to his total civilian production. If his shirt machinery is taken up by military production, he may shift his quota of boys' work shirts to the other items.)

(c) *Priorities assistance.* The War Production Board may from time to time issue special programs for the production with priorities assistance and for the distribution of specified quantities of specified items of civilian work clothing.

(d) *Miscellaneous provisions.*—(1) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Clothing, Knit Goods and Equipage Division, Washington, 25, D. C. Ref.: M-379.

(4) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and setting forth the grounds of the appeal. An appeal for the suspension of the requirements of paragraph (b) may be made on the ground that compliance therewith will result in production at a loss, *Provided*, That an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the War Production Board appeal. If the War Production Board appeal is granted, requirements for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3293—CHEMICALS

[Allocation Order M-30, as Amended July 10, 1944]

ETHYL ALCOHOL

§ 3293.66 *Allocation Order M-30.*—(a) *Definitions.* (1) "Ethyl alcohol" means the product of that name, from whatever source derived. The term includes mixtures of ethyl alcohol and denaturants, including the product known as "proprietary solvent." The term does not include ethyl alcohol which has been tax paid for beverage purposes.

(2) "Producer" means any person engaged in the production of ethyl alcohol under an industrial alcohol permit issued by the Bureau of Internal Revenue and includes any importer and any person who has ethyl alcohol produced for him pursuant to toll agreement.

(3) "Distributor" means any person who has purchased or purchases ethyl alcohol for purposes of resale.

(4) "Supplier" means a producer or distributor.

(b) *General restrictions on deliveries and use.* (1) No person shall accept delivery of ethyl alcohol from a supplier except in accordance with the procedure established by paragraphs (c) and (d) or except upon specific written authorization of the War Production Board issued on application made pursuant to paragraph (e).

(2) No supplier shall deliver any ethyl alcohol except in accordance with the provisions of paragraph (f) or except upon specific written authorization of the War Production Board, issued on application made by the supplier under paragraph (g).

(3) No supplier shall use any ethyl alcohol except upon specific written authorization of the War Production Board issued on application made by him under paragraph (e).

(c) *Acceptance of certain deliveries of 7900 gallons or less per quarter.* Any person may without specific written authorization of War Production Board accept delivery in any calendar quarter from all sources or not more than 7900 gallons of ethyl alcohol, subject to two conditions. The first condition is that he shall have furnished to each supplier from whom he obtains delivery a certificate substantially in the form set forth in Appendix C. The second condition is that the aggregate amount received (in no case in excess of 7900 gallons) must be within the following additional quantity limitations:

(1) Where the purpose for which delivery is requested is the manufacture of any of the following products, the quantity received in any calendar quarter shall not (without specific written authorization) exceed 100% of the quantity used for the same purpose in the corresponding calendar quarter of the 12-month period ended June 30, 1941:

Adhesives.
Agricultural poisons.
Brake fluids.
Cutting oils.
Drugs and pharmaceuticals (not including rubbing alcohol or products specifically listed in paragraphs (c) (3) or (c) (4)).
Embalming fluids.
Food products (except candy glazes, pectin and vinegar).
Laboratory and experimental.
Photographic materials (including photo engraving).
All other products not classified in paragraphs (c) (2) to (c) (6) inclusive.

(2) Where the purpose is the manufacture of any of the following products, the quantity received in any calendar quarter shall not (without specific written authorization) exceed 50% of the quantity used (meaning used or processed on the premises of the person who is entitled to the quota) for the same purpose in the corresponding calendar quarter of the 12-month period ended June 30, 1941:

Candy glazes.
Cleaning and polishing preparations (including shoe and floor polishes).
Deodorant sprays (non-body).
Natural shellac or shellac substitute.
Tooth cleaning preparations.
Witch hazel.
All toiletries and cosmetics including but not limited to:
Bay rum.
Body deodorants.
Face and hand creams and lotions.
Hair and scalp preparations.
Perfume and perfume materials, tinctures and fixatives.
Shampoos.
Toilet soaps (including shaving cream).
Toilet waters.

However, any person who, during the period from July 1, 1942 to June 30, 1943 inclusive, held a permit issued by the Bureau of Internal Revenue and who purchased ethyl alcohol in quantities averaging not in excess of 162 gallons per calendar quarter during such period and who used such ethyl alcohol for the manufacture of toiletries and cosmetics, may continue to purchase and use not more than 162 gallons of ethyl alcohol per calendar quarter for the manufacture of toiletries and cosmetics.

For the purposes of this paragraph (c) (2) all toiletry and cosmetic uses of ethyl alcohol shall be considered as a whole, and the use during the base period of ethyl alcohol in the manufacture of a particular toiletry or cosmetic product may be used to support the acceptance of delivery for use in the manufacture of a different toiletry or cosmetic product. For example, ethyl alcohol used in the manufacture of toilet waters during the base period would support the receipt of ethyl alcohol for the manufacture of after-shave lotions containing ethyl alcohol.

(3) Where the purpose is the manufacture of one of the following products, the quantity received in any calendar quarter shall not (without specific written authorization) exceed 60% of the quantity used for the same purpose in the corresponding calendar quarter of the 12-month period ended June 30, 1941:

Antiseptics for oral uses (including Antiseptic Solution N. F.).
Mouth washes.

(4) Where the purpose is the manufacture of any of the following products, there shall be no further limitation on the quantity received (beyond the requirement that only 7900 gallons may be accepted in a calendar quarter):

Acetaldehyde.
Acetic acid (except vinegar for food use).
Basic medicinal chemicals not in compounded form.
Biological preparations.
Butadiene.
Diethylamine.
Dyes and intermediates (manufacture of).
Ethers.
Ethyl acetate.
Ethyl chloride.
Other ethyl esters.
Ethylene dibromide.
Ethylene gas.
Ethylene oxide.
Explosives (military and industrial).
Flotation reagents.
Fulminate of mercury.
Glycols.
Hydrosulfites.
Nitrocellulose (dehydration).
Pectin.
Plastics and synthetic resins (manufacture of).
Styrene.
Xanthates.

(5) Where the purpose is the manufacture of one of the following products, the quantity received in any calendar quarter shall not (without specific written authorization) exceed 110% of the quantity used for the same purpose in the corresponding calendar quarter of the 12-month period ended June 30, 1941:

Flavoring extracts.
Vinegar.

(6) Where the purpose is the manufacture of any rubbing alcohol compound or preparation, the quantity received in any calendar quarter shall not (without specific written authorization) exceed 15% of the quantity used for the same purpose in the corresponding calendar quarter of the 12-month period ended June 30, 1941.

(7) Where the purpose is not the manufacture of other products but resale as ethyl alcohol, specific written authorization of War Production Board shall in every case be obtained, whatever the quantity, except as provided in (d) (1).

(d) *Special exemptions.* The following deliveries may be accepted without War Production Board authorization, notwithstanding the provisions of paragraphs (b) and (c) of this order:

(1) *Small deliveries.* Any person, upon giving to each supplier from whom he obtains delivery a certificate substantially in the form set forth in Appendix D, may, without any limitation based on past use, accept small deliveries as specified in this paragraph. The specified maximum quantity of either (but not both) of the following two categories of ethyl alcohol may be accepted from all sources: (i) 972 gallons, which may be comprised of proprietary solvent or completely denatured alcohol, or a portion of each, or, in the alternative (ii) 162 gallons which may be comprised of specially denatured or pure alcohol, or a portion of each. However, in computing the amount which may be so accepted, all other ethyl alcohol delivered or ordered for delivery in the same quarter pursuant to any of the provisions of this order, must be taken into account and only the difference between any amounts so delivered and ordered and either 972 gallons or 162 gallons, as the case may be, may be accepted pursuant to this paragraph. Moreover, specially denatured and pure alcohol may not be accepted under this paragraph for use in the manufacture of rubbing alcohol compound or preparation or for use in the manufacture of toiletries and cosmetics.

Any person entitled under this paragraph to receive a small delivery of ethyl alcohol shall not tell the supplier to deliver it to another person for processing under toll agreement or if the delivery was made directly to the person entitled under this paragraph to receive it, he shall not thereafter deliver the alcohol to another person for processing under toll agreement.

(2) *Hospitals and scientific institutions.* Any hospital or scientific institution holding a permit issued by the Bureau of Internal Revenue permitting it to acquire undenatured alcohol tax free, may, without any limitation based on past use, accept delivery of such quantity of alcohol as it is permitted to acquire tax free by such permit.

(3) *Beverage use.* Any person may accept delivery of ethyl alcohol in bond for the purpose of tax paying the same for beverage purposes if that person is authorized to do so under the rules and regulations of the Bureau of Internal Revenue.

(e) *Acceptance of deliveries (and use by suppliers) upon specific authorization.* Each person seeking specific authorization to accept delivery of ethyl alcohol during any calendar quarter, whether for his own consumption or resale (and each supplier requiring authorization to use ethyl alcohol in any calendar quarter) shall file application therefor on or before the 5th day of the last month of the preceding quarter. The application will be made on Form WPB-2945 (formerly PD-600) in the manner set forth in the general instructions appearing on that form, subject to the special instructions appearing in Appendix A to this order. If there is any inconsistency between the general and special instructions, the special instructions must be followed.

(f) *Special provisions governing deliveries by suppliers.* (1) A supplier may without specific authorization of the War Production Board deliver to any person, who has filed with him the appropriate certificate substantially in the form either as set forth in Appendix C or in Appendix D, the quantity of ethyl

alcohol which such person is entitled to receive under one of the paragraphs (c) (1) to (c) (6), inclusive, or under paragraph (d) (1). A supplier must not deliver ethyl alcohol where he knows or has reason to believe that the certificate is false, but in the absence of such knowledge or reason to believe he may rely upon it.

(2) A supplier may, without such certificate and without specific authorization of the War Production Board, deliver to any hospital or scientific institution which holds a permit issued by the Bureau of Internal Revenue permitting it to acquire undenatured alcohol tax free, such quantity of alcohol as such hospital or scientific institution is permitted to acquire tax free by its permit.

(3) Any person may tax pay for beverage purposes, and any producer may deliver in bond to any person authorized under the rules and regulations of the Bureau of Internal Revenue to receive ethyl alcohol in bond for the purpose of tax paying the same for beverage purposes, such quantity of ethyl alcohol as is authorized by War Production Board pursuant to application of the original producer made by letter addressed to the Chemicals Bureau, War Production Board, Washington 25, D. C.

(4) If War Production Board issues written directions to suppliers reducing the quantities of ethyl alcohol which may be delivered pursuant to paragraph (f) (1), suppliers will rateably reduce all orders for ethyl alcohol from customers wishing it for the same class of use.

(g) *Deliveries by suppliers upon specific authorization.* Each supplier requiring specific authorization to deliver ethyl alcohol during any calendar quarter shall file application on or before the 15th day of the last month of the preceding quarter. The application will be made on Form WPB 2947 (formerly PD–602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions appearing in Appendix B. If there is any inconsistency between the general and special instructions, the special instructions must be followed.

(h) *Special authorizations and directions.* (1) Authorizations and directions with respect to delivery to be made or accepted in each calendar quarter (and with respect to use by suppliers in each calendar quarter) will generally be issued by War Production Board prior to the beginning of such quarter, but War Production Board may at any time in its discretion and notwithstanding any of the provisions of this order issue directions to any person with respect to:

(i) Use, delivery or acceptance of delivery of ethyl alcohol.

(ii) Production of ethyl alcohol, including raw materials which may be used.

(2) War Production Board may issue to suppliers and other persons, other and different instructions with respect to the preparation or filing of Form WPB 2947 (formerly PD–602) and Form WPB 2945 (formerly PD–600).

(i) *Special restrictions; rubbing alcohol, anti-freeze, beverage use.* (1) No person shall deliver ethyl alcohol or any compound or preparation containing ethyl alcohol for use as rubbing alcohol or for the manufacture of any rubbing alcohol compound or preparation: *Provided*, That this restriction shall not prevent deliveries to:

(i) A hospital or scientific institution holding a permit issued by the Bureau of Internal Revenue permitting it to receive undenatured alcohol tax free.

(ii) Licensed physicians, dentists and veterinarians.

(iii) The holders of written prescriptions or orders of licensed physicians, dentists and veterinarians.

(iv) A wholesale or retail druggist, for resale in accordance with this paragraph (i) (1) only.

(v) A manufacturer of any rubbing alcohol compound or preparation or a packager or bottler of any such compound or preparation (in amounts not exceeding the amounts permitted by paragraph (c) (6) hereof), for resale in accordance with this paragraph (i) (1) only.

(2) The restrictions of this order shall govern delivery of ethyl alcohol to and acceptance of delivery of ethyl alcohol by any person for use in the manufacture of anti-freeze preparations, provided that:

(i) Any person may deliver or accept delivery of completed anti-freeze preparations containing ethyl alcohol without specific authorizations under this order; and

(ii) Nothing contained in this order shall be construed to permit the manufacture, delivery or acceptance of delivery of any anti-freeze preparation in violation of § 1100.1, Limitation Order L–51, as from time to time amended.

(3) [Deleted July 10, 1944.]

(j) *Special provisions; inventories, unfilled orders.* (1) Ethyl alcohol allocated for inventory shall not be used except as specifically authorized or directed in writing by War Production Board.

(2) Ethyl alcohol allocated to fill a specified order or class of orders shall, where and to the extent that such order or class of orders is for any reason not filled, revert to inventory as though originally allocated therefor.

(k) *Transactions outside the United States.* This order does not apply to deliveries of ethyl alcohol which are both made and received outside of the forty-eight states and the District of Columbia, or to the use of ethyl alcohol outside such states and District, but the import of ethyl alcohol shall be subject to all the provisions hereof.

(l) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Forms.* Forms WPB 2945 and WPB 2947, provided for in paragraphs (e) and (g) have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(3) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C.; Ref: M–30.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—SPECIAL INSTRUCTIONS FOR CUSTOMER'S FORM WPB 2945 (FORMERLY PD–600)

(1) *Obtaining forms.* Form WPB 2945 (formerly PD–600) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and four copies. File the original and two copies with War Production Board, Chemicals Division, Washington 25, D. C., Ref: M–30, file one copy with each supplier with whom an order is placed, and retain the final copy for your files.

(3) *Information at top of page.* In the heading, under "Name of chemical," specify "Ethyl alcohol"; under "WPB Order No.," specify "M–30"; under "Indicate unit of measure," specify "Wine gallons." In space following heading "Name of supplier with whom this order is placed," state name of usual supplier and also specify his shipping point, if known.

(4) In headings at top of Tables I, III, and IV, substitute "quarter" for "month" and specify particular quarter and year; for example, "third quarter, 1944."

(5) *Proof.* In columns 1, 11 and 19, specify proof, whether pure or denatured, and if denatured, the formula number.

(6) *Primary product.* In column 8, applicant will specify his primary product in terms of the following:

Acetaldehyde.
Acetic acid (except vinegar for food use).
Adhesives.
Agricultural poisons.
Antiseptics for oral uses.
Basic medicinal chemicals not in compounded form.
Biological preparations.
Brake fluids.
Butadiene.
Candy glazes.
Cleaning and polishing preparations (specify).
Cutting oils.
Deodorant sprays (non-body).
Diethylamine.
Drugs and pharmaceuticals (other than rubbing alcohol and other products elsewhere in this paragraph specifically listed).
Dyes and intermediates (manufacture of).
Embalming fluids.
Ethers.
Ethyl acetate.
Ethyl chloride.
Other ethyl esters.
Ethylene dibromide.
Ethylene gas.
Ethylene oxide.
Explosives (specify whether military or industrial).
Flavoring extracts.
Flotation reagents.
Food products (except candy glazes, pectin and vinegar).
Fulminate of mercury.
Glycols.
Hydrosulfites.
Laboratory and experimental.
Mouth washes (other than antiseptics).
Nitrocellulose (dehydration).
Nitrocellulose (dissolving and as a diluent).
Pectin.
Photographic materials (including photo engraving).
Shellac, natural or substitute.
Synthetic plastics and synthetic resins (manufacture of).
Rubbing alcohol compounds.
Styrene.
Toiletries and cosmetics (specify).
Tooth cleaning preparations.
Vinegar.
Witch hazel.
Xanthates.
Other products (specify).
Resale (as ethyl alcohol).
Inventory (as ethyl alcohol).

(7) *Product end use.* In column 4, applicant will specify ultimate use of the product which he manufactures. (Where, for example, applicant's primary product called for in column 3 is "ethylene glycol," the ultimate use of product might be "aircraft coolant.") Applicant must also specify in each case whether his customer is Army, Navy, other government agency, Lend-Lease or commercial customer. Where Form WPB 2945 is application for ethyl alcohol for resale or inventory (in each case as ethyl alcohol), leave column 4 blank. If primary product called for in column 3 is under allocation pursuant to War Production Board order, indicate in column 4 "WPB allocation order number."

(8) In column 10 (Remarks) specify quantity of ethyl alcohol used by you in the manufacture of each primary product shown in column 8 in that calendar quarter of the 12-month period ended June 30, 1941, which corresponds to the quarter for which delivery is requested.

(9) *Tables II, III and IV.* Fill out completely Tables II, III and IV, except that Table IV need not be filled out for primary products under allocation. In Table II, substitute word "quarter" for "month" throughout. In Table III show all suppliers, including the supplier named on the face of the form, with whom orders have been placed, including orders against which deliveries may be made without specific authorization.

APPENDIX B—SPECIAL INSTRUCTIONS FOR SUPPLIER'S FORM WPB 2947 (FORMERLY PD–602)

(1) *Obtaining forms.* Form WPB 2947 (formerly PD–602) may be obtained at local field offices of War Production Board.

(2) *Number of copies.* Prepare an original and three copies, file the original and two copies with War Production Board, Chemicals Division, Washington 25, D. C., Ref: M–30, retaining the third copy for your files.

(3) *Information at top of form.* In heading under "Name of Material," specify "Ethyl alcohol"; leave grade blank; under "WPB Order No.," specify "M–30"; under "Indicate unit of measure," specify "Wine gallons."

(4) In heading "This schedule is for deliveries to be made during the month/quarter ending _____, 194__," strike out word "month" and insert the quarter and year to which the application relates.

(5) *Listing of customers.* In column 1 list the name of each customer from whom you have received a Form WPB 2945 (formerly PD–600) respecting a delivery in the applicable quarter. Do not list names of customers who have not filed with you Form PD–600. If it is necessary to use more than one sheet to list the customers, number each sheet in order and show on the last sheet total orders for customers whose Form WPB 2945 shows that they propose to accept more than 7,900 gallons in the calendar quarter and the total orders from customers whose Form WPB 2945 shows that they propose to receive not more than 7,900 gallons.

(6) *Primary product and end use.* It is not necessary to show primary product or end use with respect to a customer who files Form WPB 2945 (formerly PD–600). Instead, in column 1–a, opposite the name of each such customer, enter "WPB 2945."

(7) *Other orders to be lumped according to use.* In column 1, the supplier need not list names of customers to whom he proposes to make delivery in the applicable quarter, pursuant to paragraph (f) (1) of this order, but will instead show the total quantity of ethyl alcohol for which he has received orders for delivery in such quarter under each of the paragraphs (c) (1), (c) (2), (c) (3), (c) (4), (c) (5), (c) (6) and (d) (1). To do so, he will list in columns 1 and 1–a, for example, "Total quantity ordered for delivery under paragraph (c) (1)," and will list in column 4 the total quantity represented by the orders placed pursuant to such paragraph.

(8) *Proof.* In column 7 (remarks), specify proof, whether pure or denatured, and if denatured, the formula number with respect to all ethyl alcohol for which customer has filed WPB 2945. Do not show this information respecting orders for which WPB 2945 has not been filed and which are lumped under (7) above.

(9) *Use by producers.* Each producer who has filed application on Form WPB 2945 specifying himself as his supplier shall list his own name as customer on Form WPB 2947.

(10) *Table II.* Each producer will report production, deliveries and stocks as required by Table II, columns 9 to 16, inclusive. Distributors will fill out only columns 10, 12 and 13.

APPENDIX C—CUSTOMER'S CERTIFICATE ON CERTAIN DELIVERIES OF 7,900 GALLONS OR LESS (SEE PARAGRAPHS (C) (1) TO (C) (6), INCLUSIVE, AND (F) (1))

The undersigned hereby certifies to the War Production Board and to his supplier:

That the _____ gallons of ethyl alcohol hereby ordered for delivery in the _____ calendar quarter, 194__ [insert "second, 1944;" "third, 1944;" etc.] will be used for a class of use within paragraphs (c) (1), (c) (2), (c) (3), (c) (4), (c) (5), (c) (6) [strike out inapplicable paragraph numbers]; that the quantity used by the undersigned (in such class of use in the corresponding quarter of the 12 month period ended June 30, 1941, was _____ gallons, and that the amount ordered does not, taken together with all other ethyl alcohol delivered or ordered for delivery in such quarter, exceed _____ percent of the quantity used in such class of use in the corresponding quarter) or (in the manufacture of toiletries and cosmetics prior to July 1, 1943, did not exceed 162 gallons per calendar quarter) [strike out inapplicable clause in parentheses]

INSTRUCTIONS FOR CUSTOMER'S CERTIFICATE

(1) Prepare one copy for each supplier with whom an order is placed and one copy for your files. Wherever possible file certificate with supplier not later than the 5th day of the last month of the quarter preceding the quarter in which you wish to receive delivery. The certificate may be endorsed on the purchase order or be a separate paper. Do not file a copy with War Production Board.

(2) The certificate shall be signed by the purchaser, or an authorized official of the purchaser, either manually or as provided in Priorities Regulation No. 7.

APPENDIX D—CUSTOMER'S CERTIFICATES ON CERTAIN SMALL DELIVERIES (SEE PARAGRAPHS (D) (1) AND (F) (1))

The undersigned hereby certifies to the War Production Board and to his supplier: that the ethyl alcohol hereby ordered for delivery in the _____ calendar quarter (insert "second, 1944"; "third, 1944"; etc.) does not, taken together with all other ethyl alcohol of the applicable types delivered or ordered for delivery in such quarter, exceed the amount authorized pursuant to the provisions of paragraph (d) (1) of allocation Order M–30 and, if specially denatured alcohol or pure alcohol, will not be used for the manufacture of rubbing alcohol compound or preparation or for the manufacture of toiletries and cosmetics.

PART 3293—CHEMICALS

[General Preference Order M–69, as Amended July 10, 1944]

DISTILLED SPIRITS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of distilled spirits, as hereinafter defined, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.101[1] *General Preference Order M–69*—(a) *Definitions.* (1) "Distilled spirits" means ethyl alcohol of 190 proof or higher produced from corn or grain.

(2) "High wines" means spirits distilled at less than 190 proof from corn or grain.

(3) "Producer" means any person engaged in the operation of a distillery under a registered distillery permit issued by the Bureau of Internal Revenue.

(4) "Distillery" means any distillery which has equipment and facilities to convert corn or grain into distilled spirits or high wines.

(b) *Restrictions on operations of distilleries.* No producer shall, except as specifically authorized or directed by the War Production Board, operate any part of his distillery except for the production of distilled spirits: *Provided, however*, That the War Production Board, on a proper showing by a producer that the equipment and facilities of his distillery, or of any part of his distillery, cannot be converted or adapted to the production of distilled spirits, may authorize the operation thereof for the production of high wines.

(c) *Restrictions on use.* No producer, except as specifically authorized or directed by the War Production Board shall use, bottle or barrel for beverage purposes or otherwise allocate or appropriate to such purposes any distilled

[1] Formerly Part 1050, § 1050.1.

spirits produced on or after February 20, 1942, or any high wines produced on or after November 1, 1942.

(d) *Directions and restrictions respecting delivery.* (1) The War Production Board will from time to time issue authorizations or directions to each producer to deliver specified quantities of distilled spirits to designated persons for designated non-beverage purposes. Except as specifically authorized or directed by the War Production Board, no producer shall deliver to any person distilled spirits produced on or after February 20, 1942: *Provided, however,* That if at any time all deliveries theretofore authorized or directed by the War Production Board have been made or provided for, a producer may deliver such distilled spirits for non-beverage purposes to the persons and in the quantities permitted by General Preference Order M-30, as amended from time to time.

(2) The War Production Board will from time to time issue authorizations and directions to each producer to deliver specified quantities of high wines to designated persons for redistillation into distilled spirits. Except as specifically authorized or directed by the War Production Board, no producer shall deliver high wines produced on or after November 1, 1942 to any person for any purpose. No producer shall deliver high wines produced before that date unless all deliveries theretofore directed by the War Production Board shall have been made or provided for.

(3) No person shall accept delivery of distilled spirits or high wines if such person knows or has reason to believe that the said delivery is made in violation of the restrictions of this paragraph (d).

(e) *Alterations of existing equipment and facilities.* Except as specifically authorized or directed by the War Production Board, no producer whose distillery has equipment and facilities for the production of distilled spirits shall alter such equipment and facilities in any way so as to impair the capacity of such distillery to produce distilled spirits.

(f) *Directions as to use of materials.* War Production Board may from time to time issue directions to producers as to the kinds of raw materials which may be used in the production of distilled spirits or high wines.

(g) *Notification of customers.* Producers of distilled spirits and high wines shall, as soon as practicable, notify each of their regular customers of the requirements of this order, but failure to give such notice shall not excuse any such person from complying with the terms hereof.

(h) *Miscellaneous provisions*—(1) *Applicability of priorities regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the War Production Board priorities regulations, as amended from time to time.

(2) *Intra-company transactions.* The prohibitions and restrictions of this order with respect to deliveries of distilled spirits and high wines, shall apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(3) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of material conserved, or that compliance with this order would disrupt or impair a progfam of conversion from non-defense to defense work, may appeal to the War Production Board by addressing a letter to the War Production Board, Chemicals Division, Washington, D. C., Ref: M-69, setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(5) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, D. C. Ref: M-69.

Issued this 10th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3293—CHEMICALS

[General Allocation Order M-300
Schedule 34]

UREA AND MELAMINE ALDEHYDE RESINS

§ 3293.1034 *Schedule 34 to General Allocation Order M-300*—(a) *Definition.* "Urea or melamine aldehyde resin" means any synthetic reaction product of urea, thiorea or melamine with formaldehyde, paraformaldehyde, hexamethylenetetramine, furfural or any other organic compound containing the monovalent CHO radical. The term urea or melamine aldehyde resin shall include crystalline reaction products capable of resinification, such as dimethylol urea, and shall include all such resins, modified or otherwise, in liquid, solid, spray dried, cast, granulated or powdered form and in solutions commonly termed syrups and resin solutions, as well as resin dispersions and emulsions.

However, the term urea or melamine aldehyde resin shall not include any reaction product used in compounding rubber; any mixtures of urea or melamine aldehyde resins with other resins or plastics which are allocated under Order M-10 (Vinyl Polymers), Order M-246 (Phenolic Resins), or Schedule 17 (Acrylic Resins) or Schedule 35 (Urea and Melamine Aldehyde Molding Compound) under Order M-300, as now or hereafter amended; or any products made from urea or melamine aldehyde resin, such as plywood, paper, laminates, textiles, leather, sand cores, or protective coatings (other than resins sold by suppliers to protective coating manufacturers for use in the formulation of protective coatings).

(b) *General provisions.* Urea and melamine aldehyde resins are subject to the provisions of General Allocation Order M-300 as Appendix B materials. The initial allocation date is July 1, 1943, when urea and melamine aldehyde resins first became subject to allocation under Order M-331 (revoked). The allocation period is the calendar month. The small order exemption without use certificate is 10,000 pounds in the aggregate of urea and melamine aldehyde resin per person per month.

(c) *Interim provisions.* Use, delivery and acceptance of delivery of urea or melamine aldehyde resin prior to August 1, 1944, will be authorized on the basis of applications filed in the form heretofore prescribed in Order M-331 (revoked).

(d) *Suppliers' applications on WPB-2947.* Each supplier seeking authorization to use or deliver shall file application on Form WPB-2947 (formerly PD-602). The filing date is the 20th day of the month preceding the proposed delivery month. File separate sets of forms for liquid and for spray dried resin and for each of the following main classes of customers' uses: Adhesives and specialties (including plywood, woodworking, V-box, foundry core binder, froth resins, wet-strength paper), textiles, laminates, and protective coatings. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-34. Specify grade either as liquid or as spray dried. The unit of measure is pounds. An aggregate quantity may be requested without specifying customers' names for delivery on uncertified exempt 10,000 pound small orders. In Table II fill in Columns 8, 9, 13, and 14 and leave the other columns blank.

(e) *Certified statements of use.* Each person placing a purchase order for delivery of more than 10,000 pounds per month in the aggregate from all suppliers shall furnish each supplier with a certified statement of the proposed use, in the form prescribed in Appendix D of General Allocation Order M-300. End use may be specified as for plywood, for adhesives for specified products (such as V-boxes), for laminates (specify sheet, rod, tube or molded shape), for protective coatings, for textiles (specify whether printed or finished) or for any other specified product. The governing military or Lend-Lease contract, if any, should be specified. Proposed use may also be specified as "for authorized resale", "for resale on exempt small orders", and "for export" (specify destination and export license number).

(f) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(g) *Communications to War Production Board.* Communications concerning this schedule should be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-34.

Issued this 10th day of July 1944.

PART 3293—CHEMICALS

[General Allocation Order M-300, Schedule 35]

UREA AND MELAMINE ALDEHYDE MOLDING COMPOUNDS

§ 3293.1035 *Schedule 35 to General Allocation Order M-300*—(a) *Definition.* "Urea or melamine aldehyde molding compound" means any moldable combination of bulk filler (such as cotton fiber, wood-flour, asbestos, mica, or macerated fabric) with the synthetic reaction product of urea, thiorea or melamine and formaldehyde, paraformaldehyde, hexamethylenetetramine, furfural or any other organic compound containing the monovalent CHO radical.

(b) *General provisions.* Urea and melamine aldehyde molding compounds are subject to the provisions of General Allocation Order M-300, as Appendix A materials. The initial allocation date is July 1, 1943, when urea and melamine aldehyde molding compounds first became subject to allocation under Order M-331 (revoked). The allocation period is the calendar month, and the small order exemption per person per month is 2000 lbs. of urea aldehyde molding compound and 2000 lbs. of melamine aldehyde molding compound per person per month. This quantity may be accepted and used, in addition to allocated quantities, for any purpose and there shall be no limitation on duration of authority for use under this schedule, notwithstanding Order M-300 (paragraph (p) (2) and (v) of the order as amended June 6, 1944).

(c) *Free samples.* In addition to the regular small order exemption, any person may, without specific authorization, accept and use free samples for experimental purposes, and suppliers may deliver free samples from quantities allocated to them for exempt small orders.

(d) *Special interim provisions.* Use, delivery and acceptance of delivery of urea or melamine aldehyde compounds prior to August 1, 1944, will be authorized on the basis of applications filed on the form heretofore prescribed in Order M-331 (revoked).

(e) *Suppliers' applications on WPB-2946.* Each supplier seeking authorization to deliver urea or melamine aldehyde molding compounds shall file application on Form WPB-2946 (formerly PD-601). The filing date is the 13th day of the month before the proposed delivery month. Send three copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-35. File separate sets of forms for urea aldehyde molding compound and for melamine aldehyde molding compound. The unit of measure is pounds. Specify grade or type as stated in the customer's application. An aggregate quantity may be requested, without specifying customers' names, for delivery on exempt small orders. Fill in Table II.

(f) *Customers' applications on WPB-2945.* Each person seeking authorization to use or accept delivery of urea or melamine aldehyde molding compound shall file application on Form WPB-2945 (formerly PD-600). Filing date is the 8th day of the month before the requested allocation month. Send four copies (one certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Ref.: M-300-35 and one copy (reverse side blank) to the supplier, if any. File separate sets of forms for urea aldehyde molding compound and for melamine aldehyde molding compound. The unit of measure is pounds.

In Column 3, specify each primary product, or specify "export", if the molding compound is to be exported as such. In Column 4, specify the end use of each primary product, giving military contract numbers if practicable. End use information shall be obtained under the following paragraph (g). In the case of export, specify the country of destination and the export license number and end use. Fill in the balance of Table I and fill in Tables II and III as indicated. Leave Tables IV and V blank.

(g) *Supplementary end use certificate.* Each person applying for authorization to use urea or melamine aldehyde molding compound shall obtain a certified statement of end use from the purchaser to whom he sells the product molded from the compound, unless the end use is apparent to the molder from his own observation and experience (as in the case of a molded distributor head). The purchaser shall furnish the certified statement upon request in the form prescribed in Appendix D of Order M-300. Even though the end use is apparent the molder must, if applying on Form WPB-2945 for a military use, receive and retain in his files written evidence of the military contract or subcontract.

(h) *Budget Bureau approval.* The above reporting requirements have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Communications with the War Production Board.* Communications concerning this schedule should be addressed to War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-300-35.

Issued this 10th day of July 1944.

Chapter XI—Office of Price Administration

PART 1305—ADMINISTRATION

[Supp. Order 81,[1] Amdt. 1]

SALES BY THE UNITED STATES GOVERNMENT OR ITS AGENCIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Supplementary Order 81 is amended in the following respect:

Section 7 is amended to read as follows:

SEC. 7. *Sales exempt from price control.* Irrespective of the provisions of any other price regulation, or order, the sale of food by any government agency to the following listed purchasers shall be exempt from price control:

(a) Any other government agency; or

(b) Any foreign government or agency of a foreign government; or

(c) Any relief organization for donation or export sale; or

(d) Any licensed ship supplier, any approved ship supplier, or any group of licensed or approved ship suppliers, or any designated corporation acting as an agent for licensed or approved ship suppliers, purchasing the food for the express purpose of ultimate resale and de-

PART 1312—LUMBER AND LUMBER PRODUCTS

[MPR 525,[1] Amdt. 1]

JOBBER SALES OF STOCK MILLWORK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 525 is amended in the following respects:

1. In section 2 (a) immediately after the word "regulations:", the following phrase is inserted: 2d Rev. MPR 19—Southern Pine Lumber (mouldings); RMPR 26—Douglas Fir and Other West Coast Lumber (mouldings);

2. In section 2, paragraph (b) is amended to read as follows:

(b) *Definition of the term "jobber's sale of stock millwork".* As used in this regulation the term "jobber's sale of stock millwork" means all sales out of jobbers' warehouses to retail lumber yards and other distributors and all direct mill sales of items covered by Revised Maximum Price Regulation No. 293 in quantities exempted under section 2 (b) (1) thereof. (Revised Maximum Price Regulation No. 293 covers direct-mill sales in quantities of 12,000 pounds or more by truck delivered to one place, or of 15,000 pounds or more by rail delivered to one or more places, no matter whether the buyer is a jobber, dealer, or anyone else.) Note that sales out of jobbers' warehouses which are situated in the same locality as a manufacturing plant and which are controlled by the plant, or control it, or are under common control with it, are on the same basis as sales direct from the factory.

3. A sentence is added to section 3 (a) (1) as follows: Unless otherwise specified, the mark-ups given in this regulation are to be added to the manufacturer's largest quantity maximum price.

4. In section 3 (a), paragraph (2) is amended to read as follows:

(2) *Items not specifically priced.* Any person whose stock list includes stock millwork items which are not shown on the stock lists specified in the appendix for the particular area in which the sale is to be made shall file with the Lumber Branch, Office of Price Administration in Washington 25, D. C., a copy of his stock list, indicating which stock millwork items in it are not included in the stock lists specified for the area, and may thereafter sell these items at the maximum prices, if any, established for that area unless notified to the contrary by the Office of Price Administration within thirty days of the receipt of the filing of the list. If no mark-up is provided for any such item for that area, the seller must apply to the Office of Price Administration for approval of a mark-up. His application must show the mark-up used prior to March 31, 1942 for the same item. Such a mark-up may not be used by the seller before approval by the Office of Price Administration.

5. In section 3, a new paragraph (d) is added to read as follows:

(d) *Maximum prices for sales of items which cannot be priced under paragraph (a) or (b).* Any person desiring to make a direct-mill sale of an item covered by RMPR 293 in quantities exempt under section 2 (b) (1) of that regulation for which a price cannot be otherwise computed under other provisions of this regulation, or a sale under this regulation of any item under any circumstance in which a price cannot be otherwise computed under other provisions of this regulation must make application to the Lumber Branch, Office of Price Administration, Washington 25, D. C. for approval of a price. The application must contain a complete description of the item to be priced, the requested selling price, the maximum price under the GMPR, and any additional facts which the respondent cares to make in support of the requested price.

As soon as the request has been filed, quotations and deliveries may be made at the requested price, but final payment may not be made until the price has been approved. Action on the request may be by letter or telegram.

6. Section 5 is amended to read as follows:

SEC. 5. *Invoicing requirements.* An invoice must be rendered in all sales. All invoices must contain a sufficiently complete description of the millwork to show whether the price is proper or not. Any specification or extra which affects the maximum price must be mentioned in the description. The invoice must show whether the sale is a carload or less-than-carload sale, whether shipped by rail or truck, the total quantity and price of each item, the total value of the sale, origin and destination of the shipment, and any additions for packaging.

7. In section 13 (c) (4), subdivision (i) the following items and mark-ups are to be added:

Flush veneered doors, solid core	45
Flush veneered doors, hollow core	45

8. In section 14 (c) (4), subdivision (i) is amended to read as follows:

PART 1351—FOOD AND FOOD PRODUCTS

[RMPR 289,[1] Amdt. 8]

DAIRY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Regulation 289 is amended in the following respect:

Section 18a is added to read as follows:

SEC. 18a. *Maximum prices for listed dairy products purchased for ultimate sale to ship operators*—(a) *Sales by civilian sellers to licensed ship suppliers or to designated corporations.* Notwithstanding other provisions of this regulation, in any case where the purchase order has been initially placed by, through, or pursuant to the direction of the War Shipping Administration, the maximum price for the sale of any listed dairy product by any civilian seller other than a designated corporation to any licensed ship supplier or to any designated corporation shall be the maximum price as established by other provisions of this regulation and as adjusted by additions permitted by other pertinent regulations or orders issued by the Office of Price Administration for the sale of such listed dairy products by such seller to the United States Government or any of its agencies.

(b) *Sales by designated corporations to licensed ship suppliers or to other designated corporations.* Notwithstanding other provisions of this regulation, any designated corporation which has purchased any listed dairy product from any civilian seller, upon order initially placed by, through or pursuant to the direction of the War Shipping Administration, or from any agency of the United States government, for the purpose of ultimate resale to any licensed ship supplier shall sell such listed dairy product at a maximum price not in excess of the sum of (1) the purchase price paid by such corporation plus all interest charges, apportioned to the particular lot of the listed dairy product being sold, not to exceed 2% per annum, (2) all banking charges, apportioned to the particular lot of the listed dairy product being sold, not to exceed ½% per annum, (3) all out of pocket storage charges actually incurred and paid to a public warehouse for storing the listed dairy product being sold, (4) all administration charges actually incurred in handling the specific listed dairy product being sold and (5) all transportation charges actually paid by the designated corporation for transporting the specific listed dairy product being sold to the place where title passes to the purchaser. No interest or banking charges may be added, however, unless actually incurred in connection with a loan obtained to facilitate the purchase of the listed dairy product being sold by the designated corporation from a bank approved in writing by the War Shipping Administration. Furthermore, before any designated corporation may add any of the interest, banking, storage, administration, or transportation charges referred to above, these charges must be approved in writing by the War Shipping Administration.

(c) *Sales by licensed ship suppliers to other licensed ship suppliers.* Notwithstanding other provisions of this regulation, the maximum price at which any licensed ship supplier may sell any listed dairy product to another licensed ship supplier, where the sale has been requested or directed by the War Shipping Administration, shall be the sum of (1) the purchase price paid for such listed dairy product, (2) the actual out of pocket storage charges paid to a public warehouse for storing the listed dairy product being sold, and (3) all transportation charges actualy paid by the seller for transporting the specific listed dairy products being sold to the place where title passes to the purchasing licensed ship supplier: *Provided, however,* That if such sale is not requested or directed by the War Shipping Administration, the maximum price which may be charged by the seller shall be the purchase price paid by him for such listed dairy products.

In no event, however, may any licensed ship supplier add any storage or transportation charges under the provisions of this paragraph (c) unless such charges have been approved in writing by the War Shipping Administration.

(d) *Sales of listed dairy products delivered shipside by licensed ship suppliers to ship operators.* Notwithstanding other provisions of this regulation, the maximum price at which any licensed ship supplier shall sell, delivered shipside, any listed dairy product which he has purchased under the provisions of this section or from any agency of the United States Government to any ship operator shall be the maximum price for such sale as established by other provisions of this regulation and other applicable orders and regulations issued by the Office of Price Administration plus the sum of (1) the difference between the highest maximum price he could pay any one of his usual suppliers under other sections of this regulation for the listed dairy product being sold and the purchase price paid by him for such listed dairy product, and (2) the actual out of pocket storage charges accrued and paid to a public warehouse for storing the listed dairy product being sold. However, no licensed ship supplier may add any storage charges which have not been approved in writing by the War Shipping Administration.

(e) *Definitions*—(1) *Designated corporation.* "Designated corporation", as used in this regulation, means any corporation which has received the written approval of the War Shipping Administration to receive and to stockpile set aside, restricted, and designated foods for the purpose of ultimate resale to licensed ship suppliers.

(2) *Purchase price paid.* "Purchase price paid", as used in this section, means the actual cost per unit paid by the specified type of seller for the listed dairy product, not to exceed, however, the maximum price as established by the applicable provisions of this regulation and as adjusted by additions permitted by other pertinent orders and regulations issued by the Office of Price Administration.

(3) *Out of pocket storage charges.* "Out of pocket storage charges", as used in this section, means all storage rates actually accrued and paid to a public warehouse.

(4) *Licensed ship supplier.* "Licensed ship supplier", as used in this regulation, means any person who has received a license under War Food Order 74 to receive, set aside, restricted and designated foods for resale to ship operators for ship stores. It shall also mean ship suppliers otherwise approved in writing by the War Shipping Administration to purchase and sell to ship operators listed dairy products or other food products made available by or through the War Shipping Administration.

(5) *Ship operator.* "Ship operator" as used in this regulation, means any person conducting the business of operating vessels for the account of the United States or any of its agencies under a general agency form of service agreement approved by the Administrator of the War Shipping Administration; or operating, as the owner or as the owner's agent, a vessel which has been time-chartered to the United States Government, as represented by the Administrator of the War Shipping Administration; or operating a vessel, the services of which are employed by the United States Government, as represented by the Administrator of the War Shipping Administration; or operating a vessel designated by the War Shipping Administration which is owned, chartered, or operated by any allied or neutral country.

This amendment shall become effective July 13, 1944.

PART 1429—POULTRY AND EGGS

[RMPR 269,[1] Amdt. 30]

POULTRY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 269 is amended in the following respect:

*Copies may be obtained from the Office of Price Administration.

[1] 9 F.R. 5140.

[1] 7 F.R. 10708, 10864, 11118; 8 F.R. 567, 856, 878, 2289, 3316, 3419, 3792, 6736, 9299, 10940, 11691, 13302, 13303, 13813, 14016, 15258, 14845, 15190, 16793.

Section 1429.29 is added to read as follows:

§ 1429.29 *Maximum prices for processed poultry items purchased for ultimate sale to ship operators*—(a) *Sales by civilian sellers to licensed ship suppliers or to designated corporations.* Notwithstanding other provisions of this regulation, in any case where the purchase order has been initially placed by, through, or pursuant to the direction of, the War Shipping Administration, the maximum price for the sale of processed poultry items by any civilian seller, other than a designated corporation, to any licensed ship supplier or to any designated corporation shall be the maximum price as established by other provisions of this regulation, or other pertinent orders or regulations issued by the Office of Price Administration, for the sale of such processed poultry items by such seller to the United States Government or any of its agencies.

(b) *Sales by designated corporations to licensed ship suppliers or to other designated corporations.* Notwithstanding other provisions of this regulation, any designated corporation which has purchased processed poultry items from any civilian seller, upon order initially placed by, through, or pursuant to the direction of, the War Shipping Administration, or from any agency of the United States Government, for the express purpose of ultimate resale to licensed ship suppliers, shall sell such processed poultry items at a maximum price not in excess of the sum of (1) the purchase price paid by such corporation plus all interest charges, apportioned to the particular lot of poultry being sold, not to exceed 2% per annum, (2) all banking charges, apportioned to the particular lot of poultry being sold, not to exceed ½% per annum, (3) all out of pocket storage charges actually incurred and paid to a public warehouse for storing the poultry items being sold, (4) all administration charges actually incurred in handling the specific poultry items being sold and (5) all transportation charges actually paid by the designated corporation for transporting the specific processed poultry items being sold to the place where title passes to the purchaser. No interest or banking charges may be added, however, unless actually incurred in connection with a loan obtained to facilitate the purchase of the poultry items being sold by the designated corporation from a bank approved in writing by the War Shipping Administration. Furthermore, before any designated corporation may add any of the interest, banking, storage, administration or transportation charges referred to above, these charges must be approved in writing by the War Shipping Administration.

(c) *Sales by licensed ship suppliers to other licensed ship suppliers.* Notwithstanding other provisions of this regulation, the maximum price at which any licensed ship supplier may sell processed poultry items to another licensed ship supplier, where such sale has been requested or directed by the War Shipping Administration, shall be the sum of (1) the purchase price paid for such processed poultry items, (2) the actual out of pocket storage charges accrued and paid to a public warehouse, and (3) all transportation charges actually paid by the seller for transporting the specific processed poultry items being sold to the place where title passes to the purchasing licensed ship supplier: *Provided, however,* That if such sale is not requested or directed by the War Shipping Administration, the maximum price which may be charged by the seller shall be the purchase price paid by him for such processed poultry items.

In no event, however, may any licensed ship supplier add any storage or transportation charges under the provisions of this paragraph (c) unless such charges have been approved in writing by the War Shipping Administration.

(d) *Sales of processed poultry items delivered shipside by licensed ship suppliers to ship operators.* Notwithstanding other provisions of this regulation, the maximum price for sales of processed poultry items, delivered shipside, by licensed ship suppliers to ship operators shall be the sum of (1) the purchase price paid by the licensed ship supplier for such processed poultry items, (2) the actual out of pocket storage charges accrued and paid to a public warehouse, and (3) an amount not in excess of 1¾¢ per pound. However, no licensed ship supplier may add any storage charges which have not been approved in writing by the War Shipping Administration.

(e) *Definitions*—(1) *Designated corporation.* "Designated corporation", as used in this regulation, means any corporation which has received the written approval of the War Shipping Administration to receive and to stockpile set aside, restricted and designated foods for the purpose of ultimate resale to licensed ship suppliers.

(2) *Purchase price paid.* "Purchase price paid", as used in this section, means the actual cost per pound paid by the "designated corporation" or the "licensed ship supplier" for the poultry items, not to exceed the maximum price for such sale as established by this regulation or other pertinent orders or regulations issued by the Office of Price Administration, or, if the poultry items have been purchased from a civilian seller other than a "designated corporation", not to exceed the applicable maximum base price, as established by this regulation and as adjusted by additions permitted by other pertinent orders or regulations issued by the Office of Price Administration, by more than 1½¢ per pound.

(3) *Out of pocket storage charges.* "Out of pocket storage charges", as used in this section, means all storage rates actually accrued and paid to a public warehouse not to exceed an amount of 0.5¢ per pound for one month's storage, 1¢ per pound for more than one, but not over two months' storage, 1.4¢ per pound for more than two, but not over three months' storage, 1.8¢ per pound for more than three, but not over four months' storage, and 2.2¢ per pound for four or more months of storage.

(4) *Licensed ship suppliers.* "Licensed ship supplier," as used in this regulation, means any person who has received a license under War Food Order #74 to receive set aside, restricted and designated foods for resale to ship operators for ship stores. It shall also mean ship suppliers otherwise approved in writing by the War Shipping Administration to purchase and sell to ship operators poultry or other food products made available by or through the War Shipping Administration.

(5) *Ship operator.* "Ship operator," as used in this regulation, means any person conducting the business of operating vessels for the account of the United States or any of its agencies under a general agency form of service agreement approved by the Administrator of the War Shipping Administration; or operating, as the owner or as the owner's agent, a vessel which has been time-chartered to the United States Government, as represented by the Administrator of the War Shipping Administration; or operating a vessel, the services of which are employed by the United States Government, as represented by the Administrator of the War Shipping Administration; or operating a vessel designated by the War Shipping Administration which is owned, chartered, or operated by any allied or neutral country.

This amendment shall become effective July 13, 1944.

PART 1316—COTTON TEXTILES

[RPS 35,[1] Amdt. 20]

CARDED GREY AND COLORED-YARN COTTON GOODS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Revised Price Schedule No. 35—Carded Grey and Colored-Yarn Cotton Goods, is amended in the following respect:

1. Table IV of § 1316.61 (b) (4) is amended to read as follows:

TABLE IV—DENIMS[1] (PRICES ARE FOR ALL SHADES AND COLORS)

Type of cloth and yards per pound or ounces per yard:	*Spot cotton price (cents per pound, 20.37). Cents per yard—*
Denims:	
Mill finish:

8 oz. (2.00)	24.75
9 oz. (1.78)	27.25
10 oz. (1.60)	30.25
11 oz. (1.45)	33.25

[1] The maximum prices listed above are for all patterns made entirely or in part with white filling yarn. Premiums over the above maximum prices may be charged as follows:

	Cents per yard
For solid color and for all stripes and patterns made with 100 percent colored filling yarn	½
For herringbone weave	½
For denim meeting Navy specifications and sold for military use	½

The maximum prices set forth herein are for denims of 28 to 30 inches, inclusive, in width. The maximum price for a denim of any other width shall be that price which stands in the same relation to the applicable price set forth herein (i. e., for the same cloth of 28 to 30 inch width) as does its width to 29 inches.

The weights listed herein are "card" weights.

The prices listed herein apply to denim not lighter than the actual weights which the individual seller has customarily delivered against contracts calling for the "card" weights. Denim of a weight other than that which a seller has customarily delivered against a contract calling for "card" weight shall be priced in inverse proportion to the yardage per pound of the nearest weight of denim customarily delivered.

For seconds and short lengths of denim, the maximum prices listed in this table must be discounted as follows: Seconds, ½ cent; short lengths, 25 to 40 yards, inclusive, ¾ cent; 10 to 24.99 yards, 1 cent; 2 to 9.99 yards, 15 percent.

The maximum prices set forth herein shall be discounted (1) where payment is made within 10 days of delivery, by 3 percent; and (2) where payment is made within the next 60 days, by 2 percent and by interest at 6 percent per annum for such portion of the 60-day period as the buyer at his option or pursuant to agreement with the seller, anticipates by earlier payment.

This amendment shall become effective as of June 30, 1944.

[MPR 547]

MAXIMUM PRICES FOR SPECIFIED LOW PRICE-LINE GARMENTS

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 547 has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended. Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected or have previously been promulgated and their use lawfully required by another Government agency. To the extent that this regulation operates to compel changes in the business practices, costs practices or methods, or means or aids to distribution established in the industries affected, the Administrator has found that such action is necessary to prevent circumvention or evasion of this regulation.

10. Amendment.

AUTHORITY: Secs. 1 to 10, inclusive (§ 1389.605) issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383; 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *What this regulation covers.* This regulation establishes dollar-and-cents ceiling prices for all sales of specified low price line garments made from fabrics for which priorities assistance has been given in accordance with Men's Shorts Program No. 1, Men's Shirts Program No. 1, Women's Housedresses Program No. 1 and Women's and Misses' Slips Program No. 1, issued June 20, 1944 under Schedule A of War Production Board Conservation Order No. M–328B. This regulation covers sales in the 48 states and the District of Columbia.

SEC. 2. *Ceiling prices*—(a) *Ceiling prices for garments covered by this regulation and made in accordance with the standards and specifications stated in Schedule A of War Production Board Conservation Order M–328B, are established as follows:*

Item	Size	Sales other than at retail, per doz. f. o. b. point of shipment		Sales at retail (per garment)
1. Men's shorts	28–44	$3.55	Less 8% trade discount for all sales to persons other than sellers at retail; net for sales to sellers at retail.	$0.39
2. Men's dress shirts:				
(a) Printed and solid colors	14–17	12.25		1.39
(b) White	14–17	11.25		1.39
3. Housedresses	12–44	12.75		1.49
	46–52	14.25		1.69
4. Misses' and women's slips	34–44	5.75	Less 8% trade discount for sales by manufacturers and net for sales by all other sellers.	.65
	46–52	6.40		.75

For all items, the time limit for payment will be the seller's customary business practice to purchasers of the same class.

Examples: 1. A manufacturer sells men's shorts to a jobber. His ceiling price for the sale is $3.27 per dozen (the stated price of $3.55 less 8%).

2. A manufacturer sells printed shirts to a jobber. His ceiling price for the sale is $11.27 per dozen (the stated price of $12.25 less 8%).

3. A jobber sells men's shorts to another jobber. His ceiling price is $3.27 per dozen (the stated price of $3.55 less 8%).

4. A manufacturer (or a jobber) sells printed shirts to a retailer. The ceiling price for such sales is the net price of $12.25 per dozen.

5. A manufacturer sells slips to a jobber (or to a retailer)* in the 34–44 size range. The ceiling price for such sale is $5.29 per dozen (the stated price of $5.75 less 8%).

6. A jobber sells slips to a retailer in the 46–52 size range. His ceiling price for the sale is the net price of $6.40 per dozen. His ceiling price to another jobber is also the net price of $6.40 per dozen.

(b) *Ceiling prices for garments covered by this regulation but which do not meet the standards and specifications set forth in Schedule A of War Production Board Conservation Order M–328B,* may be established only by specific authorization from the Office of Price Administration, Washington, D. C. No person is permitted to deliver such garments until he receives such authorization. A seller, in order to secure an authorized ceiling price, must file with the Consumer Goods Division of the Office of Price Administration, Washington, D. C. an application setting forth each particular in which the garment for which he seeks a ceiling price differs in construction from the garment for which specifications are set forth in Schedule A of War Production Board Conservation

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 1963, 5306, 15908, 16744; 9 F.R. 2020, 2477, 2237, 2790, 3339, 4076.

*Copies may be obtained from the Office of Price Administration.

Order M–328B and a breakdown of his total unit cost of the garment in the detail customarily used by him. The applicant must also submit a sample of the garment for which he seeks authorization of a ceiling price.

SEC. 3. *Definitions*—(a) *Sale at retail.* A "sale at retail" is a sale to an ultimate consumer. Also, sales to industrial, commercial, or institutional users are "sales at retail" if made by a person who sells principally at retail. If not made by such a person, then they are "sales other than at retail."

(b) *Sale other than at retail.* Any sale which is not a "sale at retail" as defined in paragraph (a), above, is a "sale other than at retail."

(c) *Manufacturer.* A "manufacturer" of a garment is a person who sells the completed garment after having fabricated it or who sells the completed garment after having sold or consigned to the fabricator thereof any of the principal materials from which it was made.

(d) Unless the context otherwise requires, or unless specifically provided herein, the definitions set forth in § 1499.20 of the General Maximum Price Regulation [1] shall apply to the terms used herein.

SEC. 4. *Marking.* On and after the effective date of this regulation, every manufacturer is forbidden to deliver any garment covered by this regulation unless each garment is marked with (a) the manufacturer's War Production Board case number, (b) the appropriate retail ceiling price specified in this regulation, and (c) if the garment is a "second" or "imperfect" a marking to that effect. If any part of the required marking has not been performed by the manufacturer it must be supplied by the retailer. A manufacturer, within five days after written request, shall furnish to any retailer who purchases any of the garments covered by this regulation all information necessary for correct marking of the garment. The required marking must be attached to each garment. It must be attached by stitching, adhesive, pins, staples, or string tickets, or stamped on the garment itself, and must be placed on the garment where it is clearly visible to retail purchasers.

SEC. 5. *When taxes may be added.* If a statute or ordinance imposes a tax upon a particular sale or delivery (such as a sales tax, gross proceeds or gross receipts tax or compensating use tax) and permits such tax to be stated separately from the selling price, the seller may collect such tax in addition to the maximum price under this regulation, provided that he states the amount of the tax separately. However, this provision does not apply to any tax imposed on a prior sale or delivery of the same article.

SEC. 6. *Sales slips and invoices.* (a) Any retailer who has customarily given a purchaser a sales slip, receipt or similar evidence of purchase shall continue to do so. Upon request from a purchaser, any retailer, regardless of previous custom shall give the purchaser a receipt showing the date, name and address of the seller, the description of each garment sold and the price received for it.

(b) All sellers other than sellers at retail shall give an invoice to purchasers and retain a duplicate thereof for inspection by the Office of Price Administration. The invoice shall show the date, the name and address of the seller and the purchaser, and with respect to each style of garment sold, the manufacturer's War Production Board Case number, the terms of sale, the style or lot number, size or size range, quantity and price.

SEC. 7. *Records.* (a) Every person who purchases garments covered by this regulation for purposes of resale shall retain and keep for inspection by the Office of Price Administration all invoices received in connection with purchases of such garments.

(b) Manufacturers must retain the following for inspection by the Office of Price Administration:

(1) *Purchase invoices.* All invoices for materials and trimmings used in the manufacture of garments covered by this regulation must be retained. On each invoice for material or trimming must be recorded the numbers of the cutting tickets for cuttings in which that material or trimming was used.

(2) *Cutting tickets.* A separate cutting ticket must be prepared and retained for each cutting of garments covered by this regulation, and should contain:

(i) Cutting ticket number
(ii) Date of cutting
(iii) Style number of garment.
(iv) Number of garments cut in each size
(v) Number of yards of material and trimming used
(vi) Invoice number of materials and trimmings used.

(3) *Markers and patterns.* Manufacturers must retain the marker used on each cutting of garments, or, if the marker is cut with the lay, all patterns used in each cutting must be retained, whether the cutting is done in the manufacturer's establishment or in the establishment of a contractor.

SEC. 8. *Relation to other maximum price regulations*—(a) *Regulations superseded.* The coverage of this regulation is stated in section 1. Where this regulation applies, it supersedes the provisions of the following:

(1) General Maximum Price Regulation.
(2) Maximum Price Regulation No. 332 [2] (Simplified Men's and Boys' Shirts and Pajamas).
(3) Revised Maximum Price Regulation No. 287 [3] (Manufacturers' Prices for Women's Girls' and Children's Outerwear Garments).
(4) Maximum Price Regulation No. 330 [4] (Retailers' and Wholesalers' Prices for Women's, Girls' and Children's Outerwear Garments).

(b) *Contractor's services.* The regulation does not apply to charges for contractors' services which are governed by Maximum Price Regulation No. 172.[5] (Charges of Contractors in the Apparel Industry).

"Contractor" is defined in § 1389.52 of that regulation.

(c) *Export sales.* This regulation does not apply to export sales or deliveries of the articles covered in section 2 of this regulation. Such sales and deliveries are covered by the Second Revised Maximum Export Price Regulation.[6]

(d) *Import sales.* The provisions of this regulation do not apply to sales or deliveries made from points outside the 48 states and the District of Columbia. Such sales and deliveries are governed by the provisions of the Maximum Import Price Regulation.[7] This regulation does, however, apply to domestic sales when the articles sold were originally imported.

SEC. 9. *Prohibitions, enforcement and licensing.*—(a) *Prohibitions.* On and after July 7, 1944, regardless of any contract or obligation, no person shall:

(1) Sell or deliver any article covered by this regulation at a price higher than the ceiling price permitted by this regulation; or

(2) Deliver any article made from a fabric for which he has received priority assistance pursuant to any of the special programs issued June 20, 1944 under Schedule A of War Production Board Conservation Order M–328B, but not meeting the specifications set forth therein unless he shall have first secured from the Office of Price Administration an authorized ceiling price therefor as provided by section 2 of this regulation; or

(3) Buy or receive, in the course of trade or business at a price higher than the ceiling price permitted by this regulation, any article covered by this regulation; or

(4) Require a purchaser to buy or agree to buy any article, service, package or wrapper in connection with the sale or delivery of any article covered by this regulation; or

(5) Do any other act which directly or indirectly increases above the ceiling price the consideration paid by the purchaser for any article, covered by this regulation. Any practice which is a device to secure the effect of a higher than ceiling price is as much a violation as an outright raising of the ceiling price. This applies to but is not limited to the devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tying-agreements, trade understandings and all similar practices.

(6) Offer, attempt, or agree to do any of the acts prohibited by this regulation.

(b) *Enforcement.* Any person who violates any provisions of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

(c) *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 10. *Amendment.* Any person seeking an amendment, which must have general applicability, may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[9] issued by the Office of Price Administration.

Effective date. This regulation shall become effective on July 7, 1944.

NOTE: All record keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 7th day of July 1944.

PART 1302—ALUMINUM

[MPR 2,[1] Amdt. 6]

ALUMINUM SCRAP AND SECONDARY ALUMINUM INGOT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 2 is amended in the following respects:

1. Section 14, paragraph (a) is amended by the addition of another grade of aluminum scrap to the schedule of prices, Appendix A, as follows:

(6) *Aluminum foil scrap.* Aluminum foil scrap or light gauge aluminum sheet which does not exceed 0.006 of an inch in thickness; clean, free of paper, gutta-percha or any other adhering substances or forms of contamination—16 cents per pound of material, irrespective of quantity. Contaminated aluminum foil scrap not conforming to these specifications shall be bought and sold for not more than a price, below the maximum price for clean aluminum foil scrap, fairly reflecting the value of such scrap.

2. Section 14, paragraph (a), Note 4 is revoked.

3. Section 14, paragraph (a), Note 6 is amended to read as follows:

NOTE 6: *Premiums for special preparation.* (a) Upon the sale of segregated solid aluminum plant scrap of any of the wrought aluminum or S-type alloys, except 2S and 3S, to the Aluminum Company of America, the Olin Corporation, or the Reynolds Metals Company, the following premiums may be charged, demanded, paid or offered:

	Premium (cents per pound)
If such scrap is baled or packaged, suitable for briquetting	½
If such scrap is briquetted, or in large pieces too heavy to briquette	1

(b) Upon the sale of wrecked aircraft, prepared, a premium of one-half cent per pound of material may be charged, demanded, paid or offered if such scrap is baled by compression or briquetted.

(c) The maximum price charged for aluminum scrap specially prepared or processed in any other manner shall be a price hereafter established in writing by the Office of Price Administration. The price so established shall be a price in line with the general level of prices established by this Maximum Price Regulation No. 2, taking into account the buyer's special requirements and the additional cost to the seller in preparing material to meet the buyer's requirements.

Any person desiring to sell such material may apply to the Office of Price Administration at Washington, D. C., for the establishment of a price that such person may charge for such scrap. Such application shall be in writing and shall state:

(1) The nature of seller's business.
(2) The name and address of the purchaser.
(3) The quantity of material to be processed or prepared and the purpose for which it is to be used.
(4) A detailed statement of the buyer's specifications for the material and a description of the manner in which the material has been or will be specially prepared.
(5) To the extent possible, a statement of the additional expense to the seller in preparing the material for the purchaser's use.
(6) The proposed price, f. o. b. point of shipment.

When a maximum price is submitted for approval in this manner, it shall be deemed to be approved unless the Administrator specifically disapproves such price within fifteen days from the date on which receipt of the request for approval is acknowledged. The maximum price for such scrap when once approved shall be the maximum price for all subsequent sales of such scrap by the seller to whom such approval is given, unless such approval is specifically withdrawn.

(d) Except as provided herein, the maximum prices established for aluminum scrap by this regulation shall not be increased by any charge or payment for special preparation.

4. Section 15 (a) (4) is revoked.

This amendment shall become effective July 15, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 10th day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1305—ADMINISTRATION

[Gen. RO 5,[1] Amdt. 73]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respects:

1. The title of Article XXVIII is amended to read as follows:

ARTICLE XXVIII—HOME PROCESSING BY INSTITUTIONAL USERS

NOTE: The record-keeping and reporting requirements set forth in this article do not apply to processed foods while they have a zero point value.

2. Section 28.3 (b) is amended by changing the parenthetical statement in that section as read as follows: "(The point value of home processed foods is fixed on the Official Table of Point Values.)"

3. Section 28.3 (d) is amended by changing the parenthetical phrase in that section to read as follows: "(at their point value at the time they were used)".

4. Section 28.6 (a) is amended by deleting the word "One" between the words "War Ration Books" and the words "of persons" in the last sentence of that section.

5. Section 28.7 is amended to read as follows:

SEC. 28.7 *An institutional user (other than a Group I user) may obtain a sugar allotment for producing home processed foods from fresh fruits*—(a) *He must apply on OPA Form R–315.* An institutional user (other than a Group I user) may obtain an allotment of sugar to be used in producing home processed foods from fresh fruits, for use or transfer pursuant to sections 28.3 and 28.4 of this order. He must make application for such allotment to the Board on OPA Form R–315 and must state:

(1) The name and address of the place where the home processed foods will be produced;
(2) The types of facilities to be used;
(3) The number of pounds of sugar needed;
(4) The number of pounds of home processed foods (other than jam, jellies, preserves, marmalades or fruit butters) he intends to produce from fruits and fruit juices;
(5) The number of pounds of prepared fruit (or pints of fruit juices) he intends to use in making jams, preserves and marmalades;
(6) The number of pounds of prepared fruit (or pints of fruit juices) he intends to use in making jellies;
(7) The number of pounds of prepared fruit (pulp) he intends to use in making fruit butter;

(8) The disposition to be made of such processed foods.

(b) *He may get an allotment of sugar.* The Board may grant an allotment of sugar in an amount not exceeding:

(1) One (1) pound of sugar for each four (4) quarts (or 8 pounds) of finished home processed foods (other than jams, jellies, preserves, marmalades or fruit butters) produced from fruits or fruit juices;

(2) One (1) pound of sugar for each pound of prepared fruit used for making jams, preserves and marmalades;

(3) One (1) pound of sugar for each two (2) pounds of prepared fruit (or one pint of fruit juice) used for making jelly;

(4) One (1) pound of sugar for each two (2) pounds of prepared fruit (pulp) used for making fruit butter.

However, no sugar shall be granted for the production of a product which has a zero point value at the time of application.

(c) *Issuance of certificate.* The Board shall issue a certificate for the amount of the allotment. However, if the applicant has an excess inventory of sugar, the amount of that excess inventory shall be deducted from the amount for which the certificate is to be issued. Any excess inventory so deducted shall be cancelled.

6. Section 28.8 (b) is amended by changing the first two sentences to read as follows:

(b) *It is charged with an excess inventory of processed foods.* The government or government agency shall be charged with an excess inventory of processed foods equal to the point value of the processed foods so produced. In computing the amount of the charge, foods so produced shall be treated as if they were home processed foods.

7. Section 28.8 (c) is amended to read as follows:

(c) *It may obtain sugar allotments to produce such processed foods.* (1) The government agency may apply on OPA Form R–315 for an allotment of sugar to produce such processed foods. The application must show:

(i) The name and address of the applicant;

(ii) The location of the facilities to be used;

(iii) The amount of sugar requested;

(iv) The number of pounds of processed foods (other than jams, jellies, preserves, marmalades or fruit butters) he intends to produce from fruits and fruit juices;

(v) The number of pounds of prepared fruit (or pints of fruit juices) he intends to use in making jams, preserves and marmalades;

(vi) The number of pounds of prepared fruit (or pints of fruit juices) he intends to use in making jellies;

(vii) The number of pounds of fruit (pulp) he intends to use in making fruit butter; and

(viii) The disposition to be made of such processed foods.

(2) The government agency may obtain an allotment of sugar not exceeding:

(i) One (1) pound of sugar for each four (4) quarts (or 8 pounds) of finished home processed foods (other than jams, jellies, preserves, marmalades or fruit butters) produced from fruits or fruit juices;

(ii) One (1) pound of sugar for each pound of prepared fruit used for making jams, preserves and marmalades;

(iii) One (1) pound of sugar for each two (2) pounds of prepared fruit (or one pint of fruit juice) used for making jelly;

(iv) One (1) pound of sugar for each two (2) pounds of prepared fruit (pulp) used for making fruit butter.

However, no sugar shall be granted for the production of a product which has a zero point value at the time of application.

8. Section 28.8 (d) is amended to read as follows:

(d) *It uses such processed foods as part of its allotment.* For the purpose of section 15.2 of this order, the point value of such processed foods used by such government or government agency at its Group II or eleemosynary or educational Group III, V or VI establishments is to be included in determining the amount of processed foods used during the allotment period, at the point value they would have if they were home processed foods.

9. Section 28.8 (e) is amended by deleting the words "at the rate of four (4) points per pound" at the end of the first sentence of that section and by substituting in place thereof the words "at the point value they would have if they were home processed foods."

This amendment shall become effective July 14, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1305—ADMINISTRATION

[Gen. RO 7, Amdt. 9]

METHOD OF SURRENDER AND DEPOSIT OF RATION STAMPS AND COUPONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1.2 (b) of General Ration Order No. 7 is amended to read as follows:

(b) A manufacturer or distributor of shoes must paste any War Ration Book stamps he has, for deposit, on gummed sheets (OPA Form R–120A) or enclose them in sealed envelopes. If the stamps are pasted on gummed sheets, the name and address of the depositor must be written on each sheet, and only stamps valid for deposit may be pasted on the sheet. If the stamps are enclosed in sealed envelopes, they must be handled in all respects in accordance with the procedure described in paragraphs (a) and (c) of this section for the use of such envelopes. Special shoe stamps may only be deposited in sealed envelopes in accordance with the procedure set forth in paragraphs (a) and (c) of this section.

This amendment shall become effective July 14, 1944.

NOTE: All reporting and record-keeping requirements of the amendment have been approved by the Bureau of Budget in accordance with the Federal Reports Act of 1942.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RPS 85,[1] Amdt. 16]

NEW PASSENGER AUTOMOBILES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Price Schedule 85 is amended in the following respects:

1. Section 1360.52 (d) is amended to read as follows:

(d) An allowance of 5% of (a) and (c) above, or $75, whichever is lower (hereinafter called handling and delivery charges): *Provided*, That (1) when delivery was made after March 15, 1943, the automobile shall have received the operations set forth in § 1360.63 *Appendix C: Standard Delivery Operations*, as therein required, and at the time of delivery the seller shall deliver to the purchaser a copy of Appendix C, and shall execute and deliver to the purchaser and to the Office of Price Administration the certification regarding these operations required by § 1360.52 (c), (2) when delivery was made, on or before March 15, 1943, the automobile shall have received, either the operations set forth in Appendix C, or all of the services customarily performed in order to prepare the automobile for delivery to the purchaser and all of the factory recommended get-ready and delivery operations. However, where the automobile being sold is one kept in a customary sales room on display for sale, or is a demonstrator, the handling and delivery charges may be included without the performance of the operations in Appendix C.

2. Section 1360.52 (e) (2) is amended to read as follows:

(2) Increment may be included without the performance of the maintenance operations in Appendix B for any period that the automobile is kept in a customary sales room on display for sale, or is used as a demonstrator.

3. Section 1360.52 (e) (3) is revoked.

4. In § 1360.52 (e) paragraphs (4) and (5) and redesignated (3) and (4), respectively.

5. Section 1360.52b is revoked.

6. Section 1360.52 (f) is amended by inserting the phrase "to the purchaser" immediately following the words "the certification in paragraph (b) of § 1360.52c, and" and before the words, "the invoice or bill of sale required by § 1360.52d".

7. Section 1360.59 (g) is amended to read as follows:

(g) "New passenger automobile" means a 1942 model automobile which has not been used for any purpose other than the purpose of sale. This definition includes, among others, 1942 model year cars used as demonstrators, but does not include dealer company owned or dealer executive cars.

This amendment shall become effective July 10, 1944.

Issued this 10th day of July 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C,[1] Amdt. 134]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. Section 1394.7751 (a) (3) is amended to read as follows:

(3) One or more gasoline deposit certificates issued pursuant to § 1394.8006 (b), § 1394.7755 (b) or § 1394.7805 (d).

2. Sections 1394.7755 (b) is amended to read as follows:

(b) The Board shall remove and cancel all coupons in Class D books in excess of the number to be issued hereunder. If it is necessary for the applicant to receive bulk transfers of gasoline and if he meets the requirements of § 1394.8006 in regard to bulk transfers, or, if the applicant is a government, government agency or government subdivision and if it is entitled to acquire gasoline upon a delayed settlement basis in the manner provided in § 1394.8153a, the Board may issue one or more gasoline deposit certificates. The Board shall first determine the type, number and the earliest renewal date of the ration coupons to which the applicant is entitled; it shall then issue a gasoline deposit certificate or certificates to the extent requested by the applicant, in an amount equal to the gallonage value of the coupons to which the applicant is entitled in lieu of which gasoline deposit certificates are issued.

At the time of issuance of any gasoline deposit certificate, the Board shall note upon the application for a gasoline ration the earliest renewal date of the ration and the serial number and gallonage value of gasoline deposit certificates issued. Each gasoline deposit certificate issued shall contain the designation of the issuing Board, the signature of the issuing officer, the name and address of the applicant, the gallonage, in words and numerals, for which the certificate is issued, the type of ration or rations issued in the form of gasoline deposit certificates, and the gallonage of each such type.

3. In § 1394.7805 (d) the fourth and fifth sentences are deleted and the following sentences are added:

However, if it is necessary for the applicant to receive bulk transfers of gasoline and if he meets the requirements of § 1394.8006, in regard to bulk transfers, or if the applicant is entitled to acquire gasoline upon a delayed settlement basis in the manner provided in § 1394.8153a, the Board may issue one or more gasoline deposit certificates to provide all or any part of the gallonage allowed.

At the time of issuance of any gasoline deposit certificate, the Board shall note upon the application for a gasoline ration the expiration date of the ration and the serial number and gallonage value of gasoline deposit certificates issued. Each gasoline deposit certificate issued shall contain the designation of the issuing Board, the signature of the issuing officer, the name and address of the applicant, the gallonage, in words and numerals, for which the certificate is issued, the type of ration or rations issued in the form of gasoline deposit certificates, and the gallonage of each such type.

4. Section 1394.8152 is amended by inserting after the phrase "Except as provided in § 1394.8153," the reference "§ 1394.8153a".

5. Section 1394.8153a is added to read as follows:

§ 1394.8153a *Transfers to certain fleet operators on a delayed settlement basis.*—(a) *General.* This section provides for transfers of gasoline to operators of fleets of official or commercial motor vehicles on a delayed settlement basis (that is, without the surrender of ration evidences at the time of transfer). Transfers to such fleet operators on a delayed settlement basis may be made only if the conditions set forth in this section are met and the procedures provided are followed. When used in this section, the term "fleet operator" means the operator of a fleet of official or commercial motor vehicles.

(b) *Fleet operators eligible to receive transfers on a delayed settlement basis.* Any person (including a government, government agency, or government subdivision) who operates a fleet of official or commercial motor vehicles may acquire gasoline on a delayed settlement basis if he meets all the following tests:

(1) He acquires 960 gallons of gasoline or more per month for use with official or commercial motor vehicles and maintains a ration bank account pursuant to § 1394.8206a:

(2) He regularly acquires gasoline by direct transfer into the motor vehicle of his fleet on monetary credit, as permitted by Directive 62, issued by Petroleum Administration for War; and

(3) He advises the District Office having jurisdiction over the area where his principal place of business is located, in writing, the name and address of each place of business of a dealer or distributor from whom he will acquire gasoline upon a delayed settlement basis pursuant to this section and the average amount of gasoline he expects to acquire each week from such person upon this basis. Such fleet operator shall also furnish to every dealer and distributor so designated two signed copies of this letter of designation for each designated place of business.

(c) *Conditions of making the transfer.* A dealer or distributor properly designated pursuant to paragraph (b) of this section by the operator of a fleet of official or commercial motor vehicles may transfer gasoline on a delayed settlement basis from his place of business so designated to that fleet operator, and that fleet operator may acquire gasoline on such basis from such place of business, only if the gasoline is sold on monetary credit and is transferred directly into the fuel tank of a unit of that operator's fleet which bears a clearly discernible official or fleet name, identification or designation. The transfer may be made to and accepted by the agent or employee of the fleet operator. However, a dealer or distributor who knows or has reason to know that any fleet operator is in default upon any obligation to make settlement in the manner provided in paragraph (f) of this section shall not transfer gasoline to that fleet operator, pursuant to this section, while such default continues.

(d) *Procedure at time of transfer.* The fleet operator, his agent or employee accepting the transfer, shall make out in triplicate a delivery receipt (supplied by the fleet operator). He shall give the original and the duplicate copy to the supplier at the time of transfer. He shall retain the triplicate copy. The delivery receipt shall contain:

(1) The name and address of the supplier;

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 1364, 1675, 2134, 2132, 6048, 6897, 7100, 7436, 7942, 8948, 9899; 8 F.R. 1450, 2040, 8213, 13726, 16289; 9 F.R. 1663, 2562, 6829.

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 15937.

(2) The quantity of gasoline transferred;

(3) The date and place of delivery;

(4) The name and address of the fleet operator;

(5) The signature of the person accepting the transfer of gasoline and executing the delivery receipt; and

(6) The signature of the supplier or the person acting for the supplier.

(e) *Billing for ration evidences owed.* Within the calendar week in which he makes any transfer of gasoline pursuant to this section, each dealer and distributor shall forward to the fleet operator a statement of the total gallonage of ration evidences owed, accompanied by the original delivery receipts.

(f) *Settlement.* Within the week following the calendar week in which he acquires gasoline pursuant to this section every fleet operator shall issue to his supplier a ration check for the number of gallons owed by him to that supplier. A fleet operator who fails to receive such a statement and original delivery receipts within a reasonable time after the calendar week in which such transfer was made shall immediately notify in writing the District Office having jurisdiction over the area where his principal place of business is located, stating all relevant facts and shall forward his ration check to his supplier for the gallonage of ration credits shown to be owing by his copies of the delivery receipts issued. A supplier who fails to receive a ration check in payment of a statement within two weeks after such statement was forwarded pursuant to paragraph (e) of this section, shall notify the District Office having jurisdiction over the area where his place of business is located, stating all the relevant facts.

(g) *Records to be kept and reports to be made by fleet operators.* (1) Delivery receipts shall be furnished by fleet operators for use as provided in paragraph (d) of this section and shall be securely bound in pads and serially numbered. A set of delivery receipts for use in a single transaction shall consist of an original, plainly marked "original", a first copy, plainly marked "duplicate", and a second copy, plainly marked "triplicate", all of which shall bear the same serial number. The fleet operator shall audit all pads of delivery receipts distributed to his agents and employees at least once each month. He shall report promptly to the District Office having jurisdiction over the area where his principal place of business is located the serial numbers of all delivery receipts improperly detached from the pads, the name and address of the employee or agent who had custody of the pad during the period in which they were detached, and all other known circumstances.

(2) Every fleet operator who acquires gasoline on a delayed settlement basis shall maintain for one year a copy of all statements and original delivery receipts received pursuant to paragraph (e) of this section, together with a record of the dates and amounts of ration checks issued in settlement thereof. He shall also keep the triplicate copy of each delivery receipt issued until he receives the statement and original delivery receipt for the transaction.

(3) Every fleet operator who has designated a dealer or distributor for the purpose of making transfers of gasoline upon a delayed settlement basis in the manner provided in subparagraph (3) of paragraph (b) of this section shall promptly notify the District Director having jurisdiction over the area where his place of business is located of the termination of an arrangement made with any such dealer or distributor pursuant to this section.

(h) *Records to be kept and reports to be made by suppliers.* (1) Every dealer or distributor who transfers gasoline pursuant to this section shall maintain for one year:

(i) The duplicate copy of the delivery receipt accepted in each such transaction;

(ii) A copy of each statement forwarded to fleet operators pursuant to paragraph (e) of this section; and

(iii) A record, which may consist of a notation on the duplicate copy of the delivery receipt, of the date on which a statement was submitted pursuant to paragraph (e), and the date on which a ration check was received.

(2) Every dealer and distributor shall keep at the designated place of business one copy of each of the letters of designation received by him pursuant to the provisions of subparagraph (3) of paragraph (b) of this section during the period in which he makes deliveries of gasoline upon a delayed settlement basis and for one year after the termination of the arrangement for the transfer of gasoline by him pursuant to such letter and this section.

(3) Every dealer or distributor who has been designated in the manner provided in subparagraph (3) of paragraph (b) of this section shall promptly notify the District Director having jurisdiction over the area where his place of business is located of the termination of an arrangement made with any fleet operator for the transfer of gasoline to him pursuant to this section.

6. Section 1394.8184 is added to read as follows:

§ 1394.8184 *Acquisition of gasoline in excess of evidences on hand.* No person may acquire gasoline in exchange for coupons, a ration check or other evidences to be surrendered at a later date, unless such person has on hand, at the time of transfer, credits in a ration bank account, coupons or other evidences sufficient in gallonage value to equal the total quantities of gasoline so acquired or previously so acquired and for which coupons, ration checks or other evidences have not been surrendered.

7. Section 1394.8206a (e) is amended to read as follows:

(e) Every consumer who acquires 960 gallons of gasoline, or more, per month by bulk transfer and to whom a Board has issued one or more gasoline deposit certificates in the manner provided in § 1394.8006, and every consumer who acquires 960 gallons of gasoline or more per month and to whom a Board has issued one or more gasoline deposit certificates in the manner provided in § 1394.7755 (b) or § 1394.7805 (d), shall open at least one account, in the manner provided in General Ration Order No. 3a. Any such bulk consumer may open a separate account for each of his establishments or for any group of his establishments to which bulk deliveries of gasoline are made. Any such consumer, who receives a gasoline deposit certificate pursuant to § 1394.7755 (b) or § 1394.7805 (d), may open a separate account for each of his establishments or for any group of establishments from which payment for gasoline is made. However, no additional account may be opened for an establishment for which a distributor's account is maintained.

8. Section 1394.8206b (f) is added to read as follows:

(f) Every operator of a fleet of official or commercial motor vehicles who is not a distributor and to whom a Board has issued one or more gasoline deposit certificates in the manner provided in § 1394.7755 (b) or § 1394.7805 (d) shall, immediately after receiving his ration from the Board, deposit all such gasoline deposit certificates in his account. Such a fleet operator shall not deposit coupons issued to him by the Board as a ration.

9. Section 1394.8206c (a) is amended by substituting a comma for the final period and by adding the following phrase: "*Provided, however*, That a ration check may be issued in exchange for a transfer of gasoline made directly into the fuel tank of a motor vehicle only as provided in § 1394.8153a."

10. Section 1394.8217 (a) (1) is amended by inserting after the reference "§ 1394.8153 (c) (1) (i), (ii) and (iii)", a comma and the phrase "transfers made upon a delayed settlement basis in the manner provided in § 1394.8153a for which ration check is not yet due or, if ration check is past due, have been reported in the manner provided in § 1394.8153a (f),".

11. Section 1394.8218 (d) (1) is amended to read as follows:

(1) Any shortage of gasoline deposit certificates, ration credits, coupons or other evidences for which the distributor may be able to account by reason of:

(i) Theft;

(ii) Unavoidable loss;

(iii) Absentee transfers of gasoline pursuant to § 1394.8209;

(iv) Transfers made under the conditions enumerated in § 1394.8153 (c) (1) (i), (ii) and (iii);

(v) Coupons or other evidences which have been surrendered by him for transfers of gasoline made to him by consumers, dealers or intermediate distributors;

(vi) Transfers made upon a delayed settlement basis in the manner provided in § 1394.8153a for which ration check is not yet due or, if ration check is past due, have been reported in the manner provided in § 1394.8153a (f); or

(vii) Other extraordinary circumstances.

12. Section 1394.8225 is amended to read as follows:

§ 1394.8225 *What constitutes storage capacity.* (a) The storage capacity of any dealer, intermediate distributor or an applicant for registration as a dealer or intermediate distributor is the maximum quantity of gasoline which he may acquire and have on hand at any one time. When the maximum allowable inventory of any dealer, or intermediate distributor has been fixed by the District Director or a designee of the District Director in the manner provided in paragraph (b) of this section, the amount so fixed shall constitute his storage capacity. In the event no maximum allowable inventory has been fixed for a dealer, or intermediate distributor or an applicant, the storage capacity of such person shall be:

(1) The number of gallons of gasoline which may be contained in his immobile storage tanks (excluding the capacity of his tank trucks, tank wagons, drums or other movable containers); or,

(2) If such person has no immobile storage facilities, then the number of gallons of gasoline which may be contained in all his delivery facilities.

(b) A dealer or an intermediate distributor properly designated pursuant to § 1394.8153a (b) to transfer gasoline to fleet operators on a delayed settlement basis and who, for that purpose, needs an allowable inventory in excess of that provided in subparagraphs (1) and (2) of paragraph (a) of this section, may apply for an increased maximum allowable inventory. Such an application shall be filed with the Board having jurisdiction over the area where applicant's place of business is situated, shall be in writing and shall state:

(1) His present registered storage capacity;

(2) The amount of gasoline, gasoline deposit certificates and ration evidences on hand;

(3) The average amount of gasoline he transfers each week;

(4) The average amount of gasoline he expects to transfer each week on a delayed settlement basis, and

(5) The amount of the increase in allowable inventory he estimates to be necessary for the purpose.

The applicant shall submit with his application one copy of each of the designations received by him pursuant to § 1394.8153a (b) and Part A of his certificate of registration. The Board shall forward the application, together with copies of the designations submitted, and Part A and Part B of the applicant's registration certificate to the District Director of that District or his designee.

If the District Director or any person designated by him to consider such application determines that the applicant needs additional allowable inventory to make such transfers upon a delayed settlement basis, he shall increase the applicant's storage capacity in such manner as will provide the additional allowable inventory which he determines to be necessary for this purpose. However, the amount of such increase shall not exceed three times the average number of gallons of gasoline the applicant expects to transfer on a delayed settlement basis each week. The District Director or his designee shall deduct from the storage capacity so determined, the gallonage value of any shortage of gasoline or ration evidences which the applicant is unable to explain in the manner provided in § 1394.8217 (a) (1) and (3).

The District Director or his designee shall notify the applicant and the Board of the action taken upon the application and, if the application is granted, the applicant shall reregister as for a change of storage capacity.

In the event a District Director or any person designated by him for that purpose determines that a dealer or intermediate distributor no longer needs all or any part of the additional allowable inventory granted to him, such District Director or his designee may decrease the storage capacity of such dealer or intermediate distributor by the amount of the additional allowable inventory granted and no longer needed. The District Director or his designee shall notify such dealer or intermediate distributor and the Board of the action taken and such dealer or intermediate distributor shall reregister as for a change of storage capacity.

This amendment shall become effective July 14, 1944.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C[1], Amdt. 135]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respect:

1. In § 1394.7551 (a) (10) the final sentence is amended to read as follows:

The term shall include coupons, checks, acknowledgments of delivery, gasoline purchase permits, inventory coupons, export certificates on Form OPA R-560, and gasoline deposit certificates when issued to a dealer in lieu of inventory coupons.

2. In § 1394.7551 (a) (54) the following sentence is added at the end thereof:

Gasoline deposit certificates are also valid as a ration evidence which may be surrendered by dealers in exchange for a transfer of gasoline when such certificates are issued by a Board in lieu of inventory coupons.

3. Section 1394.8019 is added to read as follows:

§ 1394.8019 *Issuance of gasoline deposit certificates in lieu of inventory coupons.* (a) Notwithstanding any other provisions of Ration Order No. 5C, on and after July 15, 1944, whenever a Board is authorized to issue to a dealer inventory coupons, it shall issue to the dealer in lieu thereof one or more gasoline deposit certificates. The person issuing such a gasoline deposit certificate to a dealer shall strike out with ink and initial the following language on such certificates (Form OPA R-568: "This certificate is valid only for deposit in the ration bank account of the person to whom issued." He shall note upon Part B of the registration certificate of the dealer, the serial number and gallonage value of any gasoline deposit certificate issued and the date of issuance.

(b) A gasoline deposit certificate issued to a dealer pursuant to paragraph (a) of this section shall only be surrendered by a dealer to a distributor in exchange for a transfer of gasoline. Any gasoline deposit certificate may be returned by the dealer at any time to the issuing Board, or for good cause shown to any Board, and surrendered to such Board in exchange for any number of such certificates whose total gallonage value equals the gallonage value of the certificate surrendered.

4. Section 1394.8206b (a) (17) is added to read as follows:

(17) After July 24, 1944, any inventory coupon.

5. Section 1394.8206b (c) is amended by substituting for the first sentence the following two sentences:

A distributor shall deposit any gasoline deposit certificates issued to him or received by him from a dealer in exchange for a transfer of gasoline, and he may, at any time, deposit all or any part of the coupons or other evidences received by him from a Board as a ration whether or not he has used the gasoline for which the coupons or other evidences were issued. Before depositing any gasoline deposit certificate, the distributor shall endorse thereon his name and address.

6. Section 1394.8207 (a) (1) is amended by substituting for the section number "1394.8206" the section number "1394.-8228", and by deleting the period at the end of the paragraph and adding thereto the following: "and that transfers of gasoline may be made only in exchange for gasoline deposit certificates surrendered to a distributor by a dealer which bear, as an endorsement, the name and address of the dealer and the date on which such transfer is made."

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 15937.

7. Section 1394.8207 (h) is added to read as follows:

(h) On and after July 15, 1944, no distributor shall transfer or offer to transfer gasoline to any dealer and no dealer shall accept a transfer of gasoline from any distributor in exchange for inventory coupons.

8. Section 1394.8215 (k) is added to read as follows:

(k) (1) On and after July 15, 1944, no gasoline may be transferred to or accepted by a dealer in exchange for inventory coupons. Immediately upon the close of business on July 14, 1944, each dealer who has in his possession or control inventory coupons which were issued to him by a Board shall attach such coupons to gummed sheets (Form OPA R–120) to which no other coupons are attached. He shall summarize such coupons on a summary form (Form OPA R–541) on which no other coupons are listed. On or before July 24, 1944, each dealer shall surrender such coupons and summary to the Board having jurisdiction over the area in which his place of business is located. The Board shall issue to the dealer in exchange for such coupons one or more gasoline deposit certificates having a gallonage value equal to the gallonage value of the inventory coupons so surrendered. However, the Board shall not issue deposit certificates having a gallonage value in excess of the total gallonage value of the inventory coupons validly issued to such dealer before July 15, 1944. The Board shall, at the time it issues any gasoline deposit certificates to a dealer, strike out with ink and initial the following language on such certificates: "This certificate is valid only for deposit in the Ration bank account of the person to whom it is issued."

(2) On or before July 24, 1944, each distributor who has in his possession or control any inventory coupons which he received in exchange for gasoline transferred to a dealer before July 15, 1944, shall deposit such inventory coupons in a ration bank account maintained by him. No inventory coupons shall be valid for any purpose after July 24, 1944.

9. Section 1394.8228 (a) is amended by inserting as an introductory phrase in the first sentence: "Except as provided in § 1394.8215 (k).".

10. Section 1394.8228 (c) is added to read as follows:

(c) Every dealer shall retain all gasoline deposit certificates issued to him in lieu of inventory coupons at the place of business for which they were issued, and shall not exchange such certificates except when the amount of consumer coupons or other evidences available is not equal to the amount of the delivery.

This amendment shall become effective July 15, 1944.

(Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89, 421, 507, 77th Cong.; WPB Dir. No. 1, Supp. Dir. No. 1Q, 7 F.R. 562, 9121; E.O. 9125, 7 F.R. 2719)

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[Rev. RO 11,[1] Amdt. 15]

FUEL OIL

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 11 is amended in the following respects:

1. Section 1394.5407 (a) and (c) is amended by substituting for the figures "1943–1944" wherever they appear, the word "specified".

2. Section 1394.5407 (d) is amended to read as follows:

(d) After determining the allowable ration, the Board shall issue coupons or a fuel oil deposit certificate in the manner provided in § 1394.5325 or § 1394.5367, whichever is applicable.

3. Thermal Subzone 20 in Table I in § 1394.5851 (a) is amended by substituting for the phrase, "Nassau, Putnam, St. Johns, Sumter," the phrase "Orange, Nassau, Putnam, St. Johns, Seminole, Sumter,"

4. Thermal Subzone 21 in Table I in § 1394.5851 (a) is amended by deleting the word "Orange," and the phrase "and Seminole", and by inserting the word "and" before the word "Sarasota".

5. Subzone 20 in Table IC in § 1394.-5851 (d) is amended by substituting for the phrase, "Nassau, Putnam, St. Johns, Sumter," the phrase "Orange, Nassau, Putnam, St. Johns, Seminole, Sumter".

6. Subzone 21 in Table IC in § 1394.-5851 (d) is amended by deleting the words "Orange" and "Seminole".

This amendment shall become effective on July 14, 1944.

PART 1420—BREWERY, DISTILLERY AND WINERY PRODUCTS

[MPR 445,[2] Amdt. 16]

DISTILLED SPIRITS AND WINES

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 445 is amended in the following respects:

1. Section 1.2 (b) (6) is amended to read as follows:

(6) Material information contained on their labels in accordance with the United States labeling laws or regulations applicable to each. Age, proof, alcohol content, type designation, vintage, ingredients and formulae, as stated on the labels, shall be deemed material information. However, items of imported blended Scotch whisky which contained age statements on their labels, for which maximum prices were established under this regulation prior to July 15, 1944 shall not be considered different items from those which do not contain age statements if their brand names, countries of origin, names of their processors, container sizes, formulae and the material information (except the age) stated on the labels is the same.

2. Section 1.2 (d) (3) is hereby revoked.

3. The first paragraph of the note immediately following section 1.5 (a) (2) (ii) is amended to read as follows:

Note: One item shall be considered of the same type designation as another only if both items are within the same classification and subclassification of identity under applicable United States labeling laws and regulations, and only if the following matters as stated on the label thereof are identical: Proof, age (except as provided in section 1.2 (b) (6)), vintage, alcohol content, country of origin, and container size.

4. Section 2.2 (b) (3) is hereby revoked.

5. Section 3.3 (d) (3) is hereby revoked.

6. Appendix E is amended by adding thereto paragraph (a) (6) to read as follows:

(6) Any processor of domestic whiskey who has established a March 1942 maximum price or a converted March 1942 maximum price for his sales of items under a particular brand name and who permits any other processor to use that brand name for items of domestic whiskey, except pursuant to license contract in effect during March 1942 or any renewal thereof, shall as of the date the first such item is sold or offered for sale by such other processor, be required to establish a prescribed uniform maximum price under this Appendix for his own sales of domestic whiskey under that brand name.

7. Section 4.2 (c) (3) is hereby revoked.

8. Section 4.2 (j) is added to read as follows:

(j) Any processor of California grape wine who has established a March 1942 maximum price or an adjusted or converted March 1942 maximum price for his sales of items under a particular brand name and who permits any other processor to use that brand name for items of California grape wine, except pursuant to license contract in effect during March 1942 or any renewal thereof, shall as of the date the first such item is sold or offered for sale by such other processor, be required to establish an alternate maximum price under section 4.5 (1) (i) (*a*) or (*b*) (as may be appropriate) for his own sales of California grape wine under that brand name.

9. Section 4.7 (a) is amended to read as follows:

(a) He shall select as the base container size for purposes of conversion the largest of the following container sizes in which he sold or offered the brand for sale during March 1942 to a customer of the particular class. If the largest size was a one-gallon or one-half gallon size, he shall use the larger of those sizes when making a conversion to a gallon or half-gallon size, but for any other conversion he may use the largest size less than the gallon or half-gallon size. If the processor has been authorized pursuant to section 4.9 to establish a special maximum price for the brand to customers of the particular class, he shall select as the base container size for purposes of conversion, the largest of the following container sizes for which such special maximum price has been authorized to customers of that class.

10. Section 4.7 (c) is added to read as follows:

(c) *For a change from any container size shown herein to a container size not shown herein varying in content by not more than 2.6 ounces.* A processor who has established a maximum price for a brand in a container size shown in this section and who desires to convert his maximum price for the same in a new container size not shown herein shall do so as follows:

(1) He shall select the container size listed in this paragraph which is not more than 2.6 ounces larger or not more than 2.6 ounces smaller in size than the new container size which he desires to price, and deduct the amount of any state or local excise taxes and the amount of any California state marketing order assessment from his maximum price for the container size selected.

(2) He shall deduct the following amount according to the container size selected:

Container size:	*Deduct per case*
32 oz.—(quarts)	$1.50
25.6 oz.—(fifths)	1.50
16 oz.—(pints)	2.10
12.8 oz.—(tenths)	2.10
8 oz.—(half-pints)	2.85

(3) He shall then reduce or increase the resulting amount by the proportion (stated as a fraction) which the container size selected bears to the new container size.

(4) He shall then add to the result so obtained the amount deducted under (2).

(5) The resulting figure at (4) is the processor's corresponding maximum price for the new container size per case to a customer of the same class.

11. Section 4.7 (d) is added to read as follows:

(d) All maximum prices computed under subparagraph (c) immediately above are prices exclusive of any state or local excise taxes and the California marketing order assessment. Such state and local excise taxes and assessment (if applicable) may be added to a corresponding maximum price as provided in sections 4.2 (g) and (h).

12. Section 5.2 (b) (3) is amended to read as follows:

(3) The names of their processors, except with respect to items of domestic distilled spirits, or

13. Section 5.2 (b) (5) is amended to read as follows:

(5) Requirements of United States labeling laws or regulations applicable to each with respect to material information contained in their labels. Age, proof, alcohol content, type designation, vintage, ingredients and formulae, as stated on the labels, shall be deemed material information. However, items of imported blended Scotch whisky which contained age statements on their labels, for which maximum prices were established under this regulation prior to _____ shall not be considered different items from those which do not contain age statements if their brand names, countries of origin, names of their processors, container sizes, formulae and the material information (except the age) stated on the labels is the same. "Bottled in bond" domestic whiskey shall be deemed to be four years of age where no age statement appears on the labels.

14. Section 5.2 (d) (3) is hereby revoked.

15. Section 5.3 (b) (1) (i) is amended to read as follows:

(i) Excepting any discount for prompt payment (cash discount) or interest on an advance payment; but

16. Section 5.4 (b) (4) to but not including subdivision (i) is amended to read as follows:

(4) *For sales to another wholesaler.* A wholesaler's maximum price per case to another wholesaler shall be his maximum price per case provided in (1) above for sales of the particular container size to retailers, subject to any discount, allowance or price differential agreed upon: *Provided*, That the selling wholesaler may not charge or receive any amount in excess of his own net cost unless he shall, at or before delivery of the item, give the buyer a notice in writing stating the seller's maximum price per case for the item to retailers and to consumers. A statement on the invoice substantially as follows shall be deemed compliance with this requirement:

Our ceiling prices per case to retailers for the above items are:

Item:	*Maximum price*
_____	_____
_____	_____
_____	_____

Our ceiling prices per case to consumers for the above items are:

Item:	*Maximum price*
_____	_____
_____	_____
_____	_____

A wholesaler's maximum price per case to any class of customers for an item purchased by him from another wholesaler shall not exceed the higher of

17. Section 5.6 (b) (8) is added to read as follows:

(8) A monopoly state who is the owner of bulk domestic whiskey or bulk California grape wine and who bottles or causes the same to be bottled under any brand name shall in computing its maximum price use as the supplier's price the appropriate processor's prescribed uniform maximum price to wholesalers and monopoly states determined under Appendix E if the item to be priced is domestic whiskey or the alternate maximum price under section 4.5 (c) (1) (i) (*a*) and (*b*) (as may be appropriate) if the item to be priced is California grape wine.

18. Section 7.8b is added to read as set forth below and a headnote for section 7.8b is added in numerical order to the list of sections in sections 1.10, 2.6, 3.6, 4.11, and 5.9, respectively:

SEC. 7.8b. *Interest on advance payments.* If a seller directly or indirectly requires a buyer to make any payment in advance of delivery (whether to the seller or to another person) the seller must compensate the buyer by payment of an amount equal to interest at the rate of 5% per annum on the amount of the advance payment from the date the advance payment is made to the date on which the item is delivered or the advance payment is refunded to the buyer. The interest shall be payable on the date of delivery of the item or the date on which the advance payment is refunded. The seller may not increase his maximum price by reason of the interest payment and the buyer shall not be required to reduce his supplier's price (as an element in the computation of his net cost) by the amount of the interest received on the advance payment.

19. Section 7.12 (b) (1) is amended to read as follows:

(1) "Importer" means any person who is the first consignee within the continental United States of a commodity being imported for resale, holding an importer's permit issued under the provisions of the Federal Alcohol Administration Act. However, a monopoly State shall be deemed an importer with respect to those items of which it is the first consignee within the continental United States irrespective of whether it holds an importer's permit.

20. Section 7.12 (b) (2) (ii) is amended to read as follows:

(ii) Bottles or causes to be bottled under any brand name distilled spirits or wines belonging to him, or who

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Navy

PART 6—REGULATIONS FOR SECURITY OF PORTS AND THE CONTROL OF VESSELS IN THE NAVIGABLE WATERS OF THE UNITED STATES

MISCELLANEOUS AMENDMENTS

Pursuant to the authority contained in section 1, Title II, of the Espionage Act, approved June 15, 1917, 40 Stat. 220, as amended by the Act of November 15, 1941, 55 Stat. 763 (U.S.C. Title 50, sec. 191, 191a), and by virtue of the proclamation and Executive order issued June 27, 1940 (5 F.R. 2419), and November 1, 1941 (6 F.R. 5581) respectively, the regulations relating to the control of vessels in the navigable waters of the United States, are hereby amended as follows:

Sections 6.1–1 to 6.1–27, inclusive, are amended to read as follows:

§ 6.1–1 *Kennebec River at or near Bath, Maine.* (a) Vessels may anchor within the following specified limits only:

(1) To the northward of a line, bearing 54° and extending from a point on Passmore's wharf in prolongation with the north side of Commerce Street in Bath, Maine, to a point on the shore in Woolwich, approximately 1,200 feet north of the Maine Central Railroad wharf.

(2) To the southward of a line drawn from the derrick on the Bath Iron Works wharf to Sassanoa Point, in Woolwich.

(b) Vessels in the North anchorage must be so anchored as to leave a clear fairway of 150 feet channelward of the established harbor lines at Bath, and a clear fairway 200 feet from the east, or Woolwich shore, for the passage of steamers, tows, rafts, and other water craft.

(c) The launching of any vessel into the waters between the anchorage limits thus defined or the bringing up of such vessels by their anchor shall be permitted: *Provided*, That the vessels so launched shall be removed therefrom within 12 hours from the time of anchorage.

§ 6.1–15 *Portland, Maine*—(a) *The anchorage area*—(1) *Anchorage A.* This anchorage is the area included within lines drawn between the following points:

(i) The eastern corner of Grand Trunk Ry. Co. pier No. 3;
(ii) 1,700 yards 90° true from point (i) to Buoy No. 16;
(iii) 350 yards 330° true from point (ii);
(iv) 780 yards 25° true from point (iii);
(v) 750 yards 303° true from point (iv);
(vi) 560 yards 254° true from point (v);
(vii) 750 yards 186° true from point (vi);
Thence to point (i).

(2) *Anchorage B.* This anchorage is bounded as follows:

A line starting from Nun Buoy N 16 (this is 1,700 yards 90° from NE corner of Grank Trunk Pier No. 3) 58° true to Little Diamond Island, the southwestern shore of Little Diamond Island to the pier on the southern end of Little Diamond Island; thence 1,200 yards 143° true, thence 270° true to House Island Light; thence along the western shore of House Island, thence to Fort Scammel Light; thence 1,620 yards 329° true to point of beginning. This anchorage is intended for general purposes, but especially for use by oil tankers, and other large deep draft ships, entering harbor at night, intending to proceed to the dock allotted at daylight the following morning, or as soon as practicable. Vessels must be so anchored in this area as to leave at all times an open usable channel at least 100 feet wide, for passage of ferry and other boats between Portland, Peak Island, and Bay Points. This area is also to be used for quarantine anchorage. Any vessel anchored in this area shall be ready to move on short notice when ordered by the Captain of the Port upon finding by him that such movement is necessary in the interest of safety or the commerce of the United States.

(3) *Anchorage C.* This anchorage is bounded on the northwest by House Island; on the north by a line drawn 90° from House Island Light to Peak Island; on the east by the western shore of Peak Island south of this anchorage's northern limit, by a line 198° true from the westernmost point on Peak Island to Cushing Island, and the shore of Cushing Island to its westernmost point; on the southwest by a line drawn from the westernmost point on Cushing Island to Fort Scammel Light.

NOTE: This anchorage is intended for use only by small vessels and for temporary anchorage.

(4) *Anchorage D.* Located southerly and westerly on a line extending 35° true from Lighthouse Channel Buoy No. 1 to White Anchorage Buoy E., thence turning at an angle and running 145° true to the mainland.

NOTE: This anchorage is for use only by small yachts and pleasure craft, and small light-draft coastwise freighters.

§ 6.1–7 *Rockland, Maine*—(a) *The anchorage area*—(1) *Anchorage A.* (General anchorages for merchant vessels over one hundred (100) feet) begins at a point "a" bearing 158° true, 1,075 yards from Rockland Breakwater Light; thence bearing 255° true a distance of 2,000 yards from point "a" to point "b" which bears 225° true from Rockland Breakwater Light; thence bearing 345° true a distance of 700 yards from point "b" to point "c" which bears 244° true from Rockland Breakwater Light; thence bearing 75° true a distance of 1,200 yards to a point "d" which bears 222° from Rockland Breakwater Light; thence bearing 120° true a distance of 1,000 yards to the point of beginning at "a" which bears 158° true from Rockland Breakwater Light.

(2) *Anchorage B.* (General anchorage for merchant vessels over one hundred (100) feet) begins at a point "a" bearing 273° true 400 yards from Rockland Breakwater Light; thence bearing 273° true a distance of 700 yards from point "a" to point "b" which bears 273° from Rockland Breakwater Light; thence bearing 349° true a distance of 850 yards from point "b" to a point "c" which bears 305° from Rockland Breakwater Light; thence bearing 89° true a distance of 700 yards from point "c" to a point "d" which bears 328° from Rockland Breakwater Light; thence bearing 169° a distance of 900 yards from point "d" to point of beginning "a" which bears 273° true from Rockland Breakwater Light.

(3) *Anchorage C.* (For small commercial and pleasure craft) begins at a point "a" bearing 244° a distance of 1715 yards from Rockland Breakwater Light; thence bearing 260° a distance of 490 yards from point "a" to a point "b" which bears 248° from Rockland Breakwater Light; thence bearing 350° true a distance of 580 yards from point "b" to a point "c" which bears 263° true from Rockland Breakwater Light; thence bearing 83° true a distance of 480 yards from point "c" to a point "d" which bears 263° from Rockland Breakwater Light; thence bearing 169° a distance of 550 yards from point "d" to point of beginning "a" which bears 244° from Rockland Breakwater Light.

(b) *The regulations.* (1) All vessels entering or leaving Rockland Harbor shall pass by the boarding boat off end of the breakwater and identify themselves. A distance of approximately five hundred (500) yards shall be left between anchorages "A" and "B" for vessels entering or departing the Port of Rockland. Any vessel not anchoring in these areas shall be ready to move on short notice when ordered to do so by the Captain of the Port upon finding by him that such movement is necessary to the commerce of the United States.

(2) All other vessels within the Rockland Harbor area are prohibited from anchoring within three hundred (300) yards or operating within one hundred (100) feet of any Navy Yard, Shipbuilding Plant, Power Plant, Oil Terminal, Marine Terminal, Munitions Plant, Military or Naval Arsenal or Depot, Warehouse, or Freight Pier without permission from the Captain of the Port, Rockland, Maine, or his authorized representative.

§ 6.1–10 *Anchorage for vessels without lights.* The following areas are designated as special anchorage areas wherein vessels not more than sixty-five feet in length, when at anchor, shall not be required to carry or exhibit anchor lights.

(a) *Beal's Cove, Harpswell Harbor, and Basin Cove, at Harpswell, Maine*—(1) *Beal's Cove anchorage, at Harpswell, Maine.* The entire cove as defined by the shore line and a line across the entrance bearing 215° true and tangent to the shore on the north side.

(2) *Harpswell Harbor anchorage, at Harpswell, Maine.* The entire area lying westerly of a line having a bearing of 8° true from the eastern extremity of Stover's Point to the point of land at the northerly end of the harbor, said point of land bearing approximately 275° true from the observatory on Orr Island.

(3) *Basin Cove anchorage, at Harpswell, Maine.* All of the area lying northeasterly of a line having a bearing of 350° true from the northwest corner of the entrance to the cove.

(b) *Portsmouth Harbor, New Hampshire.* Southeasterly of a line bearing 74°30' true from the northeasterly extremity of Goat Island: southerly of a line bearing 89°30' true and passing through a point 100 feet due north of the northern extremity of Salamander Point; southwesterly of a line bearing 300° true from Portsmouth Harbor Light; northwesterly of a line bearing 215°30' true from the southwest corner of Frisbee Wharf; and northerly of the shore line.

(c) *Newburyport Harbor, Massachusetts; special anchorage.* Eastward of a line from the northeast corner of the American Yacht Club property bearing due north to a point about 900 feet, 237° from South Pier; southward of a line bearing 70° to a point 310 feet, 212° from South Pier; southward of a line bearing 70° to a point 310 feet 212° from South Pier, said line extending easterly to a point about 600 feet due south of North Pier; westward of a line bearing due south from North Pier to the shoreline, said line extending easterly to a point about 600 feet due south of North Pier; westward of a line bearing due south from North Pier to the shoreline.

(d) *Beverly Harbor, Massachusetts; special anchorage area.* West of a line bearing 315° from a point 60 yards, 0°, off the northerly corner of the Salem Willows Municipal Pier, and passing through a point on a line bearing 90° from Monument Bar Beacon; south of the line bearing 90° from Monument Bar Beacon; east of a line bearing 180° from Monument Bar Beacon and passing through a point on a line bearing 278° from the northerly end of the Salem Willows Yacht Club House; north of the line bearing 278° from the northerly end of the Salem Willows Yacht Club House; and west of a line running from the northerly end of the Salem Willows Yacht Club house to the starting point 60 yards, 0°, from the northerly corner of the Salem Willows Municipal Pier. (See 33 CFR 202.8)

(e) *Plymouth Harbor, Massachusetts.* Southeasterly of a line having a bearing of 39° true from Splitting Knife front range light; southwesterly of a line having a bearing 123° true from a point on the southeast face of the State Pier, 40 feet from the northeast corner (intersection of the northeast and southeast faces produced) of said pier; westerly of a line having a bearing of 356° true from the northeast corner of the Pilgrim Yacht Club wharf; and northeasterly of the shore line.

(f) *Beverly Creek, Massachusetts.* All of the area upstream of the highway bridge (Popes Bridge) outside of the dredged channel.

(g) *Onset Bay, Massachusetts.* Northerly of a line joining the northernmost point of Onset Island and the easternmost point of Wickets Island; easterly of a line joining the easternmost point of Wickets Island and the southwest extremity of Point Independence; southerly of the shore line; and westerly of the shore line and a line bearing due north from the northernmost point of Onset Island.

(h) *Lynn Harbor, Massachusetts.* North of a line bearing 244° true from the tower of the Metropolitan District Building, extending from the shore to a point 100 feet from the east limit of the channel; east of a line bearing 358° true, extending thence to a point 100 feet east of the northeast corner of the turning basin; south of a line bearing 88° true, extending thence to the shore; and south and west to the shore line to its intersection with the south boundary.

(i) *Salem Harbor, Massachusetts.* That part of the harbor lying southwesterly of a line starting from the eastern extremity of Long Point and bearing 116° true to a point bearing 20° true from the beacon southeast of Pickering Point; thence bearing 160° true to a point bearing 47° true from the aforesaid beacon; thence bearing 99° to the shore; provided that boats shall anchor so as not to obstruct the dredged channel and basin to the Dion Boat Yard.

(j) *Parker River, Massachusetts.* That portion of the river extending about 3,800 feet downstream from the highway bridge on Route IA; provided that boats shall anchor in such a manner as to leave a clear approach to the bridge at

(a) *Obstruction area.* The area bounded by a line beginning on the western shore of Aquidneck Island at a point in approximate latitude 41°36'44" N., longitude 71°16'23" W., marked by the front target at the northern end of the U. S. Naval measured nautical mile Trial Course, and running 810 yards 295° true, thence 1 mile 205° true, thence 1070 yards 115° true to a point on the western shore of Aquidneck Island, thence northerly along the mean high water-mark of Aquidneck Island to point of beginning.

(b) *The regulations.* All vessels are warned to navigate well clear of the above described obstruction area.

Enforcing Officer: Commandant, Naval Operating Base, Newport, and such agencies as he may designate.

§ 6.1–170 *Rhode Island, Narragansett Bay.* A danger zone comprising a torpedo-testing range and a prohibited area in Narragansett Bay has been established as follows:

(a) *Restricted area.* (1) The torpedo Testing Range comprises all of the waters within the area bounded by a line drawn from the east shore of Conanicut Island at latitude 41°31'00" N. to latitude 41°31'00" N., longitude 71°20'48" W., thence to latitude 41°31'45" N., longitude 71°20'09" W., thence to latitude 41°33'56" N., longitude 71°19'30" W., thence in a 346° true direction to the shore of Prudence Island, thence along the south and west shores of Prudence Island and Patience Island to Northwest Point, thence in a 177° true direction tangent to the east shore of Conanicut Island and along the east shore of Conanicut Island to the point of origin.

(2) The prohibited area, which overlaps the torpedo testing range, is bound by a line drawn from latitude 41°32'17" N., longitude 71°20'32" W., to latitude 41°37'17" N., longitude 71°20'32" W., to latitude 41°37'17" N., longitude 71°21'03" W., thence to latitude 41°37'15" N., longitude 71°21'26" W., thence to a point on the north shore of Hope Island at latitude 41°36'22" N., longitude 71°22'00" W., thence eastward, southward, and southwestward along the mean high-water line of Hope Island to latitude 41°36'00" N., longitude 71°22'03" W., thence to a point on the northeast shore of Conanicut Island at latitude 41°34'18" N., longitude 71°22'00" W., thence southeastward and southward along the mean highwater line of Conanicut Island to latitude 41°33'15" N., longitude 71°21'39" W., thence to latitude 41°32'14" N., longitude 71°20'58" W., and thence to the point of origin.

(b) *The regulations.* (1) No vessel shall, at any time, under any circumstances, anchor, fish, or tow a drag of any kind in the prohibited area because of the extensive cable system located there.

(2) Anchoring in the torpedo testing range outside the prohibited area is forbidden except in cases of great emergency and vessels anchoring there under such conditions shall move out of the area as soon as possible.

(3) The danger zone shall be given a wide berth when possible in order to avoid danger from running torpedoes, damage to range installations, or interference with range operations.

(4) The danger zone may, in case of necessity, be entered under the following conditions:

(i) Vessels proceeding to or from the Naval Air Station, Quonset Point, the Advanced Base Depot, or other points in the western part of Narragansett Bay may pass between Conanicut Island and Gould Island:

When firing is in progress. (a) In case of major vessels making this passage, firing will be suspended on the approach of such vessels to the danger zone or on request to the Proof Officer, Firing Pier, Gould Island.

(b) In the case of minor vessels, they must proceed with caution, avoid torpedoes, and observe orders of craft patrolling the zone, which are identified by a square red flag.

When firing is not in progress. (a) Vessels may make this passage without special precautions, except that diving tenders with divers down shall be given a wide berth and passed at slow speed.

(b) Other than as specified in (i) above, vessels shall not enter the danger zone while firing is in progress except by special arrangement through the Proof Officer, Firing Pier, Gould Island, or through the Officer in Charge, Magnetic Range, if entering for operations on the Magnetic Range.

(5) The following signals shall be displayed from the Firing Pier at the north end of Gould Island to indicate that torpedo firing is in progress:

By day—A large red flag
By night—An all-around green light.

Torpedo firing may be expected at any time of the day or night, Sundays and holidays included.

(6) When torpedo firing is in progress, a patrol boat shall be kept in readiness and shall give timely warning to vessels approaching the danger zone and shall issue necessary orders and instructions regarding navigating the danger zone. Craft patrolling the danger zone shall fly or expose a square red flag.

(7) Orders and instructions issued by patrol craft or other authorized representatives of the enforcing agency must be promptly carried out by vessels in, or in the vicinity of, the danger zone. The following emergency signals shall be employed by patrolling aircraft.

(a) Emergency, stop and wait instructions—Plane lands in front of offending vessel and drops smoke float directly ahead of her.

(b) Emergency, torpedo heading toward you, maneuver to avoid—Plane zooms over the vessel in danger.

(8) Nothing in these regulations shall prevent the setting of fish traps outside the prohibited area under the permits granted by the War Department, nor shall the passage of fishing vessels to and from authorized traps be unreasonably interfered with or restricted.

Enforcing Officer: Commandant, United States Naval Operating Base, Newport, and such agencies as he may designate.

§ 6.1–175 *Block Island Sound, restricted area, fishing area; regulations.* A restricted area and a fish trap area has been established in Block Island Sound.

(a) *Restricted area.* The area bounded by a line beginning at Montauk Point Lighthouse (latitude 41°04'18" N., longitude 71°51'24" W.) and running thence to a point on the southern shore of Rhode Island at Weekapaug Point in latitude 41°19'30" N., longitude 71°45'10" W., thence easterly along the mean high watermark of the shore of Rhode Island to a point at Charleston Inlet (latitude 41°21'18" N., longitude 71°38'24" W.), thence to Block Island North Light (latitude 41°13'42" N., longitude 71°34'36" W.), thence southerly along the mean high watermark of the western shore of Block Island to a point on the Southwest Point (latitude 41°08'38" N., longitude 71°36'00" W.), and thence to the point of beginning.

Fish Trap area. The area bounded by a line beginning at a point 865 yards 242° true from the outer breakwater light at Great Salt Pond Entrance, and thence running 1715 yards 242° true, thence 1000 yards 189°30', thence 2000 yards 57° true, and thence to 0° true to the point of beginning.

(b) *The regulations.* Within the above described restricted and fish trap areas the following is prohibited at any time:

(1) Anchoring, loitering, or maneuvering unnecessarily.

(2) Fishing in any manner, including dragging, trawling, purse seining, and line fishing, except that, within the above described fish trap area only, fish traps may be installed and maintained under the supervision of the appropriate U. S. Naval and Coast Guard authorities.

(3) Vessels engaged in serving fish traps as permitted above will moor to the fish traps. No vessels are permitted to anchor.

Enforcing Officer: Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–132 *Cape Cod, Massachusetts, Race Point and Peaked Hill Bar; danger area—*(a) *The area.* The area is bounded by a line drawn from a point on the beach in latitude 42°03'06" N., longitude 70°13'30" W., thence in the direction 0° true to latitude 42°04'24" N., thence in the direction 46° true to a point in latitude 42°06'00" N., longitude 70°13'40" W., thence in the direction 90° true to longitude 70°08' W., thence in the direction of 180° true to a point on the shore line in latitude 42°04'18" N., longitude 70°08' W.

The outer limits and certain intermediate points of this area will be well marked by buoys, the establishment of which will be published in Notices to Mariners.

(b) *The regulations.* All vessels are prohibited from entering the above described danger area and are warned that to do so may cause loss of vessel and personnel. The enforcing officer shall be the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–137 *Buzzards Bay, Massachusetts, Northeasterly of Weepecket Island; prohibited area—*(a) *The area.* bounded by the circumference of a circle of 1,000 yards radius centered on a rock northeasterly of Weepecket Island, in latitude 41°31'06" N., longitude 70°44'06" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–138 *Buzzards Bay, Massachusetts, Gull Island; prohibited area—*(a) *The area.* The area bounded by the circumference of a circle of 1,000 yards radius centered on Gull Island in latitude 41°26'46" N., longitude 70°54'26" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–142 *Nantucket Sound, Massachusetts, Dogfish Bar Breakwater; prohibited area—*(a) *The area.* An area bounded by the circumference of a circle of 1000 yards radius centered on the breakwater at the east end of Dogfish Bar, in latitude 41°38'18" N., longitude 70°10'36" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time, except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–143 *Nantucket Sound, Massachusetts, Succonnesset Point; restricted area—*(a) *The area.* The area bounded by the circumference of a circle of 1000 yards radius centered on Succonnesset Point in latitude 41°33'06" N., longitude 70°30'00" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time, except as authorized by the enforcing agency, or as hereinafter provided.

(2) The foregoing area may be entered under the following conditions:

(i) Vessels desiring to proceed through the passage between Succonnesset Shoal and Succonnesset Point may do so before 8:30 a. m. and after 5:00 p. m. daily.

(ii) Vessels proceeding as permitted above shall proceed without delay until clear of the restricted area.

(3) Within the foregoing restricted area the following is prohibited at any time:

(i) Anchoring, loitering or maneuvering unnecessarily.

(ii) Fishing in any manner, including dragging, trawling, purse seining, and line fishing, netting of any form, or the setting or servicing of fish traps or lobster pots.

§ 6.1–144 *Nantucket Sound, Massachusetts, Chappiquiddick Island, Cape Poge—*(a) *The area.* The area in Nantucket Sound bounded by the circumference of a circle of 900 yards radius centered on Cape Poge in latitude 41°24'30" N., longitude 70°27'12" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–147 *Vineyard Sound and Quick's Hole, Massachusetts, Nashawena Island; prohibited area—*(a) *The area.* The area bounded by the circumference of a circle of 900 yards radius centered on Nashowena Island in latitude 41°26'00" N., longitude 70°51'00" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–157 *Narragansett Bay, Rhode Island, Ohio Ledge; prohibited area—*(a) *The area.* The area bounded by the circumference of a circle of 900 yards radius centered on Ohio Ledge in latiture 41°41'00" N., longitude 71°19'30" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

§ 6.1–162 *Block Island Sound, Rhode Island, Fisher's Island Sound, Little Narragansett Bay, Napatree Point; prohibited area—*(a) *The area.* The area bounded by the circumference of 900 yards radius centered on Napatree Point in latitude 41°18'24" N., longitude 71°53'06" W.

(b) *The regulations.* (1) No vessel shall enter or remain in the foregoing area at any time except as authorized by the enforcing agency.

(2) These regulations shall be enforced by the Commandant, First Naval District, and such agencies as he may designate.

Amend § 6.3–5 (a), (e), and (f) to read as follows:

§ 6.3–5 *Long Island Sound, New York—*(a) *Anchorage No. 1.* Southwestward of a line, between Neptune Island and Glen Island, ranging from the fixed red light on Aunt Phebe Rock and tangent to the north edge of Glen Island; southwestward of a line tangent to the northeast edges of Glen Island and Goose Island breakwater; southwestward of a line bearing southeasterly from the southwest end of Goose Island breakwater and on range with the south gable of the Casino on the northeast end of Glen Island; westward of a line ranging from the east edge of the said breakwater to the west edge of the north end of Hart Island; and to the northwestward of a line extending from Hart Island Light, southeast corner of Hart Island to Locust Point. Boats shall not anchor in this area in buoyed channels and must be so anchored as to leave at all times an open, usable channel, at least 50 feet wide, west and south of Glen Island. Special anchorage areas within Anchorage No. 1, wherein vessels not more than 65 feet in length, when at anchor, shall not be required to carry or exhibit anchor lights:

(1) *Eastchester Bay, New York; anchorage at City Island.* The portion of Anchorage No. 1 west of City Island and within the following limits: Northward of a line ranging 244° true from the Duryea Pier at the foot of City Island Avenue to City Island Shoal Buoy "2" (latitude 40°50'01" N., longitude 73°47'25" W.), thence northeastward of a line ranging 329° true from City Island Shoal Buoy "2" through the Rodman Neck Shoal Buoy (HB) latitude 40°50'46" N., longitude 73°48'01" W.), southeastward of a line ranging 205° true from the east abutment of the City Island Bridge through the south tower of the Bronx-Whitestone Bridge; and southward of a line ranging 90° true from the Pelham War Memorial in Pelham Bay Park and the steeple of the church at the southeast corner of Elizabeth Street and City Island Avenue.

(2) *Anchorage along west shore.* The portion of Anchorage No. 1 along the west shore of Eastchester Bay north of and including Weir Creek, shoreward of a line ranging 349° true from the end of the timber pier at the foot of Pope Place, Edgewater, and through the transmission tower at the northeast side of the draw of the New York, New Haven and Hartford Railroad Bridge over Eastchester Creek, and having as its northerly limit the line ranging 79° true through the row of telephone poles along the north side of Watt Avenue.

(3) *New Rochelle Harbor; Travers Island Creek.* The portion of Anchorage No. 1 lying between Hog Island, Travers Island, Neptune Island, and Glen Island and the mainland to the westward of a line extending from the cupola at the southeast extremity of Glend Island to the easternmost extremity of Hog Island and to the northeastward of a line extending from the southwest extremity of Hog Island to the southeast corner of Travers Island; except, that no vessel shall anchor without lights within 25 feet of the 50-foot channel west and south of Glen Island.

(4) *Goose Island Anchorage.* The portion of Anchorage No. 1 between Glen Island and Goose Island breakwater, northward of a line extending from the northwest end of Goose Island breakwater to the cupola at the north end of the bathing beach on Glen Island.

* * * * * *

(e) *Anchorage No. 3.* To the northeastward of a line from the south side of Barker Point to Gangway Rock Bell Buoy "27", southeastward of a line from gangway Rock Bell Buoy "27" to Sands Point Reef Buoy "25", and southwestward of a line from Sands Point Reef Lighted Buoy "25" through Sands Point Light to Sands Point.

(f) *Anchorage No. 4.* In Manhasset Bay and to the northeastward of a line ranging from Stepping Stones Lighted Bell Buoy "31" through Elm Point Buoy "2" to Elm Point; southeastward of a line ranging from Stepping Stones Lighted Bell Buoy "31" to Gangway Rock Bell Buoy "27", and southwestward of Anchorage No. 3. Special anchorage areas within Anchorage No. 4 wherein vessels not more than 65 feet in length, when at anchor, shall not be required to carry or exhibit anchor lights:

MANHASSET BAY, NEW YORK

(1) *South anchorage at Port Washington.* The portion of Anchorage No. 4 northward of latitude 40°49'06" N., eastward of a line ranging 346° true from the flagpole on the end of the Whitney Dock at Plandome to the flag-

pole on the Columbia Yacht Club Pier at Manorhaven; and southward of a line (latitude 40°49'21" N.,) ranging due east to the flagpole on the dock of the Port Washington Yacht Club.

(2) *North anchorage at Port Washington.* The portion of Anchorage No. 4 northward of a line (latitude 40°49'28" N.), ranging due west from the southwest corner of the boat sheds on the Purdy Boat Company pier at Port Washington; eastward of a line ranging 346° true from the flagpole on the end of the Whitney Dock at Plandome to the flagpole on the pier of the Columbia Yacht Club at Manorhaven; southeastward of a line ranging 53° true to the cupola of the old Sands Point schoolhouse at Port Washington; and southward of a line (latitude 40°49'51" N.,) ranging due east to the weather vane of the Port Washington Junior High School: *Except*, That no vessel shall anchor without lights within 100 feet of the buoyed eastward channel leading to the town dock at Port Washington and to Mill Pond.

(3) *Anchorage at Manorhaven.* The portion of Anchorage No. 4, westward of a line (longitude 73°42'53" W.) ranging due south from the end of the town of North Hempstead Pier at Manorhaven; northward of a line ranging 233° true from the intersection between the shore and the northerly line of Corchang Avenue (extended) on Tom Point to Plum Point Shoal Buoy No. 3 (latitude 40°49'48" N., longitude 73°43'25" W.); and eastward of the line (longitude 73°43'17" N.) ranging due north to the east side of the pier of Yacht Service, Inc., on the Copp Estate at Manorhaven.

Amend § 6.3–15 by amending paragraphs (b), (e), (f), and by adding paragraph (g) as follows:

§ 6.3–15 *Hudson River, New York.*
* * *

(b) *Anchorage No. 17.* North of a line bearing 66° true and ranging between the south face of the building known as Ben Marden's Riviera, north of George Washington Bridge at Fort Lee, New Jersey, and the Bell Tower of the Cloisters at Fort Tryon Park, Manhattan; west of lines bearing 29° true from Anchorage Buoy "A" (latitude 40°51'34" N., longitude 73°56'54" W.) to Anchorage Buoy "B" (latitude 40°52'27" N., longitude 73°56'15" W.); thence 20° true to Anchorage Buoy "C" (latitude 40°54'17" N., longitude 73°55'23" W.); thence 15° true to a point on a line bearing 113° true and ranging from the southeast corner of Lambier's Dock at Palisades Interstate Park to the southwest corner of the main building of the Orphan Asylum, Riverdale, New York; thence eastward 300 yards on a line bearing 113° true to Anchorage Buoy "D" (latitude 40°54'42" N., longitude 73°55'02" W.); thence 12° true to Anchorage Buoy "G" (latitude 40°57'02" N., longitude 73°54'24" W.); thence 18° true to Anchorage Buoy "H" (latitude 40°57'46" N., longitude 73°54'05" W.); thence 13° true to Anchorage Buoy "I" (latitude 40°59'53" N., longitude 73°53'26" W.); and thence 9° true to Anchorage Buoy "J" (latitude 41°01'01" N., longitude 73°53'12" W.); and to the south of a line bearing 91° true and ranging from the Sparkill Dock Light on the southeast corner of an abandoned pier extending from the New Jersey shore through Anchorage Buoy "J" to the chimney of the Methodist Publishing House at Dobbs Ferry, New York: *Provided*, That in order to give free passage for ferryboats, no vessel shall anchor within 300 yards of either side of the line of the Yonkers to Alpine, New Jersey, ferry, as marked by Anchorage Buoys "E" and "F".

(1) Subject to the provisions for naval anchorage No. 19, the Captain of the Port may shift the position of, or clear the area of, any vessel so moored as to obstruct the use of this area for additional anchorage of naval vessels when found necessary.

* * * * *

(e) *Anchorage No. 19.* To the northward of a line bearing 299° true and ranging from the north side of West 70th Street, Manhattan, prolonged to the bulkhead, to the northeast corner of West Shore R. R. Pier No. 11A, Guttenberg, New Jersey; to the eastward of a line bearing 29° true from a point 560 yards from the bulkhead on the Manhattan shore on a line bearing 299° true and ranging from the north side of West 70th Street, Manhattan, prolonged, to the northeast corner of West Shore R. R. Pier No. 11A, Guttenberg, New Jersey, to a point 425 yards from the northwest corner of the 134th St. Pier, Manhattan, on a line bearing 317° true from said pier corner, thence 24° true on a line ranging to a point 120 yards due west of Jeffreys Hook Light; and to the southward of a line 500 feet south of the south side of the Washington Bridge and parallel thereto: *Provided*, That in order to give free passage for ferry boats, no vessel shall anchor within a limit of 300 yards on either side of the line of the West 125th St., Manhattan, to Edgewater, N. J., ferry.

(1) In the discretion of the Captain of the Port, small commercial or pleasure vessels may anchor in this area shoreward of a line extending from the channelward end of the New York Central Railroad pier at the foot of West 70th Street to the channelward end of the pier at the foot of West 129th St.; and shoreward of the pierhead line as established by the Secretary of War, between West 134th St., and a prolongation of the bridge over the New York Central Railroad tracks located 1,000 feet south of the George Washington Bridge.

(2) The Captain of the Port may grant permission for one stake boat to occupy an area in the westerly 200-yard portion of the naval anchorage.

(3) The Captain of the Port may permit limited temporary anchorage, not to exceed 24 hours, of commercial vessels awaiting berths in the westerly portion of the naval anchorage south of West 135th Street when use of the anchorage by naval vessels will permit.

(4) The established anchorages for naval vessels having been found inadequate at times when large numbers of them are in the harbor a numbered series of anchorages is defined and established as shown on Key Chart No. 1 and Key Chart No. 2 (not published herein) in order that when a necessity for additional anchorages arises, permission may be given naval vessels to anchor at designated points serially numbered from 2 to 40 for capital ships, from 100 to 129 for intermediate ships, from 213 to 399 for destroyers and small craft, and from 508 to 611 for the anchorage of destroyers and small craft on the east side of the river, when the space is not required for capital or intermediate ships. Berths 16 to 19, 546, 547, and 551 to 555, are for use only on occasions when the other numbered berths available are not sufficient for the accommodation of the naval ships present. The Captain of the Port, on request from the proper naval authorities, may grant permission to occupy the numbered anchorages outside of, or extending outside of, naval anchorage No. 19, provided those specified in the request can be made available, commercial conditions at the time being given proper consideration. If, in his opinion, there are reasons why the anchorage or anchorages asked for should not be assigned, he will confer with the naval officers making the request, and if other numbers can be agreed upon, will authorize their use; otherwise he will communicate the request to the Secretary of the Navy with a statement of the circumstances and with his recommendation.

(5) Whenever this area is required for the anchoring of Naval vessels, it shall be immediately cleared of commercial vessels by the Captain of the Port upon request of the appropriate Naval authority.

(f) *Emergency Temporary Convoy Quarantine Anchorage.* To the northward of a line bearing 117.5° true and ranging from the southeast corner of West Shore R.R. Pier No. 1, Weehawken, N. J., to the southwest corner of U. S. Naval Pier 92, Manhattan; to the westward of a line bearing 29° true from a point 475 yards from the southeast corner of West Shore R.R. Pier No. 1, Weehawken, N. J., on a line bearing 117.5° true, to a point 570 yards from the northwest corner of the 134th St. Pier, Manhattan, on a line bearing 317° true from said pier corner, thence 24° true on a line ranging to a point 250 yards due west of Jeffreys Hook Light; and to the southward of a line 500 feet south of the southside of the George Washington Bridge and parallel thereto: *Provided*, That in order to give free passage for ferry boats, no vessel shall anchor within a limit of 300 yards on either side of the line of the West 125th Street, Manhattan, to Edgewater, N. J., ferry.

(g) The following areas in the Hudson River are designed as special anchorage area wherein vessels not more than 65 feet in length, when at anchor, shall not be required to carry or exhibit anchor lights:

(1) *Yonkers, New York.* Northward of a line on range with the footbridge across the New York Central Railroad Company tracks at the southerly end of Greystone Station, eastward of a line on range with the square red brick chimney west of the New York Central Railroad Company tracks at Hastings-on-Hudson and the easterly yellow brick chimney of the Elenwood power house of the Yonkers Electric Light and Power Company, and southward of a line on range with the first New York Central Railroad Company signal bridge north of the Yonkers Yacht Club.

(2) *Hastings-on-Hudson, New York.* Northward of a line on range with the northerly face of the club house of the Tower Ridge Yacht Club, eastward of a line on range with the elevated tank of the Anaconda Wire and Cable Company and the channelward face of the northerly building on the waterfront of the said company's property, and southward of a line on range with the first footbridge across the New York Central Railroad Company tracks, north of the Tower Ridge Yacht Club.

Amend § 6.3–20 (a), (b), (c), (d), and (e) to read as follows:

§ 6.3–20 *Upper Bay Anchorages*—(a) *Anchorage No. 20.* Within an area lying northeast of Ellis Island; to the east of a line bearing 51° true and ranging from the northwest corner of Ellis Island to the end of Central Railroad of New Jersey Pier No. 7; to the south of a line bearing 96° true and ranging from the southeast corner of Central Railroad of New Jersey Pier No. 11 to the outer end of the Staten Island Ferry Rack on the Manhattan shore; to the west of a line bearing 174° true and ranging from the southeast corner of Lehigh Valley Railroad Pier A to Main Channel Lighted Bell Buoy "31A" (latitude 40°41'40" N., longitude 74°01'50" W.); and to the north of a line bearing 85° true and ranging from the southeast corner of the northerly half of Ellis Island to the outer end of the Staten Island Ferry Rack on the Manhattan shore.

(b) *Anchorage No. 20–A.* To the southward of a line bearing 102° true from the southeast corner of the southerly half of Ellis Island through Main Channel Lighted Bell Buoy "31A" (latitude 40°41'40" N., longitude 74°01'50" W.); to Governors Island Light; to the westward of a line bearing 206° true through Main Channel Lighted Bell Buoy "31A", Main Channel Lighted Bell Buoy "31", Main Channel Lighted Bell Buoy "29", and the southeast corner of Pier No. 9, Tompkinsville, Staten Island; to the northward of a line ranging 313° true from Main Channel Lighted Bell Buoy "29" through Claremont Terminal Buoy "2" to the northeast corner of Caven Point Pier; to the eastward of a line bearing 204.5° true from the northwest corner of the anchorage limits and passing through the easterly end of the East landing pier on Bedloe's Island to the southern channel line leading to the National Docks at Black Tom, and thence westerly 200 yards along said southern channel line, thence 204.5° true to the northern 18-foot channel line leading to Caven Point Pier; thence easterly along said northern channel line to a line bearing 204.5° true and ranging between the easterly end of the east landing pier on Bedloe's Island, through Bayonne Terminal Lighted Buoy "1", Robbins Reef Lighted Gong Buoy "27" and Coast Guard Depot North Dock Light, Staten Island.

(c) *Anchorage No. 20–B.* To the south of a line bearing 127° true from the southeast corner of Pennsylvania R. R. Pier "B", Greenville Terminal, to the center of the south pier of the Bethlehem Steel Co. Drydock, Brooklyn, N. Y.; to the westward of a line bearing 206° from Main Channel Lighted Bell Buoy "99" to the southeast corner of Pier No. 9, Tompkinsville, Staten Island; to the north of a line bearing 121° true and ranging from New Jersey Pierhead Channel North Entrance Buoy "15" to the northwest corner of Pier 3, Brooklyn, New York; to the eastward of a line bearing 204.5° true from the easterly end of the east landing pier on Bedloe's Island, through Bayonne Terminal Lighted Buoy "1", Robbins Reef Lighted Gong Buoy "27" and Coast Guard Depot North Dock Light, St. George, Staten Island.

(d) *Explosive anchorage.* The portion of Anchorages 20–A and 20–B located south of the south line of the channel leading to the National Docks at Black Tom, is designated as an explosive anchorage. The Captain of the Port may authorize the use of this explosive anchorage by vessels loading or discharging explosives and when laden with explosives when he finds that the interests of commerce and national war effort will be promoted thereby and that the interest of safety will not be prejudiced thereby. No vessel shall occupy this anchorage without a permit from the Captain of the Port.

(1) No vessel shall anchor between Ellis Island and the piers of the Central Railroad of New Jersey, or in the dredged channel approaches to this space, or the piers and wharves of the railroad, or in the dredged channel approaches to the National Docks at Black Tom Island, to Bedloe's Island, to the Greenville, Claremont and Bayonne Terminals, or in the New Jersey Pierhead Channel, or near the entrances to said channels so as to obstruct the approaches or interfere in any way with the free navigation of the same. The portion of Anchorage 20–A, north of the channel leading to the National Docks at Black Tom Island, and Anchorage No. 20–B, are set aside as temporary anchorages for vessels arriving in and leaving port. No vessel shall occupy these anchorages for a longer period than 72 hours unless a permit is obtained from the Captain of the Port for that purpose.

(e) *Anchorage No. 21.* To the southward of a line passing through Claremont Terminal Lighted Buoy "1", the easterly anchorage Buoy "A", and the middle point of the west front of the New York Dock Company Pier #41 (Merchants Stores); to the eastward of a line bearing 208° true and ranging from Governors Island Extension Light through Gowanus Flats Lighted Bell Buoy "30", Gowanus Flats Lighted Bell Buoy "28", Gowanus Flats Lighted Bell Buoy "26", to Gowanus Flats Lighted Bell Buoy "24", thence 173° true to Gowanus Flats Lighted Bell Buoy "22" (latitude 40°38'06" N., longitude 74°03'01" W.), to the northward of a line bearing 90° true from the northeast corner of Pier 8, Stapleton, S. I., through Gowanus Flats Lighted Bell Buoy "22" to Bay Ridge Channel Lighted Bell Buoy "1" (latitude 40°38'06" N., longitude 74°02'47" W.); to the westward of a line bearing 23.5° true from Bay Ridge Channel Lighted Bell Buoy "1" to Bay Ridge Channel Lighted Bell Buoy "3"; thence along the westward edges of the dredged Bay Ridge and Red Hook channels as marked by channel and anchorage buoys.

Amend § 6.3–71, paragraph (a) to read as follows:

§ 6.3–71 *Execution Rock Anchorage in Long Island Sound, New York*—(a) *The anchorage area.* Ships may anchor to the westward of Execution Rock and to the northwestward of a line bearing 33.5° true and ranging from southeast corner of Hart Island Light to Execution Rock Light, thence true north; to the southward of a line bearing 87.5° true ranging from chimney on Davenport Neck through Emerald Rock Buoy (HB); to the eastward of a line bearing 28° true from northwest corner of Hart Island to an intersection point of a line due east of ventilator on Huckleberry Island, thence due north.

Amend § 6.5–3 (a)–(1) by adding the following:

§ 6.5–3 *Annapolis Harbor, Maryland.*
(a) * * *
(1) * * *

NOTE: The following described portion of North Anchorage is designated as a yacht anchorage, to accommodate simultaneously five large yachts and twelve 30-ft. WL yawls:

From mast on Naval Academy Sea Wall 81° true, 250 yards; thence 119° true, 260 yards; thence 205° true, 280 yards; thence 263° true, 675 yards; thence 39° true, 252 yards to point of beginning. Anchor lights are not required.

Add the following sections to Subpart C:

§ 6.5–7 *Restricted Area in Chesapeake Bay in the vicinity of Kent Island (Bloody Point Bar Light)*—(a) *The areas*—(1) *Area A.* Starting at point A located 1500 yards 140° true from Bloody Point Bar Light, thence 3800 yards 349° true to point B, thence 2600 yards 259° true to point C; thence 3800 yards 169° true to point D; thence 2600 yards 79° true to point A.

(2) *Area B.* Starting at point A located 1500 yards 140° true from Bloody Point Bar Light, thence 3800 yards 349° true to point B; thence 2600 yards 259° true to point C; thence 5800 yards 192° true to point E; thence 2000 yards 107° true to point F; thence 4000 yards 41° true to point A.

Points C, E, and F will be marked by lighted buoys.

(b) *The regulations.* (1) No vessel or other craft, except Naval vessels or craft engaged in conducting tests, shall enter or remain in Area A at any time except as provided in subparagraph (3).

(2) No vessel or other craft, except Naval vessels or craft engaged in conducting tests, shall enter or remain in Area B at any time when a red flag or shape by day or a red light by night is displayed on a barge which will be moored bow and stern at a point 2000 yards 333° true from Bloody Point Bar Light, or from any Naval vessel or craft operating in the area, except as provided in subparagraph (3). The signals in the foregoing will be in addition to signals prescribed in § 312.20 Inland and Pilot Rules.

(3) Vessels drawing thirty (30) feet or more may at any time make passage through that part of Area A and B lying between points C and E and a parallel line 800 yards easterly therefrom.

(4) These regulations shall be enforced by the Commandant, Fifth Naval District, through such officers and personnel as may be assigned thereto.

§ 6.5–8 *Restricted Area: Training area for the U. S. Atlantic Fleet, Amphibious Training Command, Cornfield Harbor, St. Mary's County, Maryland*—(a) *The area.* The water area at the mouth of the Potomac River enclosed by the following lines and the shoreline of Cornfield Harbor: A line drawn from the southern extremity of Point Lookout southward through Bell Buoy "2" reflector; thence due south for a distance of 3250 yards from said buoy, thence due west 3750 yards to Spar buoy "16AW"; thence in a northerly direction to Bell Buoy QK Flashing Red "A" south of Cornfield Point.

(b) *The regulations.* No oystering or fishing operations shall be conducted in this area nor shall vessels anchor therein. These regulations shall be enforced by the Commandant, Potomac River Naval Command, Captain of the Port, Washington, D. C., Commanding Officer, Amphibious Training Base, Solomons, Md., the Officer-in-Charge, Amphibious Training Activities, Cornfield Harbor, and such other agencies as the Commandant, PRNC, may designate.

Amend § 6.5–24 (c) to read as follows:

§ 6.5–24 *Prohibited and examination anchorage, Chesapeake Bay.* * * *

(c) Examination anchorage is described as follows: area bounded by lines joining:

Point "X" latitude 36°56'31" N. longitude 76°02'07" W.
Point "Y" latitude 36°56'28" N. longitude 76°01'33" W.
Point "Z" latitude 36°56'06" N. longitude 76°02'02" W.

Amend § 6.5–25 (a) (10) by adding the following notes:

§ 6.5–25 *Hampton Roads and the Harbors of Norfolk and Newport News, Virginia.* (a) * * *

(10) * * *

NOTE 1. See Note 2 under Anchorage B above.

NOTE 2. The following area located within anchorage G is designated as an anchorage for explosive-laden vessels. Beginning at a point located at the southeastern boundary of anchorage G, marked by white Spar buoy "F" thence 233° true 575 yards; thence 327° true 1450 yards; thence 57° true 510 yards to northeastern boundary of anchorage G; thence 145° true 1390 yards to point of beginning.

Add the following sections to Subpart C:

§ 6.5–27 *Restricted Area off Naval Operating Base, Norfolk, Virginia*—(a) *The area.* Beginning at a point on the western shore line of the Naval Operating Base property, which point is 245° true, 1700 yards from the Clock Tower at the Naval Operating Base; thence 279° true 825 yards to the eastern edge of the Norfolk Harbor channel; thence along said eastern edge of Norfolk Harbor channel 4° true 1200 yards to a point; thence 99° true 875 yards to a point on the northwestern corner of the Naval Operating Base property; thence along the western shore line of the Naval Operating Base property; various courses and distances, to the point or place of beginning.

(b) *The regulations.* No commercial vessels, other than those bound to or leaving Naval Operating Base piers, may enter or cross the above described area.

Enforcing officer: Commanding Officer, Naval Operating Base, Norfolk, Virginia.

§ 6.5–28 *Middle River, Frog Mortar Creek, Maryland; prohibited area*—(a) *The area.* That water area of Frog Mortar Creek and connecting waters northward from a place on Wilson Point; latitude 39°18'35" N., longitude 76°24'40" W., to a place on Galloway Point; latitude 39°18'30" N., longitude 76°24'10" W.

(b) *The regulations.* (1) No vessel or craft of any description whatsoever, commercial or pleasure, whether self-propelled or not, shall be permitted to enter or remain within the area except as provided in (b) (2), (4).

(2) The area is open to navigation during sunrise to 0900 daily and 1600 to sunset daily except when Navy seaplanes are in operation, when no vessel or other craft shall enter or remain within the area.

(3) Naval operations of seaplanes will take place at intermittent periods, during which time the area will be patrolled under the direction of the Captain of the Port, Baltimore, Maryland or his duly authorized representative.

(4) The provisions herein shall not apply to U. S. Naval vessels.

§ 6.5–29 *Middle Creek, Maryland; prohibited area; Dark Head Creek*—(a) *The area.* That water area of Dark Head Creek and connecting waters northward from a place on Clark's Point, latitude 39°19'2" N., longitude 76°25'35" W., to a place on the east shore Dark Head Creek, latitude 39°19'2" N., longitude 76°25'30" W.

(b) *The regulations.* No vessel or craft of any description whatsoever, commercial or pleasure, whether self-propelled or not, may enter or operate within the prohibited area described in this section except upon the prior permission of and subject to the conditions prescribed by the Captain of the Port or his duly authorized representative. U. S. Naval vessels are hereby excepted from the above.

§ 6.9–47 *Waters of Lake Erie; aircraft firing zone, Erie, Pennsylvania*—(a) *The area.* (1) A sector of a circle with a radius of 7 miles centered about a shore gun position located approximately 500 feet east of the mouth of Four Mile Creek, and at latitude 42°09'32" and at longitude 80°01'40". The danger zone lies between the bearings 345° and 158°.

(b) *The regulations.* (1) No vessel or other craft shall enter or remain within the area at any time except as provided within paragraph (b) (2).

(2) Vessels having a length of 100 feet or more, proceeding in established lanes, may pass through the area at any time. An observation post will be maintained with a competent person stationed therein to observe the presence of any such vessels in the danger zones. The person in charge of the test firing will cause the cessation or postponement of such operations until such vessels have cleared the area. Vessels shall proceed on their normal course and shall not delay their progress.

(3) The fact that test firing will take place will be indicated by the displaying of a large red flag on shore while firing is in progress. No firing will be undertaken until it has been determined that there is visibility of at least 7 miles.

(4) These regulations shall be enforced by the Captain of the Port, Cleveland, Ohio.

§ 6.13–16 *Emergency Explosive Anchorages: Columbia River, Clatskanie (Beaver), Oregon; Beaver Ammunition Storage Point*—(a) *Anchorage A (Upstream).* Beginning at latitude 46°9'41" N., longitude 123°04'52" W., thence bearing 28° true on a line which intersects the Mayger Lighted Buoy westerly of Fisher Island, as relocated in USCG Notice to Mariners No. 49, dated 25 February, 1944, a distance of 600 feet; thence bearing 308° true a distance of 5,130 feet; thence bearing 220° true a distance of 1200 feet; thence bearing 121° true a distance of 5,370 feet, more or less, to the point of beginning.

(b) *Anchorage B (Downstream).* Beginning at the south end of the dike numbered 66.4 by the U. S. Army Engineers, which point is identical with the location of Light No. 819, as described in USCG Light List, Pacific Coast (1943), known as "Cathlamet Channel Dike South End"; thence bearing 78° true a distance of 6,300 feet, more or less, to the Washington shore of the Columbia River; thence bearing 168° true a distance of 600 feet; thence bearing 256°30' true a distance of 6,300 feet; thence bearing 352° true a distance of 825 feet, more or less, to the point of beginning.

NOTE: The above described areas do not constitute new explosive anchorages for loading explosives, but are intended solely for use in the event of imminent air raid, fire, or other catastrophe, wherein those vessels which may be explosive-laden could proceed to a safe anchorage.

§ 6.13–17 *Strait of Juan de Fuca, Washington: vicinity of Crescent Bay, Tongue Point, and Striped Peak*—(a) *The area.* An area extending 300 yards off shore along the beach between the meridians of 123°40'00" and 123°43'39" West longitude.

(b) *The regulations.* (1) All vessels, other than those being operated by the federal or state government on official business, are prohibited from entering said area except by special authority of the Commanding General, Harbor Defenses of Puget Sound.

(2) The regulations shall be enforced by the District Coast Guard Officer, Thirteenth Naval District, or his authorized representative.

TITLE 50—WILDLIFE

Chapter IV—Office of the Coordinator of Fisheries

[Order 1956; Area Coordinator's Gen. Direction H–1]

PART 401—PRODUCTION OF FISHERY COMMODITIES OR PRODUCTS

ALLOCATION OF HALIBUT WITHIN PORTS

Pursuant to Order No. 1956 of the Secretary of the Interior, issued June 13, 1944 (9 F.R. 6780), entitled "Allocation of halibut within ports," which is referred to hereinafter simply as "the order", and because it is deemed necessary to accomplish the purposes of the order, the following General Direction No. H–1 is issued:

§ 401.4 *Allocation of halibut within ports.* (a) In accordance with paragraph (g) of the order, schedules for the supervised allocation of halibut among dealers in certain ports, with the allocation to each dealer of a definite percentage of the total landings of halibut in the port, will be established by subsequent general directions. When such directions have been issued for any port, the purchases of halibut by each dealer in the port should, as nearly as is practicable, be such as to keep his total purchases for the season at all times approximately at the percentage allocation prescribed for him. The issuance of an allocation schedule direction for a port is not an assurance to any dealer that he will be allowed to purchase the named quota for the whole season; any percentage named is subject to reduction for any one of the several reasons as specified in the order.

(b) Each dealer shall keep accurate itemized records of all halibut purchased by him during the season from any source, showing for each purchase the poundage of halibut, and the name or number of the boat or other identification of the source, and showing the total purchases for the season. Records of all halibut purchases shall be posted within 48 hours after delivery date in a form readily available to the representative of the Area Coordinator. On request of the representative of the Area Coordinator, this record shall be produced for his inspection, and the dealer shall sign a statement showing the total halibut purchases by him from all sources during the season to the date of the statement, and certify to the truth of such statement as follows:

I certify that the above information is true to the best of my knowledge and belief, and that I am aware of the penalties for making a false statement as to any matter within the jurisdiction of the Secretary of the Interior under the Act of July 7, 1898, as amended, 18 U.S.C. 81.

(c) If upon such inspection it shall be found, from the dealer's records or other sources, that any dealer in a port where loads have not been individually directed by a representative of the Area Coordinator, has made total purchases considerably more than his prescribed percentage quota, or if at each of two or more successive inspections any such dealer shall be found to have made total purchases for the season appreciably more than his quota, such quota may be reduced appropriately by the Area Coordinator. Excess purchases made prior to the effective date of the order shall be balanced by reduced purchases thereafter as directed by the Area Coordinator or his representative.

(d) In accordance with paragraph (j) of the order, the Area Coordinator or his representative may direct the master of a halibut vessel arriving at a port to deliver his load to a particular dealer. In the absence of such a direction, the mas-

ter of the vessel must deliver its load to some dealer who has a valid permit and whose purchases, according to the information and belief of the master, conform to the approved allocation schedules in the manner described in the preceding paragraphs of this direction. Any delivery of halibut, or any acceptance of halibut, contrary to any such direction, or to the provisions of this paragraph, shall constitute a violation of this general direction and of the order.

(e) If a dealer refuses to accept and unload a halibut trip offered to him in accordance with this general direction, he must unload a vessel if offered to him on the next business day or forfeit the quantity of halibut on the latter trip which quantity shall be considered as received and credited to his percentage allotment. But no load shall be considered offered to the dealer on any particular day unless the vessel is at the dealer's dock ready for unloading by an hour in the afternoon recognized by custom in the port or indicated by reasonable consideration of all the circumstances as the hour when a dealer should be expected to receive and unload a halibut trip.

(f) Where a load of halibut is purchased by a dealer at one port and delivered to him at another, if delivery is made in a fishing vessel, and if only one of the two ports is operating under a percentage allocation schedule, the load shall be considered a part of the percentage assigned to the dealer at such port. The same result shall follow however delivery is made if resorted to for the purpose of evading the allocation schedule. If a load is bought in one allocation port and delivered in another port which is also an allocation port, it shall be computed as a part of the allotment of the dealer at one port or the other in the discretion of the Field Supervisor.

(g) This general direction shall become effective immediately; and purchases by permittees from the beginning of the season shall be included in the computation of landings to which the assigned percentages shall be applied, as provided by paragraph (n) of the order.

Issued this 3d day of July 1944.

V. J. SAMSON,
Area Coordinator, Area I.

QUOTA ON CERTAIN FISH ENLARGED

JULY 8, 1944.

The tariff-rate quota for the calendar year 1944 on certain fish dutiable under paragraph 717 (b), Tariff Act of 1930, as modified pursuant to the Canadian Trade Agreement, enlarged.

In accordance with the second proviso to item 717 (b) of Schedule II in the trade agreement with Canada (T. D. 49752), it has been ascertained that the average apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice), filleted, skinned, boned, sliced, or divided into portions, not specially provided for (except cod, haddock, hake, pollock, cusk, and rosefish), in the 3 years preceding 1944, calculated in the manner provided for in the cited agreement, was 121,404,386 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1944 at the reduced rate of duty provided for in that trade agreement is, therefore, increased from 15,000,000 to 18,210,658 pounds. BLACK DIAMOND MOTOR FREIGHT, ET AL.

FINDINGS AS TO CONTRACTS IN PROSECUTION OF THE WAR

In the matter of Black Diamond Motor Freight, Bolus Motor Lines, Greggs Motor Lines, Primo Carianelli, and White Line Express, Scranton, Pennsylvania; Case No. S-1001.

Pursuant to section 2 (b) (3) of the War Labor Disputes Act (Pub. No. 89, 78th Cong., 1st sess.) and the Directive of the President dated August 10, 1943 published in the FEDERAL REGISTER, August 14, 1943, and

Having been advised of the existence of a labor dispute involving the Black Diamond Motor Freight, Bolus Motor Lines, Greggs Motor Lines, Primo Marianelli, and White Line Express, all of Scranton, Pennsylvania;

I find that the transportation by motor vehicle of gun mounts, parachutes, textiles, clothing for the Army and the Navy, and other vital war materials by the above-named trucking lines pursuant to any contracts, oral or written, is contracted for in the prosecution of the war within the meaning of section 2 (b) (3) of the War Labor Disputes Act.

Signed at Washington, D. C., this 8th day of July 1944.

FRANCES PERKINS,
Secretary of Labor.

UNLOADING OF FLAVORING SYRUP AT DULUTH, MINN.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 7th day of July, A. D. 1944.

It appearing that a car C&NW 76004 containing flavoring syrup in barrels at Duluth, Minnesota, on the Chicago, St. Paul, Minneapolis and Omaha Railway Company, has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action:

It is ordered, That:

Flavoring syrup at Duluth, Minnesota, on the Chicago, St. Paul, Minneapolis and Omaha Railway Company, to be unloaded. (a) The Chicago, St. Paul, Minneapolis and Omaha Railway Company, its agents or employees, shall unload forthwith car C&NW 76004 containing flavoring syrup imported from Cuba now on hand at Duluth, Minnesota. This shipment is covered by C. St. P. M. & O. waybill F-3057 ECG and was originally loaded into car CRI&P 146279 at West Palm Beach, Florida.

(b) Said carrier shall notify the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., when such carload of flavoring syrup has been completely unloaded. Upon receipt of such notice this order shall expire. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 911; 49 U.S.C. 1 (10)-(17) 15 (2))

It is further ordered, That this order shall become effective immediately, and that a copy of this order and direction shall be served upon The Chicago, St. Paul, Minneapolis and Omaha Railway Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

HERMAN HERZOG

In re: Mortgages, bank accounts and interest in insurance policies owned by Herman Herzog, if living, and, if dead, by his unknown heirs, distributees or legatees.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of Herman Herzog, also known as Hermann Herzog, is Treifelweg 8, Greiz in Vogtland, Germany and that he is a resident of Germany and a national of a designated enemy country (Germany);

2. That if Herman Herzog is dead, his unknown heirs, legatees or distributees are residents of Germany and are nationals of a designated enemy country (Germany);

3. That Herman Herzog, if living, and, if dead, his unknown heirs, legatees or distributees, are the owners of the property described in paragraph 4 hereof;

4. That the property described as follows:

a. A certain mortgage executed by Max Fisher, Bertha Fisher, his wife, and Marie Hungerbuhler, as mortgagors, on May 15, 1925, in favor of Herman Herzog, as mortgagee, and recorded in the Office of the County Clerk of Nassau County, New York, on May 28, 1925 in Liber 766 of Mortgages, at page 117, and any and all obligations secured by said mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations, and the right to enforce and collect such obligations, and the right to the possession of any and all notes, bonds or other instruments evidencing such obligations, and

b. A certain mortgage executed by Max Fisher, Bertha Fisher, his wife, and Marie Hungerbuhler, as mortgagors, on May 15, 1925, in favor of Herman Herzog, as mortgagee, and recorded in the Office of the County Clerk of Nassau County, New York, on May 28, 1925 in Liber 766 of Mortgages, at page 119, and any and all obligations secured by said mortgage including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations, and the right to enforce and collect such obligations, and the right to the possession of any and all notes, bonds or other instruments evidencing such obligations, and

c. A certain mortgage executed by William F. Schramm and Margaretha C. Schramm, his wife, as mortgagors, on February 20, 1917, in favor of Hermann Herzog, as mortgagee, and recorded in the Office of the Register of the County of Kings, New York, on November 14, 1918 in Liber 4482 of Mortgages, at page 172, and any and all obligations secured by said

mortgage including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations, and the right to enforce and collect such obligations, and the right to the possession of any and all notes, bonds or other instruments evidencing such obligations, and

d. A certain mortgage executed by Gustav Richter and Anna Richter, his wife, as mortgagors, on July 6, 1908, in favor of Anna Lammle, as mortgagee, and recorded in the Office of the Register of Queens County, New York, on July 6, 1908 in Liber 1115 of Mortgages, at page 370, and any and all obligations secured by said mortgage including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any and all such obligations, and the right to enforce and collect such obligations, and the right to the possession of any and all notes, bonds or other instruments evidencing such obligations, and

e. All right, title and interest of Herman Herzog or the unknown heirs, legatees or distributees of Herman Herzog in and to the following insurance policies:

(1) Fire insurance policy No. 152637 issued by the Fidelity & Guaranty Fire Corporation insuring the premises covered by the mortgage described in subparagraph 4–a hereof.

(2) Fire insurance policy No. 152636 issued by the Fidelity & Guaranty Fire Corporation insuring the premises covered by the mortgage described in subparagraph 4–b hereof,

(3) Fire insurance policy No. 38426 issued by the Rhode Island Insurance Company insuring the premises covered by the mortgage described in subparagraph 4–c hereof,

(4) Fire insurance policy No. 85297 issued by The World Fire & Marine Insurance Company insuring the premises covered by the mortgage described in subparagraph 4–d hereof, and

f. All right, title, interest and claim of Herman Herzog or the unknown heirs, legatees or distributees of Herman Herzog in and to the sum of $2,000, constituting a portion of Account No. 64475 in the Hamburg Savings Bank, 1451 Myrtle Avenue, Brooklyn, New York, which is due and owing to and held for and in the name of Herman Herzog, including but not limited to all security rights in and to any and all collateral for any and all of such account or portion thereof, and the right to enforce and collect the same,

is property within the United States owned or controlled by a national or nationals of a designated enemy country (Germany);

And determining that the property described in subparagraphs 4–e and 4–f hereof is necessary for the maintenance and safeguarding of other property (namely, that property described in subparagraphs 4–a, 4–b, 4–c and 4–d hereof) belonging to the same national or nationals of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to section 2 of said Executive order:

And further determining that to the extent that such national or nationals are persons not within a designated enemy country, the national interest of the United States requires that such person or persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in paragraph 4 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity, or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on June 19, 1944.

LUCY MOSCATI, ET AL.

ORDER FOR AND NOTICE OF HEARING

In the matter of: Lucy Moscati, Vincent Spizuoco, Louise Ruggieri, John J. Spizuoco, Jr., Paul Spizuoco.

Whereas, by Vesting Order No. 1142 of March 25, 1943, (8 F.R. 6187), as amended, by amendment of Vesting Order No. 1142 of November 9, 1943 (8 F.R. 15616), the Alien Property Custodian vested certain real property situated in the Borough of Brooklyn, County of Kings, City and State of New York, known as 360 Leonard Street, particularly described in said vesting order, together with all hereditaments, fixtures, improvements, and appurtenances thereto, and any and all claims for rents, refunds, benefits, or other payments arising from the ownership of such property as the property of a national of a designated enemy country (Italy); and

Whereas, Lucy Moscati, Vincent Spizuoco, Louise Ruggieri, John J. Spizuoco, Jr., and Paul Spizuoco have filed notice of Claim No. 863 which asserts that each of them is a citizen and resident of the United States and that each of them is an owner of an interest in the said real property, so vested.

Now therefore, It is ordered, Pursuant to the regulations heretofore issued by the Alien Property Custodian, as amended, (8 F.R. 16709), that a hearing on said claim be held before the Vested Property Claims Committee or any member or members thereof on Saturday, July 29, 1944, at 9:30 a. m. eastern war time, at the Office of the Alien Property Custodian, 120 Broadway, New York, N. Y., to continue thereafter at such time and place as the Committee may determine. *It is further ordered,* That copies of this notice of hearing be served by registered mail upon the claimants and upon the person designated in paragraph 2 of the said notice of claim, and be filed with the Division of the Federal Register.

Any person desiring to be heard either in support of or in opposition to the claim may appear at the hearing, and is requested to notify the Vested Property Claims Committee, Office of Alien Property Custodian, National Press Building, 14th and F Streets NW., Washington (25), D. C., on or before July 25, 1944.

The foregoing characterization of the claim is for informational purposes only, and shall not be construed to constitute an admission or an adjudication by the Office of Alien Property Custodian as to the nature or validity of the claim. Copies of the claim and of the said vesting order are available for public inspection at the address last above stated.

By authority of the Alien Property Custodian.

Date: July 7, 1944.

OFFICE OF DEFENSE TRANSPORTATION.

[Supp. Order ODT 3, Rev. 245]

COMMON CARRIERS

COORDINATED OPERATIONS BETWEEN POINTS IN NEW JERSEY AND NEW YORK

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended, (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778) a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered,* That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective July 12, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 8th day of July 1944.

COORDINATED OPERATIONS BETWEEN POINTS IN OREGON

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof to facilitate compliance with the requirements and purposes of General Order ODT 3, Revised, as amended (7 F.R. 5445, 6689, 7694; 8 F.R. 4660, 14582; 9 F.R. 2793, 3264, 3357, 6778), a copy of which plan is attached hereto as Appendix 2,[1] and

It appearing that the proposed coordination of operations is necessary in order to assure maximum utilization of the facilities, services, and equipment, and to conserve and providently utilize vital equipment, materials, and supplies, of the carriers, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved and the carriers are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or supplements to filed tariffs, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or supplements to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

[1] Filed as part of the original document.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.

9. Communications concerning this order should refer to it by the supplementary order number which appears in the caption hereof, and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Washington 25, D. C.

This order shall become effective July 12, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 8th day of July 1944.

[MPR 188, Order 1832]

NAGEL-CHASE MANUFACTURING CO.

APPROVAL OF MAXIMUM PRICES

Order No. 1832 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of Stamped Steel Pliers and Wrenches manufactured by The Nagel-Chase Manufacturing Co.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales of two new Stamped Steel Pliers and a carded set of eight stamped Steel Combination Box and Open End Wrenches manufactured by the Nagel-Chase Manufacturing Company, 2811–2823 No. Ashland Avenue, Chicago, Illinois.

(1) For sales by the manufacturer, the maximum prices are those set forth below.

Article	Model No.	To jobbers	To retailers
Pliers	Zinc plated	$1.20 per doz.	$1.60 per doz.
	Unplated	1.08 per doz.	1.44 per doz.
Wrenches		.44 per set	.59 per set.

For sales by the manufacturer, the prices shown above are f. o. b. Chicago, Illinois, on shipments of less than 100 lbs; on shipments of 100 lbs. and over these prices are subject to a freight allowance of 50¢ per hundredweight. All of the foregoing prices are subject to a cash discount of 2% for payment within 10 days.

(2) For sales by jobbers to retailers, the maximum prices are those set forth below, f. o. b. seller's city:

Article	Model No.	Maximum prices
Pliers	Zinc plated	$1.60 per doz.
	Unplated	1.44 per doz.
Wrenches		.59 per set.

(3) For sales at retail, the maximum prices are those set forth below:

Article	Model No.	Maximum prices
Pliers	Zinc plated	$0.20 each.
	Unplated	.18 each.
Wrenches		.88 set.

(b) To every plier or set of wrenches shipped to a purchaser for resale, the manufacturer shall attach a tag or label which plainly states the retail ceiling price.

(c) At the time of the first invoice the manufacturer shall notify in writing each purchaser who buys from it of the maximum prices established by this order for resales by the purchaser. Since this order establishes maximum prices for sales by all jobbers to jobbers and retailers, each jobber who resells any commodity covered by this order must notify his purchaser of the maximum prices established by this order for sales by the purchaser. The written notice may be given in any convenient form.

(d) Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(e) This Order No. 1832 may be revoked or amended by the Price Administrator at any time.

This Order No. 1832 shall become effective on the 8th day of July 1944.

Issued this 7th day of July 1944.

[MPR 188, Order 1833]

ORIENTAL WROUGHT IRON WORKS, INC.

APPROVAL OF MAXIMUM PRICES

Order No. 1833 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' good other than apparel. Approval of maximum prices for sales of clothes hampers manufactured by Oriental Wrought Iron Works, Inc.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended and Executive Order Nos. 9250 and 9328, *It is ordered:*

(a) The maximum prices for all sales and deliveries by Oriental Wrought Iron Works, Inc., 1720 Mishawaka Avenue, South Bend, Indiana, of ten clothes hampers of its manufacture, as described in its application dated July 3, 1943 after such articles became subject to Maximum Price Regulation No. 188, are as follows:

Article	Model	To jobbers or distributors who ship against the manufacturer's stock	Maximum price to retailers
Hamper	4	$2.04	$2.40
	14	2.85	3.35
	7	3.23	3.80
	17	2.68	3.15
	1117	2.21	2.60
	918	1.62	1.90
	418	2.64	3.10
	718	2.51	2.95
	320	2.72	3.20
	1420	1.96	2.30

These maximum prices are f. o. b. South Bend, Indiana, and are subject to a cash discount of 1% 10 days, net 30 days.

(b) The maximum price for all sales and deliveries at wholesale by any person who ships the clothes hampers described in paragraph (a) above from the manufacturer's stock shall be the prices set forth below as follows:

Article	Model	Maximum price to retailers
Hamper	4	$2.40
	14	3.35
	7	3.80
	17	3.15
	1117	2.60
	918	1.90
	418	3.10
	718	2.95
	320	3.20
	1420	2.30

(c) At the time of the first invoice, the manufacturer shall notify in writing each purchaser who buys from it of the maximum prices established by this order for resales by the purchaser. Since this order also establishes maximum prices for sales by all jobbers to jobbers and retailers, each jobber who resells any commodity covered by this order must notify his purchaser of the maximum prices established by this order for sales by the purchaser. This written notice may be given in any convenient form.

(d) This order establishes maximum prices for sales to jobbers who do not stock the merchandise. If the manufacturer desires to sell to jobbers who stock the articles, he must make an application to the Office of Price Administration, Washington, D. C., for approval of a maximum price for sales to that class of purchaser.

(e) Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(f) This Order No. 1833 may be revoked or amended by the Price Administrator at any time.

This Order No. 1833 shall become effective on the 8th day of July 1944.

Issued this 7th day of July 1944.

A. S. LANGFELDER

APPROVAL OF MAXIMUM PRICES

Order No. 1834 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of a wooden clothes dryer manufactured by A. S. Langfelder.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries, of a wooden clothes dryer manufactured by A. S. Langfelder, 2266 Bath Avenue, Brooklyn, New York.

(1) (i) For all sales and deliveries since the effective date of Maximum Price Regulation No. 188, by the manufacturer to retailers, and by the manufacturer to persons, other than retailers, who resell the article from the manufacturer's stock, the maximum prices are those set forth below:

Article	Model No.	Maximum price to persons, other than retailers, who resell from manufacturer's stock	Maximum price to retailers
Clothes drier	125	*Dozen* $9.77	*Dozen* $11.50

These prices are f. o. b. factory, and are subject to a cash discount of two percent for payment within ten days, net thirty days.

(ii) For all sales and deliveries by the manufacturer to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined by applying to the prices specified in subparagraph (1) (i) of this paragraph (a), the discounts, allowances, and other price differentials made by the manufacturer, during March 1942, on sales of the same type of article to the same class of purchaser and on the same terms and conditions. If the manufacturer did not make such sales during March 1942 he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.158, of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until authorized by the Office of Price Administration.

(2) (i) For all sales and deliveries on and after the effective date of this order to retailers by persons, other than the manufacturer, who sell from the manufacturer's stock, the maximum price is that set forth below, f. o. b. factory:

Article	Model No.	Maximum price to retailers
Clothes drier	125	*Dozen* $11.50

This price is subject to a cash discount of two percent for payment within ten days, net 30 days.

(ii) For all sales and deliveries by persons who sell from the manufacturer's stock, to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined under the applicable provisions of the General Maximum Price Regulation.

(b) At the time of or prior to the first invoice to each purchaser, other than a retailer, who resells from the manufacturer's stock, the manufacturer shall notify the purchaser for resale of the maximum prices and conditions established by paragraph (a) (2) of this order for such resales. This notice may be given in any convenient form.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 8th day of July 1944.

Issued this 7th day of July 1944.

Regional and District Office Orders.

[Region IV Order G–3 Under MPR 280, Amdt. 2]

FLUID MILK IN ATLANTA REGION

Amendment 2 to Order G–3 under Maximum Price Regulation No. 280, as amended. Maximum prices for specific food products. Maximum prices for interhandler sales of bulk fluid milk.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region IV of the Office of Price Administration by § 1351.817a of Maximum Price Regulation 280, as amended: *It is hereby ordered,* That a new paragraph (h) (3) be added following paragraph (h) (2) to read as set forth below:

(h) • • •

(3) *Reporting requirements.* (i) On or before August 15, 1944, every primary handler subject to the provisions of this order shall file with the Regional Office of Office of Price Administration, Atlanta, Georgia, a report in letter form setting forth the method employed in computing the "handler's fluid milk cost" defined in paragraph (j) (6) (i) and (j) (6) (ii) below. This statement shall include the quantities of "fluid milk" purchased from producers (or taken from members of a cooperative) at each different price, reduced to a basis of 3.5% butterfat content, during the month of July, August, and December, 1943. Prices shall be converted to a basis of f. o. b. handler's plant if necessary; and in all such cases the report shall include the prices actually paid f. o. b. farm or other point, and the transportation allowances added thereto.

EXAMPLE 1

Month	Purchases of milk (lbs.)	Base price per cwt. f. o. b. plant, 4% butterfat	Price per cwt. converted to 3.5% butterfat	Total payments at 3.5%
July 1943	750,000	$3.00	$2.75	$20,625.00
Aug. 1943	600,000	3.00	2.75	16,500.00
Dec. 1943	400,000	3.20	2.95	11,800.00
Dec. 1943	200,000	3.30	3.05	6,100.00
Total	1,950,000			55,025.00

Average price of 3.5% milk, as purchased during all three months is $2.82 per cwt. ($55,025.00 divided by 1,950,000 lbs. or 19,500 cwts.) Lowest price paid during December for 3.5% milk is $2.95. Therefore, "Handler's Fluid Milk Cost" is $2.95 (the higher of the two preceding items).

EXAMPLE 2

Month	Purchases of milk	Price per lb. butterfat f. o. b. plant	Price converted to 3.5% butterfat per cwt.	Total payments at 3.5%
July 1943	70,000 gals. or 602,000 lbs.	$0.80	$2.80	$16,856.00
Aug. 1943	60,000 gals. or 516,000 lbs.	.80	2.80	14,448.00
Dec. 1943	35,000 gals. or 301,000 lbs.	.75	2.62½	7,901.25
Totals	165,000 gals. or 1,419,000 lbs.			39,205.25

Average price of 3.5% milk, as purchased during all three months is $2.76 per cwt. ($39,205.25 divided by 14,190 cwts.). Lowest price paid during December is $2.62½ per cwt. for 3.5% milk. Therefore, "Handler's Fluid Milk Cost" is $2.76 (the higher of the two preceding items).

EXAMPLE 3

Month	Purchases of milk	Price per gallon "flat" f. o. b. plant	Price per cwt. for 3.5% milk	Total payments at 3.5%
July 1943	50,000 gals. or 430,000 lbs.	$0.30	$3.49	$15,000.00
Aug. 1943	40,000 gals. or 344,000 lbs.	.30	3.49	12,000.00
Dec. 1943	30,000 gals. or 258,000 lbs.	.32	3.72	9,600.00
Totals	120,000 gals. or 1,032,000 lbs			36,600.00

Average price of 3.5% milk, as purchased during all three months is $3.55 per cwt. ($36,600.00 divided by 10,320 cwts.). Lowest price paid during December is $3.72 per cwt. for 3.5% milk. Therefore, "Handler's Fluid Milk Cost" is $3.72 per cwt. or 32 cents per gallon (the higher of the two preceding items).

EXAMPLE 4

Month	Purchases of milk (lbs.)	Price per lb. butterfat f. o. b. plant	Price per cwt. for 3.5% milk f. o. b. plant	Total payments at 3.5%
July 1943	200,000	$0.60	$2.10	$4,200.00
Aug. 1943	180,000	.60	2.10	3,780.00
Dec. 1943	100,000	.62	2.17	2,170.00
May 1944	225,000	.68	2.38	5,355.00

See paragraph (j) (6) (ii) below. Since this handler paid a price lower than the equivalent of $2.75 for 4% milk all during July, August and December, 1943, the "Handler's Fluid Milk Cost" is his actual price paid at any time, f. o. b. plant and converted to 3.5% butterfat base, provided such price does not exceed $2.75 for 4% milk or its equivalent. In other words, the "Handler's Fluid Milk Cost" is $2.38 per cwt. in May 1944.

(ii) On or before August 15, 1944, every handler who made sales of "fluid milk" during the months of January, February or March 1944, to purchasers within the meaning of this order shall file a report in letter form with the Regional Office of the Office of Price Administration, Atlanta, Georgia, which shall contain the following information:

1. The names and addresses of such purchasers.

2. The type or types of transportation employed in deliveries to each purchaser.

3. The distance from the handler's plant to the purchaser's plant (if deliveries of "fluid milk" were made by the handler and the invoices included a charge for such deliveries).

4. The charge per load, per cwt. or per gallon added to the handler's f. o. b. plant price of "fluid milk" to each purchaser during January, February or March, 1944. If a given purchaser was charged for delivery by more than one method during January, February or March, 1944, all types of such delivery charges to that purchaser must be set forth in this report.

This order shall become effective June 29, 1944.

NOTE: The reporting and record keeping provisions of this amendment have been approved by the Bureau of the Budget (No. 08–R 480.2) in accordance with Federal Reports Act of 1942.

Issued June 24, 1944.

FLUID MILK IN MORGAN COUNTY, GA.

ATLANTA REGIONAL OFFICE—REGION IV

Order No. G–8 under § 1499.75 (a) (9) (i) of Supplementary Regulation No. 15 to the General Maximum Price Regulation. Adjustment of approved fluid milk prices in Morgan County, Georgia.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration, Region IV, by § 1499.75 (a) (9) (i) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, it is hereby ordered:

(a) *Adjustment of maximum prices for approved fluid milk in Morgan County, Georgia.* On and after May 24, 1944, the maximum prices for approved fluid milk sold and delivered to any person within Morgan County, Georgia at wholesale or retail in glass containers of one quart or less shall be:

	Quarts	Pints	Half-pints
	Cents	*Cents*	*Cents*
Wholesale	13	8	4
Retail	15	9	5

One-third quart container sizes. The seller shall adjust his maximum wholesale price for one-third quart container sizes, as determined under § 1499.2, *General provisions,* of the General Maximum Price Regulation by an amount proportionate to the increase or decrease in his ceiling price for quart container sizes as a result of the foregoing listed maximum prices.

Retail sales of approved fluid milk by hotels, restaurants, soda fountains, cafes, bars and other eating establishments for consumption on the premises. The seller may use his established maximum price under the General Maximum Price Regulation, or he can determine his adjusted maximum price by adding to the wholesale price paid by him, three cents per pint, two and one-half cents per one-third quart and two cents per half-pint.

Retail sales other than (a) out-of-store, (b) home deliveries, (c) retail sales by hotels, restaurants, soda fountains, cafes, bars and other eating establishments for consumption on the premises. The maximum prices for retail sales, other than out-of-store sales, home deliveries, and retail sales by hotels, restaurants, soda fountains, cafes, bars and other eating establishments for consumption on the premises, shall equal the listed wholesale prices subject to any applicable discounts or allowances.

(b) *Applicability of the General Maximum Price Regulation and other supplementary regulations and orders of the Office of Price Administration.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together

with all amendments, supplementary regulations and orders which have been heretofore or may hereafter be issued. Specifically, but not by way of limitation, unless the context of this order otherwise requires, the provisions of § 1499.73a (a) (1) (viii) (b), (c), (d), (e), (f) and (g) and § 1499.73a (a) (1) (xi) (Supplementary Regulation No. 14A to the General Maximum Price Regulation as amended) shall be applicable and are made a part of this order. Unless the context otherwise requires, all terms used herein shall be construed in accordance with the provisions of § 1499.20 of the General Maximum Price Regulation, as amended.

(c) This order may be revoked, amended or corrected at any time.

FLUID MILK IN TARBORO, N. C.

Order No. G–9 under § 1499.75 (a) (9) (i) of Supplementary Regulation No. 15 to the General Maximum Price Regulation: Adjustment of approved fluid milk prices in Tarboro, North Carolina.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration, Region IV, by § 1499.75 (a) (9) (i) of Supplementary Regulation No. 15 to the General Maximum Price Regulation, it is hereby ordered:

(a) *Adjustment of maximum prices for approved fluid milk in Tarboro, North Carolina.* On and after July 1, 1944, the maximum prices for approved fluid milk sold and delivered to any person within the incorporated limits of Tarboro, North Carolina at wholesale or retail in glass containers of one quart or less shall be:

	Wholesale	Retail home-delivered	Out-of-store
	Cents	*Cents*	*Cents*
Quarts	14	16	16
Pints	8	9	9
Half-pints	4	5	5

One-third quart container sizes. The seller shall adjust his maximum wholesale price for one-third quart container sizes, as determined under § 1499.2, *General provisions*, of the General Maximum Price Regulation by an amount proportionate to the increase or decrease in his ceiling price for quart container sizes as a result of the foregoing listed maximum prices.

(b) *Applicability of the General Maximum Price Regulation and other supplementary regulations and orders of the Office of Price Administration.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments, supplementary regulations and orders which have been heretofore or may hereafter be issued. Specifically, but not by way of limitation, unless the context of this order otherwise requires, the provisions of § 1499.73a (a) (1) (viii) (a), (b), (c), (d), (e), (f) and (g) and § 1499.73a (a) (1) (x) (Supplementary Regulation No. 14A to the General Maximum Price Regulation as amended) shall be applicable and are made a part of this order. Unless the context otherwise requires, all terms used herein shall be construed in accordance with the provisions of § 1499.20 of the General Maximum Price Regulation as amended.

(c) This order may be revoked, amended or corrected at any time.

[Indianapolis Order G–3 Under MPR 154]

ICE IN INDIANA

Order No. G–3 under Maximum Price Regulation No. 154 as amended. Adjusting the maximum prices of ice sold in the State of Indiana (except Lake County) in cities of less than fifty thousand population.

For the reasons set forth in an opinion issued simultaneously herewith, and under authority vested in the Regional Office of the Office of Price Administration, Region III, by Maximum Price Regulation No. 154, as amended, and pursuant to the delegation of such authority to the Indianapolis District Office by Delegation Order No. 1–A, Revised, issued March 11, 1944, it is hereby ordered:

SECTION 1. *What this order does.* This order fixes maximum prices for sales of block ice by manufacturers and dealers. It also fixes maximum prices for certain sales made to dealers at wholesale.

SEC. 2. *Maximum prices.* On and after the effective date of this order, regardless of any contract, agreement or other obligation, no person, firm or corporation subject to the provisions of this order shall sell or deliver or agree to sell or deliver any quantity of ice in excess of the maximum price set out in Appendix A to this order: *Provided, however,* That in any case where any person has heretofore established higher prices for ice by reason of his prices during the base period, April, 1943, or whose prices have heretofore been adjusted by the Office of Price Administration, and whose prices are higher than those set out in Appendix A, shall not be effected by this order, and he may continue to charge such prices, even though such prices exceed those set out and listed in Appendix A: *Provided, however,* That the maximum prices stated in Appendix A of this order shall constitute the maximum prices of the manufacturers and dealers who elect to operate under them, and when such prices are accepted, may not be accepted in part but shall apply to all categories of sales listed in said appendix. Any seller may, however, sell for less than the maximum price.

SEC. 3. *Applicability of order.* This order and the schedule of prices fixed in Appendix A shall, save as excepted herein, apply to all manufacturers and dealers of ice in the Indianapolis District, except in all cities having a population of 50,000 or more. It is provided, however, that this order shall not be construed to mean that specially prepared ice (such as ice cubes, snow ice or sized ice, generally) is to be affected by this order, except that specially prepared ice now selling at prices less than those stated in the appendix for block ice, may be increased to equal, but not to exceed, the prices stated in the appendix.

SEC. 4. *Definitions.* When used in this order the following terms shall have the following meanings:

(a) "Platform sale" is the sale of ice, delivery of which is made to the purchaser at the seller's place of business.

(b) "Delivered sale" is a sale of ice to a purchaser at a point other than the seller's place of business.

(c) "Person" means individual, corporation, partnership, association, or other organized group of persons or the legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other Government or any political subdivision or any agency of the foregoing. Unless the context otherwise requires, definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, in the General Maximum Price Regulation, and Maximum Price Regulation No. 154, issued by the Office of Price Administration, shall apply to other terms used herein.

SEC. 5. *Relations to other regulations.* All the provisions of Maximum Price Regulation 154 shall apply to those operating under this order, including the requirement to give the purchaser a slip or receipt upon a request made for the same as evidence of the purchase in connection with such sale, retaining a copy for his files.

SEC. 6. *Evasion.* The price limitations set forth in this order shall not be evaded, either directly or indirectly, by any scheme or device or by any practice which is used to get the effect of higher than maximum price. The prices established by this order are maximum prices for the commodities and all services ordinarily rendered in connection with the sale of such commodities. Therefore, you may not charge any additional amounts for any services ordinarily connected with the sale of these commodities.

SEC. 7. *Licensing.* The provisions granting licenses to all persons who make sales under price control shall apply to every seller subject to the provisions of this order. Those sections provide in brief that a license is required of all persons selling commodities for which ceiling prices are established. The license is automatically granted and it is not necessary to apply for the same. Such license may be suspended for violation in connection with the sale of any commodity for which ceiling prices are established. No person whose license is suspended may sell any such commodity during the period of suspension.

SEC. 8. *Enforcement.* On and after the effective date of this order, any person who sells ice at a higher price than the maximum price permitted by this order, or otherwise violates any of the provisions hereof, shall be subject to the criminal penalties, civil enforcement action, license suspension proceedings and suits for treble damages provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 9. *Order in conformity with Emergency Price Control Act.* It is found that the adjustments herein made will not create or tend to create a shortage or a need for an increase in prices in any other locality and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 10. *Revocability.* This order may be revoked, amended or corrected at any time by the Office of Price Administration.

This order shall become effective July 2, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681)

Issued: June 29, 1944.

JAMES D. STRICKLAND,
District Director.

APPENDIX A

The following are the maximum prices for which ice may be sold under the terms of said order:

1. Cash or coupon sales at platform to commercial or domestic customers or delivered at retail to commercial customers:

Quantity:	*Dollars and cents*
300 pounds	$1.50
200 pounds	1.00
100 pounds	.50
75 pounds	.40
50 pounds	.25
25 pounds	.15

2. Delivered cash sales at retail to domestic customers:

Quantity	*Dollars and cents*
100 pounds	$ .60
75 pounds	.45
50 pounds	.30
25 pounds	.15

3. Coupon sales at retail to domestic customers:

Quantity:	*Dollars and cents*
1 ton	$11.00

NOTE: Smaller quantity than one ton at a rate proportionate to the per-ton price, except that no seller of ice is required to sell coupon books for quantities less than one-half ton (1000 lbs.)

4. Manufacturers, on sales to peddlers, distributors, wholesale purchasers, including institutional and industrial purchasers, may increase their maximum price for any quantity by an amount not more than 50% of the increase permitted on retail sales: *Provided,* That in no case shall the increase in price exceed $1.00 per ton.

Single sales in quantities of ice greater than one hundred pounds, but not in excess of three hundred pounds, will take the retail commercial customer rate. Sales in excess of three hundred pounds will take the wholesale rate.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-307]

LUZERNE COUNTY GAS AND ELECTRIC CORPORATION

ORDER GRANTING APPLICATION FOR MODIFICATION OF PREVIOUS ORDER

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 5th day of July 1944.

Luzerne County Gas and Electric Corporation (Luzerne), a subsidiary of The United Gas Improvement Company, a registered holding company, having filed an application requesting the modification of an order issued by this Commission on May 27, 1941 (Holding Company Act Release No. 2784), whereunder a restrictive condition was imposed in respect of an application filed by Luzerne under section 6 (b) of the act regarding the issue and sale by Luzerne of new preferred stock and serial notes for the purpose of redeeming and retiring its then outstanding preferred stock, such condition having been as follows:

Luzerne shall not declare or pay any dividends (other than dividends payable in shares of its common stock) on any shares of its common stock, nor shall Luzerne make any other distribution on its common stock or purchase or retire any shares of its common stock out of net income unless the earned surplus after making such declaration, payment, distribution, purchase or retirement is equal to or greater than the sum of $183,261 plus an accumulative amount equal to $60,000 per calendar year beginning with the year 1941 and continuing until the cost of retiring the presently outstanding $6 and $7 Dividend Cumulative Preferred Stock shall have been completely amortized, and thereafter an accumulative amount equal to $190,000 per calendar year to continue until the total earned surplus so accumulated, and unavailable for common stock dividends, shall equal $1,500,000: *Provided, however,* That such earned surplus required to remain after declaration or payment of such dividends or after such distribution, purchase, or retirement may be reduced for the purpose of this computation by the amount of any surplus adjustments resulting from writing down or writing off the excess of carrying value of property now owned by Luzerne over the original cost of such property when first devoted to public use;

and

The Pennsylvania Public Utility Commission, by order dated February 7, 1944, having directed Luzerne to, among other things, dispose of an aggregate excess over original cost of $2,412,933, as found by that Commission, by charging off $188,014 forthwith against, for the most part, the Reserve for Depreciation-Electric, and amortizing the balance of $2,224,919 through the period from 1944 to 1958, inclusive, by annual charges to the account entitled Miscellaneous Amortization, as follows:

1944	$29,955
1945	66,672
1946–58, 13 years at approximately $163,714 per year	2,128,292
	2,224,919

The order of the Pennsylvania Public Utility Commission having further provided that no portion of the restricted earned surplus of Luzerne amounting to $348,261 at December 31, 1943, should be available for common stock dividends until such time as the excess of $2,224,919 had been completely eliminated but that the company could at any time use such surplus to reduce the excess; and

Said application having been filed on June 10, 1944, and notice of said filing having been duly given, and the Commission not having received a request for hearing with respect to said application within the period described in said notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the provisions of the order dated February 7, 1944, of the Pennsylvania Public Utility Commission and the general improvement in Luzerne's financial condition make the condition hereinabove set forth imposed by the order of this Commission under date of May 27, 1941 no longer necessary, and that the granting of the requested modification would not be detrimental to the public interest or to the interests of investors or consumers,

It is hereby ordered, That our order of May 27, 1941 in the above styled and numbered cause (Holding Company Act Release No. 2784) is hereby modified by

deleting therefrom paragraph (3) of the terms and conditions of said order, such paragraph being quoted above; *Provided, however,* That Luzerne County Gas and Electric Corporation shall notify this Commission immediately of any modifications which may be made in the provisions of the Pennsylvania Public Utility Commission's order of February 7, 1944 as referred to above.

It is further ordered, That all other provisions of said order of May 27, 1941 in this matter shall remain in full force and effect until further order of this Commission.

By the Commission.

Secretary.

CONSOLIDATED ELECTRIC AND GAS CO., ET AL.

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 8th day of July 1944.

In the matter of Consolidated Electric and Gas Company, The Islands Gas and Electric Company, Compagnie d'Eclairage Electrique des Villes de Port-au-Prince et du Cap Haitien, and Compania Electrica de Santo Domingo, C. Por A., File No. 70-898.

Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiaries, The Islands Gas and Electric Company ("Islands"), Compagnie d'Eclairage Electrique des Villes de Port-au-Prince et du Cap Haitien ("Haiti Company"), and Compania Electrica de Santo Domingo, C. por A. ("Santo Domingo"), having filed declarations pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules promulgated thereunder, including sections 12 (c), 12 (d), and 12 (f) of that act and Rules U-42, U-43, and U-44, regarding the payment by the Haiti Company and Santo Domingo Company out of treasury assets of sums aggregating not in excess of $100,000 in respect of the Haiti Company and not in excess of $500,000 in respect of the Santo Domingo Company in reduction of the principal owing on certain demand notes in the principal amount respectively of $414,000 and $2,383,503 to Islands, which owns all of the securities of the Haiti Company and Santo Domingo Company (all of the securities of Islands being owned by Consolidated), such payments to be made from time to time during the remainder of 1944; the deposit of payments of principal on such pledged notes with the trustee securing the Islands Ten Year 4% Secured Bonds, Series B, due March 1, 1953; the application by said trustee of the funds to received to the retirement of a like amount of bonds of Islands; the deposit of such payments of principal with the trustee under the lien of the trust indenture of Southern Cities Utilities Company (assumed by Consolidated) securing an issue of Thirty Year 5% First Lien and Collateral Trust Gold Bonds, due April 1, 1958 (all of the bonds of Islands outstanding in the principal amount of $2,143,500 being owned by Consolidated and pledged under said lien); the application by Consolidated of such funds or a like amount in accordance with the terms of said trust indenture, to acquire outstanding bonds of Southern Cities Utilities Company by purchase in the open market, and their surrender to the trustee for cancellation against the withdrawal of such deposited funds at the purchase cost of said bonds exclusive of interest; the use by Consolidated of $300,000 which it holds in cash representing the unexpended balance of Federal tax savings resulting from sales by subsidiary companies of their respective properties at amounts below the tax cost to them and the accrual of such tax savings to Consolidated as a result of the amendment to the tax agreement between Consolidated and certain of its subsidiaries which joined in the filing of consolidated Federal income and excess profits tax returns for 1943, to acquire outstanding bonds of Consolidated or Southern Cities Utilities Company through purchases in the open market, such bonds to be surrendered for cancellation by Consolidated to the trustee under the indenture securing said bonds;

And said declarations providing that in the acquisition and retirement by Consolidated of bonds, Consolidated will not solicit or cause to be solicited from individual bondholders the sale of any bonds to Consolidated, and that no purchases shall be made directly or indirectly from persons or corporations in any way associated or affiliated with Consolidated; and that Consolidated shall furnish to the Commission promptly after the last day of each month a schedule showing for each day covered by such report the number of bonds purchased, the prices at which such bonds were purchased and the names of the brokers through whom such bonds were purchased;

Said declarations having been filed on May 21, 1944, and an amendment thereto having been filed on June 14, 1944, and notice of filing having been given in the form and manner prescribed in Rule U-23 under said Act and the Commission not having received a request for a hearing with respect to said declarations within the time specified in said notice or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of the applicable sections of the Act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary thereunder, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit the said declarations to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declarations be, and the same hereby are, permitted to become effective forthwith.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

AGRICULTURAL INSECTICIDE & FUNGICIDE ASSOCIATION, ET AL.

§ 3.24 (a) *Coercing and intimidating—Competitors—By threatening disciplinary action or otherwise:* § 3.27 (d) *Combining or conspiring—To enhance, maintain or unify prices:* § 3.27 (f) *Combining or conspiring—To limit distribution to regular or established channels:* § 3.27 (h) *Combining or conspiring—To restrain and monopolize trade.* Order (1) modifying, as to respondents named, as below set forth, order of July 24, 1942 which required respondents therein joined, in connection with offer, etc., in commerce, of agricultural insecticides, fungicides, and related chemicals and items for similar usage, to cease and desist from entering into, continuing, directing, instigating, or "cooperating in, any common course of action", mutual agreement, etc., to fix, establish or maintain prices, whether on a delivered basis or otherwise, etc., or to make use of the various other practices as there specified; so that as to aforesaid named respondents the above quoted words are changed to read "cooperating in any agreed or planned common course of action"; and (2) dismissing the complaint in the proceeding as to respondent R. Earl Demmon, former director of the association and "representative" of respondent Stauffer Chemical Co., Inc. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U. S. C., Supp. IV, sec. 45i) [Modified cease and desist order, Agricultural Insecticide & Fungicide Association, et al., Docket 4145, June 8, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 8th day of June, A. D. 1944.

In the Matter of Agricultural Insecticide & Fungicide Association, Its Officers, Directors and Members, Allegheny Chemical Corporation, Ansbacher-Siegle Corporation, General Chemical Co., a Corporation, Phelps Dodge Refining Corporation, and Tennessee Corporation

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers thereto of the several respondents named in the caption hereof, and certain stipulations of additional facts, and respondents having expressly waived all intervening procedure and hearing as to the facts and consented that the Commission may, without any further intervening procedure, make and enter its findings as to the facts, its conclusion based thereon, and its order disposing of the proceeding, and the Commission having made its findings as to the facts and conclusion that said respondents have violated the provisions of the Federal Trade Commission Act, and having entered its cease and desist order herein on July 24, 1942; and, thereafter, the respondents Phelps Dodge Refining Corporation, Tennessee Corporation, American Cyanamid & Chemical Corporation, John Powell & Company, Inc., Southern Acid & Sulphur Company, Inc., Stauffer Chemical Company, Inc., and R. Earl Demmon, having filed in the United States Circuit Court of Appeals for the Second Circuit their petitions for a review of the Commission's said order to cease and desist, entered on July 24, 1942; and, thereafter, on December 23, 1943, the said United States Circuit Court of Appeals for the Second Circuit having unconditionally affirmed the Commission's said order to cease and desist as to the said respondents, Phelps Dodge Refining Corporation, Tennessee Corporation, American Cyanamid & Chemical Corporation, John Powell & Company, Inc., Southern Acid & Sulphur Company, Inc., and Stauffer Chemical Company, Inc., and having reversed the Commission's said order as to the respondent R. Earl Demmon; and, thereafter a stipulation having been entered into by the Commission, with the petitioning respondents only, that the Commission's said order of July 24, 1942, should be modified to the extent that the language "cooperating in any common course of action" appearing in the Commission's said order to cease and desist entered on July 24, 1942, should be changed to read "cooperating in any agreed or planned common course of action," and thereafter decrees to this effect having been entered on February 21, 1944, with respect to the said petitioners only; now, therefore, in conformity with the decrees entered by the United States Circuit Court for the Second Circuit.

It is ordered, That as to the respondents, Phelps Dodge Refining Corporation, Tennessee Corporation, American Cyanamid & Chemical Corporation, John Powell & Company, Inc., Southern Acid & Sulphur Company, Inc., and Stauffer Chemical Company, Inc., the Commission's said order to cease and desist heretofore entered on July 24, 1942, be and the same hereby is amended and modified to the extent that the language "cooperating in any common course of action" appearing therein be, and the same hereby is changed so as to read "cooperating in any agreed or planned common course of action".

It is further ordered, That the said complaint as to the respondent R. Earl Demmon be, and the same hereby is dismissed.

It is further ordered, That the Commission's said order to cease and desist as entered herein on July 24, 1942, be and the same hereby is ratified and confirmed in all other respects save and except as herein modified.

By the Commission.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs

[T. D. 51090]

PART 14—APPRAISEMENT

EXAMINATION OF MERCHANDISE

It is my opinion that the examination of less than 1 package of every 10 packages of chewing gum covered by 1 invoice and imported in packages, the contents and value of which are uniform, will amply protect the revenue.

Therefore, by virtue of the authority contained in sections 499 and 624 of the Tariff Act of 1930, as amended (19 U.S.C. 1499 and 1624), I do by this special regulation permit and authorize a less number of packages than 1 package of every 10 packages, but not less than 1 package of every invoice, of chewing gum to be examined.

This special regulation shall not be construed to preclude the examination of packages in addition to the minimum number hereby permitted to be examined if the collector or the appraiser shall deem it necessary that a greater number of packages be examined.

In view of the foregoing, § 14.1 (b), Customs Regulations of 1943 (19 CFR, Cum. Supp., 14.1 (b)), containing a list of merchandise as to which collectors are especially authorized to designate for examination less than 1 package of every 10 packages, is hereby amended by inserting in said list after "Gums and resins, natural and synthetic," the following:

Gum, chewing.

The number of this Treasury decision shall be added as a marginal notation to § 14.1 (b).

(Sec. 499, 46 Stat. 728, secs. 15, 16 (a), 52 Stat. 1084, sec. 624, 46 Stat. 759; 19 U.S.C. 1499, 1624)

[SEAL] W. R. JOHNSON,
Commissioner of Customs.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5389]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

BACK PAY ATTRIBUTABLE TO PRIOR YEARS

Regulations 111 amended to conform to section 119 of the Revenue Act of 1943, relating to back pay attributable to prior years.

In order to conform Regulations 111 (26 CFR Cum. Supp., Part 29) to section 119 of the Revenue Act of 1943 (Pub. Law 235, 78th Cong.), enacted February 25, 1944, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.107-1 the following:

SEC. 119. BACK PAY, ATTRIBUTABLE TO PRIOR YEARS. (Revenue Act of 1943, Title I.)

(a) *In general.* Section 107 (relating to compensation for certain services rendered) is amended by inserting at the end thereof the following new subsection:

(d) *Back pay.* (1) *In general.* If the amount of the back pay received or accrued by an individual during the taxable year exceeds 15 per centum of the gross income of the individual for such year, the part of the tax attributable to the inclusion of such back pay in gross income for the taxable year shall not be greater than the aggregate of the increses in the taxes which would have resulted from the inclusion of the respective portions of such back pay in gross income for the taxable years to which such portions are respectively attributable, as determined under the regulations prescribed by the Commissioner with the approval of the Secretary.

(2) *Definition of back pay.* For the purposes of this subsection, "back pay" means (A) remuneration, including wages, salaries, retirement pay, and other similar compensation, which is received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which would have been paid prior to the taxable year except for the intervention of one of the following events: (i) Bankruptcy or receivership of the employer; (ii) Dispute as to the liability of the employer to pay such remuneration, which is determined after the commencement of court proceedings; (iii) If the employer is the United States, a State, a Territory, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any of the foregoing, lack of funds appropriated to pay such remunera-

tion; or (iv) any other event determined to be similar in nature under regulations prescribed by the Commissioner with the approval of the Secretary; and (B) wages or salaries which are received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which constitute retroactive wage or salary increases ordered, recommended, or approved by any Federal or State agency, and made retroactive to any period prior to the taxable year; and (C) payments which are received or accrued during the taxable year as the result of an alleged violation by an employer of any State or Federal law relating to labor standards or practices, and which are determined under regulations prescribed by the Commissioner with the approval of the Secretary to be attributable to a prior taxable year. Amounts not includible in gross income under this chapter shall not constitute "back pay."

(b) *Technical amendment.* The title of section 107 is amended by adding at the end thereof the following: "And Back Pay."

(c) *Taxable years to which applicable.* The amendments made by this section shall be effective with respect to taxable years beginning after December 31, 1940.

PAR. 2. There is inserted immediately following § 29.107–2 the following:

§ 29.107–3 *Back pay attributable to prior taxable years.* Section 107 (d) (2) defines "back pay" and section 107 (d) (1) limits the amount of tax resulting from the inclusion of such back pay in gross income for the year in which it is received or accrued. Back pay includes compensation, wages, salaries, pensions and retirement pay received or accrued during the taxable year by an employee for services performed prior to the taxable year for his employer and which would have been paid prior to the taxable year but for the intervention of any one of the following events: (1) bankruptcy or receivership of the employer; (2) dispute as to the liability of the employer to pay such remuneration, which is determined after the commencement of court proceedings; (3) if the employer is the United States, a State, a Territory, or any political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any of the foregoing, lack of funds appropriated to pay such remuneration; or (4) any other event determined to be similar in nature under these regulations. As to what constitutes bankruptcy and receivership proceedings see § 29.274–1.

An event will be considered similar in nature to those events specified in section 107 (d) (2) (A) (i), (ii) and (iii) only if the circumstances are unusual, if they are of the type specified therein, if they operate to defer payment of the remuneration for the services performed, and if payment, except for such circumstances, would have been made prior to the taxable year in which received or accrued. For the purposes of this section the term "back pay" does not include remuneration which is deemed to be constructively received in the taxable year or years in which the services were performed, remuneration paid in the current year in accordance with the usual practice or custom of the employer even though received in respect of services performed in a prior year or years, additional compensation for past services where there was no prior agreement or legal obligation to pay such additional compensation, or any amount which is not includible in gross income under chapter 1.

The term "back pay" also embraces retroactive wage or salary increases received or accrued in respect of services performed by an employee for his employer in a prior taxable year which have been ordered, recommended, or approved by any Federal or State agency such as, but not limited to, the War Labor Board or any regional War Labor Board, the Salary Stabilization Unit of the Bureau of Internal Revenue, and boards authorized by the Railway Labor Act (44 Stat. 577), as amended (45 U.S.C., 1940 ed., ch. 8), comparable State organizations, and United States and State courts; payments made as a result of alleged violations of sections 6 and 7 of the Fair Labor Standards Act of 1938 (52 Stat. 1062 and 1063, as amended; 29 U.S.C., 1940 ed., secs. 206 and 207), and made retroactive to any period prior to the taxable year; and payments which are received or accrued during the taxable year arising out of an alleged violation by an employer of any State or Federal law relating to labor standards or practices, such as payments received to effectuate the policies of the National Labor Relations Act (49 Stat. 449), as amended (29 U.S.C., 1940 ed., secs. 151–166). The term "wage or salary increases" as used in this section includes payments not made until after the close of the taxable year on account of regulations, orders, or rulings under the Inflation Control Act of 1942 (56 Stat. 765; 50 U.S.C., App., Sup., secs. 961–971) even though the total amount paid for the services rendered does not exceed the amount payable by contract or under established policy.

An individual must compute his net income for any taxable year to which back pay is attributable, even though he was not required to make a return for such year. Thus, all amounts properly includible as gross income for any taxable year to which back pay is attributable must be included in the computation.

For the purpose of determining under section 107 (d) the particular taxable year or years to which the back pay is attributable and, if such back pay is attributable to more than one taxable year, the amount thereof which is attributable to each of such taxable years, the following rules will be applicable:

(1) Back pay, as defined under section 107 (d) (2) (A), shall be deemed to be attributable to a particular taxable year in the amount and to the extent that it would have been paid in such year except for the intervention of one of the events described in section 107 (d) (2) (A).

(2) Back pay, as defined under section 107 (d) (2) (B), shall be deemed to be attributable to a particular taxable year in the amount and to the extent that it would have been paid in such year had the wage or salary increase as described in section 107 (d) (2) (B) been actually put into effect on the date to which it was first made retroactive.

(3) Back pay, as defined under section 107 (d) (2) (C), shall be deemed to be attributable to a particular taxable year in the amount and to the extent that it represents payments in respect of the alleged violation described in section 107 (d) (2) (C) which occurred in such year or which continued during any part of such year.

(4) In those cases where a computation has been made by, or under the direction of, a Federal or State agency (including any Federal or State court) under which the back pay was awarded, which indicates that particular portions of such back pay are attributable to certain definite periods of time, such computation shall be accepted as the appropriate apportionment for the purposes of these regulations.

(5) Where no such computation has been made as provided in (4), and where the apportionment cannot be accurately made upon consideration of all the attendant circumstances in accordance with the applicable rule prescribed in (1), (2), or (3), then in proper cases the back pay shall be apportioned to each of the taxable years within which fall one or more calendar months included within the entire period for which such back pay has been paid, as if such back pay had been received or accrued in equal portions in each of such calendar months. For the purposes of this section, a fractional part of a month is to be disregarded unless it amounts to more than half a month, in which case it is to be considered as a month.

The first step in determining whether section 107 (d) is applicable is the determination of the percentage which the back pay is of the gross income of the taxpayer for the current taxable year. It must exceed 15 per centum of such gross income. The amount of the tax attributable to such back pay is the difference between the tax for the taxable year computed with the inclusion of such back pay in gross income and the tax for such taxable year computed without including such back pay in such gross income.

The amount of the tax attributable to such back pay in each taxable year is the difference between the tax for such taxable year computed with the inclusion in gross income of the portion of such back pay attributable to such taxable year and the tax for such taxable year computed without including any part of such back pay in gross income.

The tax for the current taxable year is (1) the tax computed with the inclusion in gross income of the entire back pay received or accrued in the taxable year, or (2) the tax computed without including any such back pay in gross income for the current taxable year, plus the aggregate of the increases in the taxes which would have resulted from the inclusion of the respective portions of such back pay in gross income for each taxable year to which each such portion is respectively attributable, whichever is the smaller.

This may be illustrated by the following example in which the taxpayer makes his returns on the cash receipts and disbursements basis, and in which it is assumed that he is entitled to use and uses for the taxable years 1944 and 1941 the alternative tax provided in Supplement T:

Example. In 1944 a single person with no dependents who makes his income tax returns on the calendar year basis receives $2,900, which amount constitutes his adjusted gross income. Of this amount $500 constitutes back pay. His tax for the calendar year 1944 on $2,900 would be $490. On $2,400 ($2,900 minus $500) the tax would be $384. That part of the tax for 1944 attributable to back pay is therefore $106 ($490 minus $384). Of the back pay $300 is attributable to the year 1941. During such year he had received $2,000. For such year the amount of tax on $2,000 is $104. The amount of tax which he would have paid for such year had he included in gross income the portion of back pay attributable to such year would be $130. The increase in the tax for such year would be $26 ($130 minus $104).

The remainder of the back pay, $200, is attributable to the calendar year 1940. During such year his net income was $1,800. For such year the amount of tax, including the defense tax, on $1,800 is $36.08 and the amount of tax, including the defense tax, which he would have paid for such year had he included in gross income the portion of back pay attributable to such year would be $44. The increase in the tax for such year would be $7.92 ($44 minus $36.08). The aggregate of increases in the taxes for the calendar years 1941 and 1940 would be $33.92. The tax for the calendar year 1944 is the smaller of $384 plus (1) $106 or (2) $33.92. Since $33.92 is smaller than $106 the tax for the calendar year 1944 is $417.92 ($384 plus $33.92).

Section 6 (d) (3) of the Current Tax Payment Act of 1943, as amended by section 506 (b) of the Revenue Act of 1943, provides that section 107 of the Internal Revenue Code shall be applied without regard to subsections (a) and (b) of section 6 of the Current Tax Payment Act of 1943. For example, a taxpayer who had received or accrued compensation including back pay in 1943 determines his income tax, including the victory tax, for such year in the manner provided in section 107 of the Internal Revenue Code before the application of section 6. In the process of determining such tax, portions of such compensation are attributable to prior years and the limitation upon the increase in the tax for 1943 attributable to such compensation is determined by reference to the tax for the respective years computed upon the portion of such compensation allocable to such years. While all of such compensation is included in gross income for 1942 or 1943, as the case may be, such compensation is attributable to prior years without regard to section 6 of the Current Tax Payment Act of 1943. This may be illustrated by the following example in which the taxpayer makes his returns on the cash receipts and disbursements basis, and in which it is assumed that he is entitled to use and uses for the taxable years 1943, 1942 and 1941 the alternative tax provided in Supplement T:

Example. In 1943 a single person (not the head of a family) who makes his income tax returns on a calendar year basis receives $2,200. Of this amount $600 constitutes back pay. Including the victory tax, his tax liability for 1943 on $2,200 would be $342.10. On $1,600 ($2,200 minus $600) the tax liability would be $216.60. That part of the tax liability for the calendar year 1943 attributable to back pay is therefore $125.50 ($342.10 minus $216.60). Of the back pay $400 is attributable to the calendar year 1942. During such year he had received $1,000. For the calendar year 1942 the amount of tax liability on $1,000 is $76. The amount of tax liability for such year had he included in gross income the portion of back pay attributable to the calendar year 1942 would be $145. The increase in the tax liability for such year would be $69 ($145 minus $76).

The remainder of the back pay, $200, is attributable to the calendar year 1941. During such year he had received $1,000. For such year the amount of tax on $1,000 is $18, and the amount of tax which he would have paid for such year had he included in gross income the portion of back pay attributable to the year 1941 would be $35. The increase in the tax for such year would be $17 ($35 minus $18). The aggregate of the increases in the taxes for the calendar years 1942 and 1941 would be $86. The tax liability for the calendar year 1943 is the smaller of $216.60 plus (1) $125.50 or (2) $86. Since $86 is smaller than $125.50, the tax liability for the calendar year 1943, prior to the application of section 6 of the Current Tax Payment Act of 1943, is $302.60. For the application of section 6 of the Current Tax Payment Act of 1943, see the regulations thereunder, set forth in Treasury Decision 5300, approved October 1, 1943, and amendments thereto.

PAR. 3. Section 29.126–1 is amended by striking out the eighth and ninth sentences in the last paragraph thereof and inserting the following in lieu thereof: "If the amounts received would be subject to special treatment under section 107 if the decedent had lived and included such amounts in his gross income, section 107 applies."

PAR. 4. The above amendments to Regulations 111, which regulations cover taxable years beginning after December 31, 1941, are hereby made applicable to any taxable year begining after December 31, 1940 and prior to January 1, 1942, which is covered by Regulations 103.

(Sec. 119, Revenue Act of 1943 (Pub. Law 235, 78th Cong.) enacted Feb. 25, 1944, and sec. 62, Internal Revenue Code (53 Stat. 32; 26 U.S.C., 1940 ed., 62))

TITLE 29—LABOR

Chapter II—National Labor Relations Board

PART 202—PROCEDURE UNDER SECTION 10 OF THE ACT FOR THE PREVENTION OF UNFAIR LABOR PRACTICES

ISSUANCE OF FORMAL COMPLAINT BY REGIONAL DIRECTOR

By virtue of the authority vested in it by the National Labor Relations Act, approved July 5, 1935, the National Labor Relations Board hereby issues the following amendment to its Rules and Regulatfons—Series 3 (General Rules and Regulations) which it finds necessary to carry out the provisions of said act. Said amendment to the Rules and Regulations—Series 3, shall become effective upon the signature of the original amendment by the members of the Board, and upon publication thereof in the FEDERAL REGISTER.

Section 202.5, National Labor Relations Board Rules and Regulations—Series 3 is hereby amended in the following manner:

The last sentence of the first paragraph thereof, reading as follows: "A copy of the charge upon which the complaint is based shall be attached to the complaint," is hereby deleted.

As amended, § 202.5, National Labor Regulatons Board Rules and Regulations—Series 3, shall read as follows:

§ 202.5 *When and by whom issued; contents; service.* After a charge has been filed, if it appears to the Regional Director that formal proceedings in respect thereto should be instituted, he shall issue and cause to be served upon the respondent and the person or labor organization making the charge (hereinafter referred to as the "parties") a formal complaint in the name of the Board stating the charges and containing a Notice of Hearing before a Trial Examiner at a place therein fixed and at a time not less than ten days after the service of the complaint.

Whenever the complaint contains allegations under section 8 (2) of the act, any labor organization referred to in such allegations shall be duly served with a copy of the complaint and Notice of Hearing. Whenever any labor organization, not the subject of section 8 (2) allegation in the complaint, is a party to any contract with the respondent the legality of which is put in issue by any allegation of the complaint, such labor organization shall be made a party to the proceeding.

Signed at Washington, D. C., this 11th day of July 1944.

H. A. MILLIS,
Chairman.
GERARD D. REILLY,
Member.

Chapter IV—Children's Bureau

[Hazardous-Occupations Order 5, Amdt.]

PART 422—OCCUPATIONS PARTICULARLY HAZARDOUS FOR THE EMPLOYMENT OF MINORS BETWEEN 16 AND 18 YEARS OF AGE OR DETRIMENTAL TO THEIR HEALTH OR WELL-BEING

OPERATION OF POWER-DRIVEN WOODWORKING MACHINES

By virtue of and pursuant to the authority conferred by section 3 (l) of the Fair Labor Standards Act of 1938; an amendment to Hazardous-Occupations Order No. 5 having been proposed for final adoption by the Chief of the Children's Bureau; opportunity having been given to all interested persons to file objections thereto within 10 days from the date of publication of such proposed amendment in the FEDERAL REGISTER; no objections having been filed; and sufficient reason appearing therefor.

Now, therefore, § 422.5 of Part 422 of Chapter IV, Title 29, Code of Federal Regulations, is hereby amended so as to include the following paragraph:

§ 422.5 *Occupations involved in the operation of power-driven woodworking machines.* • • •

(d) Notwithstanding the provisions of paragraph (a) hereof, during the continuance of the present war and for 6 months after the termination thereof, unless terminated prior thereto by order of the Chief of the Children's Bureau, this order shall not apply to the occupations of operating nailing, stapling, wire stitching, fastening or assembling machines used in the manufacture of veneer fruit and vegetable baskets, hampers, or crates.

The foregoing paragraph shall be designated as paragraph (d). Paragraphs (d) and (e) of § 422.5 of Part 422, Chapter IV, Titie 29, Code of Federal Regulations, are hereby redesignated as paragraphs (e) and (f).

This amendment shall become effective upon publication in the FEDERAL REGISTER.

Dated: July 11, 1944.

TITLE 30—MINERAL RESOURCES

Chapter II—Geological Survey

PART 211—COAL-MINING OPERATING AND SAFETY REGULATIONS

1. Section 211.1[1] of Part 211 is hereby amended to provide as follows:

§ 211.1 *Authority and scope of the regulations in this part.* The regulations in this part have been issued pursuant to the authority vested in the Secretary of the Interior by section 32 of the act of February 25, 1920 (41 Stat. 450, 30 U.S.C. sec. 189). On and after July 1, 1944, the administration of the regulations in this part, save and except for those provisions dealing with inspections for the safety and welfare of miners engaged in mining operations on land covered by coal leases, licenses and permits shall be vested in the Geological Survey, Department of the Interior.

Effective July 1, 1944, the function of making inspections for the safety and welfare of miners under the regulations in this part providing for such inspections shall be vested in the Bureau of Mines, Department of the Interior.

The enforcement of the regulations in this part will remain the function of the Geological Survey.

2. Paragraph (b) of this section is revoked effective on the date of approval of this amendment.

PART 231—OPERATING AND SAFETY REGULATIONS GOVERNING THE MINING OF POTASH; OIL SHALE, SODIUM, AND PHOSPHATE; SULPHUR; AND GOLD, SILVER, OR QUICKSILVER.

Section 231.1[1] is hereby amended to provide as follows:

§ 231.1 *Authority, purpose, and scope of the regulations in this part.* Pursuant to the authority vested in the Secretary of the Interior the regulations in this part have been issued to govern the methods of mining on the public domain for the discovery, mining and treating of potash, oil shale, sodium, phosphate, sulphur, gold, silver, or quicksilver. On and after July 1, 1944, the administration of the regulations in this part, save and except for those provisions dealing with inspections for the safety and welfare of miners engaged in operations covered by the regulations in this part shall be vested in the Geological Survey, Department of the Interior.

Effective July 1, 1944, the function of making inspections for the safety and welfare of miners under the regulations in this part providing for such inspections shall be vested in the Bureau of Mines, Department of the Interior.

The enforcement of the regulations in this part will remain the function of the Geological Survey. (Sec. 5, 44 Stat. 1058; 30 U.S.C. 285; sec. 32, 41 Stat. 450; 30 U.S.C. 189; sec. 5, 44 Stat. 302, 47 Stat. 701; 30 U.S.C. 275, 271; sec. 3, 44 Stat. 710; 30 U.S.C. 293)

THOMAS B. NOLAN,
Acting Director,
Geological Survey.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-573]

THERM GAS GENERATOR CO.

Therm Gas Generator Company, a corporation, of Seattle, Washington, is engaged in the manufacture and distribution of cooking and heating equipment. From August 1, 1942 to June 1, 1943, the corporation, as a class B manufacturer, manufactured fuel oil conversion range burners having an approximate value of $33,613.30, in violation of Limitation Order L-23-c. During the same period it sold and delivered to consumers new metal plumbing equipment and new metal heating equipment consisting of oil cooking ranges having an approximate value of $15,683.54, oil burners having an approximate value of $6,658.35, and warm-air furnaces and heating stoves having an approximate value of $6,686.39. Each of these items of plumbing and heating equipment was sold for more than $5.00, without preference ratings of A-10 or higher, and without proper certification. Such sales were in violation of Limitation Order L-79.

The officers of the company in charge of its business were grossly negligent in making no effort to familiarize themselves with the orders and regulations of the War Production Board affecting the business. As the result of these violations, scarce materials have been diverted from the war effort to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.573 *Suspension Order No. S-573.* (a) Deliveries of material to Therm Gas Generator Company, its successors and assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating orders, preference rating certificates, general preference orders, or any other order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation, including allotment, shall be made to Therm Gas Generator Company, its successors or assigns, of any material or product the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) The provisions of this order shall not apply to deliveries to Therm Gas Generator Company, its successors or assigns, of material or products ordered by or required to fill any order of, the Army, Navy, or Maritime Commission.

(d) Nothing contained in this order shall be deemed to relieve Therm Gas Generator Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on July 10, 1944, and shall expire September 1, 1944.

Issued this 29th day of June 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-574]

AMERICAN PLAYGROUND DEVICE CO.

American Playground Device Company is an Indiana Corpofation with its offices at Anderson, Indiana, engaged in the manufacture of playground, swimming pool and other similar equipment. It has not kept either adequate inventory or production records, in wilful violation of Priorities Regulation No. 1.

These violations of Priorities Regulation No. 1 have interfered with the controls established by the War Production Board for the distribution of critical materials. In view of the foregoing, it is hereby ordered, that:

§ 1010.574 *Suspension Order No. S-574.* (a) American Playground Device Company, its successors and assigns, shall not directly or indirectly put into process, process, manufacture or assemble any iron or steel item; article, or part listed on Conservation Order M-126, as it may be amended or supplemented, irrespective of any special exception or permission provided for in said order, which said exception or permission shall not be applicable to respondent's operations, unless hereafter specifically authorized in writing by the War Production Board.

(b) The restrictions set forth herein shall not apply to orders bearing preference ratings of AA-2X or higher for items, articles or parts so excepted or permitted.

(c) This order shall take effect on July 10, 1944, and shall expire on October 10, 1944, subject to earlier termination by the War Production Board upon submission to it by the American Playground Device Company of proper proof that the American Playground Device Company is maintaining proper records as required by Priorities Regulation No. 1.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-577]

SPRINGFIELD MILL SUPPLY, INC.

Springfield Mill Supply, Inc., 516 East Cecil Street, Springfield, Ohio, is a dealer in metal products, including machine equipment and tools and precision gages.

In the latter part of 1942 and the early part of 1943, the company overextended and misapplied its customers' ratings in the acquisition of precision tools to the extent of 2,390 items, thus obtaining delivery from its suppliers by false and misleading statements that it was entitled to apply and extend such ratings in violation of Priorities Regulation 3. The responsible officers of Springfield Mill Supply, Inc., were aware of these regulations and its actions must be deemed to constitute wilful violations of Priorities Regulation 3. These violations of Priorities Regulation 3 have diverted critical materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. The making of false statements subjected the company to administrative action under Priorities Regulation 1. In view of the foregoing, it is hereby ordered, that:

§ 1010.377 *Suspension Order No. S-577.* (a) Deliveries of gages and precision measuring hand tools as defined in or governed by General Preference Order E-5-a, as amended or supplemented from time to time, to Springfield Mill Supply, Inc., its sucessors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating orders, general preference orders or any other orders, or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Springfield Mill Supply, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect July 10, 1944, and shall expire November 10, 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-544, Reinstatement and Amendment]

H. T. HAYWARD CO.

The H. T. Hayward Company, of Manchaug, Massachusetts, a corporation owning and operating a woolen mill was suspended on May 15, 1944 by Suspension Order No. S-544. It appealed from the provisions of the suspension order and, pending determination of the appeal, the suspension order was stayed by the Chief Compliance Commissioner, who has concluded that the present suspension order might permanently affect the business of the respondent in a manner unforeseen and has therefore directed that the stay be terminated, the suspension order be reinstated and that the suspension order be amended.

In view of the foregoing, it is hereby ordered, that: § 1010.544 *Suspension Order No. S-544* issued May 8, 1944, and effective May 15, 1944, be and hereby is reinstated as of July 17, 1944; the stay of execution directed by the Chief Compliance Commissioner on May 13, 1944, be and hereby is revoked as of July 17, 1944; and the suspension order be and hereby is amended by substituting the following paragraph (a) for the present paragraph (a):

(a) The H. T. Hayward Company, Manchaug, Massachusetts, its successors and assigns, shall not put into process wool in excess of 40% of its production to fill orders rated lower than AA-4 for the three months period beginning July 17, 1944 and ending October 16, 1944; and shall not put into process wool in excess of 25% of its production to fill orders rated lower than AA-4 for the three months period beginning October 17, 1944 and ending January 16, 1945.

PART 1284—BALSA

[General Conservation Order M-177, as Amended July 11, 1944]

General Conservation Order M-177 is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage of balsa for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1284.1 *General Conservation Order M-177*—(a) *Definitions.* For the purposes of this order:

(1) "Balsa" means the wood of the several species of the genus Ochroma in the form of logs, hewn timbers, blocks or lumber, including boards, planks, dimension, squares, cants, flitches, timbers and other sawed forms, whether rough or dressed, but does not include scrap balsa.

(2) "Scrap balsa" means balsa waste unavoidably accumulated as the result of breakage of balsa while in transit or in the process of handling; or as the result of trimming defective portions from defective boards; or in processing boards in the course of manufacturing of life

floats, life rafts, life nets, jacket or ring life preservers or buoys, or other individual life rescue equipment.

(3) "Balsa thins" means balsa lumber under two inches thick.

(4) "Balsa shorts" means balsa lumber shorter than three feet.

(b) *Restrictions on sales and deliveries.* After July 15, 1944 no person shall sell or deliver "balsa", "balsa thins", or "balsa shorts" except on orders rated AA-5 or higher.

(c) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(d) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB-1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(e) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications (other than appeals) concerning the order, shall, unless otherwise directed, be addressed to the War Production Board, Lumber and Lumber Products Division, Washington 25, D. C., Ref.: M-177.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 7]

SHIPMENTS OF LUMBER NOT CONTROLLED BY DIRECTIONS 1 TO 5 INCLUSIVE

The following direction is issued pursuant to Order L-335:

(a) *Sawmills that this direction applies to.* This direction applies to sawmills which are not included in Directions 1 to 5 inclusive and the sawmills included in Directions 1 to 5 which ship lumber which is not controlled by these directions.

(b) *Deliveries on certified and uncertified orders.* Every sawmill not included in Directions 1 to 5 inclusive must accept certified orders of conaumers (whether military or not) and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L-335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and unrated orders. A shipment of lumber on a distributor's uncertified and unrated order may not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L-335 and the provisions of Direction 8 to the order. These provisions also apply to the shipments of lumber by sawmills included in Directions 1 to 5, inclusive, if the shipments of lumber are not controlled by these directions.

Issued this 11th day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 10]

RECEIPTS OF LUMBER

The following direction is issued pursuant to Order L-335:

For the purposes of Order L-335 lumber shall be considered as having been received when it reaches the place to which the receiver instructed the supplier to ship it. The only exceptions are: (1) Lumber placed in transit by a lumber supplier before June 15, 1944, and received by a Class I consumer after June 30, 1944 is to be considered as having been received by the Class I consumer before the beginning of the third quarter and is not chargeable against the amount of lumber that he is authorized to receive in the third quarter; and (2) lumber placed in transit by a lumber supplier before July 20, 1944 on orders of consumers (other than Class I consumers) and distributors which is not received before August 1, 1944 is to be considered as having been received by the consumer before August 1, 1944.

Issued this 11th day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L-335, Direction 11]

ASH SPECIALISTS

The following direction is issued pursuant to Order L-335:

(a) This direction tells how "ash specialists" may obtain ash lumber, and what rules they must observe in disposing of it.

(b) Any sawmill may deliver ash lumber to an ash specialist without restriction, just as if the ash specialist were another sawmill.

(c) Unless specifically directed all deliveries of ash lumber by ash specialists are subject to the same provisions of Order L-335 that govern the deliveries of lumber by sawmills. In other words deliveries of ash lumber by ash specialists shall be subject to the same restrictions as if the ash specialist were a sawmill.

(d) For the purposes of this direction an "ash specialist" is a person who operates a concentration yard dealing exclusively in ash lumber.

Issued this 11th day of July 1944.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Conservation Order M-317,[1] as Amended July 5, 1944]

COTTON TEXTILE DISTRIBUTION

§ 3290.115 *General Conservation Order M-317*—(a) *Definitions.* In this order:

(1) "Cotton textiles" means the following products, containing 50% or more by weight of cotton or cotton waste, or a combination of the two:

(i) Woven fabrics, whether gray, original mill or regular finish, bleached, dyed or printed, and the following cotton products: bedsheets, pillow cases, blankets, towels, diapers, face cloths and table "linens"; and

(ii) Yarns, whether gray, bleached, colored, mercerized, glazed, polished, single, plied, cabled or braided, including thread, twines and cordage (e. g. tying, sail, seine, etc. twine, rope, sash, cord, etc.) and including any of the foregoing which may be spun on roving, ring, mule or converted twister spindles.

"Cotton textiles" does not include:

Cotton duck as defined in Conservation Order M-91;

Blankets or blanketing containing 25 per cent or more by weight of wool;

Fabrics (other than blankets or blanketing) or yarns containing wool and produced on the woolen or worsted system.

(2) (i) "Producer" means any manufacturer who makes cotton textiles in the United States.

(ii) "Intermediate processor" means any person engaged in the United States in the business of bleaching, dyeing or otherwise finishing cotton textiles and delivering or using them in the United States for his own account in the bleached or otherwise finished state.

(iii) "Processor" means any person engaged in the United States in the business of manufacturing or having manufactured in the United States for his account, any product in which cotton textiles are incorporated.

(iv) "Merchant" means any person engaged in the United States in the business of purchasing cotton textiles for resale in the United States in the form in which purchased.

(v) "User" means any person other than a producer, intermediate processor or processor, who purchases cotton textiles for his own use in the United States in any business, industry, profession or occupation.

(vi) Any person who performs the functions of more than one of the foregoing—regardless of his customary manner of conducting his business—shall, for the purpose of the following be deemed a separate person with respect to each of those capacities, and he is required to:

(a) Accept rated orders for cotton textiles in preference to any other contracts, orders or uses even though he has not in the past accepted or filled orders for that particular cotton textile, and also to fill them in accordance with the rules of Priorities Regulation No. 1 (In the case of yarn, this requirement applies only to sale yarn defined in the introduction to the Cotton Yarns, Cordage and Twine Distribution Schedule);

(b) Use the ratings assigned by this order; and

(c) Apply the inventory restrictions of this order.

(vii) The definitions in subdivisions (i) to (v) above do not include the United States Army, Navy, Maritime Commission or War Shipping Administration.

(3) Trade terms used in this order shall have their usual trade significance unless otherwise specified.

(b) *Assignment of ratings.*[1] The preference ratings specified in the Preference Rating Schedules of this order are assigned to the persons in Column I for the cotton textiles in Column II to be used only as specified in Column III. The revocation of any rating and its effect is stated in the appropriate group of the Preference Rating Schedules.

(c) *Compulsory use of ratings assigned in schedules or by Form WPB-2842.* No intermediate processor, processor, merchant or user shall purchase or accept delivery of a cotton textile for a purpose for which a rating for that cotton textile is assigned to him in a Preference Rating Schedule unless he uses that rating or a rating assigned on Form WPB-2842. However, a merchant who purchases cotton textiles for sale at retail, or a user, if he wishes, may purchase or accept delivery of cotton textiles without a preference rating. The provisions of this paragraph do not apply to purchases for delivery or ultimate delivery to, or for incorporation into any product for direct or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration, nor do they prohibit the use of an AAA rating.

This rule does not change the rating on the finished product. For example, even though a manufacturer (processor), who is given a rating, according to the AA-2X Preference Rating Schedule, to obtain twills to make coated abrasive products, holds an AA-1 order for coated abrasive products, he must use the AA-2X rating given by the schedule to obtain the twills, and may not use the AA-1 rating for this purpose. The AA-1 rating, however, remains applicable to the finished coated abrasive product for all other purposes (such as to determine the sequence of deliveries).

(d) *How ratings for cotton textiles are to be applied or extended.* Preference ratings shall be applied and extended as provided in Priorities Regulation 3. The standard certification described in Priorities Regulation 7 may be used in applying or extending the rating, but the provisions of subparagraph (1) or (2) below must also be complied with.

(1) *Cotton textiles for export.* In the case of products which are to be exported (or to replace in inventory the exported product) in the form of cotton textiles or in the form of clothing manufactured for the United States Treasury Procurement Division from piece goods purchased by that Division for the Foreign Economic Administration (except where that product or clothing is for direct or ultimate delivery to the United States Army, Navy, Maritime Commission, War Shipping Administration or American Red Cross), the purchaser shall place upon the purchase order an appropriate notation (with the blanks properly filled in), substantially as follows:

These cotton textiles will be exported, or will replace in inventory cotton textiles exported after December 24, 1943.

And also one of the following statements is to be made:

The preference rating was applied by the United States Treasury Procurement Division in connection with contract number ------. [In the case of United States Treasury Procurement for Foreign Economic Administration.];

or

The preference rating was applied in connection with Export License number ------, or Release Certificate number ---------- [In the case of export in connection with licenses or release certificates issued by Foreign Economic Administration.]:

or

The preference rating was applied in connection with the Canadian Cotton Administrator's serial number --------- [In the case of exports to Canada.]

When the above is complied with, the requirements of M-328 are met and it is unnecessary to use any other notation.

If a preference rating for cotton textiles whfch is assigned by the Foreign Economic Administration on an export license or release certificate has not been applied to an order accepted or made the subject of a War Production Board scheduling direction at the end of six months from the date of issuance of the license or release certificate, it shall be deemed revoked. Ratings applied to orders accepted or made the subject of War Production Board scheduling directions at any time before August 1, 1944, for delivery before October 1, 1944, are excepted, however, from this provision.

(2) *Cotton textiles for domestic use.* In all other cases a person (other than the United States Army, Navy, Maritime Commission or War Shipping Administration on their direct purchase orders), applying or extending a rating for a cotton textile, which was assigned by a Preference Rating Schedule or under a War Production Board form, shall place upon the purchase order an appropriate notation, substantially as follows:

This rating has been assigned by M-317, Group(s) No. ----------. [Insert applicable group number or numbers of Preference Rating Schedule.]

or

This rating has been assigned under Form WPB ----------, Serial No. ----------. [Insert the War Production Board form number and its serial number.]

When the above is complied with, the requirements of M-328 are met and it is unnecessary to use any other notation.

(e) *Restrictions relating to fiber or yarn.* (1) No person shall use any preference rating which was assigned, applied or extended for cotton textiles in order to obtain any synthetic fiber or synthetic yarn, except cotton textiles for direct or ultimate delivery to, or for incorporation into any product for direct or ultimate delivery to, the United States Army, Navy, Maritime Commission or War Shipping Administration.

(2) No person shall use any preference rating which was assigned, applied or extended for knitted or woven fabrics, in order to obtain cotton yarns defined in paragraph (a) (1) (ii). If he does not own or control spinning machinery, he may use the rating to obtain cotton yarns for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration. If he does own or control spinning machinery, upon his showing on Form WPB-2842 the extent to which it is insufficient or unsuitable to produce cotton yarns required for incorporation into products for direct or ultimate delivery to the United States Army, Navy, Maritime Commission or War Shipping Administration, the War Production Board may authorize him to use that rating to obtain a specific quantity of cotton yarns for that purpose.

(3) No person owning or controlling spinning machinery shall use any preference rating which was assigned, applied or extended for yarn, in order to obtain cotton yarns defined in paragraph (a) (1) (ii), except to the extent authorized by the War Production Board, upon his showing, on Form WPB-2842, that his own spinning is insufficient or unsuitable.

(f) *Distribution schedules.* (1) Each producer—even if he is also an intermediate processor, processor, merchant or user—shall, from the production of each calendar quarter, deliver or set aside for later delivery on rated orders those percentages of his total production (in pounds or yards according to his usual method of operation) of each cotton textile as specified in the Distribution Schedules of this order. Exceptions from the requirements of the Distribution Schedules may be granted by the War Production Board pursuant to specific applications in writing when the fulfillment of any Distribution Schedule's requirement would prevent deliveries of cotton textiles for orders rated AA-2X or higher.

(2) [Deleted July 5, 1944]

(3) The War Production Board may establish other percentages with respect to any of the cotton textiles listed in the Distribution Schedules.

(4) The requirements of the Distribution Schedules supersede all authorizations, issued before May 29, 1944, on appeal from this order, from Limitation

[1] Limitation Order L-99 relates to cotton textile production.

[1] Conservation Order M-328 permits other preference ratings, as well as those assigned by this order, and imposes conditions on the use of all ratings for cotton textiles.

Order L–99 or from Supplementary Limitation Order L–99–a.

(g) *Advance orders.* No person shall be required to accept any rated order for cotton textiles calling for delivery more than 90 days after the receipt of the order, except from the United States Army, Navy, Maritime Commission or War Shipping Administration.

(h) *Special conditions.* No producer, intermediate processor, processor, merchant or user shall sell, deliver, buy, accept or use a cotton textile or any product containing a cotton textile or assign, apply or extend a preference rating contrary to the provisions in Column III of a Preference Rating Schedule, in Column V of a Distribution Schedule of this order, or in any written direction of the War Production Board.

(i) *Exports.* No person shall purchase for export without a preference rating any cotton textiles, except woven or braided fabrics 12" or less wide, remnants (pieces shorter than ten yards) and rags (pieces shorter than two yards commonly sold by the pound).

(j) *Inventory restrictions.* No person shall accept delivery of any cotton textiles if his aggregate inventory exceeds or would then exceed the lesser of (1) a practicable minimum working inventory, or (2) his requirements for 90 days (except in the case of merchants and users of cotton textiles used in crop cultivation).

In computing inventory include products in process of manufacture but exclude cotton textiles in transit or in process of conversion.

(k) *Allocation.* The War Production Board may assign preference ratings for or allocate and direct deliveries of cotton textiles pursuant to application on Form WPB–2842.

(l) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board.

(m) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(o) *Communications.* All reports to be filed, appeals and other communications concerning this order should be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Ref.: M–317.

Issued this 5th day of July 1944.

WAR PRODUCTION BOARD,

DISTRIBUTION SCHEDULE 1—COTTON YARNS, CORDAGE, TWINE AND ROVING

(Schedule amended May 29, 1944. The percentage obligations in Column III are to be calculated on production from May 29 through June 30, 1944, and from the first of each calendar quarter beginning July 1, 1944. The changes and the percentage obligations in Columns IV, V and VI are to be calculated on production from the first of each calendar quarter beginning April 1, 1944.)

(a) Column I indicates the corresponding item numbers of the various cotton textiles in this schedule as each appears on Form WPB–658–E (3/17/44).

(b) Column II shows the cotton textiles covered by this schedule. The calendar quarter in 1943 in which a producer delivered to purchasers the largest percentage of his yarn production is his base period. Each producer must make available for distribution in accordance with this schedule in each calendar quarter the same percentage of his current calendar quarterly yarn production as he sold in his base period and also all the yarn produced from spindles which he acquired since January 1, 1943, unless other dispos.tion is permitted in writing by the War Production Board. This yarn is called "sale yarn".

(c) Column III shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against rated export orders for cotton textiles. Only deliveries on purchase orders given in conformity with the procedures described in paragraph (d) (1) (Cotton textiles for export) may be credited toward this obligation. Exports by or for the United States Army, Navy, Maritime Commission or War Shipping Administration may not be credited toward this obligation.

(d) Column IV shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against all rated orders. However, where the percentage in Column IV amounts to 100, unless otherwise specified, seconds which are produced in the normal course of manufacture may be disposed of without regard to this provision to the extent that rated orders are not offered.

(e) Column V shows the percentage of the producer's current calendar quarterly production beyond which he need not accept rated orders. Priorities Regulation 1 applies up to that percentage. If receipt of an order which is rated higher than a previously accepted rated order would result in having more rated orders than the Column V percentage, then the lowest rated order shall be displaced and it may be filled only from that percentage applicable to a subsequent quarter.

(f) The provisions and explanations stated in Column VI, unless otherwise specified, apply to the producer, intermediate processor, processor, merchant and user and govern the particular cotton textiles, no matter when produced, converted or ordered, and also products containing those textiles. However, the restrictions in Column VI relating to exports do not apply where the export license or release certificate was issued before April 27, 1944.

DISTRIBUTION SCHEDULE 2—FINE COTTON GOODS

(Schedule amended July 5, 1944. The changes and percentage obligations in Columns III, IV, and V are to be calculated from the first of each calendar quarter beginning July 1, 1944.

(a) Column I indicates the corresponding item numbers of the various cotton textiles in this schedule as each appears on Form WPB–658–E (6/9/44).

(b) Column II shows the cotton textiles covered by this schedule.

(c) Column III shows the minimum percentage of the producer's current calendar quarterly production which must be delivered by him against rated export orders for cotton textiles. Only deliveries on purchase orders given in conformity with the procedures described in paragraph (d) (1) (Cotton Textiles for export) may be credited toward this obligation. Export by or for the United States Army, Navy, Maritime Commission, War Shipping Administration, or the American Red Cross may not be credited this obligation. In calculating the export obligation, the producer shall eliminate his production of cotton textiles wider than 42½". However, if he receives a rated export order for these goods he must treat it as a rated order, and the delivery shall be credited toward his export obligation relating to narrower goods within the same Reference Number.

(d) Column IV shows the minimum percentge of the producer's current calendar quarterly production which must be delivered by him against all rated orders (including those specified in Column III). The producer, however, is not relieved from the necessity of filling additional rated orders which are served upon him in accordance with War Production Board Regulations. Where the percentage in Column IV amounts to 100, unless otherwise specified, seconds which are produced in the normal course of manufacture may be disposed of without regard to this provision to the extent that rated orders are not offered.

(e) The provisions and explanations stated in Column V, unless otherwise specified, apply to the producer, intermediate processor, processor, merchant and user and govern the particular cotton textiles, no matter when produced, converted or ordered, and also products containing those textiles. Piece goods referred to in Column V includes seconds, shorts and remnants, but not rags.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Supplement V to Schedule A]

MATERNITY DRESSES AND SLIPS

The following Supplement V to Schedule A is issued pursuant to Conservation Order M-328B. (§ 3290.120a.)

MATERNITY DRESSES AND SLIPS PROGRAM NO. 1

Item No.	Item	Size ranges	Fabric allowed
1	Maternity dresses	12-20	Print cloth 68 x 64—4.85 yard 39".
2	Maternity slips	32-44	Print cloth 68 x 64—4.85 yards 39".

The items are required to be produced and put into distribution during July, August and September, 1944.

Priorities assistance will be given only for the material specified above.

Applicants should base their estimated production on their present labor and machinery.

Each applicant whose application is granted is required to produce the items in accordance with the standards and specifications set forth in Table I (Maternity Dresses) and Table II (Maternity Slips).

Each applicant whose application is granted will be assigned a WPB Case Number which he is required to stamp on a size ticket or label which must be firmly sewed on each garment produced by him under this program. This ticket or label must not be removed from the garment. This Case number may not be used on any other merchandise by the applicant.

No manufacturer may sell or deliver any garments made from material obtained under this program, unless the garments conform in all respects to the standards and specifications set forth in Tables I or II, respectively, and have attached a ticket or label with the manufacturer's WPB Case number.

Applications that are not completely and accurately filled out may be denied.

The items must be produced for sale only within the price ranges specifically established by the Office of Price Administration for garments produced under this program.

APPLICATION FORM WPB-3732

Filing Date. Applications must be filed within 15 days after the Office of Price Administration announces the ceiling prices established by it for garments produced under this program.

TABLE I—STANDARDS FOR SPECIAL COTTON MATERNITY DRESSES

1. *Type.* Cotton maternity dresses produced under this program shall be of one piece type, adjustable at the waist line.

2. *Fabric.* The fabric shall be 68 x 64, 4.85 yard, 39 inch print cloth. It shall show good colorfastness to laundering, being equivalent to "Class 3 color fastness to laundering" as determined in Section X of Commercial Standard CS 59-44.

3. *Sizes and yardage limitations.* (a) The minimum yardage per dozen shall be 39 yards based on the following size assortment: (other size assortments are permissible but pro rata yardage shall apply)

SIZE ASSORTMENT PER DOZEN

Size	12	14	16	18	20
Units	1	3	3	3	2

(b) Minimum basic dimensions for the finished maternity dresses shall be as follows:

Size	12	14	16	18	20

Chapter XI—Office of Price Administration

PART 1439—UNPROCESSED AGRICULTURE COMMODITIES

[MPR 426,[1] Amdt. 39]

FRESH FRUITS AND VEGETABLES FOR TABLE USE, SALES EXCEPT AT RETAIL

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

1. Appendix K is added to section 15, Article III, to read as follows:

APPENDIX K—MAXIMUM PRICES FOR CERTAIN FRUITS

(a) *Explanation.* This appendix establishes maximum prices for the following fruits:

Peaches

It applies to all sellers, including growers, grower-packers, shipping point distributors, carlot distributors, primary receivers, secondary jobbers and service wholesalers, but it does not apply to retailers.

Specifically, the appendix:

(1) Establishes maximum prices f. o. b. shipping point for sales made f. o. b. shipping point and maximum delivered prices for sales made on a delivered basis.

(2) Establishes maximum markups, which may be added in certain sales. These are set forth in Tables A and B (see paragraph (g)). Table A names the markups for sales (i) by grower-packers selling through certain named agents, and (ii) by shipping point distributors direct or through agents. Table B names the markups for sales by persons other than grower-packers and shipping point distributors.

Any sale by a grower, grower-packer, or shipping point distributor of fruit shipped by him by mail or express to an ultimate consumer in a lot of five containers or less (not larger than standard containers) is not subject to maximum prices. However, the exception does not apply to sellers other than growers, grower-packers and shipping point distributors.

(b) *Definitions.* (1) "Shipping point" means the place in or near the producing area where the fruit being priced is prepared for shipment and first loaded on cars for rail shipment or on trucks for truck shipment.

Example: Suppose that peaches are packed at a packing plant at Methow, Washington, and that the nearest point for rail shipment is Pateros, Washington, and that the peaches must be transported from Methow to Pateros by truck. The country shipping point in this case is Pateros, Washington, and the maximum prices for peaches f. o. b. shipping point apply from Pateros. The cost of transportation from Methow to Pateros must be borne by the seller. However, if the peaches are destined for a terminal market by truck shipment (for example, to Seattle, Washington), the shipping point in this case is Methow, Washington.

(2) "Graded and packed" means graded and packed in accordance with applicable State and Federal requirements.

(3) "Standard container" in the case of peaches, means (i) a bushel basket of 2150.42 cu. in. capacity, or a one-half bushel basket of 1075.21 cu. in. capacity, which is closed and packed "fairly tight" or tighter, or (ii) any container listed in Column 2 of the applicable table in paragraph (f) which is closed and contains a net weight within the weight ranges specified for that container. "Fairly tight" means that the package is level full and the peaches are held in place by the cover at time of shipment from shipping point and thereafter until a government inspection certificate is secured showing that the container is fairly tight or tighter and the container is marked with a lot number which is also described in the government inspection certificate.

(c) *Classification of standard containers.* For the purposes of this appendix, standard containers shall be classified as follows:

CLASS A

(1) Bushel basket of 2150.42 cu. in. capacity. (2) One-half bushel basket of 1075.21 cu. in. capacity.	Closed and packed "fairly tight" or tighter.

CLASS B

(1) Fruit box (WPB L232 No. 35). (2) Fruit box (WPB L232 No. 36). (3) Sanger Lug Box (WPB L232 No. 46).	Closed with a net weight within applicable weight ranges in Column 2 of the applicable table in paragraph (f).

(d) *Marking requirements.* The grower-packer shall plainly mark each standard container in Class A sold by him, in accordance with the requirements of State and Federal Grades and Standards Laws and of the Federal Food, Drug and Cosmetic Act, to show the following:

(1) The name and address of the grower-packer.

(2) The volume of the contents.

The grower-packer shall plainly mark each standard container in Class B sold by him to show the following:

(1) The name and address of the grower-packer.

(2) A minimum net weight. This may be lower, but in no case higher, than the actual weight at the time of shipment from the shipping point.

The grower-packer may determine the actual net weight of contents of standard containers noted in Class B and mark the actual net weight in pounds on each container. Some grower-packers may not wish to weigh each container before marking and selling it. In order to make possible the use of reasonable estimated net weights, weight ranges have been provided for the standard containers listed above in Class B within which maximum prices do not vary. However, a grower-packer who sells without weighing all containers takes the risk that the estimated minimum net weight may exceed the actual net weight, which would be a violation of the regulation. Subsequent sellers, however, may rely on the minimum net weight marked on the container and figure their maximum prices on the basis of it.

If a container would be a standard container in Class A except for the fact that it is not packed "fairly tight," or tighter, or if a container would be a standard container in Class B except for the fact that it has a net weight not within the weight ranges for the particular container, or if the fruit is in any other closed container, the grower-packer shall mark the container to show the following:

(1) The name and address of the grower-packer.

(2) A minimum net weight. This may be lower, but in no case higher, than the actual weight at the time of shipment from the shipping point. Subsequent sellers, however, may rely on the minimum net weight marked on the container and figure their maximum prices on the basis of it.

The weight marking requirement does not apply to open containers. (Section 14a (a) does not apply to this appendix).

(e) *How maximum prices are figured.* For standard containers in Class A, the maximum price in each case is named in columns 5 or 6 of the applicable table in paragraph (f). However, the maximum price for any container which would be a standard container except for the fact that it is not packed "fairly tight," or tighter, shall in no event be greater than the maximum price for the standard container.

A grower-packer obtains his maximum price for any of the types of containers listed in Class B by first determining whether the net weight of the container being priced falls within any of the weight ranges established by the appendix for that type of container. If the net weight falls within an applicable weight range, the maximum price named in the price table for that container is on a container basis and it applies to all weights within that range. On the other hand, if the net weight falls outside the applicable weight range, the maximum price is figured by the seller on the basis of actual net weight.

All fruit offered for sale in closed containers which do not meet the requirements of standard containers in Class A and Class B shall be sold on the basis of actual net weight.

All fruit offered for sale in bulk or open containers shall be sold on a basis of actual net weight.

The weight requirements provided in this Appendix are based on weights existing at the time of shipment from the shipping point, in the case of closed containers, and at the time of sale, in the case of open containers.

(f) *Maximum price tables.* The following tables state maximum prices for certain sales of fruit by all sellers, except sellers at retail. (For other sales by these sellers see Tables A and B in paragraph (g) and the provisions of paragraphs (h) through (m) and (q)).

Except as specified for bulk sales and "on tree" sales, the maximum prices named in the following tables include all costs of harvesting, hauling, packing, precooling, loading and inspection, and no additional charge may be made for containers or for any other materials furnished or services rendered.

Although f. o. b. shipping point maximum prices may not be named for fruit shipped from certain states (see Column 5 of the applicable table in each case), all listed fruit are subject to the maximum prices named in Columns 6 and 7 of the following tables, regardless of where produced or shipped.

11	Fruit box (WPB-L 232 No. 35) with a net weight of less than 17 pounds or more than 19 pounds, bushel baskets, the contents of which do not meet the requirements of pack specified for standard containers (see paragraph (b) (3) (i)); and peaches graded and packed in any other container.	Per pound	All season	7.25 cents		Column 6 price plus 2½o cents.
12	Peaches produced in Montana, Wyoming, Utah, Colorado and New Mexico and sold loose and ungraded (orchard run) in any container. [1]	Per pound	All season	6.3 cents		Column 6 price plus 2½o cents.
	Peaches produced in California, Nevada and Arizona and graded and packed in the following containers					
13	Fruit box (WPB-L 232 No. 35) with a net weight of not less than 17 pounds and not more than 19 pounds.	Per box	All season	$1.48	Price in Column 5 *plus* freight (including 3% transportation tax) from shipping point and *plus* protective service allowances. [2]	Column 6 price plus 43 cents.
14	Sanger lug box (WPB-L 232 No. 46) with a net weight of not less than 24 pounds and not more than 26 pounds.	Per box	All season	$2.05		Column 6 price plus 61 cents.
15	Any of the above containers but with a net weight of less than or more than that specified for each container; and peaches graded and packed in any other container.	Per pound	All season	8.2 cents		Column 6 price plus 2½o cents.
16	Peaches produced in California, Nevada and Arizona and sold loose and ungraded (orchard run) in any container. [1]	Per pound	All season	6.6 cents		Column 6 price plus 2½o cents.
	Peaches produced in Oregon, Washington, and Idaho and graded and packed in the following containers.					
17	Fruit box (WPB-L 232 No. 35) with a net weight of not less than 17 pounds and not more than 19 pounds.	Per box	All season	$1.48	Price in Column 5 *plus* freight (including 3% transportation tax) from shipping point and *plus* protective service allowances. [2]	Column 6 price plus 43 cents.
18	Fruit box (WPB-L 232 No. 36) with a net weight of not less than 19 pounds and not more than 21 pounds.	Per box	All season	$1.64		Column 6 price plus 49 cents.
19	Sanger lug box (WPB-L 232 No. 46) with a net weight of not less than 22 pounds and not more than 24 pounds.	Per box	All season	$1.89		Column 6 price plus 56 cents.
20	Any of above containers but with a net weight of less than or more than that specified for each container; and peaches graded and packed in any other container.	Per pound	All season	8.2 cents		Column 6 price plus 2½o cents.
21	Peaches produced in Oregon, Washington and Idaho and sold loose and ungraded (orchard run) in any container. [1]	Per pound	All season	6.6 cents		Column 6 price plus 2½o cents.
	Peaches produced in all other states and graded and packed in the following containers					
22	Standard bushel baskets	Per bushel	All season	$3.66	Price in Column 5 *plus* freight (including 3% transportation tax) from shipping point and *plus* protective service allowances. [2]	Column 6 price plus $1.08.
23	Standard ½ bushel baskets	Per ½ bushel	All season	$1.99		Column 6 price plus 54 cents.
24	Any of above containers, the contents of which do not meet the requirements of pack specified for standard containers (see paragraph (b) (3) (i)); and peaches graded and packed in any other container.	Per pound	All season	7.6 cents		Column 6 price plus 2½o cents.
25	Peaches produced in all other states and sold loose and ungraded (orchard run) in any container. [1]	Per pound	All season	6.7 cents		Column 6 price plus 2½o cents.

[1] The maximum price for peaches sold in bulk (loose without containers) for all states, except California, Oregon, Washington, Idaho, Nevada and Arizona shall be ½ cent per pound less than the maximum prices per pound listed for items 7, 8, 12, and 25 in columns 5, 6 and 7 and 1½o cents per pound less than the maximum prices per pound listed for items 16 and 21 in columns 5, 6 and 7 for the states of California, Oregon, Washington, Idaho, Nevada and Arizona.

[2] Protective service allowances shall be the actual cost of protective services furnished, not to exceed the lowest common carrier charge for the same services (including 3% transportation tax), but shall not include precooling (see paragraph h).

[3] The prices named in column 6 and 7 are maximum prices for each individual lot or shipment of peaches received and sold by the particular seller. For sellers covered by Column 7, see general provisions of this Appendix.

(g) *Tables of maximum markups.* The following tables name the maximum markups which may be added for certain distributive services. Table A names maximum markups for sales by grower-packers through certain named agents and sales by shipping point distributors direct and through agents. Table B names maximum markups for sales by persons other than grower-packers and shipping point distributors. In each case, the maximum price shall be figured by adding the appropriate markup to the named f. o. b. shipping point or delivered price (see Column 5 or 6 of the applicable table in paragraph (f)), as the case may be. In figuring maximum prices, markups may not be taken cumulatively.

Examples: 1. The maximum markup of 17 cents named in Column 7 of Table A, for a sale by a grower-packer through a terminal auction of a standard bushel basket of peaches, includes the maximum markup of 6 cents named in Column 4 for the broker used in making the sale through the auction.

2. The markup of 29 cents named in Column 10 of Table A, for a sale by a shipping-point distributor through a terminal auction of that standard container of peaches, includes the maximum markup of 12 cents named in Column 8 for the shipping point distributor and the maximum markup of 6 cents named in Column 4 for the broker used in making that sale.

3. The maximum markup of 62 cents named in Column 12 of Table A, for a sale by a shipping point distributor through a commission merchant ex store or ex warehouse of that standard container of peaches, includes the maximum markup of 12 cents named in Column 8 for the shipping point distributor.

4. The maximum markup of 32 cents named for that standard container of peaches in Column 4 of Table B, for a carlot distributor who has purchased a carlot or truckloot of peaches and resells such carlot or truckloot unbroken, includes the markup of 12 cents named in Column 8 of Table A for the shipping point distributor and the markup of 6 cents named in Column 4 of Table A for the broker used in making that sale.

5. The markup of 68 cents named in Column 6 of Table B, for a sale by a primary receiver of that standard container of peaches ex store or ex warehouse, includes the markup of 12 cents named in Column 8 for the shipping point distributor and the markup of 6 cents named in Column 4 of Table A for the broker used in making that sale.

6. The maximum markup of $1.08 named in Columns 7 and 8 of Table B for a sale by secondary jobbers and service wholesalers of that standard container of peaches, includes the markups of 12 cents for the shipping point distributor, 6 cents for the broker, and 50 cents for the primary receiver (totalling 68 cents, the primary receiver's markup in Column 6).

[1] A carlot distributor who resells on an f. o. b. basis may add the markup named in column 4 to the maximum f. o. b. price. (See column 5 of the applicable table in par. (f).)

[2] The column 4 markup may be used only by a person who has purchased the peaches being priced from any person other than a grower or grower-packer selling direct or through a broker, and sells in unbroken carlots or unbroken trucklots. A person who has purchased the peaches being priced from a grower or grower-packer selling direct or through a broker, and sells in unbroken carlots or unbroken trucklots shall use the markups named in the applicable columns in table A for sales by a "shipping point distributor."

(h) *Prohibition against certain payments.* No grower, grower-packer, or shipping point distributor shall receive, and no person shall pay to any grower, grower-packer or shipping point distributor, an amount in excess of the applicable maximum price f. o. b. shipping point, if sold f. o. b. or the applicable maximum price for delivered sales, if sold delivered, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), regardless of the type of sale or the type of purchaser and regardless of any existing or future commitment between the buyer and seller. However, this rule does not affect any allowance made (1) to shipping point distributors for sales direct or through agents or (2) to grower-packers for sales through agents; to ultimate consumers; delivered to the premises of retail stores, designated receiving depots of government procurement agencies and institutional buyers.

No person who does not pack and ship the fruit being priced, and who does not regularly operate a packing and shipping plant for that commodity, shall purchase fruit "on the tree" or in bulk at a price, which, after the costs of harvesting, hauling, packing, precooling, and loading have been added, results in a price higher than the maximum f. o. b. shipping point price named in Column 5 of the applicable table in paragraph (f).

Example. Suppose an intermediate seller or a retailer wishes to buy an unharvested crop of fruit from a grower. The amount which he pays the grower for the fruit plus the cost of harvesting, hauling, packing, precooling and loading may not exceed the maximum price f. o. b. shipping point for fruit in the kind of container in which they are being sold, as set forth in the table for fruit in paragraph (f). If the fruit is purchased already packed, but not precooled or loaded on cars, the price paid for the packed fruit plus the cost of precooling and loading must likewise not exceed the maximum price f. o. b. shipping point for fruit in such containers.

(i) *Sales by growers or grower-packers direct and through brokers, commission merchants or terminal auction*—(1) *Sales by growers and grower-packers direct.* (i) For direct sales of fruit in any quantity by growers or grower-packers, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)).

(2) *Sales by growers and grower-packers through certain named agents.* (i) For sales of fruit in any quantity by growers or grower-packers through brokers, or sales in carlots or trucklots through commission merchants, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such selling agent may charge under Maximum Price Regulation 165) or the markup named in Column 4 of Table A in paragraph (g), whichever is lower.

(ii) For sales of fruit in less-than-carlots or less-than-trucklots by growers or grower-packers through commission merchants, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such commission merchant may charge under Maximum Price Regulation 165) or the applicable markup (for ex car or ex store sales, as the case may be, named in Column 5 or 6 of Table A in paragraph (g)), whichever is lower.

(iii) For sales of fruit by growers and grower-packers through a terminal auction, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus (1) the sum of the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commission or fee which the agent of the auction seller and which the auction company may charge under Maximum Price Regulation 165) or the markup named in Column 7 of Table A in paragraph (g), whichever is lower, and (2) any unloading charges in the terminal market incurred by the seller.

(iv) For sales of fruit by growers or grower-packers delivered directly from the grower's ranch, orchard or place of business at the shipping point in an "original conveyance" owned, or leased, and operated by the sellers (and not furnished, owned or controlled, directly or indirectly by the buyer) to the premises of institutional buyers, designated depots of government procurement agencies or retail stores where resale is made to ultimate consumers, the maximum price in each case is the price named in Column 7 of the applicable table in paragraph (f). The provisions of this subdivision do not apply to sales delivered to retailers' warehouses.

A sale of fruit, delivered directly from the shipping point in an "original conveyance" owned, or leased, and operated by another grower (and not furnished, owned or controlled, directly or indirectly by the buyer), transporting fruit of that grower and the fruit of not more than three other growers, to the premises of institutional buyers, designated depots of government procurement agencies or retail stores where resale is made to ultimate consumers, shall be priced as a sale by a grower "in an original conveyance owned by the grower."

"Original conveyance" means the first conveyance (other than a railroad car) in which the particular goods being priced are loaded for shipment at the country shipping point.

(v) For sales by growers or grower-packers of fruit to ultimate consumers the maximum price in each case is the price named in Column 7 of the applicable table in paragraph (f) multiplied by 1.33. However, such price shall not exceed any applicable community price established by the Office of Price Administration.

"Grower-packer" means a person (including a grower or a grower's cooperative) (1) who grows the fruit being priced, or who has bought the fruit being priced on the tree (tree-run) or in bulk, (2) who sizes, grades, packs or otherwise prepares the fruit being priced for shipment or has it so prepared by others, and (3) who sells the fruit being priced at or from the shipping point on an f. o. b. or delivered basis.

"Growers' cooperative" means a non-profit agricultural marketing association, regularly marketing the fruit being priced, which is organized under state law and in conformity with the Capper-Volstead Act.

"Broker" means a person other than a "grower's sales agent" or a "commission merchant" who, for a commission or fee, represents his principal in the sale of the fruit being priced.

"Commission merchant" means a seller's agent, other than a "grower's sales agent" or a "broker", who receives the fruit being priced, and who, for a commission or fee sells it in any quantity in a terminal market or other wholesale receiving point, and who, in the case of less-than-carlot or less-than-trucklot sales, performs the wholesale functions of unloading the fruit from the car or truck in which it is received.

"Commission" or "fee" means the actual charge made by an agent for services performed in connection with the sale of fruit.

"Terminal auction" means a place in a terminal market, open to any seller and to any buyer who has established credit with the "auction company" or who pays cash, where, on the basis of competitive bidding, the fruit being priced is sold in less-than-carlot or less-than-trucklot quantities by persons operating through a public licensed sales organization known as an "auction company", for whose services a fee is charged.

"Ultimate consumer" means a person who buys the fruit being priced for direct consumption. However, as used in this appendix, the term does not include a commercial, industrial or institutional user or government procurement agency.

(j) *Provisions applicable to sales by any person (including growers and grower-packers) through growers' sales agents*—(1) *Sales at shipping points by any person (including growers and grower-packers) through growers' sales agents.* (i) For sales of fruit in any quantity at shipping points by any person through growers' sales agents, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which the grower's sales agent may charge under Maximum Price Regulation 165) or the markup named in Column 9 of Table A in paragraph (g), whichever is lower.

(2) *Sales at terminal markets or other wholesale receiving points by any persons (including growers and grower-packers) through growers' sales agents.* (i) For sales of fruit at terminal markets or other wholesale receiving points by any person through growers' sales agents, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commissions or fees which the respective agents may charge under Maximum Price Regulation 165) or the markup named in Column 9 of Table A in paragraph (g), whichever is lower.

(ii) For sales of fruit by any person through grower's sales agents who use a terminal auction, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus (1) the sum of the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commissions or fees which the grower's sales agent, the agent of the auction seller and the auction company may charge under Maximum Price Regulation 165) or the markup named in Column 10 of Table A in paragraph (g), whichever is lower, and (2) any unloading charges in the terminal market incurred by the seller.

(iv) For sales of fruit in less-than-carlots or less-than-trucklots by any person through growers' sales agents who use commission merchants, the maximum price in each case is the maximum delivered price in Column 6 of the applicable table in paragraph (f) plus the sum of the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commissions or fees which the grower's sales agent and the commission merchant may charge under Maximum Price Regulation 165) or the applicable markup (for ex car or ex store sales, as the case may be) named in Columns 11 and 12 of Table A in paragraph (g), whichever is lower.

"Grower's sales agent" means a person (including a growers' cooperative), other than a broker or commission merchant, (1) who is regularly engaged in the business of selling fruit at country shipping points, terminal markets and other wholesale receiving points, and shipping it to terminal markets and other wholesale receiving points, either in person or through salaried representatives, brokers, auctions, or other agents, (2) who receives the fruit being priced from another, (3) who for a commission or fee sells, at shipping points, terminal markets or other wholesale receiving points, the fruit being priced for the account of another, (4) who assumes full financial responsibility for the collection of funds due his principal on all fruit sold by him for the account of his principal, and (5) who handles for his principal all freight traffic problems with respect to the fruit being priced, such as routing, diversion of shipments and collection of claims.

(k) *Sales by shipping point distributors*—(1) *Sales by shipping point distributors at shipping points.* For sales of fruit in any quantity at shipping points by shipping point distributors, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the markup named in Column 8 of Table A in paragraph (g).

(2) *Sales at terminal markets or other wholesale receiving points by shipping point distributors.* (i) For sales of fruit at terminal markets or other wholesale receiving points by shipping point distributors, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the markup named in Column 9 of Table A in paragraph (g). However, this markup may be taken only by a shipping point distributor who regularly maintains sales offices and salaried representatives at terminal markets and other wholesale receiving points. For sales by a shipping point distributor who does not regularly maintain sales offices and salaried representatives at terminal markets and other wholesale receiving points the markup in Column 8 shall apply.

(ii) For sales of fruit at terminal markets or other wholesale receiving points by shipping point distributors, who in carlot or trucklot sales use brokers or commission merchants and in less-than-carlot or less-than-trucklot sales use brokers, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the markup named in Column 9 of Table A in paragraph (g), or the sum of (1) the markup named in Column 8 of Table A in paragraph (g) and (2) the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which such selling agent may charge under Maximum Price Regulation 165), whichever is lower.

(iii) For sales of fruit by shipping point distributors through a terminal auction, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus (1) the markup named in Column 10 of Table A in paragraph (g) or the sum of (1) the markup named in Column 8 of Table A in paragraph (g) and (ii) the respective actual commissions or fees charged for the particular sale (not to exceed the maximum allowable commission or fee which the agent of the auction seller and which the auction company may charge under Maximum Price Regulation 165), whichever is lower, plus (2) any unloading charges in the terminal market incurred by the seller.

(iv) For sales of fruit in less-than-carlot or less-than-trucklot by shipping point distributors through commission merchants, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the applicable markup (for ex car or ex store sales, as the case may be) named in Columns 11 and 12 of Table A in paragraph (g) or the sum of (1) the markup named in Column 8 of Table A in paragraph (g) and (2) the actual commission or fee charged for the particular sale (not to exceed the maximum allowable commission or fee which the commission merchant may charge under Maximum Price Regulation 165), whichever is lower.

"Shipping point distributor" means a grower-packer (1) who is regularly engaged in the business of selling fruit at country shipping points, terminal markets and other wholesale receiving points, and shipping it to terminal markets and other wholesale receiving points, either in person or through salaried representatives, brokers, auctions or

other agents and (2) who does not make more than 25% (by volume) of his sales to any one person other than to a government procurement agency during the 1944 season.

A person who would be a "shipping point distributor" but for the fact that he does not meet the requirement of (2) is a "grower-packer" and prices accordingly.

(m) *Maximum prices for sales by persons other than growers, grower-packers and shipping point distributors.*—(1) *Sales by carlot or trucklot distributors.* (i) For sales of fruit in unbroken carlots or unbroken trucklots by carlot distributors, the maximum price in each case is the maximum price f. o. b. shipping point or the maximum delivered price, as the case may be (see Column 5 or 6 of the applicable table in paragraph (f)), plus the markup named in Column 4 of Table B in paragraph (g).

"Carlot distributor" means any person who has purchased the fruit being priced from any person other than a grower or grower-packer selling direct or through a broker, and sells in unbroken carlots or unbroken trucklots.

A person who has purchased the fruit being priced from a grower or grower-packer selling direct or through a broker and sells in unbroken carlots or unbroken trucklots shall price as if he were a "shipping point distributor".

(2) *Sales by primary receivers in less-than-carlots or less-than-trucklots.* (i) For sales by primary receivers of fruit ex car, ex truck, ex dock, or ex terminal sales platform, at a terminal market or other wholesale receiving point, the maximum price in each case shall be the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the markup named in Column 5 of Table B in paragraph (g).

(ii) If a primary receiver breaks a car or truck, unloads the particular fruit being priced into a store or warehouse owned or leased in whole or in part by him, and makes sales ex store or ex warehouse, the maximum price in each case shall be the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the markup named in Column 6 of Table B in paragraph (g). This price does not include delivery charges. If the primary receiver makes delivery, he may also add the amount which the appropriate regional or district office determines to be applicable for deliveries in these cases (see paragraph (r)).

(iii) If a primary receiver makes a delivered sale to the premises of a purchaser within the free delivery zone, without first unloading the particular fruit being priced into a store or warehouse owned or leased in whole or in part by him, the maximum price shall be the maximum price for sales ex car, ex truck, ex dock, or ex terminal sales platform, plus the amount which the appropriate regional or district office determines to be applicable to these sales (see paragraph (r)).

"Primary receiver" means a person other than a service wholesaler who for his own account and profit buys the fruit being priced (1) in unbroken carlots or unbroken trucklots from any person or (2) in any quantity from a grower, grower-packer or shipping point distributor selling either direct or through any agent (except a commission merchant in less-than-carlots or less-than-trucklots), or (3) at auction, for resale in less-than-carlots or less-than-trucklots to persons other than ultimate consumers.

(3) *Sales through terminal auctions.* For sales of fruit through a terminal auction, by persons other than growers, grower-packers, or shipping point distributors, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus (1) the markup named in Column 5 of Table B in paragraph (g) and (2) any unloading charges in the terminal market incurred by the seller.

(4) *Sales by secondary jobbers.* (i) For sales by secondary jobbers of fruit on a "delivered" basis, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the markup named in Column 7 of Table B in paragraph (g). "Delivered" means delivered to the buyer's premises (in the case of a retailer, delivered to the retail store where resale is made to ultimate consumers) within the free delivery zone.

(ii) For sales by secondary jobbers of fruit not on a "delivered" basis, the maximum price in each case is the maximum price for sales on a "delivered" basis less five cents per container for containers under 50 pounds (gross weight), and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (r)).

"Secondary jobber" means a person other than a retailer who for his own account and profit purchases the fruit being priced in less-than-carlots or less-than-trucklots from (1) a primary receiver or (2) any person selling through a commission merchant, for resale in any quantity.

(5) *Sales by service wholesalers.* (i) For sales by service wholesalers of fruit on a "delivered" basis, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the markup named in Column 8 of Table B in paragraph (g). "Delivered" means delivered to the buyer's premises (in the case of a retailer, delivered to the retail store where resale is made to ultimate consumers) within the free delivery zone.

(ii) A service wholesaler, when selling the fruit being priced on a delivered basis in quantities of one-half container or less, may add to the maximum delivered price named in Column 6 of the applicable table in paragraph (f) the markup named in Column 9 of Table B in paragraph (g), but only if he has first offered to sell to the buyer on a full-container basis. This paragraph applies only to sales where the seller breaks the original container received by him and sells no more than half of the quantity in that container.

(iii) For sales by service wholesalers of fruit not on a "delivered" basis, the maximum price in each case is the maximum price for sales on a "delivered" basis less five cents per container under 50 pounds (gross weight), and ten cents per container for containers 50 pounds or more (gross weight), except as these amounts may be changed by the appropriate regional or district office (see paragraph (r)).

"Service wholesaler" means a person who maintains a store or warehouse at which the fruit being priced is received and stored (or warehoused); who maintains at such store or warehouse facilities for cold storage, ripening, sorting, repacking, and other handling of the fruit; who employs salesmen to call on the trade in the city or country points which he services; and who sells the fruit being priced to retail stores, government procurement agencies or institutional buyers.

(6) *Sales by secondary jobbers and service wholesalers delivered outside the free delivery zone.* (i) For sales by secondary jobbers or service wholesalers of fruit delivered to the premises of any purchaser located outside of the free delivery zone, the maximum price in each case is the maximum delivered price named in Column 6 of the applicable table in paragraph (f) plus the applicable markup named in Columns 7, 8 or 9 of Table B in paragraph (g) plus the cost of transportation beyond the free delivery zone, figured at the lowest common or contract carrier rate for available transportation from the seller's place of business to the premises of the purchaser. The amount added for transportation shall not exceed 25 cents per cwt. for the first 25 miles beyond the free delivery zone, and five cents per cwt. for each successive 25 miles, and the total amount may not exceed 50 cents per cwt., except as these amounts may be changed by the appropriate regional or district office (see paragraph (r)).

(n) *Fractions.* In figuring maximum prices, except for sales to ultimate consumers, all fractions shall be carried to the second decimal place of a cent. Any final calculations of total maximum prices applicable to individual sales resulting in a fraction of one-half cent or more shall be adjusted to the next higher cent, and those below one-half cent shall be adjusted to the next lower cent.

(o) *Sample calculations of maximum prices for sales of a standard bushel basket of peaches f. o. b. Illinois shipping point, and delivered at Chicago, Illinois, and for sales by sellers in the Chicago market.*—(1) *Maximum prices for sales loaded on car or truck at an Illinois shipping point on an f. o. b. basis.*

(i) Sales by growers and grower-packers:	
(a) Direct (Column 5, Table 1)	$3.66
(b) Through a broker, etc. (Col. 4, Table A) ($3.66 plus 0.06)[1]	3.72
(ii) Sales by any person (including growers and grower-packers) through grower's sales agents:	
(a) Direct (Col. 8, Table A) ($3.66 plus 0.12)[2]	3.78
(b) Through a broker, etc. (Col. 9, Table A) ($3.66 plus 0.18)[3]	3.84

(iii) Through a commission merchant in less-than-carlots:	
(a) Ex car, etc. (Col. 5, Table A) ($3.91 plus 0.23)[7]	4.14
(b) Ex store, etc. (Col. 6, Table A) ($3.91 plus 0.50)[7]	4.41

[1] Where the broker's actual charge is less than the $0.06, only the amount of the actual charge may be added.

[2] Where the grower's sales agent's actual charge is less than the $0.12, only the amount of the actual charge may be added.

[3] Where the sum of the grower's sales agent's and broker's actual charges is less than the $0.18, only the amount of the actual charges may be added.

[4] Where the broker's actual charge plus the markup in Column 8 is less than the $0.18, only the amount of the actual charge plus the markup in Column 8 may be added.

[5] See definition of "carlot distributor" in paragraph (m).

[6] Where the broker's actual charge is less that the $0.06, only the amount of the actual charge may be added.

[7] Where the commission merchant's actual charge is less than the $0.23 or $0.50, only the amount of the actual charge may be added.

(iv) Through auction in less-than-carlots (Col. 7, Table A) ($3.91 plus 0.17)[8]	$4.08

(Plus actual unloading charges incurred by the seller.)

(4) Sales by any person (including growers and grower-packers) through growers' sales agents, at Chicago, Illinois:

(i) Direct (Col. 8, Table A) ($3.91 plus 0.12)[9]	$4.03
(ii) Through a broker, etc. (Col. 9, Table A) ($3.91 plus 0.18)[10]	4.09

(Plus actual unloading charges incurred by the seller.)

(iv) Through a commission merchant in less-than-carlots:	
(a) Ex car, etc. (Col. 11, Table A) ($3.91 plus 0.35)[12]	4.26
(b) Ex store, etc. (Col. 12, Table A) $3.91 plus 0.62)[13]	4.53

(5) Sales by shipping point distributors, at Chicago, Illinois:

(i) Direct (Column 8, Table A) ($3.91 plus 0.12)	$4.03
(ii) Through a broker, etc. (Col. 9, Table A) ($3.91 plus 0.18)[13]	4.09
(iii) Through auction in less-than-carlots (Col. 10, Table A) ($3.91 plus 0.29)[14]	4.20

(Plus actual unloading charges incurred by the seller.)

(iv) Through a commission merchant in less-than-carlots:	
(a) Ex car, etc. (Col. 11, Table A) ($3.91 plus 0.35)[12]	$4.26
(b) Ex store, etc. (Col. 12, Table A) ($3.91 plus 0.62)[13]	4.53

(6) Sales by other sellers in the Chicago market:

(i) Carlot distributor[15] (Col. 4, Table B) ($3.91 plus 0.32)	$4.23
(ii) Primary receiver:	
(a) Ex car, etc. (Col. 5, Table B) ($3.91 plus 0.41)	4.32
(b) Ex store, etc. (Col. 6, Table B) $3.91 plus 0.68)	4.59
(iii) Secondary jobber (Col. 7, Table B) ($3.91 plus $1.08)	4.99
(iv) Service wholesaler (Col. 8, Table B) ($3.91 plus $1.08)	4.99

[8] Where the sum of the agent's and the auction company's actual charge is less than the $0.17, only the amount of the actual charges may be added.

[9] Where the growers' sales agent's actual charge is less than the $0.12, only the amount of the actual charge may be added.

[10] Where the sum of the growers' sales agent's and broker's actual charges is less than the $0.18, only the amount of the actual charges may be added.

[11] Where the sum of the agents' and the auction company's actual charges is less than the $0.29, only the amount of the actual charges may be added.

[12] Where the sum of the growers' sales agent's and the commission merchant's actual charges is less than the $0.35 or $0.62, only the amount of the actual charges may be added.

[13] Where the broker's actual charge plus the markup in Column 8 is less than the $0.18, only the amount of the actual charge plus the markup in Column 8 may be added.

[14] Where the sum of the agent's and the auction company's actual charges plus the markup in Column 8 is less than the $0.29, only the sum of the actual charges plus the markup in Column 8 may be added.

[15] Where the commission merchant's actual charge plus the markup in Column 8 is less than the $0.35 or $0.62, only the amount of the actual charge plus the markup in Column 8 may be added.

[16] See definition of "carlot distributor" in paragraph (m).

NOTE: The foregoing figures are not to be construed as true ceiling prices in the Chicago market. They are used merely as examples to show the application of the various markups to the base amounts.

(p) *When maximum prices apply.* The applicable maximum price in each case is the maximum price in effect on the date of delivery.

When shipment is by independent carrier and the sale is on an f. o. b. shipping point basis, with the risk of loss on the buyer for any part of the transit prior to physical delivery to him, the date of delivery is the date when the goods are loaded on the carrier ready for shipment. When shipment is by independent carrier and the sale is on a delivered basis, with the risk of loss on the seller for the entire transit prior to physical delivery to the buyer, the date of delivery is the date when the goods are physically delivered by the carrier to the buyer.

(q) *Sales of futures.* In the case of futures, no "advance" (that is, payment prior to delivery) shall, when added to any previous advances, exceed either the maximum price in effect on the date of delivery or the maximum price in effect on the date of the payment.

"Sales of futures" means sales of goods for delivery at a future date beyond the normal time after sale necessary for transit.

(r) *Adjustments by regional and district offices.* The authority delegated by sections 2 (a) and 2 (b) of this regulation to the regional and district offices does not apply to fruits. For fruit, the Regional Directors of the Office of Price Administration, and such district officers as they in turn may authorize, are authorized:

(1) To determine the limits of the free delivery zone at any wholesale receiving point located within its jurisdiction and to adjust upwards or downwards the allowances for sales by secondary jobbers and service wholesalers on a non-delivered basis and to adjust upwards or downwards the allowances for transportation beyond the free delivery zones, at the lowest rates for customary and generally available means of transportation.

(2) To determine and publish orders naming the amounts which primary receivers may add, for deliveries made within the free delivery zone at wholesale receiving points, to the maximum price otherwise applicable; and to determine and publish orders naming the amounts which primary receivers may add, for deliveries beyond the free delivery zone, to the maximum prices otherwise applicable. These amounts shall be figured at the lowest rates for customary and generally available means of transportation.

(3) To adjust upwards or downwards the maximum markups named for sales through commission merchants in less-than-carlots or less-than-trucklots ex car, ex truck, ex dock, or terminal sales platform. However, any upward adjustment that is made under this paragraph shall not exceed the maximum markup named for such sales through a commission merchant in less-than-carlots or less-than-trucklots ex store or ex warehouse.

(4) To adjust upwards or downwards the maximum markups named for sales by primary receivers ex car, ex truck, ex dock, or ex terminal sales platform or through a terminal auction. However, any upward adjustment that is made under this paragraph shall not exceed the maximum markup named for sales by primary receivers ex store or ex warehouse.

(5) *Record keeping and notification requirements.* Every sale by any person to any buyer other than an ultimate consumer shall be accompanied by a notification in writing showing the date of the sale, the names and addresses of the seller and the buyer, an adequate description of the commodity sold, including the quantity, unit of sale and the total price charged. When the total price includes charges for brokerage, commission, freight, trucking, protective services or any other charge or fee recognized by this appendix, the notice shall set forth the nature and amount of each of such charges, except insofar as the giving of such information is inconsistent with state law.

This amendment shall become effective on July 15, 1944, except for peaches shipped from the shipping point and actually sold before July 15, 1944 and except for peaches shipped (whether sold or unsold) before July 10, 1944.

(b) Maximum prices for crude petroleum produced from the pools listed in (a) above, except the Appalachian pools producing Pennsylvania Grade crude oil, have been increased in accordance with the following standards:

Daily average per well production of pool during month of December, 1943 in terms of 42-gallon barrels. (The number of wells to be considered the number of wells producing as of December 31, 1943):	*Amount of price increase — cents per 42-gallon barrel*
Less than 5	35
5 and above but less than 7	25
7 and above but less than 9	20

The maximum price of crude petroleum may be reduced in a pool listed in (a) above by order of the Price Administrator when a finding is made that an increase granted by this amendment was incorrect.

The maximum price of crude petroleum may be increased by order of the Price Administrator in a pool listed in (a) above if the amount of an increase granted herein is less than 35 cents per barrel, when a finding is made that current production has declined, but the total amount of the increase, including that granted herein, may not exceed 35 cents per barrel.

The maximum price of crude petroleum for a particular pool not designated in (a) above may be increased by order of the Price Administrator on the following basis when a finding is made that the daily average per well production was less than 9 barrels per day:

Daily average per well production of pool during month of December, 1943 in terms of 42-gallon barrels. (The number of wells to be considered the number of wells producing as of December 31, 1943):	*Amount of price increase — cents per 42-gallon barrel*

7 and above but less than 9	20

This amendment shall become effective August 1, 1944.

Issued this 10th day of July 1944.

ARTICLE XIX—OLEOMARGARINE; MAXIMUM PRICES OF PROCESSORS

SEC. 19.1 *Maximum prices.* Processor's maximum prices for oleomargarine shall be determined under the provisions of the General Maximum Price Regulation, excepting that:

(a) *No maximum prices to be determined under section 1499.2* (b). No maximum price shall be determined for any margarine under the provisions of section 1499.2 (b) of the General Maximum Price Regulation.

Where maximum prices for any margarine have been determined, or purport to have been determined, under the provisions of § 1499.2 (b) of the General Maximum Price Regulation prior to August 22, 1944, maximum prices for such margarine shall be recalculated and redetermined in accordance with the provisions of sections 19.1 (b) and (c) hereof.

(b) *Maximum prices of brands that were not sold or offered during March 1942, and that are now sold by processors who sold or offered any margarine during March 1942.* The maximum price of a brand of margarine that was not sold or offered for sale by the processor during March 1942, and that is now sold by a processor who sold or offered for sale any margarine during March 1942, shall be the highest price charged by the processor during March 1942 for the most nearly equivalent margarine sold or offered by such processor during March 1942.

(c) *Maximum prices of brands that were not sold during March 1942 and that are now sold by processors who did not sell or offer any margarine during March 1942.* The maximum price of a brand of margarine that was not sold or offered for sale during March 1942, and that is now sold by a processor who did not sell or offer any margarine during March 1942, shall be determined under the provisions of Order No. 375 under § 1499.3 (b) of the General Maximum Price Regulation, excepting that in no case may a maximum price so determined be above the general level of prices prevailing for similar margarine in the same general area as that in which it is proposed to distribute the margarine.

(d) *Application for adjustment in certain cases of increased costs resulting from changes in method of manufacture or distribution.* (1) Where a processor, since March 1942, has changed and substantially improved the method of manufacture or distribution of any brand of margarine, or where a processor makes a new brand of margarine that is manufactured or distributed by a different and substantially better method than that under which the most nearly equivalent brand made by him during March 1942 was manufactured or distributed, such processor may apply to the Office of Price Administration, Washington, D. C., for an adjustment in his maximum price.

(2) In any such application the processor shall specify the exact changes and improvements in method of manufacture or distribution claimed to have been made since March 1942, the old and new method of manufacture or distribution, the exact cost (as of the date of the application) of making and distributing the margarine under the method of manufacture and distribution that was used in March 1942, and the exact cost of making and distributing the margarine under the method of manufacture and distribution used at the time of the application.

(3) Any adjustment granted under this section 19.1 (d) will in no case exceed the increase in the total direct cost of manufacture and distribution that is due to the change in method of manufacture or distribution, and will in no case be to a price above the general level of prices prevailing for similar products in the same general area as that in which the product is distributed.

(e) *Application for adjustment in certain cases of hardship.* A processor may apply to the Office of Price Administration, Washington, D. C., for an adjustment in his maximum price of margarine where

(1) His maximum price is below the general price level prevailing for similar products, and

(2) He is or will be unable to maintain his production at his maximum price or prices, and

(3) The loss of his production would result in consumers having to pay higher prices for the most nearly similar substitute product available, and

(4) An increase in his maximum price or prices will enable him to continue production, and

(5) The Administrator is of the opinion that an increase in his maximum price or prices would, under all the circumstances, be in furtherance of the purposes of the Emergency Price Control Act, as amended.

The maximum price increase that may be granted to a processor or manufacturer under the provisions of this section 19.1 (e) shall not cause his price to exceed the general price level prevailing for similar products. Subject to this limitation, an increase may be granted not to exceed the total cost of the product, or if the applicant's earnings from all operations before income and excess profits taxes are low in comparison with those of a "representative peace-time period", adjusted for subsequent changes in investment, and if in view of such over-all earnings a small margin of profit is reasonably necessary to permit production, an increase may be allowed estimated to yield such a profit margin.

A "representative peace-time period" means the period of the years 1936 to 1939, inclusive. When 1936 to 1939 does not represent a reasonably normal prewar (December 7, 1941) period, some other period may be used but its use must be positively justified in the application.

SEC. 19.2 *Maximum prices for brands for which maximum prices have been fixed by previous orders of the OPA.* This amendment shall not affect the maximum prices for brands for which dollar-and-cents ceiling prices have been fixed by orders of the Office of Price Administration previously issued; such orders shall continue in full force and effect.

SEC. 19.3 *These maximum prices are for processors or manufacturers only.* The maximum prices established by this amendment are maximum prices for processors or manufacturers only. They are not the maximum prices for wholesalers, distributors, retailers or other sellers.

SEC. 19.4 *Definitions.* When used in this Article XIX:

(a) "Processor" means (1) the manufacturer or processor, (2) any predecessor in title of, or any corporation or person that conveyed its assets, business, stock-in-trade, good will or trademarks to, the manufacturer or processor, or (3) any corporation, a majority of whose voting stock is owned or controlled by the manufacturer or processor or which owns or controls a majority of the voting stock of the manufacturer or processor.

This amendment shall become effective August 22, 1944.

Issued this 11th day of July 1944.

CHESTER BOWLES,
Administrator.

[RMPR 271,[1] Amdt. 18]

POTATOES AND ONIONS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Table V in section 24 is amended in the following respects:

1. In the parenthetical statement immediately following the heading, the sentence commencing with the word "However" is amended to read as follows: "However, for the months of June and July 1944, and with respect to all states other than California and Arizona, potatoes of a minimum diameter of 1½ inches and otherwise meeting the requirements of U. S. No. 1 grade, 85 per cent U. S. No. 1 grade or U. S. Commercial grade, as the case may be, may be sold at the ceiling price established for the respective grade without discount by reason of size, and the provision of section 25 with respect to U. S. Size B shall not be applicable."

2. The following is added to the table:

[1] 8 F.R. 15587, 15663; 9 F.R. 2298, 3589, 4027, 4647, 5379, 6151.

Section 9.1 (e) is added to read as follows:

(e) *Container differentials for coconut oil.* The maximum price of imported coconut oil when sold in the following described containers shall be the prices set forth for such oil in bulk plus the differentials set forth below:

Quantity sold (returnable drums):	*Differential to be added to bulk price (cents per pound)*
Carlots	0.5
Carlots in more than one delivery of 10 drums each	0.7
5 to 9 drums, one delivery	1.1
1 to 4 drums, one delivery	1.5

If the oil is shipped in non-returnable drums, .5 cents per pound may be added to the above prices.

This amendment shall become effective July 17, 1944.

Issued this 11th day of July 1944.

CHESTER BOWLES,
Administrator.

REMOVAL OF TRESPASSING HORSES IN SITGREAVES NATIONAL FOREST

Whereas a number of horses are trespassing and grazing on land in portions of the Heber Ranger District in the Sitgreaves National Forest, State of Arizona; and

Whereas these horses are consuming forage needed for permitted livestock, are causing extra expense to established permittees, and are injuring national-forest lands;

Now, therefore, by virtue of the authority vested in the Secretary of Agriculture by the Act of June 4, 1897 (30 Stat. 35, 16 U.S.C. 551), and the Act of February 1, 1905 (33 Stat. 628, 16 U.S.C. 472), the following order is issued for the occupancy, use, protection, and administration of the Long Tom, Wagon Draw, Rock Tank, Delodo, and Wild Cat Allotments of the Heber Ranger District in the Sitgreaves National Forest. This area is bounded on the north by the fence boundary of the Sitgreaves Forest, on the east by a fence between cattle and sheep allotments, on the south by Mogollon Rim, an impassable barrier, and on the west by Chevalon Canyon, Coconino and Navajo Counties, Arizona:

§ 261.50 *Temporary closure from livestock grazing.* (a) The Long Tom, Wagon Draw, Rock Tank, Delodo, and Wild Cat Allotments of the Heber Ranger District, in the Sitgreaves National Forest, are hereby closed for the period July 1, 1944, to September 30, 1944, to the grazing of horses, excepting those that are lawfully grazing on or crossing land in such areas pursuant to the regulations of the Secretary of Agriculture, or that are used in connection with operations authorized by such regulations.

(b) Officers of the United States Forest Service are hereby authorized to dispose of, in the most humane manner, all horses found trespassing or grazing in violation of this order.

(c) Public notice of intention to dispose of such horses shall be given by posting notices in public places or advertising in a newspaper of general circulation in the locality in which the Sitgreaves National Forest is located.

Done at Washington, D. C., this 10th day of July 1944.

Bureau of Entomology and Plant Quarantine.

RESTRICTIONS GOVERNING IMPORTATIONS OF COTTONSEED AND COTTONSEED HULLS

NOTICE OF PUBLIC HEARING

JULY 10, 1944.

On May 28, 1913, the Secretary of Agriculture promulgated a quarantine (B. E. P. Q.—Q. 8; 7 CFR 319.8), forbidding the importation into the United States of cottonseed of all species and varieties and cottonseed hulls from any foreign locality and country, excepting only the locality in the Imperial Valley in the Territory of Baja California, Mexico, to guard against the entry of the pink bollworm of cotton (Pectinophora gossypiella Saunders).

The Secretary now has information that the pink boll worm exists in portions of Texas, New Mexico, and Arizona, as well as in the adjacent cotton fields in Mexico. In view of the fact that infestation by the pink bollworm occurs on both sides of the international boundary, the Department has been requested to modify the existing prohibition in order that supplies of cottonseed in Mexico may be promptly crushed. The Secretary has been informed that delays in processing cottonseed in Mexico present a greater hazard from the pest-risk standpoint than would be the case if the seed were permitted entry into the United States for immediate crushing, provided milling facilities were avialable within the area where infestation occurs.

During recent shortages of feedstuffs, there has also been a demand for permission to import cottonseed hulls from Mexico for stock feed, and it is proposed that consideration will also be given at this hearing to liberalizing the existing prohibition against the importation of cottonseed hulls, so as to permit their entry when produced from sterilized cottonseed under conditions satisfactory to the Chief of the Bureau of Entomology and Plant Quarantine.

It appears necessary, therefore, to consider the advisability of revising the present quarantine so as to authorize the entry of cottonseed and cottonseed hulls from Mexican States along the international boundary, in addition to the Territory of Baja California.

Notice is therefore hereby given that, in accordance with the Plant Quarantine Act of August 20, 1912 (37 Stat. 315; 7 U. S. C. 151), as amended, a public hearing will be held before the Bureau of Entomology and Plant Quarantine in Room 523 Federal Building, San Antonio, Tex., July 19, 1944, at 10 a. m., in order that any person interested in the

H. The hearings will be conducted in accordance with the following rules, subject however, to such subsequent modifications by the Administrator or Presiding Officer as are deemed appropriate:

1. The hearing shall be stenographically reported and a transcript made which will be available to any person at prescribed rates upon request addressed to the Administrator, Wage and Hour Division, United States Department of Labor, 165 West 46th Street, New York 19, New York.

2. In order to maintain orderly and expeditious procedure, each person filing a Notice to Appear shall be notified, if practicable, of the approximate day and the place at which he may offer evidence at the hearing. If such person does not appear at the time set in the notice, he will not be permitted to offer evidence at any time except by special permission of the Presiding Officer.

3. At the discretion of the Presiding Officer, the hearing may be continued from day to day, or adjourned to a later date, or to a different place by announcement thereof at the hearing by the Presiding Officer or by other appropriate notice.

4. At any stage of the hearing, the Presiding Officer may call for further evidence upon any matter. After the hearing has been closed, no further evidence shall be taken, except at the request of the Administrator, unless provision has been made at the hearing for the later receipt of such evidence. In the event that the Administrator shall cause the hearing to be reopened for the purpose of receiving further evidence, due and reasonable notice of the time and place fixed for such taking of testimony shall be given to all persons who have filed a notice of intention to appear at the hearing.

5. All evidence must be presented under oath or affirmation.

6. Written documents or exhibits, except as otherwise permitted by the Presiding Officer, must be offered in evidence by a person who is prepared to testify as to the authenticity and trustworthiness thereof, and who shall, at the time of offering the documentary exhibit, make a brief statement as to the contents and manner of preparation thereof.

7. Written documents and exhibits shall be tendered in duplicate and the persons preparing the same shall be prepared to supply additional copies if such are ordered by the Presiding Officer. When evidence is embraced in a document containing matter not intended to be put in evidence, such a document will not be received, but the person offering the same may present to the Presiding Officer the original document together with two copies of those portions of the document intended to be put in evidence.

8. Subpoenas requiring the attendance of witnesses or the presentation of a document from any place in the United States at any designated place of hearing may be issued by the Administrator at his discretion, and any person appearing in the proceeding may apply in writing for the issuance by the Administrator of the subpoena. Such application shall be timely and shall identify exactly the witness or document and state fully the nature of the evidence proposed to be secured.

9. Witnesses summoned by the Administrator shall be paid the same fees and mileage as are paid witnesses in the courts of the United States. Witness fees and mileage shall be paid by the party at whose instance witnesses appear, and the Administrator before issuing subpoena may require a deposit of an amount adequate to cover the fees and mileage involved.

10. The rules of evidence prevailing in the courts of law or equity shall not be controlling.

11. The Presiding Officer may, at his discretion, permit any person appearing in the proceeding to cross-examine any witness offered by another person insofar as is practicable, and to object to the admission or exclusion of evidence by the Presiding Officer. Requests for permission to cross-examine a witness offered by another person and objections to the admission or exclusion of evidence shall be stated briefly with the reasons for such request or the ground of objection relied on. Such requests or objections shall become a part of the record, but this record shall not include argument thereon except as ordered by the Presiding Officer. Objections to the approval of the Committee's recommendation and to the promulgation of a wage order based upon such approval must be made at the hearing before the Presiding Officer.

12. Before the close of the hearing, written requests shall be received from persons appearing in the proceeding for permission to make oral arguments before the Administrator upon the matter in issue. If the Administrator, in his discretion, allows the request, he shall give such notice thereof as he deems suitable to all persons appearing in the proceedings and shall designate the time and place at which the oral arguments shall be heard. If such requests are allowed, all persons appearing at the hearing will be given opportunity to present oral argument.

13. Briefs (12 copies) may be submitted to the Administrator following the close of the hearing, by any persons appearing therein. Notice of the final dates for filing such briefs shall be given by the Administrator in such manner as shall be deemed suitable by him.

14. On the close of the hearing, a complete record of the proceedings shall be filed with the Administrator. No intermediate report shall be filed unless so directed by the Administrator. If a report is filed it shall be advisory only and have no binding effect upon the Administrator.

15. No order issued as a result of the hearing will take effect until after due notice is given of the issuance thereof by publication in the FEDERAL REGISTER.

Signed at New York, New York, this 8th day of July 1944.

L. METCALFE WALLING,
Administrator.

FEDERAL COMMUNICATIONS COMMISSION.

[Docket 6593]

RADIOCOMMUNICATIONS SYSTEMS IN RAILROAD OPERATIONS

NOTICE OF HEARING

In the matter of the investigation of the establishment and use of radio communications systems in railroad operations.

So that all interested parties may be fully acquainted with as much material as may now be developed concerning the background of this investigation and so that future experimentation, as well as further hearings herein, may be facilitated, the Commission hereby orders that the initial hearing herein be held at a place to be hereafter designated, in the City of Washington, D. C., commencing at 10:00 a. m., on September 13, 1944.

It is anticipated that witnesses will be presented by the Commission to testify on the following matters:

1. To describe the nature and extent of existing forms of railroad communications and signaling systems, and the part radio communications[1] might play in supplementing existing facilities.

2. To testify concerning the coordinated radio communications systems now utilized by domestic airlines and to develop the manner in which such systems have implemented the safety of their services.

3. To testify concerning the dependability of radio communications as an instrumentality to insure safety and to furnish data supporting such reliability.

4. To testify concerning the use now being made of railroad radio communications systems in various ordnance plants throughout the United States.

5. To testify concerning the present and future possible uses of radio for the coordination of emergency services at scenes of disaster.

6. To testify concerning the rules, regulations, and policies of Federal government agencies in so far as they may affect the proposed service.

7. To testify concerning the existence and use of "safe failure" devices as applied to radio.

8. To testify concerning the findings of the Radio Technical Planning Board to date in relation to the proposed service.

9. To testify concerning the existing patent situation with respect to radio devices and systems for the proposed service.

Upon completion of the presentation indicated above, as well as such cross-examination as may be deemed advisable, any party interested herein will be offered an opportunity to present such further material as he may deem advisable at this time. For guidance in this connection, the Commission recommends the following items as material on which testimony will be desirable:

I. Possible practical applications of the use of radio on railroads.

(a) Available signaling, control, and communication facilities and their limitations.

(b) Services which radio can render:

(1) On a system basis;
(2) On a divisional basis;
(3) On a local basis;
(4) On a joint system basis.

II. Engineering considerations in the use of radio on railroads

(a) Distances over which communication is to be obtained under the

(1) Portable-mobile and mobile service;
(2) Point-to-point service;
(3) Multiple address service.

(b) Frequencies, types of emission, and communication bands of emission required for the various railroad services.

(c) Operating power required for radio stations for the various railroad services (power actually supplied to the radio station antenna).

(d) Possible interference problems.

(e) Railroad radio operator license requirements.

III. Information regarding patents and patent license policies pertaining to railroad radio.

It is emphasized that this initial hearing is for the purpose of developing information which may be of assistance and guidance to all parties in carrying out their further programs on this subject. The Commission does not contemplate any immediate determination of policy, but expects to keep the matter open for a period sufficient to enable all persons to complete all reasonable experimentation and to acquire all necessary data. Further hearings will be held from time to time as the need therefor may appear.

Dated June 30, 1944.

By the Commission.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on November 9, 1943.

COPYRIGHTS OF CERTAIN GERMAN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in Section 10 of said Executive Order.

Executed at Washington, D. C., on January 4, 1944.

COPYRIGHTS OF CERTAIN GERMAN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as other owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law,, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

[Vesting Order 500A–76]

COPYRIGHTS OF CERTAIN GERMAN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Executed at Washington, D. C., on February 15, 1944.

[SEAL] LEO T. CROWLEY,
Alien Property Custodian.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows: All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Italy, Japan, Bulgaria, Hungary, Rumania and/or any territory occupied by one or more of such six named countries, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used hercin shall have the meanings prescribed in section 10 of said Executive order.

OFFICE OF DEFENSE TRANSPORTATION.

[Supp. Order ODT 20A–148]

CERTAIN TAXICAB OPERATORS

COORDINATED OPERATIONS IN CALUMET, LAURIUM, HOUGHTON, AND HANCOCK, MICH., AREA

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 and 2 hereof (hereinafter called "operators") pursuant to General Order ODT 20A (8 F.R. 9231), a copy of which plan is attached hereto as Appendix 3,[1] and it appearing that the operators propose, by the plan, to coordinate their taxicab operations within the area of Calumet, Laurium, Houghton, and Hancock, Michigan, so as to assure maximum utilization of their facilities, services and equipment, and to conserve and providently utilize vital equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved, and the operators are directed to place the plan into operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

[1] Filed as part of the original document.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination with inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Highway Transport Department, Office of Defense Transportation, Green Bay, Wisconsin, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance with all of the provisions and conditions of this order, in the same manner and degree as the operators named herein.

7. Communications concerning this order should refer to "Supplementary Order ODT 20A–148" and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Green Bay, Wisconsin.

8. This order shall become effective July 18, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 11th day of July 1944.

[Supp. Order ODT 20A–149]

CERTAIN TAXICAB OPERATORS

COORDINATED OPERATIONS IN MEDFORD, OREG., AREA

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof (hereinafter called "operators") pursuant to General Order ODT 20A (8 F. R. 9231), a copy of which plan is attached hereto as Appendix 2,[1] and it appearing that the operators propose, by the plan, to coordinate their taxicab operations within the area of Medford, Oregon, so as to assure maximum utilization of their facilities, services and equipment, and to conserve and providently utilize vital equipment; materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the succesful prosecution of the war; *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved, and the operators are directed to place the plan into operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination with inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Highway Transport Department, Office of Defense Transportation, Medford, Oregon, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance with all of the provisions and conditions of this order, in the same manner and degree as the operators named herein.

7. Communications concerning this order should refer to "Supplementary Order ODT 20A–149" and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Medford, Oregon.

8. This order shall become effective July 18, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 11th day of July 1944.

[Supp. Order ODT 20A–150]

CERTAIN TAXICAB OPERATORS

COORDINATED OPERATIONS IN CLINTON, IND., AREA

Upon consideration of a plan for joint action filed with the Office of Defense Transportation by the persons named in Appendix 1 hereof (hereinafter called "operators") pursuant to General Order ODT 20A (8 F.R. 9231), a copy of which plan is attached hereto as Appendix 2,[1] and it appearing that the operators propose, by the plan, to coordinate their taxicab operations within the area of Clinton, Indiana, so as to assure maximum utilization of their facilities, services and equipment, and to conserve and providently utilize vital equipment, materials and supplies, and to provide for the prompt and continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war; *It is hereby ordered*, That:

1. The plan for joint action above referred to is hereby approved, and the operators are directed to place the plan into operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the operators shall forthwith file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order.

3. The provisions of this order shall not be construed or applied as to permit any operator named herein to alter his legal liability to any passenger. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing operating authority of any operator named herein, such operator forthwith shall apply to the appropriate regulatory body or bodies for the granting of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the operators possessing or obtaining the requisite operating authority.

4. All records of the operators pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination with inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

5. The plan for joint action hereby approved and all contractual arrangements made by the operators to effectuate the plan shall not continue in operation beyond the effective period of this order.

6. Any operator duly authorized or permitted to operate taxicabs within the area herein described, and having suitable equipment and facilities therefor, may make application in writing to the Highway Transport Department, Office of Defense Transportation, Terre Haute, Indiana, for authorization to participate in the plan. A copy of each such application shall be served upon each of the operators named in this order. Upon receiving authorization to participate in the plan, each such operator shall become subject to this order and shall thereupon be entitled and required to participate in the plan in accordance with all of the provisions and conditions of this order, in the same manner and degree as the operators named herein.

7. Communications concerning this order should refer to "Supplementary Order ODT 20A–150" and, unless otherwise directed, should be addressed to the Highway Transport Department, Office of Defense Transportation, Terre Haute, Indiana.

8. This order shall become effective July 18, 1944, and shall remain in full force and effect until the termination of the present war shall have been duly proclaimed, or until such earlier time as the Office of Defense Transportation by further order may designate.

Issued at Washington, D. C., this 11th day of July 1944.

J. M. JOHNSON,
Director,
Office of Defense Transportation.

COLWELL MINING CO., ET AL.

ESTABLISHMENT OF MAXIMUM PRICES

Order No. 849 under Maximum Price Regulation No. 120. Bituminous coal delivered from mine or preparation plant. Order establishing maximum prices and price classifications.

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120; *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton, for the indicated uses and shipments as set forth herein. All are in District No. 1. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the District in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classification of the respective size groups. The location of each mine is given by county and state. Each producer is subject to all provisions of Maximum Price Regulation No. 120.

Regional and District Office Orders.

[Region V Order G-1 Under Gen. Order 50]

MAXIMUM PRICES FOR MALT BEVERAGES IN DESIGNATED SOUTHERN STATES

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of Region V of the Office of Price Administration by General Order No. 50 issued by the Administrator of the Office of Price Administration, it is hereby ordered:

SECTION 1. *Purpose of order.* It is the purpose of this order to establish specific maximum prices for malt beverages as defined in this order, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment for "consumption on the premises."

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking establishments located in Region V of the Office of Price Administration, except those specifically exempted by section 5. Region V of the Office of Price Administration includes all of the territory located within the outermost geographical boundaries of the States of Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas.

SEC. 3. *Ceiling prices.* (a) On and after July 31, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in Appendix A. You may, of course, charge lower prices at any time.

(b) If you sell any beverages subject to this order which are not specifically listed in Appendix A hereof, and if you believe that the maximum price specified under the applicable heading "All other brands not listed in this Appendix A" is not appropriate to such beverage you may make application to the Regional Office, Office of Price Administration, Region V, Dallas, Texas, requesting that such beverage be specifically listed in Appendix A hereof. With or without such application the Regional Office of the Office of Price Administration, Region V, Dallas, Texas, may, at any time, add new or unlisted beverages, brands, types or sizes, together with maximum prices for same to the lists set forth in Appendix A hereof.

Malt beverages in container sizes for which prices are not specified in Appendix A shall remain subject to Maximum Price Regulation No. 259.

(c) You may not add any taxes to your ceiling prices set forth in Appendix A hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group, as set forth in Appendix A.

(d) You may not add any sum as a bottle deposit to the maximum prices established in Appendix A for the Group in which you belong.

SEC. 4. This order divides eating and drinking establishments into three groups. Different ceiling prices are established herein for each group, and the prices for each group are listed in Appendix A of this order.

(a) *In what group an establishment belongs.* In determining the group in which an establishment belongs its legal ceiling prices under Maximum Price Regulation 259 shall include all taxes in effect during the applicable base period except those which were stated and collected separately.

(1) An establishment, except a new seller, (See definition in paragraph (e) of this section 4) belongs in Group 1B if:

(i) During the base period of April 4-10, 1943, or after that period but before the effective date of this order, the establishment had legal ceiling prices under Maximum Price Regulation No. 259 for some or all of the brands of malt beverages listed in Table II of Appendix A of this order; and

(ii) The legal ceiling price for the greatest number of the brands listed in Table II of Appendix A of this order for which it had thus established a ceiling price was 19¢ or more per 12-ounce bottle.

(2) An establishment, except a new seller, (See definition in paragraph (e) of this section 4) belongs in Group 2B if:

(i) During the base period of April 4-10, 1943, or after that period but before the effective date of this order, the establishment had legal ceiling prices under Maximum Price Regulation No. 259 for some or all of the brands of malt beverages listed in Table II of Appendix A of this order; and

(ii) The legal ceiling price for the greatest number of the brands listed in Table II of Appendix A of this order for which it had thus established a ceiling price was less than 19¢ but not less than 15¢ per 12-ounce bottle.

(3) If, before the effective date of this order, an establishment did not sell any of the brands of beer listed in Table II of Appendix A of this order but did sell one or more of the brands of beer listed in Table I, then the establishment shall determine its group by following the same method set out in subparagraphs (1) and (2) above, except that it shall be in Group 1B if the price for the greatest number of the brands listed in Table I which it sold was 24¢ or more per 12-ounce bottle, and it shall be in Group 2B if the price for the greatest number of brands listed in Table I which it sold was less than 24¢ but not less than 20¢ per 12-ounce bottle.

(4) An establishment belongs in Group 3B if it does not qualify for either Group 1B or Group 2B.

(b) *How an establishment obtains permission to use Group 1B or Group 2B Prices.* (1) Each separate establishment, even though under the same ownership or management, must be separately and individually classified into its proper group (example, if there is a coffee shop, a main dining room, a special function room, and a snack bar in a hotel, owned and operated by the same person, each one of those four eating or drinking places is considered a separate establishment and must separately determine its proper group).

(2) If, before the issuance of this order, an eating or drinking establishment which desires to be classified in Group 1B or Group 2B has filed prices for items listed in either Table I or Table II of Appendix A of this order with its War Price and Rationing Board, in accordance with the provisions of General Order No. 50,[1] such establishment shall file a report with its War Price and Rationing Board setting forth the information required by Form G. O. 50 V 1-1.[2] This report shall be filed in duplicate.

(3) If, before the issuance of this order, an establishment which desires to be classified in Group 1B or Group 2B did not file prices for any items listed in Table I or Table II of Appendix A of this order, it shall file a report in duplicate with the appropriate District Office, giving all the information required by Form G. O. 50 V 1-1.[2]

(4) The report required by this section shall be considered to be filed only:

(i) When such report, properly signed, and in duplicate is received by the appropriate War Price and Rationing Board or appropriate District Office, as the case may be; or

(ii) When such report, properly signed, and in duplicate is mailed, registered mail, addressed to the appropriate War Price and Rationing Board or appropriate District Office, as the case may be.

(c) *When an establishment may use the prices set forth in this order.* (1) Group 3B prices may be used by any establishment subject to this order on and after July 31, 1944.

(2) An establishment may use Group 1B or Group 2B prices on and after July 31, 1944, if:

(i) It has received permission from the War Price and Rationing Board or District Office with which it filed Form G.O. 50 V-1-1, or (ii) the War Price and Rationing Board or District Office has not denied the permission and 20 days have elapsed since the establishment filed Form G.O. 50 V-1-1 with the appropriate War Price and Rationing Board or District Office.

(d) *Determination by War Price and Rationing Boards and District Offices of the proper group for an establishment.* (1) If an establishment has filed prices for malt beverages with its War Price and Rationing Board, in accordance with General Order No. 50,[1] and those prices show that the establishment is entitled to use the prices of Group 1B or Group 2B under this order, the War Price and Rationing Board, upon receipt of a report filed pursuant to paragraph (b) of this section 4, shall notify the establishment that it may use either Group 1B or Group 2B prices, as the case may be, and forward to such establishment a placard showing the Group to which the establishment belongs. This determination shall be subject to further action on the part of the District Director, as hereinafter provided.

(2) If an establishment has filed prices with the War Price and Rationing Board, as required by General Order No. 50,[1] showing its ceiling prices for malt beverages and those prices are lower than the prices which would entitle the establishment to use Group 2B prices, the War Price and Rationing Board shall notify the establishment that it may not use either Group 1B or Group 2B prices and shall forward the report filed by such establishment to the District Director. In such event, the establishment shall not sell malt beverages at prices higher than Group 3B prices until and unless an order is issued by the District Director granting the establishment permission to use higher prices.

(3) If an establishment which filed a report seeking to use Group 1B or Group 2B prices has been refused such permission by the appropriate War Price and Rationing Board because the prices for malt beverages previously filed by such establishment pursuant to General Order No. 50[1] are lower than the prices which would entitle such establishment to use the Group 1B or Group 2B prices, said prices for malt beverages filed pursuant to General Order No. 50[2] shall be deemed by the District Director to reflect the legal ceiling prices of the establishment. In response to an application for redetermination of the proper Group for an establishment, the District Director may permit such seller to use prices higher than Group 3B if the establishment presents to him clear and unmistakable evidence that it actually had legally established ceiling prices under Maximum Price Regulation No. 259 for malt beverages higher than those originally filed with the War Price and Rationing Board. In determining whether the establishment is entitled to use Group 1B or Group 2B prices, the District Director will take into consideration the type of establishment, prices which it charges for items not covered by this order, and the established ceiling prices of other sellers of the same type in that community whose operations are similar and who would normally be expected to have approximately the same prices. He will also consider the general level of prices of beer and other food items sold by eating or drinking establishments in that community, as compared with the reported prices of the establishment seeking to use Group 1B or Group 2B prices.

(4) If an establishment did not file prices for malt beverages with the War Price and Rationing Board pursuant to General Order No. 50[1], but did file prices for food items which it sold, and if its near-by competitors who operate the same type of establishment and who would normally be expected to have approximately the same prices, did file prices for malt beverages with the War Price and Rationing Board, the District Director, in passing upon the report of the establishment shall give due weight to the prices for malt beverages filed by such near-by competitors and to the prices for food items filed by the establishment and its near-by competitors.

(5) If the determination of the appropriate group of an establishment cannot be made on the basis of the criteria set forth in subparagraph (1), (2), (3), or (4) above, the District Director shall consider all pertinent evidence presented by the establishment in support of its allegation that it had legal ceiling prices under Maximum Price Regulation No. 259 sufficiently high to entitle it to use either Group 1B or Group 2B prices. He shall also consider any other evidence which he may obtain from the applicant or from other sources. He shall give consideration to the relationship between the requested prices and the prices of such establishment for food and beverage items not covered by this order, and to the legal ceiling prices for items covered by this order and for food and beverage items not covered by this order sold by other establishments in the community.

(6) The District Director may require an establishment which has been per-

[1] 8 F.R. 4808.

[2] A sample of Form G. O. 50 V 1-1 appears in Appendix B. Copies of Form G. O. 50 V 1-1 may be obtained from your War Price and Rationing Board or your District Office.

mitted to use the prices of Group 1B or Group 2B to use the prices of a proper lower price group if he finds, upon applying the criteria set forth in paragraph (1–5), inclusive, of this paragraph (d) of section 4, the establishment has failed to prove that its actual legal ceiling prices under Maximum Price Regulation No. 259 entitle it to use the prices of the higher price group.

Any establishment which has been placed in a particular group by action of its War Price and Rationing Board may make application to the District Director for redetermination of its appropriate group. Such application must be filed with the District Office within fifteen days after the letter from the War Price and Rationing Board was mailed to the establishment notifying it of its group classification. In considering such application the District Director shall apply the criteria set forth in this paragraph (d) of section 4.

(e) *New sellers.* (1) A "new seller" for the purposes of this order means:

(i) Any eating or drinking establishment which was not selling malt beverage before the effective date of this order, or

(ii) Any eating or drinking establishment located in any District of Region V of the Office of Price Administration listed below which did not establish a legal ceiling price for malt beverages under Maximum Price Regulation No. 259 before the date set forth below opposite its appropriate District Office city:

Districts:	*Dates*
Little Rock, Ark	Sept. 10, 1943
Shreveport, La	Aug. 9, 1943
Oklahoma City, Okla	July 21, 1943
Tulsa, Okla	July 16, 1943
Dallas, Tex	Oct. 10, 1943
Fort Worth, Tex	July 26, 1943
Houston, Tex	Sept. 17, 1943
Lubbock, Tex	Nov. 1, 1943
San Antonio, Tex	Sept. 15, 1943

(2) All new sellers are automatically in Group 3B. Any new seller may, either before or after commencing the sale of malt beverages, file an application with the appropriate District Office requesting that his establishment be classified into the same group to which the nearest similar eating or drinking establishment of the same type belongs. Until his application is acted upon and his establishment is so classified, it must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that Group in Appendix A hereof. All such applications for classification must contain the following information:

(i) Name and address of the establishment and of its owner or owners.

(ii) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(iii) The ceiling prices by brand name and container size of all beverages sold since it opened for business.

(iv) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(v) Any other information pertinent to such application, or which may be requested by the District Office.

If the District Director determines from the evidence before him that the applicant's establishment is of the same type as its near-by competitor and its type of operation is such that under normal conditions it would establish prices the same or approximately the same as its near-by competitor, and that its near-by competitor is classified in Group 1B or Group 2B, the District Director may classify the applicant in the proper higher priced group.

SEC. 5. *Exempt sales.* The following sales of malt beverages are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation:

(a) Sales by persons on board common carriers, including railroad dining cars, club bars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Prices Regulation 1 (Dining Car Regulation).

(b) Sales to patients by public and private hospitals.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales by the War Department or the Department of the Navy of the United States through such Departments' sales stores, including commissaries ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(e) Sales by "hotel room service"; *Provided*, The hotel prior to the effective date of this order customarily made "hotel room service" sales at legal ceiling prices different than those charged by other eating or drinking establishments operated in the hotel; and *Provided further*, That the hotel shall within 60 days after the effective date of this order notify its War Price and Rationing Board that it claims this exemption and the basis upon which such claim is made.

"Hotel room service" means the sale of malt beverage by a hotel to a person where the delivery of the malt beverage is made to the guest room of a person registered as a bona fide guest in the hotel.

(f) Sales at a function of any fraternal, religious, or charitable organization; provided such sales meet all of the following requirements:

(1) The function does not occur more than twice a year, and

(2) The function does not continue for more than three days at a time, and

(3) None of the proceeds accrue to the benefit of any private individual or to any corporation organized for profit, and all of the proceeds are used for charitable purposes, and

(4) The sales of malt beverage are not made by a concessionaire.

(g) Sales by bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the appropriate District Office, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club. The District Director is hereby authorized to approve or disapprove such applications.

SEC. 6. *Evasion.* If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute or increase any cover, minimum, bread and butter, service, corkage, entertainment, checkroom, parking or other special charges which you did not legally have in effect on the effective date of this order.

(b) Require as a condition of sale of a beverage the purchase of other items or meals, except, that during the hours 11:30 a. m. to 1:30 p. m. and the hours 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70 percent of its gross revenue from the sale of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell malt beverages for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 7. *Records and menus.* If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of General Order 50,[1] as well as any applicable Restaurant Maximum Price Regulation, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order No. 50,[1] are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals, except that prices need not be recorded which are the same

[1] See note, p. 7797.

as or less than prices previously recorded for the same items, beverages, or meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 8. *Posting of prices.* If you are an operator of an eating or drinking establishment you must post and keep posted, the ceiling prices of the beverages subject to this order sold by your establishment, either by:

(a) Supplying the customers menus or bills of fare showing the beverages subject to this order which are sold by the establishment; and showing the brand name, quantity and ceiling price of each kind and type of bottled malt beverage, and the quantity and ceiling price of all malt beverages sold on draught, or

(b) Posting a sign giving the same information as required on menus or bills of fare by paragraph (a) above. Such a sign must be posted in the establishment at a place where it can be easily read by the customers.

(c) No establishment which fails to comply with the posting provisions of this section 8 may sell any malt beverages covered by this order at higher than the prices prescribed for Group 3B during the time such establishment is not in compliance with this section 8.

SEC. 9. *Posting of group number.* If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card clearly visible to purchasers showing the group number of your establishment as classified under this order. You must post either the card which, upon request, your War Price and Rationing Board will furnish you for this purpose, or a reasonably accurate facsimile thereof. If at any time you fail to have the card posted in your establishment as required in this section 9, you may not during that time sell any malt beverage covered by this order at prices higher than those provided for Group 3B sellers.

SEC. 10. *Receipts and sales slips.* Regardless of whether receipts have customarily been used, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be given to the customer.

If you have customarily used receipts or sales slips you may not now discontinue the practice.

SEC. 11. *Operation of several establishments.* If you own or operate more than one establishment selling beverages subject to this order you must do everything required by this order for each establishment separately.

SEC. 12. *Transfers of business or stock in trade.* If the business, assets, or stock in trade of any establishment are hereafter sold or otherwise transferred, or have been sold or transferred subsequent to April 10, 1943, and the transferee carries on the business or continues to sell malt beverages covered by this Order in the same location, the maximum prices of the transferee shall be the same as those to which its transferor would have been subject if no such transfer had taken place, and its obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 13. *Changes in location.* If any establishment is hereafter moved to a new location, the establishment shall be considered a new seller under this order and shall determine its prices under the provisions of section 4, paragraph (e).

SEC. 14. *Enforcement.* If you violate any provision of this Order you are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* On or after July 31, 1944, this order supersedes the provisions of Maximum Price Regulation No. 259, and any orders issued by any District Director under General Order No. 50[1] insofar as such regulations or orders are applicable to sales at retail by eating or drinking establishments of beverages subject to this order.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt or cereal malt beverage produced either within or without the Continental United States, and including, without limitations, those beverages commonly called beer, lager beer, ale, porter, stout, near beer and combinations thereof.

(b) "Beer" unless the context requires otherwise means "malt beverage".

(c) "On draught" means dispensed by a seller at retail from any container of ⅛ barrel or larger size.

(d) "Eating or drinking establishment" shall include any place, establishment, or location, whether temporary or permanent, in which any prepared food item or meal, or any beverage is sold for "consumption on the premises." Sales of malt beverages by grocery stores, ice houses, and other eating or drinking establishments for consumption off the premises shall not be subject to this order but shall remain subject to the applicable Maximum Price Regulation.

(e) "Consumption on the premises" as applied to sales of malt beverages means any sale of malt beverage "on draught", or any sale of bottled malt beverage when the container is opened by the seller, or opened on or about the seller's premises.

(f) "Appropriate War Price and Rationing Board" or "its War Price and Rationing Board" means the War Price and Rationing Board of the Office of Price Administration having jurisdiction over the locality in which the establishment is situated.

(g) "Appropriate District Office" means the District Office of the Office of Price Administration having jurisdiction over the locality in which the establishment is situated.

(h) "District Director" means the District Director of the appropriate District Office.

(i) "Other definitions." Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, as amended, shall apply to the other terms used herein.

SEC. 18. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the Regional Administrator, Region V, Office of Price Administration, Dallas, Texas.

SEC. 19. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

SEC. 20. *Appendix A: Maximum prices for malt beverage items.* The prices set forth in the following five tables include all taxes and other charges and no additions may be made to such prices, except:

(1) Sellers who are required to pay the Federal Excise Tax, commonly called the "cabaret tax", may add the exact amount of such tax to the prices prescribed in these tables: *Provided*, Such tax is separately stated and collected.

(2) Any sales tax imposed by the law of the state, or sub-division thereof, in which the seller's establishment is located, which is required to be collected upon such sale and which is required to be or permitted to be passed on by the seller, may be collected in addition to the prices set forth in these tables: *Provided*, That such tax is separately stated and collected.

INSTRUCTIONS

1. Do not file this report unless you are eligible to use Group 1B or Group 2B prices.
2. File two copies with:
   (A) Your War Price and Rationing Board if you answer Question No. 1 (B) "Yes."
   (B) Your district office of the Office of Price Administration if you answer Question No. 1 (B) "No."
3. File a separate report for each establishment. Example 1: Three restaurants under the same ownership located in different buildings. File separate report on this form for each restaurant. Example 2: Main dining room, coffee shop, and bar under same ownership located in one building. File separate report on this form for each.
4. Answer all questions in the report. You may submit any additional information which you think will assist the Office of Price Administration in passing on your report.
5. "Name of establishment" means the name by which the eating or drinking establishment or particular room is known. Example: Doe's Cafe, The Blue Room, Roe's Stand No. 1, etc.
6. "Name of owner" means the official name of the corporation, partnership, or sole proprietor which owns the establishment. Examples: Doe, Incorporated," Smith and Jones," "Richard Roe."
7. In answering Question No. 5, read the list of beers appearing in Table 1, attached to this report form, pick out the ones you sold during the base period, or if you were not selling beer during the base period, the ones you now sell, and list them under Question No. 5, "Table 1 Beers," on the report. Place opposite each brand your legal ceiling price established under Maximum Price Regulation No. 259. Do the same thing for the brands of beer listed in Table II, attached to this report, and place them in Question No. 5 under "Table II Beers," together with your legal ceiling prices established under Maximum Price Regulation No. 259.

If you sold any of the brands of beer listed in Table II you are in Group 1B if your ceiling price under Maximum Price Regulation 259 for the greatest number of those brands which you sold was 19¢ or more; you are in Group 2B if your ceiling price for those brands was less than 19¢ but not less than 15¢; you are in Group 3B if your ceiling price for those brands was less than 15¢.

If you did not sell any of the brands of beer listed in Table II but did sell some listed in Table I, you are in Group 1B if your legal ceiling price for those brands was 24¢ or more; you are in Group 2B if your legal ceiling price for those brands was less than 24¢ but not less than 20¢; you are in Group 3B if your legal ceiling price for those brands was less than 20¢.

8. Space is provided in the report for you to describe the kind of establishment you operate and the kind of service offered. In answering this question, indicate what designation best describes the particular establishment for which you are reporting. For example: Cafe, bar, grill, night club, etc. Also describe briefly its location and facilities. If it is one of several establishments which you operate in the same building as, for example, a hotel, indicate how many different eating or drinking establishments you operate in that one building, what kind of establishments they are, and file a separate report for each of the establishments, indicating for which one this report is filed. If you furnish any entertainment describe briefly its nature. If you operate several establishments at different locations indicate this fact and file separate reports for each of the establishments.

9. If this report is signed by any person other than an officer of the corporation owning the establishment, or one of the partners if owned by a partnership, or the owner if a sole proprietorship, then the report must be accompanied by duly authenticated power of attorney authorizing the person signing the report to execute it on behalf of the owner.

WAR PRODUCTION BOARD.

ULTRA-LIFE LABORATORIES, INC.

CONSENT ORDER

Ultra-Life Laboratories, Inc., a corporation, with its main office in East St. Louis, Illinois, is engaged in producing mixed feeds and concentrates and is a Class 2 purchaser of molasses, as defined in Conservation Order M-54. During each of the quarters of 1943 and the first quarter of 1944, its receipts of molasses were in excess of the quarterly receipts permitted by the Order, the total excess receipts for the five quarters being 14,641 gallons. During each of the second and third quarters of 1943 and the first quarter of 1944, its consumption of molasses was in excess of its quota under the Order. The net excess usage for 1943 and the first quarter of 1944 was 11,836 gallons. Ultra-Life Laboratories admits the excess receipts and excess consumption of molasses and has consented to the issuance of this Order.

Wherefore, upon the agreement and consent of Ultra-Life Laboratories, Inc., the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Ultra-Life Laboratories, Inc., its successors or assigns, shall reduce its receipts of molasses during the second, third and fourth quarters of 1944, so that its total receipts of molasses for the period from April 1, 1944, to December 31, 1944, shall be 14,641 gallons less than it would otherwise be permitted to receive during such period under the provisions of Conservation Order M-54.

(b) Ultra-Life Laboratories, Inc., its successors or assigns, shall reduce its consumption of molasses during the second and third quarters of 1944, so that its total use of molasses for the period from April 1, 1944, to September 30, 1944, shall be 11,836 gallons less than its consumption quota for such period, under the provisions of Conservation Order M-54.

(c) Nothing contained in this order shall be deemed to relieve Ultra-Life Laboratories, Inc., its successors, or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 10, 1944, and shall expire on December 31, 1944.

Issued this 10th day of July 1944.
